General Index

TO THE

ANNALS *of* SURGERY

VOLUMES ONE TO FIFTY

NOTICE TO READER: All matter is indexed under the most important word of the title as published in the journal and also under the subject heading, and whenever a second important guide word is contained in the title, under this also. Cross references have been made wherever this was possible. In looking up any subject, related words should be kept in mind and consulted, *e. g.*—cranium, head, skull; bowel, intestines, enteron; stomach, gastric, pylorus; liver, hepatic; kidney, renal, nephro-; etc.

ABBE, ROBERT: Abdominal route of approaching rectal tumors, **xxxvi**, 222; acute cirrhosis of the liver in a child, **xxii**, 515; administration of ether, **xxviii**, 524; aneurism treated by introduction of catgut or of wire with electricity, **vi**, 307; aneurismal varix of the hand, **xix**, 364; angioma of entire upper extremity, **xxv**, 361; button anastomosis of colon for carcinoma, **xxi**, 71; cerebral abscess from otitis media, **xxiii**, 66; cholecystenterostomy by Murphy's button, **xxi**, 73; cocaine anæsthesia in laparotomy, **xix**, 90 cocainization of nares preliminary to general anæsthesia, **xxiii**, 64; coccygeal cyst, **xx**, 172; collapsing dermoid cyst, **xxi**, 593. colopexy, **xxvi**, 247; cure of tubercular peritonitis, **xxv**, 737; dangers of gastro-enterostomy button, **xxi**, 74; death from use of Murphy's button in treatment of gangrenous strangulated hernia, **xxii**, 515; detection of small renal calculi by the Röntgen rays, **xxx**, 178, 344; diagnosis of tuberculosis of the kidney, **xxix**, 260; disarticulation at hip, **xx**, 79; dislocations of the humerus complicated by fractures at the surgical neck, **xix**, 493; effects of intracerebral and subcutaneous administration of tetanic antitoxin in nine cases of tetanus, **xxxi**, 273, 366, 370; enterostomy in peritonitis, **xxix**, 117; epithelioma of lower lip, no relapse ten years after removal, **xxiii**, 186; epithelioma of tongue, **xx**, 71; excision of Gasserian ganglion **xxiii**, 60; extradural implantation of rubber tissue over foramina after Hartley's operation for facial neuralgia, **xxv**, 97; final results of X-ray treatment of carcinoma, **xlii**, 608; fixation of the round ligaments in Alexander's operation, **xxiv**, 699; free abdominal dermoids, **xxi**, 609; gall-stone retained with contracted gall-bladder, **xx**, 376; gastro-enterostomy, **xxv**, 746, gastrostomy, **xxvi**, 243, **xxix**, 113; hæmostasis in amputations, **xxi**, 174; hip-joint amputations, **xx**, 182; ileocolic button anastomosis of caput

coli for carcinoma, xxi, 72; incision for appendicitis, xxvi, 227; infection of omentum stump after operations for hernia, xvii, 321; inflammation of gall-bladder, xix, 246; intestinal obstruction following appendicitis, xix, 677; intradural resection of the roots of the brachial plexus, xxi, 53; intra-uterine-amputations, xix, 614; intussusception, xx, 419; laminectomy after spinal fractures, xxi, 49, 51; laparotomy for typhoid perforation of intestine, xxiii, 199; late condition of cases of œsophageal stricture treated by the string saw, xx, 733; late result of Humphrey's operation for ankylosis of the lower jaw, xxvi, 245; method of dealing with the round ligaments in Alexander's operation, xxv, 99; Murphy button in gastro-enterostomy, xxvi, 121; nephrectomy for hydronephrosis, xxv, 744; nephrectomy for sarcoma of kidney, xvii, 68, xxv, 745, xxx, 317; nephrectomy for sarcoma of kidney without recurrence after five years, xxvii, 364; nerve resection and suture for neuroma, xxi, 53; neurofibromata of the cervical sympathetic, xxvii, 487; œsophageal stricture, xxv, 359; operation for traumatic epilepsy, xxv, 737; operation for traumatic paraplegia, xx, 184; operations for trifacial neuralgia, xxi, 322; operative treatment of fractures of the patella, xxi, 607; operative treatment of hernia, xxi, 591; operative treatment of sarcoma of kidney, xix, 58, 92; parietal incision for operation on gall-bladder, xxiii, 286; perforating wound of liver, kidney, pleura, and diaphragm, recovery, xxix, 492; peritonitis in the male after gonorrhœa, xxi, 176; pin in appendix vermiformis, xxii, 274; plastic operations for closure of laryngeal fistula, v, 318; plastic operations on hands, xix, 611, xxiii, 185; preliminary tracheotomy in operations on the upper air-passages, xxv, 743; prognosis in melanotic sarcoma, xxx, 222; priority of Spence in method of hæmostasis in operations, xxi, 303; prognosis after removal of tumors of the suprarenal body, xxxi, 760; recurrence of sarcoma of kidney, xxv, 360; recurrent sarcoma of the back, and the toxin treatment, xxii, 263, 265; relations of surgeons to cases of appendicitis, xix, 679; remarks on appliances to replace a destroyed nose, xxvii, 773; remarks on gastrostomy, xxvii, 652; remarks on operations without general anæsthesia, xxvii, 667; removal of gall-stone from common duct, xxii, 516; resection of bladder for carcinoma, xxiii, 605; resection of bowel for relief of obstruction, xxv, 735; resection of caput coli for sarcoma, xxi, 592; resection in Charcot's joint-disease, xxi, 589; resection of popliteal aneurism, xxxi, 761; results of operations for appendicitis without division of muscular fibres, xxi, 311; results of operations for carcinoma, xx, 73; results of operations for sarcoma of kidney, xxiii, 288; results of operation for undescended testicle, xxx, 340; rupture of tendon of adductor longus, xxii, 517; saline infusion and diabetic coma, xxii, 268; sarcoma of kidney, xx, 176; sarcoma of kidney, cure, xxii, 269, 270; sarcoma of skull, treated surgically and by toxins, xxiii, 177; sarcoma of tongue, xx, 72; sarcoma of upper jaw, xxx, 227, xlii, 607; specimen of anthrax bacillus, xx, 82; specimen of cystine calculus, xxi, 609; specimen of melanosarcoma, xxi, 322;

stenosis of cholecystenterostomy aperture ten months after operation by Murphy's button, **xxi**, 485; stenosis of larynx relieved by the string method, **xxxiii**, 521; strangulated hernia, **xxv**, 368; strictures of appendix vermiformis, **xxvi**, 239; string saw in the treatment of œsophageal stricture, **xix**, 88; subdural implantation of rubber tissue following trephining, **xxii**, 385, 386; subdural interposition of rubber tissue in operations for tic douloureux, **xxxvii**, 1; suture of musculospiral nerve, **xxii**, 261; syphiloma of liver, **xxii**, 517; technic of intestinal anastomosis, **xvii**, 322; technic of operations for removal of sarcoma of kidney, **xx**, 376; technic of retrograde dilatation of stenosed œsophagus, **xxi**, 307; transperitoneal compression of common iliac artery during amputations, **xxviii**, 130; transplantation of ureter, **xx**, 183; treatment of fractures of elbow **xix**, 238; treatment of general septic peritonitis, **xxvi**, 236; treatment of injuries of the spinal cord, **xxx**, 335; treatment of knee-joint suppuration, **xxii**, 505; treatment of œsophageal stricture, **xlii**, 604; treatment of rupture of the intestine **xxxiv**, 294; treatment of spine and cord injuries, **xxi**, 484; trephining for epilepsy, **xix**, 617; trephining for epilepsy, with subdural implantation of rubber tissue, **xxv**, 95; trephining and heteroplasty for epilepsy, **xxvii**, 671; urinary obstruction from cyst of prostate, **xxxi**, 762; use of gauze tampons in intestinal surgery, **xxiii**, 293; use of gloves in operative surgery, **xxviii**, 136; use of oxygen gas with ether for anæsthesia, **xxiii**, 194.

Abbott, Francis Charles: Acute primary osteomyelitis of the vertebræ, **xxiii**, 510; neurofibromatosis of the tongue, **xxxvii**, 321.

Abdomen, contusion of, discussion at the 1897 French Congress of Surgery, **xxvii**, 384; resulting in necrosis of intestine, **xli**, 136; with rupture of intestine, **vi**, 432, **vii**, 385, **xxxvi**, 965, **xxxix**, 282; with rupture of the mesosigmoid, **xxxv**, 123.

Disappearing tumor of, **xxv**, 524.

Drainage of, after herniotomy, **xxxiii**, 508.

Foreign body in, laparotomy for, **ix**, 228.

Gunshot wounds of **i**, 184, **ii**, 420, 422, 507, **iii**, 89, 243, **vi**, 432, **vii**, 398, 399, **viii**, 147, 149, **xi**, 405, **xii**, 231, 276, 369, **xiv**, 289, **xvi**, 574, **xix**, 90, **xxi**, 79, **xxiii**, 423, 440, **xxiv**, 662, **xxv**, 364, **xxviii**, 487, **xxx**, 217, **xxxiii**, 311, 474, **xxxiv**, 424, 832, **xxxv**, 111, 638, **xxxix**, 100, **xl**, 255, **xli**, 637, **xlvii**, 1049, **xlix**, 143; of abdomen and thorax, recovery, **xxxvii**, 437; with bullet and wad of clothing in the peritoneal cavity, **xxxviii**, 447; involving the spleen, **xlv**, 773; involving spleen, stomach, vertebra and spinal cord, recovery, **xlii**, 83; with perforation of the stomach, **xxxix**, 1002; with perforation of stomach and intestine, **xxxviii**, 450.

Healing of, having foreign bodies within cavity of the, under the influence of chemical and microparasitic irritation, **xxiii**, 225.

Injuries and diseases of, **i**, 588.

Modified incisions for opening, **xxxiii**, 489.

Myxosarcomatous tumor of, **iv**, 448.

Paracentesis of, improved trocar for, **iv**, 387.

Prevesical abscesses of, **iii**, 254.

Traumatic injuries of parenchymatous organs of, **vi**, 432.

Ulcer, large phagedenic, of the abdomen, i, 605.
Wounds of, closure of one thousand cases, by a new method, without hernia, xxxviii, 664; contused, iii, 88; gunshot (see Gunshot Wounds of, above); by horn, with prolapse of bowel, viii, 146; ideal dressing for, xv, 496; overlapping aponeurosis in suture of, xliv, 159; penetrating, xi, 271, xii, 65, xxxix, 356, 469, xli, 51; principles of the treatment of, xxvi, 389; stab, iii, 88, 243, vii, 397, 398, viii, 137, 139, 140, 141, 143, 145, 147, ix, 65, 97, 98, 381, x, 143, 183, xix, 89, xxviii, 499, xxx, 235, xxxv, 400; submitted to abdominal section at Charity Hospital, New Orleans, xxxv, 15; suture of, xix, 730.
Reviews of Books: Injuries and Diseases of the Abdomen, by H. Morris, i, 588; Surgery of the Upper Abdomen, by Deaver, l, 952; Surgical Diseases of the Abdomen, by Douglas, xxxviii, 466.
Abdominal abscess, with acute diverticulitis of the sigmoid, xlvi, 148; removal of knitting-needle from, xlv, 639.
Aneurism, ii, 419.
Aorta, aneurism of, treated by wire in sac, v, 138.
Bandage, "the suspender," xlvi, 922.
Cavity, the, foreign bodies accidentally left in, xxxiv, 499, 678; insensibility of, xxxvi, 795; inspection of, in postmortems, xxix, 731; Lange's cross incision above pubis, xxxiv, 431; multiple echinococci in, xvii, 241; pedunculated myxoma of, xxiii, 295; pin in, xxxvii, 949; tampon drainage of, xliv, 774.
Colics, surgical treatment of long-lasting, xii, 67.
Contusions with rupture of intestine, xxxv, 331; associated with visceral injuries, xxxvii, 197; diagnosis and treatment of, xxxvii, 107; diagnosis of intestinal injury following, xxxvii, 525, 623.
Crises caused by Meckel's diverticulum, xl, 742.
Cystic tumor in the male, cases of, xxv, 703.
Delivery, choice of methods in, ii, 517.
Dermoids, free, xxi, 609.
Drainage determined by bacteriological examinations, xx, 424.
Hernia, median, xiv, 515; radical operation for, xliv, 776.
Incisions, some considerations on, xxvii, 1.
Injuries, cases of, iii, 88; followed by parotitis, xl, 886; with intra-abdominal hemorrhage, xxi, 326; laparotomy for, xii, 66.
Lesions, coincident, xlvii, 312.
Muscles, extensive laceration of the, xxxix, 979; severe laceration of the, xl, 291; tuberculosis of, xxxii, 734.
Operations, followed by pulmonary complications, xl, 149; question of drainage after, xxxviii, 139.
Organs, operation for echinococci of, iv, 76.
Sanguineous cyst, ii, 507.
Section (Cæsarean), iii, 178; for acute intestinal obstruction, xii, 231; after-treatment in cases of, xxv, 112; in Albany, vii, 336; fifty cases of, ii, 171; immediately followed by operation for intestinal obstruction, xvi, 273; mortality of, x, 201; observations in, i, 182; peritoneal adhesions after, xxxvi, 961; for peritonitis, xiii, 148, 212; for recurrent pelvic peritonitis, xvi, 481; secretion of urine after, xxi, 184.
Surgery, various contributions to, i, 362; drainage in pelvic, xii, 425; the gauze-bearing tape in, lviii, 778; parietal incision in, xxi, 365.

Tumor, diagnosis of, **xvii**, 337; exploratory incisions in, **ii**, 418; resulting from chronic appendicitis, **xxviii**, 264; retroperitoneal, spontaneous disappearance of, after abdominal section, **xxiv**, 757.
Viscera, cases of postoperative prolapse of, **xlii**, 951; wounds of, complicating wounds of the chest, **xl**, 675.
Wall, adenoma of sebaceous glands of the, case of, **xl**, 486; abscess, **xiii**, 213; abscess of, communicating with bladder containing calculus, **xliii**, 766; aponeuroses of, approximation of, for the prevention and cure of hernia, **xxxix**, 245; aponeuroses of, overlapping in closure of wounds of, **xliii**, 349; closure of wounds of, **xxxix**, 320; dermoid cyst in, **xxiii**, 296; desmoid fibroma of, **xxx**, 587; excision of half, with peritoneum, **ii**, 76; fibromata of, **iv**, 360; filigree for the repair of large defects in, **xxxviii**, 47; gangrene of fat of, following operations for umbilical hernia, **xxxix**, 606; laceration of, **xl**, 414: lipomatous retrenchment of, **xxxii**, 663; neoplasms of, **xiii**, 220; **xx**, 372; **xxiii**, 200; **xxix**, 363; **xxx**, 587; and pelvis, sarcoma of, **xlv**, 769; pendulous, fat, resection of the, **xxxiii**, 299; relations of the peritoneum to, with special reference to supra-pubic cystotomy, **vii**, 22; rupture of, with fracture of the pelvis, **xlix**, 433; sarcoma of, **xxix**, 363; suture of, **xxxv**, 297; suture, results in, **xl**, 373, 439; wound of, **xii**, 277.
Reviews of Books: Abdominal Section for the Treatment of Intraperitoneal Injury, by MacCormac, **vi**, 130; Abdominal Operations, by Moynihan, **xliii**, 475; Abdominal Surgery in War, by J. Greig Smith, **xliv**, 750; Abdominal Tuberculosis, by Maylard, **xlix**, 582; Diagnosis and Surgical Treatment of Abdominal Tumor, by Spencer Wells, **ii**, 274; Text-book of Abdominal Surgery, by Keith, **xxi**, 745; by J. Greig Smith, **vi**, 518, **xviii**, 772.
Abnormalities of anus and rectum, **vii**, 55; associated with unilateral hypertrophy of the gums, **iii**, 1.
Abraham, P. S.: The contagiousness of leprosy, **iv**, 324; excision of the larynx, **iv**, 397; suture of nerves, **vi**, 339.
Abscess, alveolar, with thrombosis of cavernous sinus, **iv**, 170.
Aseptic treatment of, **xxii**, 531.
Aneurism, or, **xvi**, 129.
Brain, **ix**, 28, 340; after compound fracture of skull drainage and recovery, **v**, 143; diagnosis and operation for, **viii**, 208, 268, 277, 283; traumatic subdural, **viii**, 241.
Cerebellar, successfully treated by operation **xvi**, 387.
Cerebral, and cerebellar, trephining for, **xi**, 352, 355, 356, 357; chronic, **vi**, 480; subsequent to orbital periostitis, **iv**, 334.
Correction of ankylosis by manual force, acute, after, **viii**, 319.
Formation, multiple, **xlviii**, 149.
Gall-stones eliminated through a right iliac, **ix**, 227.
Gas, **xv**, 399.
Hemorrhage from larger vessels into, **viii**, 120.
Hip disease, of, **i**, 494.
Intra-abdominal—acute diverticulitis of sigmoid, **xlvi**, 148.
Intracranial, of otic origin, **xviii**, 72.
Ischiorectal, pointing in iliac fossa, **xxxv**, 657.
Jaw, of, containing amœba, **xvi**, 580.
Perineal, incision of deep parietal, **viii**, 56.
Perinephritic, **vi**, 35.
Liver, of, **ii**, 77, **iv**, 341, **v**, 212, 236, 346, **xvi**, 570; multiple, **l**, 810; sudden death from introduction of aspirator needle into, **v**, 346.
Lumbar, treatment of, **iv**, 546.

Lungs, of, following pleuro-pneumonia, viii, 311; operative treatment of acute, xlvi, 405, 472.
Mediastinal, ix, 299.
Medulla oblongata, of the, xvi, 165.
Nephrectomy for, xxiii, 282.
Pancreas, of, v, 337.
Paranephritic, ii, 338.
Pelvic, drainage of, iv, 351; laparotomy, iii, 532; in the male, iv, 245; simulating soft fibroid tumor of uterus, iv, 455, subperitoneal, vii, 461; treatment of in women, iii, 444.
Perityphlitic, iii, 424; implicating right hip-joint, ix, 384, iv, 242, 243; laparotomy for, vi, 78, 508; treatment of, x, 382.
Peri-uterine, laparotomy for, i, 393.
Postcæcal, of appendicular origin, xxviii, 665.
Postpharyngeal, vi, 70.
Prevesical, iii, 254.
Prostatic, followed by stricture of the rectum, viii, 221.
Pulmonary, surgical treatment of, vii, 456.
Retroperitoneal, xxxv, 107.
Retrosternal, vii, 455.
Spinal, treatment of, xvii, 502.
Subperitoneal, vii, 461.
Subphrenic, xxxiv, 703, xlvii, 628.
Tongue, of, v, 64.
Tubercular, treated by injections of ethereal solutions of iodoform, ii, 493, xii, 271; treatment of, xi, 152, xviii, 108, xxii, 104, 122, xxix, 393; vertebral, when should they be opened? xi, 70.
Urinary, i, 373, ii, 85.
Absorbable plates for effecting visceral approximation, results obtained by the use of, xx, 297; in intestinal anastomosis, xxi, 166.
Academy of Medicine in Ireland, transactions of, i, 590, viii, 237.
Accidents in hernia operations, xlix, 264.
Acetabulum, forming a new, in certain resections of the hip, viii, 161; tuberculosis of, operative dislocation of head of femur in cases of, xxxvi, 579.
Acetonæmia, xli, 161; after operation for appendicitis, xxxvi, 481.
Acetonuria, as affected by gauze-ether, xlvi, 460.
Achilles tendon, researches regarding the healing of, xvi, 269.
Acid, chromic, local lesions caused by alkaline salts of, i, 303; its significance in surgical conditions, xli, 161.
Acoustic nerve, result one year after craniotomy for sarcoma of, xlix, 552; surgery of neurofibroma of, xl, 293.
Acromegalia, ix, 157, 355, xvii, 700.
Acromegaly, partial hypophysectomy for, l, 1002.
Acromial end of clavicle, backward dislocation of, v, 410; excision of, iv, 255, 530.
Acromioclavicular dislocation, suture for, xxxv, 655; treatment of, xxvii, 40.
Actinomycosis, v, 50, xiv, 225, xxv, 155, xxxvii, 463, xli, 627, 641; bacteriology of, iv, 217; of the brain, trephining for, xiii, 134; of cæcum, xxx, 91; of the chest, xiii, 211; from the entrance of foreign bodies, xxiii, 106, hæmatogenous osteomyelitis from, xliv, 739; of the intestine, xvii, 230; of lung, v, 48, 49, xiii, 211, xvii, 229; man, in v, 342, xii, 295, 392, xxii, 387, xxiv, 371, xxvi, 626; xxx, 417, 605, 722, xxxii, 668, xxxix, 459, xli, 792; in America, xxxi, 235; infection of, xxxviii, 292; of stomach and intestines, xxiii, 121.
Miescher's or Rainey's corpuscles in, xi, 96.
Prognosis of, xvi, 259.
Report of sixty cases of, xxxiv, 336.
Studies in, x, 71.
Thigh, of, viii, 468.

Treatment of, xxxvii, 465; by potassium iodide, xxxiii, 353; value of silver nitrate in, xxxvii, 468; of the uterus, xxiii, 342.
Acupuncture in delayed union of fractures, xix, 756.
Acute infectious myelitis of the upper end of the femur, xv, 490.
ADAMS, CHARLES: Gonorrhœal pyelitis eventuating in nephrectomy, xliii, 787; hydronephrosis, xliii, 784; hydronephrosis and appendicitis, xliii, 783; nephrolithotomy, cystonephrosis, xliii, 785; popliteal aneurism ruptured by manipulation, xliii, 782.
Adductor longus tendon, rupture of, xxii, 517.
Adenoid growths in the nasopharynx, iii, 342, v, 69; treatment of, vi, 502.
Adenolipoma of neck, symmetrical, xlix, 258.
Adenolipomatose symetrique, xxxvii, 932.
Adenoma of the cæcum, xlv, 758; cervical, extirpation of, x, 246; of kidney, nephrectomy for, vi, 37; of rectum, abdominal nephrectomy for, v, 160; of thyroid body, papillary cylindrocellular, iv, 274.
Adhesions, pericolonic peritoneal, abdominal section for, xlv, 624, 626.
Adhesive plaster, double faced, xlvii, 475.
Adolescence, flexure of neck of femur in, ix, 271.
Adrenal tumors, xxxix, 299; bone metastases of, xliv, 851.
Adrenalin, use of, as local hæmostatic in urethral and bladder operations, xxxvi, 799.
Adynamic and dynamic ileus, xliv, 141.
Aerogenes capsulatus bacillus, as a cause of emphysematous gangrene, xix, 187.
Africa, Surgical Experiences in, by George H. Makins (review of), xxxvi, 807.
Agar-agar injections to produce connective tissue, xxxiv, 273.
Age of the Domestic Animals, by Huidekoper (review of), xvi, 397.
Aged persons, injuries from falls on the buttocks in, xxxvii, 388; laparotomy in, xvii, 630; operative procedures upon, xviii, 426.
AGNEW, D. HAYS: Adam's Life of, review of, xvii, 635.
Aid to the Injured (reviews of books), Handbook of First Aid to the Injured and Sick, by Warwick and Tunstall, xxxvi, 317; Manual of Instruction in Aid to the Injured, by Doty, xxviii, 154.
Air-distention of the bladder in suprapubic cystotomy, xvii, 667, xxv, 141, 180; in operations upon the biliary passages, xxix, 137.
Embolism, i, 517, ii, 22, 129, 198.
Insufflation, intra-arterial, ii, 28.
Passage and cut-throat wounds closed by immediate suture, xvii, 490.
Passages, foreign bodies in the, xiii, 369; xxxvi, 847; xxxix, 1019.
Review of Book: Injuries and Diseases of Air-passages, by J. L. Cohen, i, 585.
Airol as a substitute for iodoform, xxv, 371.
ALBERT, FREDERICK: Primary sarcoma of the spleen, xl, 80.
Alcohol injections, aneurisma racemosum cured by subcutaneous, iv, 67; facial neuralgia treated by, xlvii, 783.
ALDRICH CHARLES J.: Traumatic rupture of the mesenteric arteries, xxxv, 342.
ALESSANDRI, ROBERTO: Divulsion in œsophageal stricture, xl, 870; surgical intervention in tuberculosis of the meninges and in the brain, xliii, 161.
ALEXANDER, E. G.: Case of stasis cyanosis in epilepsy, simulating traumatic asphyxia, xlix, 762, 877.
ALEXANDER, SAMUEL: Infarcts of kidney, xlix, 542; intraperitoneal rupture of the bladder

treated by laparotomy, **xxxiv**, 209; nephrectomy for tuberculosis, **xlvii**, 453; observations on the pathology and operative treatment of prostatic abscess, **xlix**, 533, 563; papilloma of the bladder, **xxxiii**, 641; perineal prostatectomy, **xxxvi**, 267; prostatic and periprostatic abscess, **xlii**, 883; rupture of pelvic abscess into bladder, **xxxv**, 106; technic of nephrectomy, **xlvii**, 612; treatment of prostatic abscess, **xli**, 135; treatment of undescended testis, **xxxiv**, 296; tumors of bladder, **xlix**, 553.

ALEXANDER, W.: Cure of some uterine displacements by shortening the round ligaments, **i**, 426.

Alexander's operation, **iv**, 42, 365; fixation of the round ligaments in, **xxiv**, 699; technic of, **xxv**, 99.

Alimentary canal, nomenclature of operations upon, **xxvi**, 289; passage of a large piece of glass through the, **xviii**, 579.

ALLEN, ALFRED R.: Luxation of spinal vertebræ, **xlvii**, 142, 144.

ALLEN, DUDLEY P.: Infections of the knee-joint, **xliv**, 132; pneumococcus arthritis, primary, in the knee-joint, **xxxiv**, 527; removal of a thyroid sarcoma under cocaine anæsthesia, **xxv**, 720; sterilized water for operating-rooms, **xxx**, 501; surgery of the vascular system, **xlvi**, 482; treatment of perforative peritonitis, **xlvii**, 1047.

ALLEN, F. O.: Ruptured ectopic pregnancy during typhoid fever, **xlvi**, 321.

ALLEN, HARRISON: The structure of the tonsil, **xxvi**, 133.

ALLEN, H. R.: Hare-Lip traction absorber, **xlix**, 591.

ALLIS, OSCAR H.: Aneurism of the aorta, **xxii**, 392; carbolic acid in surgery, use of strong, **xix**, 695; deportment of needles penetrating the tissues, **xxv**, 614; dislocations of the semilunar cartilages of the knee-joint, **xxviii**, 535; drainage through the rectum of pelvic abscesses due to appendicitis, **xxiii**, 272, 298; drainage in the treatment of injuries and diseases of the cranium, **x**, 40; employment of the needle-holder whenever in surgical operations suturing is required, **xxix**, 162, 263; examination of head injuries, **xxxiv**, 187; exploratory laparotomy in high-lying carcinoma of rectum, **xxiii**, 477; false aneurism of the femoral artery, **xlvii**, 465; fractures of the coronoid process of the ulna, **xxiii**, 448; gangrene of the rectum, **xxviii**, 394; gastro-enterostomy with the Murphy button, **xxiii**, 476; hip-joint dislocation with fracture of the neck of the femur, **xxiii**, 210; infection of wound after extirpation of breast, **xxxvi**, 454; injuries to nerves following fractures of the humerus, **xxiii**, 200; intestinal anastomosis, **xxxv**, 279, 352; laparotomy for gunshot wounds of the intestines, **xxiii**, 207; nailing a recent intracapsular fracture of the femur, **xlvii**, 469; new needle-holder, **xxv**, 750; non-absorbable suture and ligature, **xlvii**, 758; obturator dislocation, **xv**, 425; open measures in the treatment of fractures, **xxv**, 698, 760; osteotomy for hip ankylosis, **xlix**, 875; plastic circumcision of constricted prepuce, **xlv**, 610; prognosis in cases of strangulated umbilical hernia, **xx**, 189; results of falls on the buttocks in the aged, **xxxvii**, 388; rupture of the lung without costal injury, **xlvii**, 474; subcutaneous rupture of thigh muscles, **xxxvi**, 450; surgical treatment of general septic peritonitis, **xxi**, 179; traction apparatus for reduction of dislocation of hip, **xxxviii**, 890; treatment of fractures,

xxxix, 817; of fractures of the femur, xlvii, 1037; of gall-stones impacted in the common duct, xxxvii, 115.
Altitudes, high, comparison of results in operative surgery at, and at the sea-level, xxvi, 297; effect of, in aggravating surgical shock, xxv, 430.
Alveolar abscess with thrombosis of cavernous sinus, iv, 170.
Alveolar border of inferior maxilla, resection of, for neuralgia, ii, 260.
Ambulant treatment of fractures of the lower extremity, xxi, 187, xxiii, 240, 462, xxiv, 69, xxvii, 611; in children, xxiv, 481; of ulcers of the leg, xliv, 792; of varicose veins of the leg, xliv, 792.
Amezaga, Gaulterio de: Arthroplasty for tuberculosis of the elbow, xlvi, 617.
Amidon, R. W.: Statistical contribution to cerebral surgery, i, 197.
Amœbæ in abscess of jaw, xvi, 580.
Amœbic abscess, of liver, xl, 448.
Dysentery, surgical treatment of, xxxiii, 574.
Amputation at ankle-joint, new osteoplastic method of, xxxix, 790; Tauber's, v, 52.
Arm in an hæmophiliac, of, xvii, 499; osteoplastic, xxxiii, 636, 709; and scapula by Berger's method, viii, 434.
Breast, of, v, 512.
Childhood, in, conical stump after, xxxi, 486.
Compound, in fractures, v, 76.
Digits, of, under cocaine, v, 417; reunion after, v, 263.
Entire upper extremity, of the, xxvi, 733; viii, 434. (See also Interscapulothoracic Amputations.)
Erlangen, at, ii, 257.
Extremities, of, Neudörfer's method, xx, 355.
Foot, of, new osteoplastic, viii, 441; xii, 273.
Forearm, of, after inoculation-tuberculosis, iv, 424; and thigh, v, 86.
Gangrene, diabetic in, revision of teachings regarding, vi, 139; senile gangrene in, ii, 331.
Gritti-Stokes, X-ray findings in a case of, xliii, 751.
Hip-joint, at, iv, 185, vi, 46; contributions to study of, xvii, 1; digital compression of common iliac vessels in, xxii, 404; reinjection of blood during, iii, 512; for sarcoma of femur, xxix, 110.
Interilio-abdominal, l, 925.
Interscapulothoracic, of upper extremity, iv, 530, v, 346, viii, 434, xi, 88, xxvi, 733, xxix, 384, xxxi, 633, 686, xxxiv, 320, xli, 267, xlvii, 785.
Joint-disease, for, in coexisting lung tuberculosis, v, 101.
Leg, of, vi, 46, 66; osteoplastic xli, 452; results of Von Brun's subperiosteal method of, xxix, 781; through leg in an octogenarian, iii, 490.
Major, avoidance of shock in, by cocainization of large trunks, xxxvi, 321; results in, xxi, 340, 123; statistics of six hundred, xxii, 358.
Penis, of, xii, 286.
Shoulder-joint, of, control of hemorrhage in, xviii, 321.
Simultaneous quadruple, viii, 220, viii, 153, 154; triple, ix, 145, x, 464.
Stumps, formation of, after the method of Bier, xxx, 774; of leg, improvement of, xviii, 584; of lower limbs best adapted for artificial limbs, xv, 314.
Technic of, xxi, 215.
Thigh, of the, under cocaine, iii, 425; osteoplastic, vii, 294; osteoplastic intercondylar, xxxi, 131.
Uterus, of, high, iii, 532; inverted portion, by the ligature, iv, 372; septic, for cure of puerperal disease, v, 453.
Review of Book: Amputations, by Watson, ii, 275.
Amygdalotomy, hemorrhage after, vi, 148.

Anæmia, artificial, and asepsis, **xviii**, 456; sequestration, producing anæsthesia for excision of tongue, **xlvii**, 124; splenectomy for splenic, **l**, 484.
Anæsthesia, **xvi**, 162, 250; administration of, **ix**, 317; contagion through the use of ether inhalers, **vi**, 137; death during, from choking with vomit, **xxvii**, 372; death under partial ether, **v**, 346; by ether, clinical notes on, **xx**, 676; by gauze-ether drop method, **xlvi**, 460; general, modified by a new method, **xvi**, 254; general, by Schleich's mixtures of petroleum and ether, **xxviii**, 266; improved methods of, **xxviii**, 274; intraventrous local, **l**, 782.
Local, **xxxviii**, 825; adequacy of, for inguinal hernia operations, **xlv**, 871; infiltration, **xvi**, 163; in operations for the radical cure of hernia, **xxxi**, 1; in operations for strangulated hernia, **xxxiv**, 178; local solutions for, **xxix**, 777.
Nature's means of securing, **xxxvi**, 474.
Nitrous oxide and ether, by, **xxx**, 709.
Operations without general, **xxvii**, 581, 667.
Oxygen and ether, by, **xxiii**, 194, **xxviii**, 272.
Preceded by cocainization of the nares, **xxiii**, 1, 62, 233.
Rectal, **xlvi**, 589.
Scopolamine and morphine, by, **xxxvii**, 149, **xlii**, 185, 193, 640.
Sequestration anæmia, after, **xlvii**, 124.
Spinal, present status of, **xlii**, 941.
Statistics of, **xx**, 594.
Vomiting after, relieved by compression of the phrenic nerve, **xvii**, 611.
Reviews of Books: Anæsthesia, by Hewitt, **xix**, 383; Anæsthesia for the Extraction of Teeth, by Vian, **vii**, 80; Local Anæsthesia and Cocaine Analgesia, by Manley, **xxi**, 251; Manual of Anæsthesia, by Turnbull, **xxviii**, 296; Manual of Surgical Anæsthesia, by Terrier, **xx**, 128.
Anæsthetic, cocaine as an, **iii**, 51, 425; effects of cocaine, prolongation of, **ii**, 409; properties of dimethyl acetale, **i**, 571.
Anæsthetics, **vi**, 327; in children, comparative value of, **xxxix**, 814; their consequences in the days immediately following operation, **xix**, 720; deaths from, in 1884, **ii**, 409; in 1885, **iii**, 512; effect of, on blood-pressure, **xxxvi**, 302; effect of, on the kidneys, **xix**, 630; influence of, on effects of sensory irritation, **xxxii**, 377; influence of nephritis on the safety of, **vi**, 141, 142; in operations for typhoid perforations, **xxxvii**, 287; in oral and nasal surgery, **xiv**, 412; practical points in administration of, **vi**, 214; regulable dropping device for administration of, **xli**, 120; statistics of, **xviii**, 457, **xxiii**, 232.
Review of Book: Anæsthetics, by Buxton, **xlviii**, 960.
Anal Surgery, by Andrews (review of), **xi**, 155.
Analgesic, theine, a new, **iii**, 158.
Anaphrodisiac effect of cocaine, **x**, 445.
Anastomosis, arteriovenous, **xlvi**, 333; external and internal popliteal nerves for infantile paralysis, **xliv**, 453; of hollow viscera, a new instrument to facilitate, **xxxiii**, 179, 207.
Intestinal, **xv**, 391; Abbe's method of, **x**, 283; end to end, **xliii**, 92; forceps for, **xxix**, 297; by invagination, **xlix**, 690; Jaboulay's button for, **xl**, 282, **xlii**, 744; lateral, with later perforation of blind end of gut, **xlix**, 562; for malignant stenosis, **xix**, 172; for malignant stenoses, final results of, **xviii**, 669; by a method preventing subsequent contraction of the orifices, **xviii**, 313; a practical substitute for decalcified bone

plates in, xvi, 274; technic of, xvii, 322.
Neoplasm, for, xviii, 664.
Peritoneal, for cirrhotic ascites, xxxi, 489.
Secondary to enterectomy, xviii, 322.
Anatomical model, a well proportioned, xxxviii, 120.
Neck of humerus, fractures through, xlv, 945, 968.
Anatomy (reviews of books on): Anatomy in its Relation to Art, by McClelland, xxxv, 434; Anatomy and Surgery of the Frontal Sinus, xxix, 73, 175; Anatomy of Upper Extremity, by Schüller, iv, 284, 291; Applied Anatomy, by Woosley, xxxviii, 470; Atlas of Human Anatomy, by Bock, vii, 318; by Sobotta and McMurrick, xlvi, 158, 165, xlviii, 318; Atlas of Surgical Anatomy, by Hencke, i, 189; Clinical Anatomy, by Eisendrath, xxxviii, 936; Clinical Applied Anatomy, by Box and Eccles, xliv, 477; Essentials of Anatomy, by Nancrede, ix, 478; Essentials of Pathology and Morbid Anatomy, by Semple, x, 479; Handbook of Surgical Anatomy, by Wright and Preston, xli, 800; Human Anatomy, by Piersol, xlvii, 149; Introduction to Pathology and Morbid Anatomy, by Green, xxiii, 253; Laboratory Manual of Human Anatomy, by Barker, xlii, 156; Lectures on Surgical Anatomy, by Juvard, xxix, 786; Manual of Anatomy, by Haynes, xxiv, 777; Manuscript Lectures on Anatomy, by Harvey, vi, 527; Microscopical Anatomy, by Lee and Hennequy, vii, 77; Pathological Anatomy, by Birch-Hirschfeld, vii, 78; *Idem*, by Ziegler, vii, 78; Pathological Anatomy and Histology, by Lazarus-Barlow, xxxviii, 158; Pocket Text-book of Anatomy, by Rockwell, xxxvii, 796; Practical Anatomy, by Cunningham, xxxviii, 939; *Idem*, by Heath, xxxviii, 461; Regional Anatomy, by McClellan, xv, 164, xvi, 494; Studies in Surgical Anatomy of the Small Intestines, xlii, 543; Surgical Anatomy of the Kidneys, ii, 286; Synopsis of Human Anatomy, by Young, x, 480; System of Human Anatomy, by Allen, ii, 356; Text-book of Anatomy, by Cunningham, xxxvii, 633; *Idem*, by Gray, viii, 79, xxiv, 176, xxxv, 551; Text-book of Clinical Anatomy, by Eisendrath, xxxviii, 936; Text-book of Human Anatomy, by Gerrish, xxx, 244; Text-book of Surgical Anatomy, by William Francis Campbell, xlix, 583; Topographical Anatomy, by Merkel, vii, 319; Treatise on Human Anatomy, by Leidy, x, 317; Treatise on Surgical Anatomy, by Deaver, xxxi, 137, xxxii, 865, xxxviii, 459; Vade Mecum of Surgical Anatomy, by Roser, v, 461.
ANDREWS, EDWARD WYLLYS: Abdominal wall suture, xl, 440; actinomycosis, xli, 629; acute dilatation of the stomach, xliii, 470; Bottini's operation for prostatic hypertrophy, xxxv, 836; the bottle operation for hydrocele, xlvi, 915, xlvii, 480; carcinoma of head of pancreas, xliii, 473; carcinoma of the thyroid gland, xliv, 630; decapsulation for chronic nephritis, xxxix, 617; destroying the urogenital diaphragm as a means of relieving prostatic ischuria, xlii, 874; dislocation of metatarsophalangeal joint, xliv, 631; drainage in gall-bladder surgery, xli, 318; drowning of patients in fecal vomit during operations, xxxvii, 862; fractures of the spine, xxxviii, 310; friability of intestinal walls as an obstacle to enterorrhaphy, xli, 306; ileus, xxxiii, 498; intussusception, xliii, 473; late results of separation of lower

femoral epiphysis, **xxxv**, 663; law of accelerating risk in cancer, **xlii**, 903; lymphatic affections secondary to appendicitis, **xlii**, 629; omental grafts, **xlvii**, 630; prostatectomy, **xli**, 313; recovery after operation for perforating typhoid ulcer, **xxxvi**, 623; recurrences after gall-stone operations, **xxxvi**, 157; sarcoma and myeloma of stomach, **xliv**, 638; surgical treatment of hemorrhage from gastric ulcer, **xxx**, 393; technic of intestinal anastomosis, **xxxiv**, 849; technic of operations on the head and neck, **xliv**, 465; tibiofibular and astragalofibular osteoplasty to prevent leg-shortening after osteomyelitis in adolescents, **xliv**, 471; tuberculosis herniosa and appendicitis tuberculosa, **xxxiv**, 787; the use of the McGraw elastic ligature in gastro-enterostomy, **xxxix**, 145.

Aneurism or **aneurisms**, abdominal, **ii**, 419.
Abdominal aorta, of, **vii**, 214; simulating a solid tumor, **xvii**, 314; abdominal aorta, of, treated by wire in sac, **v**, 138.
Abscess, or, **xvi**, 129.
Aorta, of, arch of, and anonyma, **v**, 57; **vii**, 214; **ix**, 326; descending, of, successfully treated by Bacelli's method, **xvi**, 164; electropuncture for, **xii**, 366; and subclavian, **xxxii**, 452; thoracic, treatment of, by introduction of wire and electricity, **xxxiv**, 143.
Anastomosis, or, on head, **ii**, 415.
Arteriovenous, **iii**, 517; of the axillary artery and vein of fourteen years' duration, **xvii**, 37; of femoral vessels, **xiv**, 400, **xxxi**, 753, **xxxix**, 767; treatment of, **xxxix**, 767.
Axillary artery, of, **viii**, 362; ligature of subclavian artery for, **iii**, 516; sudden disappearance of, **v**, 141; traumatic, **ii**, 344.
Bone, of, pathology of, **xxxvii**, 834.
Carotid, common, of, cured by ligature, **xvi**, 433; distal ligation in, **xxxv**, 280.
Carotid artery, internal, of, traumatic, **iv**, 164; causing pulsating exophthalmos, **xxxix**, 649; **xlvi**, 928.
Causes and development of, **vi**, 419; and therapy of, **iii**, 339.
Cervical, thoracic, and abdominal, treatment of, **xviii**, 283.
Cirsoid, of, dorsum of foot, **i**, 369; excision of, after ligation of external carotid artery, **xxxiv**, 414; of infectious origin, **xxix**, 293; of scalp, **ii**, 415, **xi**, 93; treated by simultaneous ligature of both external carotids, **vi**, 67.
Cure of, by arteriorrhaphy, **xxxvii**, 161; by inducing white thrombi in the sac, **xiii**, 48.
Diffuse, **xxii**, 391.
Ductus arteriosus, of, **vii**, 214.
External treatment of, **x**, 447.
Extirpation of, **xvi**, 242, **xix**, 78.
Femoral artery, of the, **xxix**, 357; false, **xlvii**, 464; ligation of external iliac artery for, **xxxi**, 256; traumatic, **iv**, 333; traumatic endo-aneurismorraphy in the treatment of, **xlvii**, 261; superficial traumatic, excision of, **xxix**, 605.
Four large arteries, of, successfully treated by ligatures, **xvii**, 369.
Fusiform, treated by Matas's method, **xxxviii**, 493.
Gluteal, **v**, 55; and sciatic, spontaneous, **v**, 55.
Iliac artery, external, of, apparently cured by needling, **xvii**, 312; of both external iliac arteries, traumatic, **xxii**, 389; cured by compression, **xiv**, 401; of external iliac artery, diffuse, **i**, 483; extirpation of, **xxxiii**, 473; extraperitoneal ligature for, **xliv**, 96; left, **vii**, 214; transperitoneal ligation for, **xli**, 620; treated by ligation of

common iliac, **xxviii**, 128; treatment of, by digital compression, **xxxviii**, 498.
Iliac and femoral arteries, of, cases of, **xxii**, 802.
Iliac artery, internal, of, ligature of common iliac for, **iv**, 519.
Inguinal artery, **ii**, 429.
Innominate artery, of, **vii**, 215; cured by electrolysis through coil of wire introduced into sac, **xxvi**, 646; high, **i**, 582; ligature for, **xxvi**, 512; ligature of carotid and subclavian for, **v**, 538, **vi**, 147: results of ligation for, **xxxvi**, 960; treated by simultaneous distal ligation of the right common carotid and right subclavian arteries, **xiii**, 336.
Inquiry into the use of the ligature in treatment, **i**, 13.
Interosseous artery, of, **vii**, 214.
Intracranial, cured by ligature of common carotid artery, **xiv**, 410.
Knee, above, and to inner side, **xxvi**, 511.
Limbs, of, treatment of, **xi**, 235.
Malar artery, of, traumatic, **ix**, 225.
Obturator artery, of, sudden disappearance of supposed, **v**, 139.
Occipital artery, of, **vii**, 214.
Operative treatment of, **xxii**, 802, **xxxi**, 120.
Orbital, ligature of common carotid artery for, **xxii**, 389.
Persons under twenty, in, **vii**, 213.
Popliteal, **vi**, 48, **vii**, 214, **xxii**, 392, **xxix**, 608, 617, **l**, 489, 800; cured by digital compression, **xii**, 356; by pressure, **iv**, 333; gangrene of foot after ligation of femoral artery, **xxxii**, 612; Matas's operation for, **xli**, 115, **xlii**, 124; resection of, **xxxi**, 761; ruptured by manipulation, **xliii**, 782; state of femoral artery after ligature for, **vi**, 65; treatment of, **iii**, 514.
Predisposing causes of, **ii**, 499.
Racemose, aggravated case of, **xxxviii**, 496; cured by subcutaneous injections of alcohol, **iv**, 67.
Retropharyngeal traumatic, **xxxiii**, 341.
Statistics of, **iii**, 161.
Subclavian artery, of **i**, 171, **xiv**, 221, **xxxi**, 591, **xxxvi**, 462, **xlii**, 271, **xliii**, 920; additional cases of, **xxiii**, 255; complicated by fracture of clavicle, **xxxvi**, 146; simulating cervical ribs, **xli**, 399; third portion, operative treatment of, **xxii**, 545, 743; traumatic, produced by fractured clavicle, **xxxvii**, 638; treated by excision of the sac, **xxviii**, 1.
Subscapular artery, of, traumatic, **ii**, 428.
Superficial palmar arch, of, **vii**, 214.
Superior profunda humeri artery, of, **xxxiv**, 398.
Thyroid axis, of the, traumatic, **xliii**, 932.
Tibial artery, of, anterior, **xxii**, 392; diffused traumatic, **vi**, 66.
Traumatic, **i**, 476, 477; caused by punctured wound of buttock, **iv**, 33; in child under one year, **ix**, 225.
Treated by introduction of catgut or wire with electricity, **vi**, 307; by introduction of coagulants, **iv**, 47, 163.
Ulnar artery, of, **vii**, 214.
Varicose, of the hand, **xix**, 684; of thigh, **xxii**, 372, 391.
Vertebral artery, of, traumatic, **xviii**, 477.
Young people, in, **l**, 59, 363.
Aneurismal sac, proper wire for introducing into, **xxx**, 704.
Tumor of temporal, region, **ii**, 251.
Varix, **xliv**, 920; of the hand, **xix**, 364; ligation of the subclavian artery for, **xxix**, 618; of the skull following fracture of the base of the, **xxxiii**, 339.
Angeiorrhaphy, arteriovenous, end-to-end, **xlv**, 1.

Angina Ludovici, iii, 235, xxxiii, 720, xlvii, 161, 307, 335.
Angina septica, xiv, 503.
Angioma iii, 516; of buttock, arterial, v, 351; of cheek, injection of ferric perchloride in, ix, 453; of chest-wall, novel method of excision of, xxiv, 377; of cranium, v, 355; of ear and neck, xxxvi, 453; of face, xxxvi, 268, 292, xliii, 453; of face, electrolysis for, xxxiv, 421; of foot, venous, xxii, 394; of hand, xix, 364; of hand, venous, xxii, 393; of neck, cavernous, xxv, 649, xxxvii, 285; treatment of, iv, 166; of tongue, xxxiii, 659; of tongue and mouth, xxx, 129.
Upper extremity, of the, xix, 684; entire, xxv, 361; diffuse cavernous, xlv, 419.
Angiomatous disease of the papillæ renales, xlix, 652.
Angiorrhaphy, xlix, 394.
Angiotripsy in general surgery, xxxvi, 183.
Angulation at the sigmoid, xlii, 678, xliv, 678.
Aniline products, use of, in carcinoma, xviii, 522.
Animal cage for laboratory use in experimental surgery, xxxix, 991.
Animals, traumatisms inflicted by, xxxi, 431.
Reviews of Books: Age of Domestic Animals, by Huidekoper, xvi, 397; Physiology of Domestic Animals, by Smith, x, 317.
Ankle, amputation at, new, v, 52; amputation at, osteoplastic, xxxix, 790; arthrectomy of, xii, 470; congenital deformity of, xxii, 777; congenital luxation of, xxxviii, 545; compound dislocation of, ix, 145; xxix, 634; compound dislocation of, in an aged man, xxviii, 647; dislocation at, through astragalocalcanean articulation, xxix, 645; dislocation through astragalotibial articulation, xxix, 647; dislocations, irreducible, v, 379; drainage of, xliv, 595; excision of, ii, 166; extirpation of, for club-foot, xviii, 248; maintenance of both malleoli of, in transfer of fibula to replace partial loss of tibia, xlvi, 628; neuropathic affections of, vi, 89; neuropathic, due to locomotor ataxia, xxxiii, 491; osteoplastic resection of, xliv, 792; persistent traumatic œdema of, xxvi, 368; resection from an external transverse incision, vi, 144; result after Pirogoff amputation at, xxiv, 749; tuberculosis of, xlvii, 810; weak, of children, misapplied support to, xxxv, 284, 358; resection of, Wladimiroff-Mikulicz, xxii, 413.
Ankylosed joints, restoration of function in, xxxiv, 452.
Ankylosis, v, 443; acute suppuration after correction of, by manual force, viii, 319; artificial production of, in paralytic joints, viii, 320; bony, of temporomaxillary articulation, xxxv, 517; bony, treatment of, xliv, 740.
Elbow-joint, of, xxix, 364; excision for, xxii, 114; treatment of, xix, 753.
Fibrous treatment, by electrolysis, xviii, 208.
Galvanic current in the treatment of false, xxix, 551, 627.

Non-obstructive, postoperative, xxxiii, 225, 336, 342.
Surgical aspects of, xliv, 32; treatment of, xxxvii, 575, 626.
Anus, anatomy of, xxiv, 1.
Artificial, iv, 250, 253; cured by enterectomy and suture, xv, 156; from gangrenous strangulated hernia, xviii, 351;

for relief of chronic ulceration of lower bowel, **xxxvii**, 445; treatment of gangrenous hernia and, **ix**, 445; for typhoid perforation, **xli**, 284.
Congenital absence of, **xxvii**, 776; stenosis of, **xxiii**, 330.
Fissure of, **vii**, 150.
Fistula of, associated with phthisis, **v**, 284; cure of, **iv**, 361; epithelial-lined, **xxxiii**, 221; excision of, **v**, 495; and periprocteal abscesses, treatment of, **xii**, 395; rapid cure of, **x**, 287; treatment of, **v**, 515; tuberculous, **vii**, 141, 149.
Forcible dilatation of, for hemorrhoids, **vii**, 65.
Imperforate, **xxxv**, 661.
Introduction of hand into, for relief of fecal impaction, **vi**, 515.
Prolapsus of, operation for, **v**, 497.
Rectum, and surgery of malformations of the, **vii**, 55.
Sphincter of, spasm of, **iii**, 352.
Surgery of, **v**, 491.
Syphilitic lesions of, **iv**, 87, **vii**, 146.
Vaginal, after hysterectomy, cured by ileo-colostomy, **xxvi**, 634.
Reviews of Books: Diseases of the Anus and Rectum, by Esmarch, **vii**, 143; *Idem*, by Cripps, **xlvii**, 155; *Idem*, by Tuttle, **xxxix**, 631.

Aorta, abdominal, mode of the circulation through the, **xix**, 1; aneurism of the, **xxxiii**, 640; ligation of an, **xxxv**, 207; simulating a solid tumor, **xvii**, 314; treated by wire in sac, **v**, 138.
Aneurism of, **xxii**, 392; electropuncture for, **xii**, 366; statistics of, **iii**, 161; treated by insertion of wire, **iv**, 47, 163; treated by introduction of wire into sac and electrolysis, supplementary report in a case of, **xxxv**, 128.
Aneurism of arch of, **v**, 57.
Aneurism of ascending, **ix**, 326.
Aneurism of descending, successful treatment of, by Bacelli's method, **xvi**, 164.
Aneurism of thoracic, treatment of, by introduction of wire and electricity, **xxxiv**, 143.
Pulmonary artery, and, pistol-shot wound of, **xxvii**, 124.

Aphasia, **vi**, 69; followed by hemiplegia, trephining for traumatic, **iv**, 169; following injury to skull, trephining for, **xxx**, 325; motor, recovery after trephining, **xxxvi**, 82; traumatic, from contrecoup, **xlviii**, 613.

Aponeuroses of abdominal wall, approximation of, for prevention and cure of hernia, **xxxix**, 245.
Palmar, treatment of retraction of, **vii**, 57.

Appendages of the Uterus, ultimate results of operations for removal of, **xv**, 220.

Appendiceal abscess, **xliii**, 155; perforating into the urinary bladder, **xxxix**, 265; rectal incision of, **xxxiii**, 809.

Appendicectomy combined with nephropexy, **xxxv**, 137; followed by intestinal obstruction from adhesive bands, **xxxii**, 292; parotitis following, **xlii**, 735.

Appendicitis, **xi**, 132, 225, 232, 288, **xvii**, 203.
Abdominal tumor, produced by chronic, **xxviii**, 264.
Abscess, left-sided, with, **xxxiii**, 772, 773; of lung and gangrene of gall-bladder, following, **xxxiii**, 761; in right iliac region mistaken for, **xxxv**, 758.
Absence of, in certain cases of typhlitis, **xlv**, 852, 963.
Acetonæmia after operation for, **xxxvi**, 481.
Advantage of simplicity in operations for, **l**, 762.
Analysis of sixty-eight cases of, **xviii**, 96.
Arrosion hemorrhages in, **xxxiii**, 807.
Atypical cases of, **xxviii**, 366.
Black vomit after, **xxxviii**, 108.
Cases at Cook County Hospital of Chicago, **xv**, 355.

Causes, predisposing and exciting, sudden attacks of, **xxxv**, 842.
Chronic, complicated by acute colitis, **xxiv**, 61; relapsing, relief of, by removal of appendix, **xviii**, 90, 93; relapsing, resection of the appendix vermiformis during the quiescent stage, **xiii**, 356, 362.
Chronic colitis as a symptom of, **xxvii**, 733, **xxviii**, 149.
Clinical notes on, **xl**, 291.
Diagnosis of, **xxxiii**, 632; in atypical cases of, **xxviii**, 140; errors of, in conditions resembling, **xxxiii**, 594, 629; and pathology of, **xxiii**, 614, 616; pathology, and treatment of, **xxvii**, 303.
Differential leucocyte count in, value of, **xlvii**, 239.
Duodenal ulcer, perforating, associated with, **xl**, 447.
Early laparotomy for, **x**, 434; indications for, **xiii**, 233, 255.
Experimental, **xxii**, 399.
Fecal fistula, intestinal, following, **xxiv**, 488, 502; of small intestine, following operations for, **xxiv**, 726.
Gangrene of colon and ileum, after operation for, **xxxviii**, 367; obscured by enlarged liver, **xxxvi**, 269; operation for, followed by secondary abscess, **xliii**, 924.
Gastric ulcer, perforating, simulating, **xxxiii**, 212.
German Surgical Congress of 1901, Discussion on, **xxxv**, 686.
Group of cases of, **xvii**, 197.
Hæmatemesis complicating, **xxxvi**, 966.
Hemiplegia following operation for, **xliv**, 127.
Hernia following operations for, **xxvi**, 226, **xxxix**, 128; ventral, after operations for, **xxix**, 625, 655.
Hydronephrosis, as a complication, **xliii**, 783.
Ileocæcal hæmatoma simulating, **xxv**, 188.
Infective, **xvii**, 749, **xviii**, 365.
Intestinal obstruction after operations for, **xix**, 677, 682, **xxi**, 315, **xxiv**, 376, **xxxiv**, 660, 708, **xxxix**, 584, 592, **xl**, 122; **xli**, 150; prevention of, **xlix**, 192, 272.
Intramuscular entrance in operations for, **xxv**, 364.
Kidney, suppurating sarcomatous, simulating, **xxxv**, 429.
Lymphatic and hepatic infections secondary to, **xlii**, 627, 692.
Mastoiditis operated upon simultaneously with, **xxiii**, 613.
Mechanical distention in the etiology of, **xli**, 437.
Multiple complications attending, **xxxix**, 132.
Nephrolithiasis, complicating, fatal result of operation for, **xxvi**, 369.
Obliterating, **xxiii**, 608, **xxiv**, 380; pathology of, **xxvii**, 618.
Observations on, **xix**, 4, 146, 327, 475, 546.
Operative technic of, **xiii**, 264, 276, **xxvii**, 78, 101; treatment of, **xvi**, 440.
Other affections mistaken for, **xxxv**, 657.
Ovarian cyst, strangulated, simulating, **xxxv**, 430.
Pain caused by, in certain cases of chronic, **xxiv**, 713.
Parotitis following operation for, **xlii**, 735.
Pathogenesis of, studies in, **xxxv**, 701.
Pathology of, **xiii**, 225.
Pelvic abscesses from, drained through rectum, **xxiii**, 272, 298.
Pericarditis, suppurative, following, **xxxiv**, 548.
Perihepatic and pleural complications of, **xxxv**, 690.
Peritoneal cavity containing free pus, recovery, **xxx**, 632; infection, general, recovery from, **xxxii**, 139.
Peritonitis, diffuse suppuration following, **xliv**, 107, 298; extensive recovery, **xxxiv**, 828; general septic, with recovery, **xxx**, 179; general septic, treatment of, **xviii**, 42; suppurative, following perforating, **xxii**, 397.

Perityphlitis, and, in Stockholm, mortality of, xviii, 580.
Portal phlebitis, with, and abscess of the liver, xlix, 856.
Posterior incision in certain cases of, xxxiii, 764, xl, 376.
Practical deductions from personal experiences in treatment of, xlvi, 122, 157.
Pregnancy, with, and a dermoid cyst, xxvii, 659.
Pyæmia following, xx, 422.
Pylephlebitis, suppurative, following, xxxvii, 471.
Quiescent, incision for, xxvi, 225.
Rare complications after operations for, xxxii, 448, xxxiii, 605.
Recurrent, after operation, xlix, 277.
Remarks on, xl, 727, 761.
Repeated operations for, xxiii, 178.
Result after operations for, without division of muscular fibres, xxi, 308.
Retrocolic abscess, with, xxxix, 102.
Specimens of, xix, 498.
Statistics of in clinic of Dr. J. B. Deaver, 1907 and 1908, xlix, 824.
Subphrenic abscess following, xxxiv, 729; left-sided, following, xxxvii, 472.
Suppurative, iii, 424; results of incision without removal of the appendix, xx, 84; moot points in, xxi, 597; treatment of, x, 382.
Surgical aspects of, xix, 679; thoughts on, xix, 576; treatment of, xiii, 59.
Syphilitics, in, treatment of chronic, xxvii, 74, 101.
Treatment of, xii, 376;
Tubal pregnancy, complicating, xxxi, 254.
Tuberculous, xxxiv, 790.
Typhoidal, xlii, 611; acute gangrenous, xlii, 738; perforating, xliv, 308.
Ureter adherent, with, xxv, 187.
Ureteral calculus on right side, complicating chronic, xlvii, 809.
Value of the leucocyte and differential counts in, xlix, 385.
Reviews of Books: Predisposing and Exciting Causes of Sudden Attacks of Appendicitis, by Riedel, xxxv, 842; Treatise on Appendicitis, by J. B. Deaver, xxiv, 249, xxxii, 869, xliii, 478; *Idem*, by Fowler, xx, 751, xxiv, 779, xxxiii 510; *Idem*, by Leuzmann, xxxiv, 721; *Idem*, by Morris, xxiii, 493; *Idem*, by Mynter, xxvi, 746.
Appendicostomy for chronic colitis, xxxvii, 781, xxxix, 268; for chronic dysentery, xlix, 155; for multiple papillomata of the colon, xxxix, 269; prolapse of the cæcum after, xlvii, 808.
Appendicular colic, xvii, 672.
Appendix vermiformis, anatomy of, xvii, 620, xix, 5.
Carcinoma of, xxiii, 186, xxxvii, 849, 891, xliii, 472, xlvii, 116, 968, 1000, xlix, 829.
Combined operation for the removal of, and for hernia, xlvi, 157; for right inguinal, xliii, 665.
Concealed in the postcæcal retroperitoneal space, xl, 721.
Congenital absence of, xxiii, 611; inversion of, xl, 1015.
Conical cæcum, with, simulating a ureter, xxviii, 658.
Cystic dilatation of, xlix, 524; early resection of, in treatment of perityphlitis, xii, 373.
Excision of, ix, 89.
False diverticula of, xliv, 78.
Fat, l, 474.
Femoral hernia with, xliii, 669.
Fibroma of, xxviii, 143.
Foreign bodies in, xviii, 670; pin, xxii, 274, xxiii, 604, xxix, 261; tack, xxxvii, 950, xliii, 767.
Gangrene of, with diffuse peritonitis, recovery, xxxvii, 431; with large fecal concretion, xxiv, 490; in a three-weeks-old infant, xlvii, 57.
Hernia of, xlix, 516.
Ileocæcal, xvii, 88.

Inflamed, removal from a strangulated inguinal hernia, **xlvi**, 645; in sac of femoral hernia, **xl**, 380.
Inflammation about, **ix**, 384.
Inflammatory mass communicating with, containing a pin, **xliii**, 767.
Intussusceptions associated with inversions of, **xxxviii**, 708.
Laparotomy for perforated, **vi**, 41, 78, 508.
Malposition of, as a cause of functional disturbances of the intestine, **xlii**, 394, 472.
Multilocular, **xx**, 186.
Peculiar forms of, **xxiii**, 186.
Perforation of, **vii**, 396.
Physiology and surgery of the, **l**, 1342.
Psoas muscle, how related to, **xxxiii**, 387.
Question of removal in every case of appendicular abscess, **xxiii**, 750, 759.
Removal of, **xliii**, 153; followed by acute yellow atrophy of the liver, **xxxvii**, 362; followed by tetanus, **xlii**, 458; new incision for, **xxvi**, 624.
Secondary abscess following removal of, **xliii**, 924.
Strictures of, **xxvi**, 239.
Stump, new technic for dealing with, **xlviii**, 246; treatment of, **xl**, 716.
Surgery of, **xiv**, 512.
Transmesenteric hernia of, **xlii**, 262.
Transverse incision for the removal of, **xliii**, 106, 962.
Use of, to flush the colon, **xxxvii**, 613.
Reviews of Books: Diseases of the Appendix, by Hawkins, **xxii**, 540; Treatise on Surgery of the Diseases of the Appendix, by Battle and Corner, **xlii**, 151.
Arm, cancer of, requiring amputation, in a young man, **xxi**, 301; crushing injuries of, conservative surgery in, **xxxix**, 462; deformity of, **iii**, 346; extirpation of whole, **iv**, 255, 530; interscapulothoracic amputation of, **v**, 346; plastic operation for œdema of, from circumferential scar, **xxxiv**, 182; rupture of long head of biceps muscle of, **v**, 268.
Simultaneous amputations of right and left, of right leg, and left foot, **viii**, 220; of right fore-, of left index and ring fingers, and left thigh, **viii**, 154; of right fore-, right thing, and left leg, **viii**, 153.

BINNIE, JOHN FAIRBAIRN: Aneurismorrhaphy—treatment of popliteal aneurism by the reconstructive method, **xlviii**, 1; appendicular colic, **xvii**, 672; cases of deformity of the external ear, **xxiv**, 206; cholecystotomy and cholecystenterostomy in a patient eighty years of age, **xxiv**, 638; contribution to the study of appendicitis obliterans, **xxv**, 618; critical suggestions on cleansing the surgeons' hands, **xxxiii**, 349; exposure of post-duodenal portion of common bile-duct, **xxxviii**, 608; gradual autoinoculation as a factor in the production of immunity from the effects of septic infection, **xvii**, 299; method of excision of the shoulder-joint, **xxxii**, 283; myositis ossificans traumatica, **xxxviii**, 423; operative treatment of gall-stones impacted in the cystic or common bile-ducts, **xx**, 561; operative treatment of non-microcephalic idiocy, **xix**, 453; recurrent carcinoma—why it may be worse than the primary disease in the same region, **xxvii**, 238; relations between granulation tissue of repair, the infective granulomata, and the sarcomata, **xxv**, 768; rhinoplasty for sunken nose, **xlvii**, 1059.
Birdshot wounds, multiple, **xxxiv**, 419.
Birth dislocation of humerus, with paralysis of arm, **xlii**, 777.
Birth fracture of skull, **xl**, 865.
Birth-marks, removal of, **xxxvii**, 961.
Bismuth, antiseptic properties of subnitrate of, **iii**, 159; in the treatment of acute epididymitis, **ii**, 510; for ulcers, subiodide of, **iv**, 545.
Black vomit complicating appendicitis, **xxxviii**, 108.
BLACKWOOD, N. J.: Atlo-occipital dislocation—a case of fracture of the atlas and axis, and and forward dislocation of the occiput on the spinal column, life being maintained for thirty-four hours and forty minutes by artificial respiration, during which a laminectomy was performed upon the third cervical vertebra, **xlvii**, 654.
Bladder, absorbent power of, **x**, 310.
Adrenalin, use of, in operation on, **xxxvi**, 799.
Air-distention of, in suprapubic cystotomy, **xxv**, 141, 180.
Bony sequestrum in cavity of, **xix**, 465.
Carcinoma of, **xi**, 345; discussion on, at International Society of Surgery in 1908, **xlix**, 118; extirpation of, **xxvi**, 357; radical operation for, **xl**, 261, 382; radical treatment of, **xlviii**, 355; subjected to resection, **xxiii**, 605; of urinary, **l**, 498.
Cauterization through as a substitute for the Bottini operation **xxxvi**, 29.

Choice of operations upon the male, **xxx**, 353.
Cocaine anæsthesia of, **v**, 81.
Contracted, **xxii**, 114.
Digital exploration of, **iv**, 532.
Displacement of, by tamponing the rectum, **iii**, 166.
Distention of, for epicystotomy, condemned, **v**, 80; with hydronephrosis, **xliii**, 779.
Drainage of, **iv**, 187; continuous, **xxx**, 515; mental symptoms after suprapubic, **xvii**, 65, 262; suction apparatus for continuous, **xxxvii**, 886; suprapubic, **xxix**, 349; after suprapubic incision, **xxiii**, 499, 746.
Ectopia of, treatment of, **xv**, 492, **xxx**, 130, 715.
Emptying by manual compression, **x**, 209.
Endoscopy of urethra and, **xi**, 138, 473.
Epithelioma of, **xlix**, 553.
Excision of considerable portions of, **xx**, 610.
Experimental researches on the restitution of, **x**, 211.
Exposure of, by temporary osteoplastic resection of prepelvic wall, **ix**, 303.
Exstrophy of, **iii**, 168, 169, **vi**, 104, **viii**, 46, **xxix**, 497, **xxxi**, 720, **xli**, 463, **xliii**, 237; modified Maydl's operation for relief of, **xxxviii**, 763; operative treatment of, **xxi**, 181, **xxvi**, 400, **xxxiv**, 25, 423, plastic operations for, **xlii**, 924; rectovesical anastomosis for, **xxxvii**, 290; Rutkowski's operation for cure of, **xxx**, 288; treatment of, **xliv**, 281.
Extirpation of, **xlvi**, 952; for carcinoma through a suprapubic opening, **xxxvi**, 509; complete, for carcinoma, **xxxviii**, 445; complete, for neoplasms, **xxix**, 378.
Fibrinous concretions, large, removed from the, **xxxix**, 256.
Fistula from suprapubic puncture of, **v**, 167; from uterus to, cure of, **viii**, 465.
Fistulous opening into, from ileum, **xxix**, 69.
Foreign bodies in, **xv**, 495; introduced into the male per urethram, **xxv**, 568; removal of, from the male, introduced through the urethra, **xxv**, 747.
Functions of, **vii**, 303.
Gum removed from, **xliii**, 317.
Hernia of, **xxx**, 772, **xxxviii**, 606; complicating inguinal hernia, **xxiv**, 753, **xl**, 921, **xxix**, 778; obturator, **xxxiv**, 796; through pelvic floor, **xxxii**, 369.
Inflation of, preliminary to suprapubic cystotomy, **xxviii**, 358, 683.
Intraperitoneal rupture of the urinary bladder, **xvi**, 274, **xlv**, 94.
Inversion and prolapse of female, through urethra, **viii**, 463.
Irrigation of, without catheter, **x**, 210.
Lesions caused by eggs and embryos of *Bilharzia hæmatobium* in, **iv**, 350.
Myomata of, **xxiii**, 213.
Neuralgia of, **vii**, 305.
Opened by abscess from hip-joint, **i**, 373.
Papilloma of, **xv**, 75, **xxxiii**, 641, **xlviii**, 305; accidental cure of, **xxxviii**, 890; extirpation of multiple, **xxxiii**, 198; removed by suprapubic cystotomy, **x**, 311.
Paralysis of, from carbolized dressings, **ii**, 85.
Partial resection of the, for malignant tumor by the transperitoneal route, **l**, 1137.
Perforation of, by an appendiceal abscess, **xxxix**, 265.
Rectum, and, recovery after shot wound of, **xii**, 288.
Relations of pelvic peritoneum to, **vii**, 22.
Resection of, **xxv**, 663; of large part of, involuntary, **xix**, 506; partial, **ii**, 426, 510; partial, with seminal vesicles and vasa deferentia, **xxxii**, 557; partial of wall of, **i**, 74.
Routes to, comparison of the suprapubic and perineal, **xxx**, 28, 103.
Rupture of, **ii**, 511, **iii**, 347, **xviii**, 647, **xl**, 271, **xlii**, 839,

863; complicating fracture of pelvis, xlv, 971; extraperitoneal, xxiv, 751; xxxv, 288, xxxvii, 98; extraperitoneal, complicated by fracture of the pelvis, xxvii, 151; extraperitoneal of, without fracture of the pelvis, xlix, 435; intraperitoneal, xv, 495, xvi, 274, xxii, 706, 795, xxviii, 385, xxxiv, 600, xxxvi, 606, xxxvii, 215, 438, xlv, 94; intraperitoneal, method of early diagnosis of, v, 556; intraperitoneal, treated by laparotomy, xxxiv, 209; intraperitoneal treatment of, xxiii, 676; laparotomy for, vii, 64, 311, xvi, 458; laparotomy and suture, i, 67; new method for diagnosis of, xii, 33; operations for, vi, 175, xix, 384; of pelvic abscess into, xxxv, 106; produced by filling, vii, 309; recovery from after abdominal section and suture, xxi, 218; and suture of, v, 167, 432, 556, viii, 473; two cases, xv, 494, xliii, 241.

Sacculation of, xxv, 749; xxxvii, 470.

Sarcoma of, ix, 274, xlii, 831; alveolar, iii, 352; of male, xv, 127.

Stone in, xx, 174, 175, xxxi, 743; stone in, xxxvi, 438, xlix, 710; in children, operations for, vi, 178, 179; choice of operation for extraction of, iv, 535, xv, 180, 185; communication with, containing a, by an abscess of the abdominal wall, xliii, 766; comparative frequency of, in white and negro races, xxiii, 129; due to ligatures and bone spicule, xxxiv, 715, 716; in female child of four years, xxxiv, 819; following suprapubic prostatectomy, xxxix, 436; formed by sequestrum from old hip-joint disease, x, 228; with intermittent pneumaturia and subsequent fecal fistula, xlvii, 1013, 1057; large, xxxiii, 347; modern modifications of operations for, iv, 543; multiple, removed by cystotomy, xxv, 192; with nucleus of chewing gum, xli, 479; with nucleus of hairpin, xviii, 588; with nucleus of leather shoestring, xxxiii, 648; with nucleus of ligature knot, xviii, 588; with nucleus of shot, xxxiii, 647; with nucleus of twig of tree, xxxiii, 648; operations for, vi, 263; operations for, xii, 384; with hypertrophy of the prostate, treatment of, xxvii, 571; complicating of, xxxvi, 17; recurring, xxxi, 760; removed by intraperitoneal suprapubic cystotomy, xxiii, 132; spontaneous fracture of, ix, 274; value of castration to facilitate detection of, in the presence of prostatic hypertrophy, xxvii, 329, 383.

Suprapubic incision of, ix, 309, 312, 313, 314.

Surgery of, cases of, involving suprapubic section, xix, 461.

Surgical treatment of non-resilient diverticula of, l, 883.

Suture of, immediate, after suprapubic cystotomy, xxxv, 695; Jonnesco's method for, xxx, 772.

Symphyseotomy in operations on, xviii, 486.

Tamponade of, after suprapubic incision, xviii, 587.

Tears, intraperitoneal, xliv, 790.

Telephonic searcher for use in, xlvi, 459.

Tuberculosis of, xv, 397, xlv, 249, 388, 597, xlix, 785; with diverticula, xix, 370; and neoplasms of, relative value of operative and hygienic measures in, xxii, 205, 512; permanent suprapubic drainage for, xxxiii, 331, xxxvi, 426; resection for, xxvii, 368; results of operations for, xi, 290.

Tumors of, iv, 208, viii, 48, xx, 78, 174, 610; cystotomy for, i, 66, 372; diagnosis and treatment of, vi, 182; hydronephrosis due to ureteral obstruction by, xlviii, 314; operations for, xviii, 354, xlii,

805; primary, **xliii**, 556; removal of, **ii**, 83, **v**, 163, 276, 278, 427; removed under spinal anæsthesia, **xxxiv**, 575; surgical treatment of, **xii**, 1; synchronous left ureterostomy and right nephrostomy for hydronephrosis due to ureteral obstruction by, **xlvii**, 287; transperitoneal removal of, **xlviii**, 105, 862.
Ulceration of, in women, **xlix**, 777.
United to ileum by an adherent calcified Meckel's diverticulum, **xxiv**, 484.
Urethra, and, cases of surgery of the, **xix**, 461; genesis of malformations of, **xix**, 741; observations on male, in regard to endoscopy, litholapaxy, and catheterization, **v**, 84; operation for carcinoma involving, **xix**, 461.
Urethrovesical suture and exstrophy of, **vii**, 306.
Vagina, and, fistula of, **iv**, 372.
Vaginal incision of, for intravesical manipulations, **xxxix**, 822.
Wound of, followed by gastric or duodenal ulcers, **xlvii**, 924, 1052; intraperitoneal, **iii**, 349; in operations for hernia, **xxi**, 631, 707; punctured, **xlii**, 215.
Reviews of Books: Diseases of the Urinary Bladder, by Ultzmann, **xii**, 139; Inflammation of the Bladder, by Monsell Moullin, **xxviii**, 293; Tumors of the Bladder, by Fenwick, **xxxv**, 551.
BLAKE, JOHN BAPST: Gastro-enterostomy and pyloroplasty, **xli**, 686; sudden death, **l**, 43.
BLAKE, JOSEPH A.: Abdominal contusions, **xxxvii**, 108; acute diverticulitis of descending colon and sigmoid perforation, **xlvii**, 133; acute tetanus treated by intraspinal injections of magnesium sulphate, **xliii**, 440; aneurism of the second and third portions of the right subclavian artery, proximal and distal ligation, **xliii**, 920; aneurismorrhaphy, **xlviii**, 15; appendicitis, misplaced appendix, **xlviii**, 138; arteriovenous angeiorraphy, **xlv**, 151; avulsion of brachial plexus, **xlix**, 138; ball-valve tumor of the stomach, **xlv**, 130; benign stricture of the œsophagus—gastrotomy—dilatation by the string method, **xlviii**, 147; bilateral growth of the gums, **xxxiii**, 765; blastomycosis of the spine, **xlvi**, 151; blood in relation to surgical diagnosis, **xxxiv**, 361; carcinoma of stomach, **xliii**, 927; carcinoma of tongue, **xxxv**, 270; chronic tenosynovitis, **xxxiv**, 576; congenital stenosis of the pylorus, **xliii**, 764; diffuse peritonitis, **xxxvii**, 932; effects of smokeless powder, **xxxix**, 1006; excision of carcinoma of rectum by the combined method, **xlviii**, 80, 150; exclusion of colon for new growth, **xlix**, 708; fracture of carpal scaphoid, **xxxv**, 516; fracture of carpal scaphoid with dislocation of the semilunar bone, **xxxiv**, 297; fracture of humerus and femur, **xxxvi**, 607; fracture of skull with extradural hemorrhage, **xlviii**, 125; gunshot wound of abdomen and thorax, recovery, **xxxvii**, 437; hypertrophy (fibro-adenoma) of the breast, **xliii**, 940; interstitial nephritis with multiple abscess formation, **xlviii**, 149; intraperitoneal rupture of the bladder, **xxxvi**, 606; lateral intestinal anastomosis, with later perforation of blind end of gut, **xlix**, 562; lesions associated with gunshot wounds of the stomach, **xlv**, 778; lymphatic constitution, **xxxix**, 814; malposition of the appendix as a cause of functional disturbances of the intestine, **xlii**, 394, 472; malignant disease of the stomach, **xlv**, 749; methods of radical cure of umbilical and ventral herniæ, **xliii**, 760; operations for neoplasms of the tongue, **xlv**, 629; operative relief of

umbilical hernia, **xxxix**, 1003; perforating duodenal ulcer, **xxxvi**, 608, **xlviii**, 129, 464; perforated gastric ulcer, diffuse peritonitis, peritoneal lavage, closure without drainage, **xlviii**, 130, 131; perforating typhoidal ulcer, **xxxvii**, 283; perforating ulcer of the stomach, **xxxvii**, 929, **xlviii**, 132; peritonitis with unknown site of infection, **xlviii**, 934; plastic operation for restoration of nose, cheek, and soft palate, **xxx**, 764; prostatic abscess, **xlix**, 563; recurrent volvulus of the sigmoid flexure, **xliii**, 444; resection of the ankle for tuberculosis, **xlv**, 145; rupture of internal meniscus of knee, **xxxvii**, 934; rupture of the small intestine, **xlii**, 464; rupture of the spleen, **xlii**, 470; sarcoma of the inguinal glands, **xlv**, 150; secondary abscess following appendectomy for gangrenous appendicitis, **xliii**, 924; silverized catgut, a study of the method of Crédé for sterilizing catgut without heat, **xlv**, 110; simple fracture of the carpal scaphoid, **xlvii**, 130; stab wound of the heart, suture, double lobar pneumonia, emphysema, thoracotomy, drainage, **xlviii**, 138; strangulated umbilical hernia, **xlii**, 461; studies in intestinal exclusion, **xlvi**, 568; subphrenic abscess, **xxxiv**, 703; suppurative pericarditis, **xlix**, 142; surgical aspect of the status lymphaticus, **xxxv**, 641, 745; thrombosis of the mesentery, **xliii**, 613; torsion of the omentum, **xxxviii**, 99; treatment of appendicitis, **xlvi**, 159; treatment of diffuse suppurative peritonitis following appendicitis, **xliv**, 298; treatment of the peritoneum in diffuse peritonitis, **xxxviii**, 265; treatment of stricture of the œsophagus, **xxxviii**, 105; treatment of tetanus by magnesium sulphate, **xliv**, 367; treatment of undescended or maldescended testis, **xlviii**, 469; tuberculo-opsonic index, **xlvi**, 644; tuberculosis of intestine, **xxxvii**, 106; typhoid perforation, **xliii**, 935, 941; typhoid perforation of the ileum, **xlviii**, 135; typhoidal perforation of gall-bladder, **xxxvii**, 935; ulcer of the stomach with hour-glass contraction, **xxxvii**, 280; value of enterostomy and conservative methods in the surgical treatment of acute intestinal obstruction, **xlvii**, 802; Volkmann's ischæmic paralysis, **xlviii**, 453; Volkmann's ischæmic paralysis of the forearm, **xlvii**, 461.

Borchard, Dr.: Balsam of Peru as therapeutic agent in treatment of wounds, **xlvi**, 926.
Boston City Hospital Reports, ninth series (review of), **xxiii**, 628, **xxviii**, 547.
Bottini's method of resection of condyles for bilateral osseous ankylosis of temporomaxillary articulation, **xvii**, 227.
Bottini operation and litholapaxy at one sitting, **xxxvi**, 17; for prostatic hypertrophy, **xxxvi**, 274, **xxxvii**, 622; transvesical cauterization as a substitute for, **xxxv**, 836.
Bottle operation for hydrocele, **xlvi**, 915, **xlvii**, 379, 480.
Bouffleur, Albert I.: Separation of lower epiphysis of femur, **xxxv**, 662; stricture of the œsophagus, **xxxvii**, 791; successful removal of desmoid fibroma from abdominal wall, **xxx**, 587; transvesical cauterization as a substitute for Bottini operation, **xxxv**, 838; **xxxvi**, 29.
Bougie, in retroperitoneal space, **xl**, 126; treatment of chronic gonorrhœa by means of grooved, **iv**, 374; by medicated metal, **iii**, 431.
Bougies and catheters, sterilization of, **xxix**, 661.
Bovaird, David, Jr.: The status lymphaticus, **xxxv**, 641.
Bovée, J. Wesley: Contribution to the experimental surgery of the ureter, **xxvi**, 314; critical survey of ureteral implantations, **xxxii**, 165; splenectomy for congestive hypertrophy, **xxxi**, 705; uretero-ureteral anastomosis, **xxv**, 51.

BOWE, EDWARD: Parotitis following appendectomy, **xlii**, 735.
Bowel (see also Intestine), abnormal ileo-appendicular fold causing partial occlusion of the, **xlvi**, 787.
Anastomosis of, O'Hara's forceps to facilitate, **xxxiii**, 179, 207.
Enterostomy for paralytic obstruction of, **xlvii**, 787.
Gangrene of, relieved by intestinal resection, **xix**, 416; spontaneous, from mesenteric occlusion, **xxxix**, 554; in ventral hernia, **xxxiv**, 298.
Gunshot wound of, **xxxiii**, 474.
Large, practical points in the surgery of the, **xliii**, 395.
Obstruction of, by a band, **xxxiii**, 789; chronic, **xxxix**, 450; from cirrhotic mesentery, **xvi**, 575; due to gall-stone, **xxxiii**, 634; due to mechanical arrest of fecal current, **xxxiii**, 449; due to neoplasms, **xxxiii**, 457; after reduction of a strangulated femoral hernia, **xlix**, 723; relieved by resection, **xxv**, 735.
Perforation of, from kick of gun, **xxxiii**, 648; in typhoid fever, **xxxvi**, 735, **xlv**, 476.
Prolapse of, through an unclosed Meckel's diverticulum, **xxviii**, 647.
Strangulation of, operation under spinal anæsthesia, **xxxiii**, 203.
Surgery of, at Heidelberg, **xvii**, 730.
Suture of, by O'Hara's method, **xxxiii**, 650.
Technic of vegetable plates in, **xvii**, 147.
Tuberculous strictures and their treatment, **xvii**, 98.
Bowel-union, value of the different methods of, **xxx**, 125.
BOWERS, L. G.: Tumors of the mesentery, **xliv**, 892.
Bowl stand, new, **xxxi**, 479.
Bowleg, osteotomy for, **xxxvi**, 450.
Brace, improved, for head extension, **xxxiii**, 185; for treatment of Pott's disease, **xxv**, 182.
Brachial artery, contusion of, **iii**, 512; end-to-end anastomosis of, **xlviii**, 152; gunshot wound of, **xxvii**, 666; rupture of, complicating elbow-joint dislocation, **ii**, 160, **xiii**, 144; suture of, **xl**, 107.
Brachial plexus, avulsion of, **xxxvi**, 411, **xlix**, 137; extirpation of "neck rib" for pressure on, **xvi**, 272; intradural resection of roots of, **xxi**, 53; rupture of, complicating fractured clavicle, **xxxix**, 1011; rupture of, without fracture of clavicle, **xxxix**, 1013; subcutaneous injuries of, **xxxv**, 109, 582.
BRADFORD, EDWARD HICKLING: Ambulatory treatment of fractures in children, **xxiv**, 481; forcible correction of the angular deformity resulting from spinal caries, **xxx**, 537; operative dislocation of the head of the femur in tuberculosis of the acetabulum, **xxxvi**, 579; tenoplastic surgery, **xxvi**, 153; treatment of congenital dislocation of the hip, **xx**, 129.
Bradycardia following head injury, **xlii**, 456.
Brain, abscess of, **ix**, 28, 340, **x**, 119, **xiii**, 206, **xix**, 542; chronic, **vi**, 480; connected with otitis media, diagnosis and evacuation of, **viii**, 208; evacuation of, **v**, 505; following compound depressed fracture of the skull, **xxx**, 327; following compound fracture of skull, **v**, 143; following trephining for epilepsy, **xxx**, 326; operations for, **xix**, 723; after otorrhœa, successfully operated on, **xvii**, 613; traumatic, **xl**, 650; after traumatic periencephalitis, **xxvii**, 57; traumatic, recovery after operation **xxvi**, 240; traumatic subdural, **viii**, 241.

Bullet in, **xxxvii**, 946, **xlix**, 861; skiagraph of **xxv**, 478.
Compression of, **ii**, 3, **iv**, 167; from extradural hemorrhage, **xxx**, 342.
Cortex, abscess of, **xxxviii**, 116; sclerosis of, **xxxvii**, 274.
Craniotomy for tumor of the, **l**, 640.
Cyst, relieved by trephine, **xxvii**, 770; treated by operation, **xxiii**, 323.
Effect of removal of wedges from and healing of wounds of, **ix**, 369.
Extraction of pistol-ball from, through counter opening in skull, **i**, 573.
Fibroma and cyst of, **xxxvii**, 276.
Gigli saw, protection of, from, **xxxvii**, 505.
Hernia of, operative treatment of, **ix**, 223.
Injury to, with astereognosis, **xlix**, 129.
Laceration of, **xiii**, 194.
Lesions, coma in sudden spontaneous, **viii**, 130; in one thousand cases of head injury, **xlix**, 449, 593.
Local influence of some antiseptics on, **xvii**, 612.
Localization in epilepsy, improved method of, **xix**, 212.
Operations, elevator for, **xxxvii**, 461.
Operative attacks upon the human, **iv**, 499.
Pressure, hemorrhagic, treated by trephining, **vii**, 401.
Regeneration of tissue after traumatic lesions of, **ix**, 224.
Removal of a tumor of the dura mater of, **iii**, 416.
Sarcoma of, recurrence of, after sarcoma of nose, **v**, 502; removal of sarcoma of, **vi**, 149; secondary, **viii**, 232.
Spinal cord, compression of, **x**, 183; surgery of, **viii**, 261.
Surgery, advance in, **xxiii**, 316; contributions to, **xi**, 81, 113, 115, 350; experiences in, **xlv**, 481; field and limitation of, **ii**, 1, 110, 214; possibilities and limitations of, with especial view to traumatisms, **xlv**, 531; sequestration anæmia in, **xlv**, 161.
Tolerance of, to incision, **ii**, 19.
Traumatisms of, **xlix**, 449, 593.
Tuberculoma of, successful extirpation, **xxiv**, 652.
Tumor of, **xiii**, 104, **xxiii**, 748, **xxxvii**, 610, **xli**, 655, 794; double, trephining for the relief of pressure, **xix**, 685; extirpation of extensive, **xvi**, 388; fresh points in the operative treatment of, **xix**, 724; misleading localizing symptoms, **xiii**, 209; operations for the removal of, **xiii**, 207; proposal how to reach tumors of the chiasm, **xl**, 35; removal of, **iv**, 171, 499, **v**, 506; removal of, for cure of acromegaly, **xlviii**, 781; sarcomatous, **xiii**, 207, 208; trephining for, **ix**, 161, **x**, 265, **xxxii**, 855; value of trephining as a palliative measure in, **xlv**, 543.
Vessels and membranes of, treatment of injuries of, **ii**, 21.
Wound of, **vi**, 69; drainage in, **ii**, 15; gunshot, **xlvii**, 140, 465, **xlix**, 876; lacerated, **viii**, 303; pickaxe, **xx**, 93; revolver, **xii**, 60; sabre, **xii**, 220; of the venous sinuses of, **xxxiv**, 81, 187.
Reviews of Books: Anatomy of the Brain and Spinal Cord, by Santee, **xxxix**, 317; Pyogenic Infective Diseases of the Brain and Spinal Cord, by Macewen, **xx**, 489; Surgery of the Brain, by Horsley, **xiii**, 194; Surgical Treatment of Diseases of the Brain, by Bergmann, **viii**, 283, **xii**, 340; Traumatic Injuries of the Brain, by Phelps, **xxviii**, 541; Treatise on Surgery of the Brain, by Starr, **xviii**, 473.
Branchial carcinoma, **xx**, 599, **xxvii**, 187.
Branchial cleft, tumors of, **viii**, 130.
Branchial cysts, **ii**, 428, **iii**, 97, **xxx**, 517, **xliii**, 639; and fistulæ, **v**, 356; of the neck, **i**, 91.

Branchial fistula, xxxvii, 56, xliii, 854; excision of, xlv, 790; Konig's method of treating, xxxviii, 759.
BRANHAM, JOSEPH H.: Intestinal obstruction from strangulation by an adhesion band, xx, 59; recovery after laparotomy, xx, 59; tetany following thyroidectomy cured by the subcutaneous injection of parathyroid emulsion, xlviii, 161.
Breast or breasts, adenofibroma of, xxxiv, 181.
Amputation of, v, 512; functional results after, xlvii, 436; by Kocher's method, xxvii, 213.
Border-line tumors of, treatment of, xlix, 478, 557.
Carcinoma of, vi, 78, vii, 454, xxxii, 725; xliii, 316, xlix, 842; acute, xlix, 150; advanced, xxxvi, 454; advanced, operative possibilities in cases of, xxxviii, 321; amputation of both for, xxviii, 655; amputation of upper extremity after recurrence, cases, xxvii, 111; best incision in operations for, xxxiv, 135, 308; bone metastases in, xlvi, 81, 323; causes of local relapse after extirpation, x, 383; directions of the spread of, xxvi, 277; duration of life in, ix, 375; end results following operations for, xlvi, 1, 20, 28, 43, 51, 57, 57, 72; enormous, excised, xxiv, 382; excision of xxv, 210; in female, ii, 156, 525; of female, thorough operation for, xvi, 263; influence of pregnancy on, xlvi, 487; injuries to the axillary vessels during operations for, xxxix, 757; long-lasting immunity after removal of, xxxiii, 201; of male, xxviii, 655, xxxi, 741, xlii, 460, xliii, 301, xliv, 440, xlvii, 445, xlviii, 464; operations for extirpation of, xxvii, 781; operations for, at the Heidelberg clinic, xxxii, 856; operative technic of, xx, 180, xxv, 478; operative technic in, studies in, xlvii, 374; operative treatment of, xxiii, 607, xxvii, 401, xl, 805, xli, 159; recurrence at late period, xlviii, 527; recurrent, xxx, 509; recurrent, excision of costal cartilage and parietal pleura for, xxxvii, 775; results of Halsted's operation for, xxv, 363; results of operations at the Johns Hopkins Hospital, xxviii, 557; results of operations for, Pilcher, xx, 8, Murray, xx, 180, Halsted, xx, 497, Bull, xx, 605; with simultaneous sarcoma in the submaxillary region, xxvii, 65; at sixteen, xlvi, 143; study of twenty-nine cases submitted to operation, xxvii, 285; treatment of, xxii, 451.
Carcinomatous metastases developing over three years after removal of the breast without local recurrence, xliii, 216.
Closure of the wound after the radical amputation of the, l, 837.
Cystadenomata, papillary, of, xlv, 188.
Cystic degeneration of, transformation into carcinoma, xxxviii, 336.
Diseases of, i, 588.
Epitheliomatosis of, xxviii, 716.
Fibroadenoma of (hypertrophy), xliii, 940.
Fibroma plus tuberculosis of, xxxii, 604.
Hydatid cyst of, ii, 157.
Neoplasms of male, i, 71, ii, 612.
Pathogenesis of certain abscesses of, xii, 64.
Phagedenic ulceration of, xlvi, 672.
Retention cyst of, xv, 326.
Sarcoma of, xlii, 455, xlix, 426, 428; in a child of eleven years, xliii, 308.
Substitution of lipoma for, by plastic, xxv, 211.
Tuberculosis of, xx, 153, 417, xxviii, 685, xlii, 118; and meninges, surgical interven-

tion, **xliii**, 161; primary, **l**, 804; urinary, **xxv**, 86, **xxxvii**, 510.
Tumors of, **ix**, 376, 457; benign and malignant, **xlvi**, 316; benign, resection of, **xlv**, 801; in childhood, **xlviii**, 662; male, **xxxviii**, 450.
Young girls', painful, **iii**, 239.
Reviews of Books: Cancer of the Female Breast, by Willard Parker, **ii**, 524; Diseases of the Breast, by T. Annandale, **i**, 588; Diseases of the Breast, by Rodman, **xlix**, 299; Diseases of the Breast, by Williams, **xxi**, 252.
Breslau clinic, goitre operations at, **xxxi**, 660; treatment of tuberculosis of joints in, **xxix**, 393.
Brewer, George Emerson: Abscess of left lobe of the liver, **xlv**, 774; abscess of the pancreas, **xlv**, 960; acetonæmia following operation for acute appendicitis, **xxxvi**, 481; acute diverticulitis of the sigmoid, with intra-abdominal abscesses, **xlvi**, 149; acute hæmatogenous infection of the kidney, **xl**, 1010; acute intestinal obstruction from strangulation of Meckel's diverticulum, **xlvi**, 309; acute unilateral hæmatogenous infections of the kidney, **xlvii**, 1054; adenoma of accessory thyroid, **xl**, 590; amputation at hip-joint, **xxxiv**, 781; amputation at hip for osteomyelitis of the femur, **xxxi**, 495; anomalies of kidney and ureter, **xlv**, 125; appendicitis followed by abscess of lung and gangrene of gall-bladder, **xxxiii**, 761; appendicitis with misplaced appendix, **xlviii**, 138; arthrotomy for loose cartilage in knee-joint, **xxxiv**, 423; atypical cases of appendicitis, **xxviii**, 366; blastomycosis of the spine, **xlvi**, 151, **xlviii**, 889; brain abscess following compound depressed fracture of the skull, **xxx**, 327; brain abscess following trephining, **xxx**, 326; carcinoma of breast at sixteen, **xlvi**, 143, 145; carcinoma of the kidney, **xxxiv**, 827; carcinoma of the splenic flexure of the colon, **xlvi**, 150; carcinoma of the transverse colon, **xxxv**, 108; case of cervical rib, **xxxiv**, 578; cerebral injury due to a depressed fracture of the skull in an infant, **xlviii**, 125; closure of wounds without suture, **xxxii**, 447; complications after operations for appendicitis, **xxxii**, 450; compound depressed fracture of skull, **xxxiii**, 491; congenital inversion of the appendix, **xl**, 1015; critical review of a recent series of operations upon stomach, **xlv**, 687; death after harelip operation, **xlii**, 597; delayed chloroform poisoning, **xlix**, 420; diagnosis of stone in the kidney, **xlvii**, 1055; diagnosis and treatment of abdominal contusions associated with visceral injuries, **xxxvii**, 197; double ureters, **xxxiv**, 582; emphysematous gangrene caused by *Bacillus aerogenes capsulatus*, **xxxiii**, 758; epiphyseal separation at head of humerus, **xxxix**, 291; epithelioma of palate and tonsils, **xxxvi**, 259; errors in diagnosis in conditions resembling appendicitis, **xxxiii**, 594; extirpation of iliac aneurism, **xxxiii**, 473; extraperitoneal rupture of bladder, **xxxvii**, 98; fecal fistula following general peritonitis, **xlvi**, 153; fecal fistula following gunshot wound, **xxxiv**, 424; follicular perforation of ileum, **xxxi**, 259; foreign body lodged between two strictures of the œsophagus, **xxxvi**, 261; gastro-enterostomy for hæmatemesis, **xl**, 263; general peritonitis, **xxxvi**, 443; general peritonitis from unknown cause, **xxxvi**, 784; gloves and skin disinfection, **xli**, 774; gunshot

wound of the abdomen involving the spleen, **xlv**, 773; gunshot wound of the stomach, liver, and gall-bladder, **xxxix**, 100; hip amputation for diabetic gangrene, **xxxi**, 494, 501; hydatid cyst of the liver, with ligature of the portal vein, **xlvii**, 619; hydatids of the kidney, **xxxvi**, 491; indications for cholecystectomy, **xl**, 131; inoperable cancer of the tongue treated by excision of the external carotid artery, **xxxiv**, 567; interstitial nephritis, with multiple abscess formation, **xlviii**, 149; intestinal anastomosis by Maunsell's method, **xxviii**, 126; intracranial neurectomy for facial neuralgia, **xl**, 264; intussusception, **xxxi**, 249, 251, **xlii**, 593; Kraske's operation for cancer of rectum, **xxviii**, 126; laryngectomy, **xlv**, 961; laryngectomy for epithelioma, **xxx**, 331; leucocyte count in surgery, **xxxii**, 145; Mayo's operation for septic arthritis of the knee, **xxxiv**, 825; nephrectomy, **xxxvi**, 779; new method for closing wounds in large arteries, **xl**, 856, 1027; œsophageal diverticulum, **xlviii**, 615; operation for cirrhotic ascites, **xxxvi**, 272; operation for tic douloureux, **xlv**, 961; operations for hemorrhoids, **xli**, 459; osteoplastic resection of skull, **xxx**, 324; pain in brachial plexus due to pressure of cervical rib, **xli**, 767; papilloma of trachea, **xl**, 1012; perforating gunshot wound of the stomach, **xxxix**, 1002; posterior gastro-enterostomy, **xxix**, 751; postoperative intestinal obstruction, **xxxix**, 592, **xl**, 599; preliminary tracheotomy in laryngectomy, **xlix**, 865; primary typhilitis without appendicitis, **xlv**, 964, 965; recovery from extensive peritonitis following appendicitis, **xxxiv**, 828; recovery from extensive peritonitis following cholecystitis, **xxxiv**, 831; removal of external ear for epithelioma, **xxix**, 491; report on the surgical anatomy of gall-bladder and ducts, **xxix**, 721, 758; resection of intestine for gunshot wounds, **xxxiii**, 474; result of removal of the sternocleidomastoid muscle, **xl**, 1019; retrocolic abscess from appendicitis, **xxxix**, 102; retroperitoneal abscesses, **xxxv**, 107; rupture of the kidney, **xxxvii**, 97; rupture of the spleen, **xxxvi**, 278; ruptured tubal pregnancy, complicated by appendicitis, **xxxi**, 254; sarcoma of the fibula, **xxxvi**, 614; sarcoma of the inguinal glands, **xlv**, 149; sarcoma of the pterygomaxillary fossa, **xxxvi**, 448; separation of the upper epiphysis of humerus, with dislocation, **xlvii**, 624; some practical deductions from personal experience in the treatment of appendicitis, **xlvi**, 158; stab wound of the stomach, **xxxvi**, 611; stone in common duct, with acute septic cholangeitis, **xxxix**, 104; stone in common duct without characteristic symptoms, **xxxix**, 103; stone in the pelvic ureter, **xl**, 586, 588, **xli**, 132; strangulated inguinal and properitoneal hernia, **xxxix**, 290; suppurating hydatid liver cyst complicating cholelithiasis, **xlviii**, 615; surgery of peritoneal tuberculosis, **xlvi**, 147; surgery of the vascular system, **xlvi**, 476; suture of fractured olecranon, **xxxvi**, 610; suture of old rupture of quadriceps extensor tendon, **xxix**, 490; symmetrical gangrene of the legs in Raynaud's disease, **xxviii**, 125; thyroglossal dermoid, **xxxvii**, 96; transverse incision of knee-joint for drainage in severe infections, **xlv**, 463; traumatic epilepsy, **xlvii**, 617, 618; traumatic rupture of the pancreas, **xlvii**, 619; traumatic subdural hæmatoma,

xxxiii, 328; traumatisms of the kidney, xxxix, 597; treatment of wounds of the liver, xli, 139; trephining for epilepsy, xxxi, 497; two perforations of gastric ulcer within six months, xlviii, 620; ultimate results of neurectomy for torticollis, xli, 769; umbilical hernia, xxxix, 1005; use of gloves in operative surgery, xxviii, 135; vanishing tumor of the pylorus, xliv, 296.

Briddon, Charles K.: Amputation through the hip-joint, xxvii, 524; carcinoma of colon, xxiii, 601; carcinoma of the parotid gland, xxx, 219; case of laryngectomy, xxi, 59; cases of nephrectomy, xx, 168, 170, 417; cases of ruptured kidney, xix, 641; cholecystectomy, xx, 367; cholecystenterostomy, xxiii, 285; cholecystotomy, xxiii, 284, xxvii, 532; choledochotomy, xxvii, 529; cholelithiasis with cholecystitis, xxxi, 261; cholelithotomy, xvii, 206; coccygeal dermoid cyst undergoing epitheliomatous degeneration, xx, 171; contribution to the surgery of the pelvis of the kidney, xxvii, 416; control of hemorrhage during amputation at the hip-joint, xxv, 741; death from choking with vomit during anæsthesia, xxvii, 372; diagnosis of abdominal tumors, xvii, 339; dislocation of humerus complicated by fracture of the surgical neck, xix, 496; elbow-joint ankylosis, xxix, 364; excision of astragalus for talipes, xxvii, 529; excision of Gasserian ganglion, xxiii, 60; exophthalmic goitre, xxi, 66; exploratory incision in cases of large ovarian tumors, xix, 97; extirpation of sarcoma of tongue, xxiii, 193; extraperitoneal uterolithotomy following nephrectomy, xxi, 29, 76; fracture of cervical vertebra, xxix, 341; gastro-enterostomy with Murphy button, xxii, 794, xxv, 100; group of cases of appendicitis, xvii, 197; hip-joint amputation for sarcoma of femur, xxi, 62; hysterectomy for uterine fibroids, xxi, 592; ileotomy for carcinoma of colon, xx, 414; infection of omental stump after operation for hernia, xvii, 321; intestinal obstruction, xvii, 341; intestinal obstruction following appendicitis, xix, 677; intestinal obstruction by gall-stone, xxv, 101; intestinal obstruction from twist of bowel caused by axial rotation of a mesenteric tumor, xvii, 63; intraperitoneal rupture of bladder, xxii, 706, 795; intussusception, xx, 418; jejunostomy for inoperable cancer of the stomach, xvii, 310; laparotomy for ectopic gestation, xxi, 63; laparotomy for typhoid perforation of intestine, xxiii, 198; ligation of common carotid for aneurismal tumor of the orbit, xxx, 227; lithotomy and prostatectomy after fracture of spine, xix, 609; nephrectomy for pyonephrosis, xvii, 318; nephrotomy for renal calculi, xxx, 367; nerve resection for sarcoma, xxi, 53; operation for carcinoma of penis, xxix, 342; operation for ectopic gestation, xxii, 797; operation for prolapse of ileum through unclosed Meckel's diverticulum, xxviii, 647; operative treatment of hernia, xxi, 589; parietal incision for gall-bladder operations, xxiii, 287; perforating wound of chest-wall, xxix, 495; place of the Murphy button in gastro-enterostomy, xxvi, 119; popliteal aneurism, xxix, 608; posterior gastro-enterostomy with Murphy's button, xxix, 485; posterior gastro-enterostomy for pyloric obstruction, xxviii, 251; preliminary tracheotomy in operations on the upper air-

passages, xxv, 743; prostatectomy, xxix, 348; pyonephrosis and nephrectomy, xxi, 65; recurrent carcinoma of neck, xxiii, 739; removal of biliary calculi from the common duct by the duodenal route, xxviii, 517; removal of both breasts for carcinoma, xxviii, 655; removal of cervical lymphomata, xxix, 356; removal of tongue for carcinoma, xxix, 361; resection of joints for tuberculosis, xxiii, 181; results of castration for prostatic hypertrophy, xxiii, 741; results after operation for carcinoma of rectum, xxvii, 90; sarcoma of kidney cured by nephrectomy, xxii, 270; severe pharyngeal syphilitic stenosis relieved by operation after tracheotomy, xvii, 705; surgical treatment of diseases of the liver, ii, 51; technic of resections of the rectum, xxi, 56; technic of laminectomy, xxv, 106; thyroidectomy, xvii, 207, xxiii, 288; traumatic aneurism of the superficial femoral artery, excision, xxix, 605; treatment of renal tuberculosis, xxvii, 84; treatment of spine and cord injuries, xxi, 483; treatment of tubercular peritonitis, xxv, 738; trephining for Jacksonian epilepsy following depressed fracture of skull, xvii, 329; tubercular peritonitis, xix, 85; tumor of abdominal wall, xx, 372.

Bright's disease (see also Nephritis), decapsulation of kidney for, xxxix, 617; surgical treatment of, xxxix, 617.

BRINKMAN, LEON: Drainage of the chest in empyema without tubes, xxxvii, 952.

BRINSMADE, WILLIAM B.: Chyle cysts of the mesentery, xlviii, 565; Madelung's deformity of the hands, xlvii, 794.

BRINTON, JOHN H.: Choice of operations upon the male bladder, xxx, 353; fractured bones in the lower animals, xxxviii, 889; surgical relations of the thoracic duct in the neck, xx, 86.

Brisement force, suppuration after, ii, 345.

BRISTOW, ALGERNON T.: Avulsions of brachial plexus, xxxiv, 411; inequalities of the right and left femora, l, 313; inflation of the bladder as a preliminary to suprapubic cystotomy, xxviii, 683; stone in the bladder associated with intermittent pneumaturia and later fecal fistula, xlvii, 1013, 1057; use of air to dilate the bladder in suprapubic cystotomy, xvii, 667.

Broad ligament, hæmostasis of, xxxv, 802, 829; papillomatous cystic disease of, ii, 439; primary fibromyomata of, xlvi, 854.

Bromide of ethyl as an anæsthetic, xiv, 294; in dental surgery, xi, 219, 220; narcosis with, xii, 351, xv, 312.

BROKAW, AUGUSTUS VON LIEW: Removal of tack from bronchus, xxxvi, 847.

Bronchial fistula, thoracoplasty for, xxxi, 256.

Lymph-glands, recurrence of hypernephroma in, xxxviii, 910.

Bronchiectasis, operation for, xlix, 865.

Bronchocele, remarks on the symptoms, and results of operative treatment of, xxx, 564; on resection of, iii, 165; surgical treatment of certain forms of, xxii, 289, 792.

Bronchoscopy, xxxix, 194, xlvii, 321.

Bronchotomy through chest walls for foreign body impacted in bronchus, xv, 324; intramediastinal, xxxvii, 299.

Bronchus, foreign body in, viii, 136, xii, 364, xxii, 519, xxxix, 1019; xlv, 369; metallic, xliii, 447; posterior thoracotomy for, xxviii, 605, 656; removal of, by electro-magnet, xl, 358.

Œsophagotomy for a penny which had ulcerated into the, vi, 255.

Removal of tack from right, xxxvi, 847; of tracheotomy tube from, iv, 72.
Brooks, Macy: Hernia cerebri, xlvii, 146.
Brow, preservation of the nerve supply to, in the operative approach to the Gasserian ganglion, xliii, 1.
Brown, F. Tilden: Aberrant adrenal growths, xxxix, 299; advantage of lateral position in certain operative procedures, xlv, 302; air-distention of the bladder in suprapubic cystotomy, xxv, 141, 180; bursitis gastrocnemiosemimembranosa, xxx, 61; catheterization of the ureter, xxx, 645; cholecystotomy and carcinoma of the pancreas, xxvii, 535; cirrhotic ascites treated by peritoneal anastomosis, xxxi, 489; clamp for femoral vessels during hip-joint amputations, xxiii, 67; closure of intestinal perforations complicating typhoid fever by suture of, xxxvii, 380; Colles's fracture, with fracture of styloid process of ulna, xxviii, 651; composite cystoscope, xxxv, 642; compound dislocation of ankle in an aged man, xxviii, 647; control of hemorrhage during amputation at the hip-joint, xxv, 741; cystotomy for large vesical calculus not demonstrated by the X-ray, xlv, 765, 766; differentiation of the urines, xxx, 661; dislocation of the patella, xxxv, 636; excision of gastric ulcer, xxix, 629; excision of gastric ulcer of posterior wall, xxx, 95; excision of knee in an adult for tuberculosis, xxviii, 646; excision of knee-joint for flexure ankylosis, xxxix, 285; fibrochondroma of the sphenoid, xxx, 97; fracture of patella requiring excision of the knee, xxix, 490; gangrenous pancreatitis, xxxvii, 942; gastric ulcer of posterior wall, xl, 419; gastro-enterostomy, xxxvii, 941; gastro-jejunostomy for carcinoma of pylorus, xxxvi, 953; hæmaturia, xlii, 602; hemorrhage from bullet wound of renal vessels, xxxvii, 948; hip-joint amputation, xxv, 93; hydronephrosis, xliii, 628; implantation of dermoid tumor, Hartley's case, xxiii, 606; improved cystoscope, xlvii, 463; kidney board and arm gallows, xlvii, 294; large branched calculus in each kidney, xlv, 766; later history of tuberculous ureter after nephrectomy, xxix, 755; ligation of the vasa deferentia for prostatic hypertrophy, xxiii, 737, 744; Morrison's operation for ascites, xxxvi, 191, 272; movable cartilage in knee-joint, xxxv, 637; nephrectomy for calculous pyelonephrosis, xli, 131; nephrectomy for hydronephrosis, xlv, 765; nephrectomy for renal hæmaturia, xlv, 460; nephrectomy for renal tuberculosis, xxix, 609, xxxiii, 478, xli, 129, xlvii, 294; nephrectomy for traumatic rupture of the ureter, xli, 127; nephrectomy for wound of ureter during hysterectomy, xli, 126; non-obstructive postoperative anuria, xxxiii, 225, 336; operation for cure of relapsing inguinal hernia, xxv, 361; perforative cholecystitis, xxxvi, 270; perineal galvanocautery prostatotomy, xxxix, 809; perineal prostatectomy, xliii, 622; prostatectomy and epicystotomy for stones, xxxvi, 438; relapse after nephrectomy for renal sarcoma, xxii, 270; remarks on stone in the ureters, xli, 133; remarks on vasectomy, xxvii, 769; report of successful hip-joint amputations, xxxiii, 153; resection of epididymis for tuberculosis, xxx, 649; rupture of spleen, xxxvi, 280; ruptured bladder, xl, 271; secondary fracture of the patella, with extreme displacement, xxviii, 263; status of a

case four months after right nephrostomy, **xlv**, 455, 458, 459; stone in the ureter, **xlv**, 767; subdural implantation of sheet of celluloid after trephining, **xxii**, 386; suprapubic partial prostatectomy, **xxxix**, 808; surgical crutch with adjustable leg-rests, **xxi**, 585; synchronous left ureterostomy and right nephrostomy for hydronephrosis due to ureter obstruction by bladder tumor, **xlvii**, 287; thyroidectomy, **xxv**, 92; traumatic strangulated inguinal hernia, **xxxix**, 287; treatment of general peritonitis, **xxxvi**, 443; treatment of paralytic talipes calcaneus by astragalectomy and backward displacement of the foot, **xlvii**, 291; treatment of tubercular cystitis, **xxxiii**, 335; tuberculosis of the kidneys, **xxix**, 496, **xxxv**, 416, 419; tuberculosis of the testis, **xlvii**, 290; typhoid perforation, **xxxvii**, 287; unilateral renal hæmaturia due to pyelitis cystica, **xlvii**, 462; ununited fracture of the forearm, **xxxiv**, 416; ureteral transplantation and nephrectomy for tuberculosis, **xxxv**, 638; ureterostomy and nephrostomy for hydronephrosis, **xlviii**, 314; ventral hernia, **xxx**, 98; volvulus, **xxx**, 102, **xlii**, 590.

Pancreatitis, chronic, resembling, **xlvi**, 315.
Penis, **iii**, 412; operation, **xxix**, 343.
Personal experiences, **vi**, 77.
Pharynx, **xxii**, 450.
Pregnancy, influence on, **xlvi**, 487.
Present state of knowledge, **xvii**, 478.
Primary, of the bulbous

urethra, **xxxix**, 375; of the female urethra, **xi**, 76; of hepatic ducts, **xlvii**, 728; of lymphatic glands, **ii**, 154.
Pylorus, **iii**, 524, **viii**, 472; excision, **iii**, 524; gastrojejunostomy for, **xxxvi**, 953.
Rectum, **iii**, 255, **vii**, 54, 138, **ix**, 131, **xxii**, 485, **xlii**, 273, 277, 279; colotomy for, **vi**, 78; excision of, **xvii**, 394, 503, **xvi**, 444, **xlvii**, 280; in first twenty years of life, **ii**, 342; method of extirpation of high, **ii**, 414; methods and results of excision of, **xv**, 373; sigmoid colotomy in, **x**, 79.
Recurrent, after extirpation, **xiv**, 250.
Secondary, development of, **iii**, 407; late, without local recurrence, **xlii**, 934.
Serum reaction in, **xlix**, 27.
Sigmoid flexure, **xvii**, 61.
Sixteen year old negress with, **xlvi**, 143.
Skin, use of arsenic, **xvii**, 612.
Spontaneous cure of, **xvii**, 611; healing in man, **xx**, 476.
Stomach, **viii**, 212, **xliii**, 927; gastrectomy for, **xxxix**, 997, 999; gastrostomy for pedunculated, **xxiv**, 310; new operations, **vi**, 450; pylorectomy, **xxxi**, 758; remarks on, **xlv**, 972; removal of greater part for, **xxxiii**, 197.
Study of 170 cases, **xx**, 1, 73, 76.
Surgical dissemination, **ii**, 98.
Testicle, in infants, **i**, 482.
Thorough operation for, **xvi**, 263.
Thymus-gland treatment of, **xlvi**, 86, 643, **xlvii**, 506.
Tongue, **xxii**, 446, **xliii**, 319; excision, **xxix**, 360, **xliii**, 437; remarks upon, **xxiv**, 682; removal of, **v**, 539; result after excision of, **xxix**, 359.
Toxine treatment, **xxvi**, 275.
Transmissibility, **xii**, 351; by contact, case of, **xvii**, 369.
Transmission by contagion, cases suggesting, **xxxiii**, 492.
Transplantation, in dogs, successful, **xxiii**, 237.
Ulcer, crateriform, a type of epithelial, **iv**, 357.
Unusually situated, partial gastrectomy for, **xlviii**, 444.
Urethra, **xix**, 461.
Uterus, **iv**, 367, 370, 371, **v**, 449; dilatation, **v**, 449; extirpation and amputation, **ix**, 150; high amputation, **iii**, 532; hysterectomy by the sacral route, **xvi**, 416; statistics, **iv**, 370; supravaginal amputation of cervix, **xvii**, 504, 507; vaginal hysterectomy, **iii**, 177, 359, 444, **vi**, 275, **xvi**, 83, 429, 477.
Vaginal hysterectomy for, **xix**, 697.
Walls of great vessels, treatment of, involving, **xxvii**, 94.
Why may recurrent, be locally worse than the primary disease in the same region? **xxvii**, 238.
X-ray dermatitis, multiple, following, **xlvi**, 649; treatment, effect of, **xxxvi**, 293; final results, **xlii**, 161; postoperative, **xlvii**, 254; value of, **xlii**, 799, 910.
Youths, in, **xxxii**, 608.
Reviews of Books: Carcinoma, by Parker, **ii**, 524; Carcinoma and Tumor Formation, by Williamson, **viii**, 238; Carcinoma of Mouth, Tongue, etc., by Jesset, **v**, 96; Contagion of Carcinoma, by Guelliot, **xvii**, 212; Das Gewebe und die Ursache der Krebsgeschwulste, by Finley, **xxxix**, 316; Lectures on Carcinoma, by Spencer Wells, **x**, 147; Nature and Origin of Carcinoma, by Feinberg, **xxxix**, 316; Operations for Mammary Carcinoma, **xxxiv**, 309.
Cardiac impulse in relation to opening the cranial, pleural, and abdominal cavities, **xii**, 273.
Cardiolysis and its indications, **xxxviii**, 907.
Cardiospasm, **xliii**, 224, 928.
Cargile membrane, **xlii**, 159; experimental and histological study of, **xlix**, 787, 801.
Caries from otitis media, operative treatment of, **i**, 580; sicca, **xlviii**, 151.
CARMALT, W. H.: Conditions de-

manding excision of the globe of the eye, **xvi**, 211; presidential address, American surgical association, **xlvii**, 1044.

CARMANY, H. S.: Excision of half of the lower jaw and half of the tongue for epithelioma, **xlv**, 305.

Carotid arteries, contribution to the surgery of, **xxv**, 617; temporary closure of, **xxxv**, 441.

Carotid artery, common, aneurism of, cured by ligature, **xvi**, 433; distal ligation of right, simultaneously with right subclavian, **xiii**, 336.

Fishbone wound of, **iii**, 234.

Ligature of, **v**, 350, **xlvi**, 931; ligature, for aneurism, **ii**, 415; for aneurismal tumor of the orbit, **xxx**, 227; distal ligation of, for aneurism, **xxxv**, 280; ligature of both, **xl**, 669; ligature of, for intracranial aneurism, **xiv**, 410; ligature of both, **xxxvii**, 443; ligature of, death from anomaly of circle of Willis, **xxxviii**, 878; preliminary, ligature of, in resection of upper jaw, **xxxv**, 684; ligature of, for secondary hemorrhage, **xii**, 116; simultaneous, of both carotids, **x**, 265; subclavian and, for innominate aneurism, **v**, 538.

Thrombus of, **xli**, 778.

Carotid artery, external, excision for inoperable cancer of the larynx and pharynx, **xxxiv**, 568; for inoperable cancer of the tongue and floor of the mouth, **xxxix**, 567; with ligation of internal, for malignant disease, **xlii**, 310; for malignant growths, **xxvii**, 127; for malignant tumors of the skull, **xxix**, 259; for sarcoma, **xxvi**, 366; for sarcoma of upper jaw, **xxiv**, 494; for starving malignant growths, **xxxii**, 296.

Ligature of, **x**, 183, **xl**, 257, 269, **xlix**, 767, 862, 872; for cirsoid aneurism, **xxxiv**, 414; for hemorrhage, **xxxiv**, 21; for malignant disease of face, **xxx**, 228; for nasopharyngeal sarcoma, **xxiii**, 189; preliminary, **xviii**, 257, **xlix**, 862.

Carotid artery, internal, erosion of, with hemorrhage from exterior auditory meatus, **i**, 559; fatal hemorrhage in carcinoma, **xii**, 221.

Traumatic aneurism of, **iv**, 164; causing pulsating exophthalmos, **xxxix**, 649, **xlvi**, 928.

Carotid body, endothelioma of, **l**, 808; tumor of, **xliv**, 393, 460.

Carotid gland, endothelioma of, **xliv**, 460.

Carpal bones, dislocation of individual, **xxxvii**, 296, 402; fracture and dislocation of the, **xxxiv**, 298.

Carpal scaphoid, dislocation of, **xxxviii**, 97.

Fracture of, **xlii**, 260, **xli**, 321, 863; with habitual dislocation, **xli**, 265; with dislocation of the semilunar, **xlvi**, 161; simple, **xlvii**, 72, 130.

Carpometacarpal dislocation, **xliii**, 906.

Carpus, dislocation of, **xliii**, 939; method for resection of, **xiv**, 524.

CARREL, ALEXIS: The reversal of the circulation in a limb, **xliii**, 203.

CARSON, NORMAN BRUCE: The cranial "cracked-pot" sound as a symptom of cerebellar tumors, **xxviii**, 329; intramesenteric perforation of small intestines in typhoid fever, **xxxvi**, 623.

Cartilage, carcinoma of, **iv**, 359; epiphyseal changes, after exarticulation, **xii**, 449; growths in larynx, **xi**, 282; intermediary, studies in the transplantation of, **xx**, 617; movable, in knee-joint, **xxii**, 114, **xxxv**, 637.

CARTLEDGE, A. M.: Intussusception subjected to operation, **xliv**, 674.

CARTNETT, JOHN BERTON: Surgical hernia of cæcum, **xlix**, 491.

CASSELBERRY, WILLIAM E.: Carcinoma of the larynx, **xxxvi**, 620.

Castor oil and balsam of Peru mixture as a surgical dressing, **xxvi**, 329.
Castration, double, **vi**, 31.
Female, in cavernous myofibroma of the uterus, **iv**, 370.
Myomata, for, **xxii**, 409.
Osteomalacia, in, **xxii**, 412.
Prostatic hypertrophy, for, **xxi**, 217, **xxiii**, 486, 687, 741, **xxiv**, 223, 265, 388, **xxv**, 381; without benefit, **xxxviii**, 378; questions involved in, **xxvi**, 107, 121; results, **xxii**, 1, **xxvii**, 684, **xxxii**, 309; for recurrent carcinoma of epididymis, **viii**, 446.
Treatment of wound after, **v**, 8.
Tuberculosis of testicle, for, **vi**, 54, **xli**, 778, **xlvii**, 292; primary, **ix**, 387; primary, **x**, 169; results, **xxxvi**, 309.
Unilateral, effects on the prostate, **xxi**, 492.
Value of, to facilitate detection of stone in the bladder in the presence of prostatic hypertrophy, **xxvii**, 329, 383.
CATELLANI, L.: Inguinal hernia, without a peritoneal sac, **xxviii**, 712; presence of cæcum and appendix in left femoral herniæ, **xxviii**, 708.
Catgut, arrangement of, **viii**, 450; bacteriological researches upon its manufacture, **xiv**, 156; chromicized, the preparation of, **xxiii**, 768; dry iodine, **xlii**, 321; formalin, **xxiii**, 187; infection, **xi**, 218, **xiv**, 155, **xxiii**, 109; silverized, **xlv**, 110, **xlviii**, 769.
Sterilization of, by bichloride of palladium and of mercury, **xxii**, 801; by boiling in olive oil, **xx**, 56; by formaldehyde gas, **xxix**, 290; by the Jefferson method, **xxvii**, 49; by maceration in ether and ether solution of corrosive sublimate, **xix**, 591.
Cathartics, the abuse of, in obstruction of the bowels, **xliv**, 155.
CATHCART, CHARLES W.: Ligation of the lingual artery through the mouth in excising half of the tongue, **xxxvi**, 15; recent contribution to the literature of cholecystotomy, **iii**, 397; surgery of the liver, discussion at the 1886 meeting of the British Medical Association, **v**, 234.
Cathelin urine divisor, test as to efficiency of, **xxxvii**, 799.
Catheter, celluloid, removed by absorption from the bladder, **xi**, 294; fever, **ii**, 239, **xii**, 72, **xlix**, 90; has it a place in the treatment of chronic prostatic hypertrophy, **xli**, 492; in peritoneal cavity, **xxxviii**, 446; renal, as an aid in the diagnosis of valve-like obstruction of the ureter, **xlvi**, 870; simple method of fastening in, after perineal section, **xii**, 77.
Catheterization, dangers attending, in certain forms of retention, **xi**, 295; of male urethra, **v**, 84.
Catheters and **bougies**, sterilization of, **xxix**, 661.
Cauda equina, endothelioma of, **xlii**, 279; injury of, **xxx**, 511; tumor of, removed by operation, **xlvi**, 603.
Caustics, use and place of, in treatment of carcinoma, **xvii**, 392.
Cavernous sinus, alveolar abscess with thrombosis of, **iv**, 170.
Cells, Hansemann's studies on, (review of), **xviii**, 691.
Cellulitis, prevesical idiopathic, **xvii**, 105; retroperitoneal, complicating posterior urethritis, **xxi**, 196.
Celluloid plate, use of, to supply defects in cranial wall, **xxviii**, 132.
Celosoma, case of, **xliv**, 290.
Cephalhydrocele, traumatic, **viii**, 304.
Cerebellar fossa, operations in, **xliv**, 753.
Cerebellum, abscess of, successfully treated by operation, **xvi**, 387; serous cysts in, **xvi**, 387; tumors of, cranial "cracked-pot" sound as a symptom of, **xxviii**, 329.
Cerebral, cerebrum (see Brain).

Cerebral abscess, and cerebellar abscess, trephining for, **xi**, 352, 355, 356, 357; due to otitis media, **xxiii**, 66; operations for, **xix**, 723; after orbital periostitis, **iv**, 334; after otorrhœa, successfully operated on, **xvii**, 613; subdural, **xi**, 81; traumatic, **xl**, 650; after traumatic periencephalitis, **xxvii**, 57; trephine treatment for aphasia from, **xii**, 216.
Concussion, contribution to the theory of, **xxiii**, 163.
Contusion, **xliii**, 936.
Cyst, insanity from, cured by aspiration, **iii**, 522; trephining for, **xxvii**, 770.
Disease, trepanation for, **xv**, 467.
Exploration, case of, **xvi**, 434.
Hemorrhage, traumatic, **xlviii**, 633.
Hernia, **xlvii**, 146; treated by silver-plate obturator, **iii**, 520.
Injury, due to depressed fracture of the skull, **xlviii**, 125.
Localization, necessity of surgeon's study of, **ii**, 110.
Pressure, **xxxv**, 679.
Sinuses, surgical occlusion of, **xxix**, 135, **xxviii**, 161; thrombosis of, due to otitis media, **xxiii**, 114.
Surgery at the congress of Italian surgeons in 1892, **xvi**, 541; experiences in, **xlv**, 481; statistical contribution to, **i**, 197.
Trauma, with astereognosis, **xlix**, 129.
Tumor, **xli**, 653, 794; of the dura mater, removal of, **iii**, 416; fresh points in the operative treatment of, **xix**, 724; of left frontal lobe, report of a case of, **xvii**, 127; one hundred cases of, **iv**, 510; removal of, **xi**, 113.
Reviews of Books: Treatise on Cerebral Surgery, by Broca and Maubrac, **xxiii**, 771; Tumors of the Cerebrum, by Mills, **xlv**, 795.
Cervical adenomata, extirpation of, **x**, 246.
Fascia, rôle of, in producing anteroposterior curvatures of the spine, **xxvi**, 676.
Glands, enlarged, operative technic of removal of, **xxviii**, 229.
Lymph-nodes, tubercular, surgical treatment, **xlii**, 49; technic of early operation for the removal of, **xlviii**, 169.
Meninges, intradural tumor of, removal, **xxxix**, 934.
Region, dislocation of vertebræ in, **xliv**, 641.
Rib or ribs, **xl**, 437, **xxviii**, 509, 578, 637, **xli**, 766, **xlii**, 123, **xliv**, 630, **xlv**, 638; with symptoms resembling subclavian aneurism, **xli**, 399.
Sympathetic ganglia, excision of, for exophthalmic goitre, **xxxiii**, 469.
Vertebra or vertebræ, dislocation of, **i**, 75, 77, **xxix**, 341; exploratory operation in, **iii**, 490; fractures of, **x**, 155, **xxix**, 638; second, fracture with recovery, **xli**, 472.
Cervix uteri, Cæsarean section on account of a fibroid tumor of, **iii**, 443; carcinoma of, **iii**, 356, 444; surgical treatment of, lacerations of, **xxvii**, 333.
Chair and sewing cushion for working schools, **xvi**, 270.
Chancre, excision of, **ii**, 299; primary, **viii**, 62, 67; recurrent, **iii**, 363; of tongue, **xxii**, 353; of tongue, throat, etc., **iv**, 86; of uterus, non-infecting, **vi**, 355.
Chapman, W. Louis: Postoperative pneumonia, with experiments upon its pathogeny, **xxxix**, 700.
Charcot's disease, **i**, 256, 259, **xxi**, 588; of the hip in locomotor ataxia, **xx**, 369; of the knee, **xxv**, 489; resection of knee-joint for, **xxxii**, 130; of the tarsal joints, **xliv**, 119.
Charts for recording surgical cases, **xxxii**, 823.
Chase, Henry Melville: Diagnosis and treatment of fracture of the carpal scaphoid and dislocation of the semilunar bone, **xli**, 321, 863; operation in spinal-cord injuries, **xxxix**, 495.

CHAVASSE, THOMAS F.: Interscapulothoracic amputation for injury, **xxiv**, 182; on thyroidectomy, **vi**, 1; treatment of urethral strictures by Wheelhouse's method, **viii**, 167.

Cheek, angioma of, injection of ferric perchloride in, **ix**, 453; carcinoma of, **xl**, 601, **xlvii**, 814, **xlviii**, 313; gangrene of, **xxvi**, 241; lymphangioma of, **xliv**, 945; method of operation in extensive cancerous growths involving the jaw and, **xlviii**, 515; plastic, after excision of epithelioma, **xxxviii**, 113, **xxxix**, 812; new method, **vi**, 499.

Treatment of large defects of mucous membrane of, **xi**, 379.

Use of tongue in supplying a defect of the, **xlv**, 573.

CHEESMAN, WILLIAM S.: Dislocations of the patella, with rotation on its horizontal axis, **xli**, 107; extirpation of a hypernephroma from an infant, **xlv**, 91.

Cheiloplasty by borrowing from healthy lip, **xxii**, 131; methods of, **xxi**, 358.

Chemical irritants as causes of suppuration, **ii**, 497.

Chemistry (reviews of books on), Essentials of Medical Chemistry, by Wolff, **ix**, 478; Textbook of Physiological Chemistry, by Simon, **xxxv**, 136, **xlii**, 965.

Chemotaxis and leucocytosis, relation of, to the action of antiseptics, **xxv**, 370.

Chest, dermoid cyst of, **x**, 389; drainage without tubes, in empyema, **xxxvii**, 952; empyema, drainage in, **xxxvii**, 956; mammillaplasty at, **ix**, 277.

Wall and diaphragm, resection of, for primary sarcoma of pleura, **xliii**, 645; enchondroma of, involving diaphragm, successful removal, **xxxvii**, 724; excision of portions of, for malignant tumors, **xliii**, 35.

Wounds, involving internal mammary artery, **ix**, 365; penetrating, **xl**, 675, **xliv**, 950.

Reviews of Books: Diseases of the Chest, by Harris, **ix**, 316; Diseases of the Chest, Throat, and Nasal Cavities, by Ingal, **xvii**, 378; Injuries of the Chest, by Bennett, **i**, 587; Surgical Diseases of the Chest, by Beck, **xlvi**, 646.

CHETWOOD, CHARLES H.: Prostatectomy in two stages, **xliv**, 563; prostatism without enlargement of the prostate, **xli**, 497.

CHEVERS, MARTIN JOSEPH: Branchial fistula, **xliii**, 854.

Chewing gum, nucleus for vesical calculus, **xli**, 479, **xliv**, 292, 479.

Chiasm, proposal how to reach tumors of, by operation, **xl**, 35, 124.

Chicago Surgical Society, Transactions of, **xxxiii**, 75, 339, 494, 653, 801, **xxxiv**, 193, 320, 839, **xxxv**, 287, 426, 659, 829, **xxxvi**, 155, 459, 617, **xxxvii**, 290, 463, 785, 961, **xxxviii**, 310, 453, **xxxix**, 131, 454, 617; **xl**, 288, 436, 601, **xli**, 302, 625, 791, **xlii**, 137, 302, 626, 779, 794, **xliii**, 462, 630, 703, 944, **xliv**, 141, 463, 623, 630.

Child, is resection of the knee-joint justifiable in the, **ix**, 439; laparotomy in a, one hour old, **ix**, 226; subluxation of head of radius in, **ix**, 401; traumatic aneurism in, under one year, **ix**, 225.

Review of Book: Frozen Section of a Child, by Thomas Dwight, **i**, 189.

Childhood, breast-tumors in, **xlviii**, 662; congenital tumors of, **xxx**, 600.

Reviews of Books: Diseases of Childhood, by Donkin, **xix**, 377; Surgical Diseases of Childhood, by Schoenborn, *et al*, **vii**, 317.

Children, comparative danger of various anæsthetics in, **xxxix**, 815; empyema in, after-condition, **xvi**, 569; knee-joint exsections in, **iii**, 258, **viii**, 461; nocturnal enuresis in, **xi**, 65; peritonitis in, from unknown sites of infection, **xlviii**, 821,

932; subluxation of head of radius in young, iii, 530; suspension treatment of fracture of femur in young, frame for, xlix, 105; tuberculosis of knee-joint in, operation in, iii, 176; vesical calculus in, operations for, vi, 178, 179; weak ankles in, xxxv, 284.
Reviews of Books: Surgical Diseases of Children, by Owen, iii, 447; *Idem*, by D'Arcy Power, xxii, 539.
Children's Hospital of Boston (review of), report of, xxiii, 628.
China, south, lithotomy in, iii, 90; suprapubic lithotomy in, xv, 76.
Chirurgie (see Surgery).
Chloroform, dangers of anæsthesia by, vi, 143; deaths from, in 1884, ii, 409; deaths from, in 1885, iii, 512; effect of, on blood-pressure, xxxvi, 302; and ether narcosis, xii, 271; or ether—which? vi, 327; fatal after action of, xi, 467; influence of, on the kidney, xix, 719, 720; poisoning, delayed, pathology and metabolism of, xlix, 419; puncture of the heart in narcosis, vi, 251; report of the second Hyderabad commission on the action of, xi, 449; resuscitation, new method of, xvi, 162.
Syncope, treatment of, xvi, 252.
Use in tracheotomy, xv, 477.
Review of Book: New Theory of Chloroform Syncope, by Kirk, xii, 234.
Cholangeitis, acute septic, with gall-stone, xxxix, 104; due to colon-bacillus infection, xlviii, 922; suppurative, xxx, 230.
Cholectomy, five cases of, xxiii, 326.
Cholecystectomy, iv, 339, v, 321, 549, xv, 329, xvii, 334, xx, 367, xxxiii, 188, 189, xxxvii, 602, 774, 779, xxxix, 240, 271, 279; cause of death after, xlii, 792; and choledochotomy, xxxi, 764; xl, 593; following splenectomy for rupture of spleen, xlvii, 436; with formation of choledoduodenal fistula, xv, 481; for gall-stones, xlii, 120; primary, xl, 44, 128, 129, 134; report of eight cases with remarks upon technic, xvii, 232; *vs.* removal of the mucous membrane of the gall-bladder, xxxvi, 503.
Cholocystenterostomy, xi, 113, xix, 731, 733, xxiii, 285, xxxv, 105; in an aged patient, xxiv, 638; combined with entero-anastomosis, xxxviii, 763.
Murphy's button for, xix, 733, xxi, 73; death from hemorrhage, xxi, 581; ultimate stenosis of aperture, xxi, 485.
Cholecystitis, xxix, 435, 495, xxxiii, 785; acute, complicating typhoid fever, xxxiii, 68; complicated by Brown atrophy of heart, xlii, 792, 918; followed by extensive peritonitis, recovery, xxxiv, 831; gangrenous, xix, 197, 244, xxxvii, 115; gangrenous, after appendicitis, xxxiii, 761; non-calculous, xlix, 834; operative treatment of, xxx, 350; perforative, xxxvi, 270; relation to jaundice and gall-stones, xxxi, 443; serous, and suppurative cholangeitis, xxx, 230; suppurative, xxx, 229; suppurative, due to typhoid bacillus, xxxvi, 455; treatment, operative, of acute infections of, xxxviii, 140.
Cholecystocysticocholedochotomy, xxiv, 373.
Cholecystolithotomy, xxviii, 660.
Cholecystostomy, xxxiii, 785; improved technic for, xxvii, 53.
Cholecystotomy, i, 76, 362, ii, 271, 272, iii, 86, 88, 380, 397, iv, 183, 184, 251, v, 230, 237, 549, vi, 164, vii, 51, 400, viii, 214, 215, 312, ix, 98, 100, x, 274, 275, xi, 129, xiii, 152, xiv, 422, xix, 678, xxii, 86, xxiii, 179, 284, xxiv, 61, xxvii, 532, 535, xxxi, 644, xxxv, 647, xxxvi, 142, xxxix, 107, 600, xl, 134; for empyema of gall-bladder, xii, 335; for gall-stones, xii, 330; gall-stones

formed around silk sutures after, xxvi, 114; on the left side in a case of transposed viscera, xxix, 593; by the lumbar incision, x, 241; for pancreatitis, xlv, 959.
Choledoch duct, contribution to the history of operations on, xxv, 80.
Choledochocystotomy, case of, xxvii, 203.
Choledochoduodenostomy, xxxvii, 779.
Choledocholithectomy, xx, 741.
Choledocholithotomy, cases of, xxiv, 58, 59; question of priority in, xxviii, 155; technic of, xxiv, 761.
Choledochotomy, xxvii, 529, xxxvii, 779; and cholecystectomy, xxxv, 643; for chronic cholangeitis, xl, 412; retroduodenal, proposed method for, xxxviii, 275; transduodenal, l, 1273.
Cholelithiasis, xxxi, 261, xxxvi, 275; and acute pancreatitis, xliii, 143; cases operated at German Hospital of Philadelphia, 1907-8, xlix, 830; complicated by hydatid liver cyst, xlviii, 614; complications of, xvii, 639, 707; surgical treatment of, xxxviii, 343.
Cholelithotomy, xvii, 206.
Cholelithotripsy, xii, 369.
Cholera, secondary infection in, xiv, 389.
Chondroma, primary, of hyoid bone, xv, 477.
Chondro-osteoid sarcoma of thyroid body, iv, 272.
Chondrosarcoma, iv, 359.
CHRISTIAN, E. A.: The ultimate results in a case of exsection of the head and upper third of the humerus, vii, 431.
Chromic acid, local lesions caused by alkaline salts of, i, 303.
Chylocele of tunica vaginalis, viii, 321.
Chylothorax, ii, 263; right-sided, from rupture of the thoracic duct, iii, 83.
Chylous ascites, ii, 418; and carcinoma of the pancreas, xiv, 506.
Cyst, or cysts, of the mesentery, vii, 395, xliii, 380, xlviii, 565.
Cicatrices, hypertrophies and degenerations of, xviii, 253.
Cicatricial contractures, use of Wolfe grafts and tendon-lengthening in treating, xliii, 278, 304.
Ciliated epithelium, cysts containing, iii, 96.
Cinnamic acid in the treatment of tuberculosis, xix, 102.
Circulation of a limb, reversal of, xliii, 203.
Circumcision, xlv, 610.
Cirrhosis, hepatic, Narath's modification of Talma's operation for, xlvi, 831; of penis, v, 18; of the stomach, xliv, 666.
Cirrhotic ascites treated by peritoneal anastomosis, xxxi, 489.
Cirsoid (see Aneurism).
Clamp, for femoral vessels during hip-joint amputation, xxiii, 67; use of, in ununited fractures, xxvii, 553.
CLARK, CHARLES P.: Hydrocele in the female, xli, 740, 796.
CLARK, GEORGE A.: Peri-ureteral pelvic phleboliths, l, 913.
CLARK, WILLIAM COGSWELL: Adenoma of sebaceous glands of the abdominal wall, xl, 486.
Clavicle, backward dislocation of acromial end of, v, 410; congenital malformation of, xxx, 215; dislocation of the outer end of, xxxviii, 403; double dislocation of, ix, 154; double fracture of, xxv, 716; enchondroma of, xlvii, 465.
Excision of, xxxvii, 79; of acromial end of, with entire arm and scapula, iv, 255, 530; with perfect functional results, xlvii, 823; for recurrent sarcoma, viii, 232; for sarcoma, xxviii, 380, xxviii, 259.
Fracture of, iii, 174; associated with aneurism of subclavian, xxxvi, 146; complicated by rupture of axillary artery and of brachial plexus, xxxix, 1111: with injury to nerves, xxiii, 147, 200; mechanism of, i, 293; producing pneumothorax, xvii, 615; of sternal end of,

100; treatment of, **i**, 489, **xi**, 44; ununited, treated by suture, **xxxviii**, 99.
Ligature of subclavian vessels under, **iv**, 427.
Osteosarcoma of, **ii**, 343.
Regeneration of, after removal, **xxiv**, 49.
Removal of, with scapula and upper extremity, **xxii**, 736.
Septic osteomyelitis of the, **l**, 488.
Simultaneous dislocation of both, **iii**, 260.
Sternal dislocation of both, **xxiii**, 600.
Subperiosteal resection of a necrosed, **iv**, 373.
Supra-acromial dislocation, specimen of, **xxxvi**, 586.
Treatment of acromial dislocation of, by open incision, **xxxv**, 578, 652.
Cleft hand, case of, **xxiv**, 211.
Cleft palate, **xl**, 265; operative treatment of, **xviii**, 237, 466, 467, **xix**, 248, **xx**, 228, 598, **xxxvi**, 560, **xliii**, 5, 136; on infants, **xxx**, 121, **xxxix**, 1029; technic, **xliv**, 756; thirty-one cases, **xvi**, 435.
Cleft palate and harelip, **xxxix**, 283; mortality of operations for, **v**, 60; newer conceptions of operative technic in, **xlix**, 34.
Clefts of jaw, lip, and face, **i**, 578.
Clinical Contributions, by Bergmann (review of), **viii**, 476.
Clinical Diagnosis, by Jaksch (review of), **xliii**, 482; *Idem*, by Klemperer (review of), **xxviii**, 409.
Clinical Investigation, Atlas of Methods of, by Jakob (review of), **xxviii**, 409.
Clinics, International, 1904, vols. ii and iii (review of), **xli**, 156.
Clinics, Saturday Surgical, at the German Hospital, **xlv**, 431, **xlvii**, 761, **xlix**, 824.
Clitoris, elephantiasis of, **xiii**, 222.
Clot, relation of, to suppuration, **ix**, 352; wound healing under moist, **v**, 419; wound treatment, dry aseptic, **ix**, 221.
Club-foot, aggravated, **xli**, 949; congenital, pathology and etiology of, **ii**, 164; due to exostosis of fibula, **xix**, 679; excision of the astragalus for, **xxix**, 270, 632; excision of astragalus and tendon-grafting for, **xlii**, 932; extirpation of ankle in, **xviii**, 248; new operation for, **xii**, 471; non-deforming, **xxxvi**, 289; operative cure of, in adult, **xxxvii**, 430; operative treatment of, **vi**, 92, **xix**, 257, 369; operative treatment of inveterate and relapsed cases, **xxix**, 449; Phelps' method of treating, **viii**, 459; relieved by excision of astragalus, scaphoid, and cuboid, **xxxv**, 645; results of orthopedic surgery in, **ix**, 306; supramalleolar osteotomy, for obstinate, **xxviii**, 517; tarsotomy in, **i**, 94; tendon transplantation for congenital, **xlvii**, 135.
Treatment of, **xviii**, 597; by division of ligaments, **ii**, 167; by forcible reduction, **xii**, 468; in Heidelberg clinic, **ix**, 307; by immediate restoration after tenotomy, **viii**, 396; by the Thomas wrench, **ix**, 101.
Clutton, Henry Hugh: Contribution to the surgery of the sacral region, **xxvii**, 253; gangrene of bowel from strangulation, cases of primary resection for, **xix**, 416.
Cobb, Farrar: Acute hæmatogenous infection of one kidney in persons apparently well, **xlviii**, 680; operative treatment of recurrent dislocation of ulnar nerve, **xxxviii**, 652; primary carcinoma of the omentum, **xliv**, 16; report of a second case of dislocation of ulnar nerve cured by operation, **xlviii**, 409; traumatic asphyxia, **xxxix**, 481.
Cocaine, anæsthetic properties of, **xvi**, 378; anaphrodisiac effect of, **x**, 445; dangers in use of in surgical treatment of hydrocele, **xvi**, 164; prolongation of anæs-

thetic effects of, **ii**, 409; status at the close of the first year of its use, **iii**, 51.
Use of, in amputation of digits, **v**, 417; in amputation of thigh, **iii**, 425; in cæcostomy for incomplete intestinal obstruction, **xlv**, 621; in ear surgery, **iii**, 64; in eye surgery, **iii**, 61; in general and minor surgery, **iii**, 58; in genito-urinary surgery, **iii**, 59; in gynæcology, **iii**, 61, **iv**, 368; in hæmophilia as a hæmostatic, **xviii**, 570; by intraperitoneal injection, during amputation of leg, **xxxvii**, 116; in laparotomy, **xvi**, 88, **xix**, 90; in litholapaxy, **v**, 81; novel extension of, **viii**, 299; in operations on lower end of ureters, **xli**, 216; in surgery, **xi**, 111, 278; in tonsillitis, **viii**, 305.
Review of Book: Cocaine Analgesia, by Manley, **xxi**, 251.
Cocainization of nasal mucous membrane preliminary to general anæsthesia, **xxiii**, 1, 62, 233; of nerve-trunks, as a preventive of shock, in surgical operations, **xxxvi**, 321; of spine, surgical analgesia by, **xxxii**, 847.
Coccygeal dermoid cyst, epitheliomatous degenerations of, **xx**, 171.
Fistula, **xxxi**, 340.
Coccygeal region, cystic tumors of, **xxii**, 134; teratoma of, **xxiii**, 187.
Coccyx, thyrodermoid tumor of, **xxii**, 502.
Codman, Ernest A.: Bone transference, **xlix**, 820; diagnosis and treatment of fracture of the carpal scaphoid and dislocation of the semilunar bone, **xli**, 321, 863.
Coffee, to disguise the odor of iodoform, **vi**, 144.

Craniectomy for microcephalus, **xviii**, 70, **xx**, 596.
Cranii exenteratio, **xxxiii**, 807.
Craniocerebral topography and its surgical application, **xxvii**, 82.
Craniotomy for microcephalus, **xix**, 502; result of linear, **xvi**, 271; for tumor of acoustic nerve, **xlviii**, 309.
Cranium (see also Brain, Cranial), blood tumors of, communicating with the superior longitudinal sinus, **v**, 355; drainage in the treatment of certain injuries and diseases of the floor of, **x**, 40; exploratory perforation of, **ii**, 14; extensive and comminuted fracture ending in recovery **xvii**, 226; fracture of the base of, followed by pulsating exopthalmos, **xviii**, 234; fractures of inner table of, **ii**, 9; gunshot wound of, **xliv**, 749; necrosis of osseous cap of, following burn of head, **xlv**, 641; osteoplastic operation for repair of bony defect in the, **xv**, 472; osteoplastic resection of, **xxx**, 324; pneumatocele of, **x**, 454; shot wound of, fatal, **xxv**, 365; slight risk of converting simple into compound fracture, **ii**, 5; tuberculous osteitis of the flat bones of, **iii**, 413; venous blood-tumors of, **i**, 324, 439.
Crateriform ulcer, **iv**, 357
Cressy, A. Z. C.: Cancrum oris treated by cautery excision, **xxxiv**, 289.
Cricoid cartilage, ecchondroma of, **v**, 71.
Cricolaryngotomy, **v**, 511.
Cricotomy, for papilloma of larynx, **v**, 511.
Crile, George: Case of fracture dislocation of cervical vertebra, with cross lesion of cord, **xxviii**, 639; contribution to the knowledge of endothelioma and perithelioma of bone, **xlii**, 358; fractures with fatal terminations, **xiii**, 373; further observations on transfusion, with a note on hæmolysis, **l**, 348; hæmolytic tests for malignancy, **xlvii**, 1063; hot-water bed for operating table, **xxxvii**, 860; research on the temporary closure of the carotid arteries, **xxxv**, 441; surgical aspects of Graves's disease, with reference to the psychic factor, **xlvii**, 864, 1061; technic of blood transfusion, **xlvi**, 329; of operations upon head and neck, **xliv**, 464, 469, 482; tubage of the pharynx in certain operations on mouth and face, **xxxvii**, 859; value of blood transfusion, **xlvii**, 1051.
Croup, intubation of larynx for, **xii**, 361; conditions following in children, **viii**, 305; results of, **xvi**, 391.
Review of Book: Relative Merits of Intubation and Tracheotomy, by Lovett, **xvi**, 367.
Croup and **diphtheria**, relative merits of intubation and tracheotomy for, **xvi**, 367, 532; stenosis of trachea after tracheotomy for, **iii**, 499; tracheotomy for, **iii**, 523.
Crucial ligaments, suture of ruptured, **xxxvii**, 716.
Cruroscrotal hernia, **xlix**, 98.
Cryer, M. H.: On the use of the Masland saw for opening the cranial vault, **xliv**, 315, 319.
Cryptorchism, complicated by torsion of chord, **i**, 74.

CUBBINS, W. R.: Œsophageal polyp removed by operation, **xliii**, 944.
Cubitus varus, traumatic, **xxxii**, 301, 610 (errata, 748), **xxxiii**, 48.
Cuboid, excision of, in club-foot, **ii**, 166.
CUMSTON, CHARLES GREENE: Amputation of foot, with a dorsal flap, **xxiv**, 706; carcinoma of the cæcum, **xxxv**, 42, 216; epitheliomatosis of breast, **xxviii**, 716; hepatic syphilis from a surgical standpoint, **xxxvii**, 726; interstitial hernia, **xli**, 427; pancreatic cyst, with remarks on pathology and surgical treatment, **xxxvii**, 226; prolapsus of the rectum in children, **xxxi**, 311; surgical aspects of anuria, **xliv**, 32; surgical treatment of tuberculosis of the epididymis and testicle, **xlix**, 800; technic of suturing the patella after fracture, **xxix**, 310; tertiary syphilitic epididymitis, **xxv**, 306; tuberculosis of the cæcum, **xlvi**, 763; varicose veins and their treatment by Trendelenburg's operation, **xxvii**, 626.
CUNNINGHAM, JOHN H., JR.: Filariasis, **xliv**, 481; gastric dilatation and tetany, **xxxix**, 527; recurrent intermittent retention of urine, occurring with remissions in a case of pernicious anæmia—final result of a Bottini operation for associated prostatic hypertrophy, **xlv**, 284; study of various forms of prostatic hypertrophy from post-mortem specimens and by the cystoscope, with reference to operation, **xli**, 590; treatment of procidentia recti by excision, **xlix**, 681.
CUPLER, R. C.: Note on gonorrhœal osteomyelitis, **xlv**, 121.
Curettage for endometritis, **xxvii**, 146.
CURL, HOLTON C.: Combined volvulus and hernia through a recent mesenteric slit, **xlii**, 207; relative value of cæcostomy and appendostomy in the treatment of amœbic dysentery by irrigation of the colon, **xliii**, 543.
CURRIE, O. J.: Transperitoneal ligature for aneurism of external iliac artery, **xli**, 620.
CURTIS, BENJAMIN FARQUHAR: Absorption of thyroid material, in wounds of thyroidectomy, **xxii**, 793; administration of ether, **xxviii**, 524; amputation at hip-joint, **xx**, 182; amputation of penis for epithelioma, **xx**, 178; arthrotomy for old dislocations of hip-joint, **xvii**, 587; bullet in brain, **xxxvii**, 946; carcinoma of liver simulating abscess, **xxxiv**, 185; of the male breast, **xxxi**, 742; carcinomatous metastases developing over three years after removal of the breast, without local recurrence, **xliii**, 216; castration for tuberculosis of testicle, **vi**, 54; cicatricial stricture of pharynx cured by plastic operation, **xxxiii**, 152; case of *Bilharzia hæmatobium*, **xxiii**, 56; cicatricial stricture of œsophagus, treated by gastrotomy, string, and elastic tube dilatation, **xxxi**, 352; complications of cholelithiasis, **xvii**, 707; colloid carcinoma of the omentum, **xxxvi**, 133; congenital sternal dislocation of both clavicles, **xxiii**, 600; cranial heteroplasty with aluminum plate, **xxi**, 317; cyst of tongue, **xxvii**, 662; deformity following resection of knee in children, **xxxiv**, 430; dislocation of the humerus, with fracture of its neck, **xxiii**, 738; early recurrence following excision of malignant disease, **xvii**, 708; epithelioma of the lip, **xxxi**, 628; avidement of prostate and seminal vesicles for tuberculosis, **xxiv**, 219; examination of rectum by endoscope, **xxvii**, 91; excision of aneurism of femoral artery, **xxix**, 358; extradural hemorrhage, **xxx**, 342; femoral phlebitis after operations for ap-

pendicitis, **xxxii**, 452; foreign bodies in a bronchus, **xliii**, 447; formalin catgut, **xxiii**, 187; fracture and dislocation of the carpal bones, **xxxiv**, 298; fracture of the humerus, with injury to the musculospiral nerve, **xxxi**, 242; fracture of neck of the humerus, with dislocation of the upper fragment, **xxxi**, 291; gastrotomy for stricture of the œsophagus, **xxxi**, 243; gunshot wound of the longitudinal sinus, **xxxvii**, 848; hemorrhage complicating excision of Gasserian ganglion, **xxxvi**, 958; inflammation of the parotid gland, **xxiii**, 193; injuries of tendon, **vi**, 227; interscapulothoracic amputations, **xxxi**, 633; intraperitoneal rupture of the bladder, **xxii**, 795; late secondary carcinoma without local recurrence, **xlii**, 934; leucocyte count in surgery, **xxxii**, 144; ligation of the first part of the subclavian artery, **xxvii**, 540; ligature of innominate artery, **xlv**, 966; Milton's method of exposing the anterior mediastinum for ligature of the innominate artery, **xxxiv**, 472; misleading skiagraph, **xxix**, 363; Murphy button in gastro-enterostomy **xxvi**, 124; musculospiral paralysis, **xxxi**, 755; nephrotomy, **xxv**, 172; nephrectomy for renal sarcoma, **xxii**, 270; nephrectomy for suprarenal tumor, **xxxi**, 759; nephrectomy for tubercular kidney, **xxv**, 173; neuropathic ankle due to locomotor ataxia, **xxxiii**, 491; operation for cancer of the penis, **xxix**, 343; operation for hypospadias, **xxxix**, 999; operation for liver abscess, **xxxiii**, 192; operation for relief of necrosis of cheek and upper jaw, with ankylosis of lower jaw, **xxvi**, 241; operative treatment of ulcer of stomach, **xxiv**, 220; osteoplastic operation for defect of tibia, **xxii**, 512; patellar pseudoarthrosis, **xxix**, 362; pathological dislocations, **vi**, 54; pathological dislocation at hip, **xx**, 81; pathology of peritonitis, **v**, 120; plastic operation for exstrophy of the bladder, **xlii**, 924; popliteal aneurism, **xxxii**, 612; posterior thoracotomy for foreign body in the right bronchus, **xxviii**, 605, 656; postoperative anuria, **xxxiii**, 338; prevention of cubitus varus, **xxxii**, 610; probable lumbar hernia, **xxii**, 273; pylorectomy for cancer of the stomach, **xxxi**, 758; pylorectomy for carcinoma, **xxxiv**, 418; pyloroplasty for ulcer of stomach, **xx**, 176; radical cure of femoral hernia, **xxxix**, 1015; recovery after operation for abscess of brain, **xxvi**, 240; recovery from appendicitis, with free pus in the abdominal cavity, **xxx**, 633; remarks on plastic operations for nasal deformity, **xxviii**, 259; removal of astragalus, scaphoid, and cuboid for club-foot, **xxxv**, 645; removal of biliary calculi from the common duct by the duodenal route, **xxviii**, 519; removal of both breasts for carcinoma, **xxviii**, 655; of tongue for carcinoma, **xxix**, 361; report of case of removal of tumor from left frontal lobe of cerebrum, **xvii**, 127; resection of clavicle for sarcoma, **xxviii**, 259; resection of elbow for tuberculosis, **xxxvi**, 787; resection of five feet of small intestine, **xxxvi**, 955; results of laparotomy for acute intestinal obstruction, **vii**, 329; results of operations for undescended testicle, **xxx**, 340; results of the surgical treatment of exopthalmic goitre, **xliii**, 335; stenosis of the larynx, **xxxiv**, 433; surgical treatment of acute intestinal obstruction, **vii**, 376; surgical treatment of intestinal obstruction, **xxxii**, 611; surgical treatment of peritonitis, **v**, 22; surgical treatment of

simple dilatation of the stomach and of gastroptosis, **xxxii**, 41; suture of ruptured muscles, **xxii**, 518; technic of osteoplastic resections of the skull, **xxxi**, 365; thyroidectomy for exophthalmic goitre, **xxi**, 319; thyroidectomy and sympathectomy for exophthalmic goitre, **xxxviii**, 161; total necrosis of upper jaw, **xxv**, 629; transplantations of skin-flap over exposed tendons, **xxxi**, 366; traumatic torticollis, **xxxiii**, 628; treatment of arteriovenous aneurisms, **xxxi**, 753; treatment of cystic kidneys, **xxxiv**, 420; treatment of fractures of the neck of the femur, **xxxvi**, 789; treatment of injuries of the spinal cord, **xxx**, 335; treatment of intussusception, **xx**, 420; treatment of renal tuberculosis, **xxvii**, 84; treatment of tubercular peritonitis, **xxv**, 740; trephining for cerebral cyst, **xxvii**, 772; tuberculosis of the bladder, **xxii**, 514; tuberculosis of tendons, **xxviii**, 384; tumor of the median nerve, **xxxii**, 609; use of oxygen gas with ether for anæsthesia, **xxiii**, 195; use of toxins of erysipelas in the treatment of sarcoma, **xxv**, 177; vicious union after fracture of forearm, **xxix**, 362; wounds of the bladder in operation for, **xxi**, 631.

Cushing, Harvey: Avoidance of shock in major operations by cocainization of large nerve-trunks, **xxxvi**, 321; intradural tumor of cervical meninges, **xxxix**, 934; local anæsthesia in the radical cure of certain cases of hernia, with a note on the nervous anatomy of the inguinal region, **xxxi**, 1; partial hypophysectomy for acromegaly, **l**, 1002; preservation of the nerve supply to the brow, in the operative approach to the Gasserian ganglion, **xliii**, 1; prompt surgical intervention for intestinal perforation in typhoid fever, **xxxiii**, 544; subtemporal decompressive operations for the intracranial complications associated with bursting fractures of the skull, **xlvii**, 641; treatment of facial paralysis by nerve anastomosis, **xxxvii**, 641.

Cushing, Hayward Warren: The operative treatment of carcinoma of the large intestine, causing dangerous intestinal obstruction, **xliv**, 261; restoration of entire tibiæ, necrotic from osteomyelitis, **xxx**, 486; traumatic rupture of pancreas, **xxviii**, 337; wounds of the thoracic duct in the neck, **xxvii**, 719.

Cushway, Bertram Charles: Aberrant thyroid, **xlix**, 56.

Cutaneous horns, **xlvi**, 674.

Cutaneous implantation as an adjunct to necrotomy, **iv**, 82.

Cutis, formation of carcinoma out of chronic inflammatory conditions of, **ii**, 920; osteoma of, **iv**, 69.

Cutler, Colman W.: Sympathectomy for glaucoma, **xxxvi**, 379.

Cyanomycosis, case of, **xiv**, 521.

Cyanosis status, case of, simulating traumatic asphyxia, in epilepsy, **xlix**, 762, 877.

Cyclopædia of Practical Medicine, Annual and Analytical, by Sajous, vol. ii (review of), **xxix**, 532.

Cyst, or **cysts**, blood, of abdomen, **ii**, 507; of the lateral region of the neck, **iii**, 343.

Branchial, **ii**, 428.

Cerebral, causing insanity, cured by aspiration, **iii**, 522.

Cervical dermoid, new treatment of, **viii**, 386.

Chylous, of mesentery, **vii**, 395; **xliii**, 380.

Coccygeal region, of, **xxii**, 134.

Congenital epithelial, of neck, **xxii**, 132; mesenteric, **xlix**, 618, 734; of neck, **iii**, 345; sacral, **i**, 115; of urachus, laparotomy for, **ix**, 227.

Containing ciliated epithelium, iii, 96.
Dermoid, of orbit, xxv, 487; of ovaries, iii, 263.
Entero-, of buttock, xxii, 268.
of hernial sac, xxii, 123.
Hydatid, of liver, iii, 345, 438, iv, 73, vi, 215; of mesocolon, ix, 229; obstructing popliteal artery, ii, 422; subdiaphragmatic, vi, 191.
Kidney, of, v, 272.
Long bones, of, xliv, 738; König on, xxviii, 402.
Malignant, of neck, v, 67.
Mesentery, of, laparotomy and drainage for, viii, 218.
Mucous, of dorsum of tongue, ix, 455.
Ovarian, unusual symptoms, in, xxii, 115.
Pancreas, of, ii, 272, v, 261, 338, vii, 393; diagnosis and treatment of, viii, 389.
Parovarian, iii, 357.
Pathology of, iii, 95.
Pulmonary, treatment of, iii, 239.
Simple, of liver, v, 224.
Skeleton, of, vii, 68.
Synovial, of knee and wrist, vi, 171.
Thyroglossal, l, 481.
Thyroid, intracapular extirpation of, iv, 174.
Traumatic epithelial, xlvi, 190; of the hand or fingers xxvi, 732.
Vocal cord, of left, ix, 143.
Cyst wall, calcification of, with cystic dilatation of kidney, xxi, 698.
Cystadenoma, of the breast, papillary, xlv, 188; of jaw, xliv, 627.
Cystic adenoma of thyroid, anatomy of a case of, xliii, 327.
Cystic duct, gall-stones impacted in, xx, 561; removal of, xxi, 213.
Obstruction of, accompanied by icterus, xxvi, 284; accompanyed by jaundice, xxvi, 284.
Stone in, xliii, 157.
Cystic goitre, treatment by iodine injections, i, 282.
Cystic lymphangioma, of neck, vii, 291.
Cystic sarcoma, large renal, laparotomy for removal of, vi, 257; of lower jaw, removal of, vi, 126.
Cystic tumor of jaw, ii, 343.
Cystine calculus of kidney, xxxvii, 294; specimen of, xxi, 609.
Cystitis, chronic, cured by artificial vesicovaginal fistula, iii, 361.
Etiology of, xviii, 589.
Painful, in female, vii, 469.
Sublimate treatment of, xix, 742.
Tubercular, treated by permanent suprapubic drainage, xxxiii, 331.
Women, in, xlix, 777.
Reviews of Books: Cystitis and Urinary Infection, by Melchior, xxii, 541; Painful Chronic Cystitis in the Female, by Hartman, viii, 235.
Cystocele, complicating inguinal hernia, xxxvii, 106; inguinal, xii, 295.
Cystofibroid, of labium major, complicated by pregnancy, iv, 457.
Cystoma, ovarian, malignancy of, iii, 266; ovariotomy for subserous papillary, v, 88.
Cystonephrosis, xliii, 785.
Cystorrhaphy, for cystocele, xv, 497; Jonnesco's method for, xxx, 722.
Cystosarcoma, of thigh, xxix, 624.
Cystoscope, combined with lithotrite, xlvi, 452; composite, xxxv, 642; improved constructional detail in, xlvii, 463; new for catheterizing the ureters, xlix, 218, 225; use with reference to operation for prostatic hypertrophy, xli, 590.
Cystoscopy in the diagnosis and treatment of urinary diseases, xv, 64; in the male, xxvii, 475.
Review of Book: Text-book on Cystoscopy, by Nitze, xi, 473.
Cystotomy (see also Calculus, Lithotomy, Suprapubic), com-

parison of the merit of suprapubic and perineal, **xxx**, 28, 103; with digital exploration of the bladder, **iv**, 532; feasibility of intraperitoneal, **xviii**, 408; fibrinous vesical concretions removed by, **xxxix**, 256; Harrington's operations of, intraperitoneal, **xlviii**, 862; inflation of bladder, preliminary to suprapubic, **xxviii**, 358, 683; intraperitoneal suprapubic, **xxiii**, 132; for large vesical calculus not demonstrated by the X-ray, **xlv**, 765; lateral, **vi**, 33; and lithotripsy, **xii**, 390; subpubic, Langenbuch's high, **ix**, 389.
Suprapubic, **vi**, 258, 260, 264, **vii**, 227, **viii**, 44, **xviii**, 106; in boys, **vii**, 64, **ix**, 312, 313; after dilatation of bladder with air, **xvii**, 667, **xxv**, 141, 180; drainage in, **ix**, 312; drainage of the prevesical space through the perineum in, **xlv**, 101; for hypertrophied prostate, **viii**, 47; modifications of, **xlvi**, 949; new retractor to be used in, **xlvi**, 261; for papilloma of bladder, **x**, 311; relation of pelvic peritoneum to, **vii**, 22; for stone in a little girl, **viii**, 466; for supposed tumor, **vi**, 34; treatment of wound after, **vii**, 58; for tumors, **viii**, 48; uretero-, **xxii**, 510.

D

Da Costa, John Chalmers: Abscess due to gastric ulcer, **xli**, 288; blood changes induced by ether as an anæsthetic, **xxxiv**, 329; distal ligation of common carotid and right subclavian arteries for aneurism, **xxxv**, 280; etiology of appendicitis, **xxiii**, 626; extradural hemorrhage, **xxxvii**, 451; false aneurism of the femoral artery, **xlvii**, 465; gall-bladder drainage after gastro-enterostomy, **xli**, 292; gastro-enterostomy for gastric ulcer, **xli**, 290; gunshot wound of brain, **xlvii**, 465; gunshot wound of spinal cord, **xlvii**, 467; gunshot wound of the lungs, **xxvii**, 97; Marjolin's ulcer, **xxxvii**, 496; osteoplastic resection of the skull by means of a new trephine, **xxxv**, 76, 152; reconstructive endo-aneurismorrhaphy, **xlvii**, 474; report of case of removal of sarcoma of tonsil, **xxvi**, 107; report of a case of tumor of carotid body, **xliv**, 393; rupture of liver, **xxxi**, 647; technic of nephropexy, **xxxvi**, 150; treatment of acute hæmothorax, **xxix**, 513; treatment of movable kidney, **xxix**, 762; typhoid perforation successfully treated, **xli**, 284.
Da Costa, J. M.: Charcot's disease of the knee, **xxv**, 489; pathology of appendicitis, **xxiii**, 627.
Dalton, H. C.: Laparotomy for gunshot wound of stomach and liver, **viii**, 81; stab wound of the pericardium, suture and recovery, **xxi**, 147; sixteen cases of laparotomy, **ix**, 88; three laparotomies on one patient, **xii**, 246.
Dandridge, Nathaniel Pendleton: Comparison of the merits of suprapubic and perineal cystotomy, **xxx**, 28, 103; gangrene of colon and ileum after operation for appendicitis, **xxxviii**, 367; surgery of the tongue, **xxi**, 97; surgical treatment of pulmonary cavities, **xix**, 129.
Dangers and disagreeable symptoms of ether, how to prevent, **xxviii**, 472, 513.
Darling, Cyrenus G.: Sarcoma of the bladder, **xlii**, 831.

Davis, Byron B.: Hernia in the linea alba, **xxi**, 464; surgical treatment of splanchnoptosis, **xlv**, 733.

Davis, Edward P.: Obstetric fracture of the femur, **xxxiii**, 779.

Davis, Gwilym G.: Abdominal contusions, **xxxvii**, 624; acute septic infection of throat and neck, Ludwig's angina, **xliv**, 175; anastomosis of bowel **xxxiii**, 208; carcinoma of stomach, **xlv**, 973; cases of nephrolithotomy, **xli**, 292; cases of recovery from traumatic tetanus after the use of antitoxin, **xxviii**, 237; complete removal of penis and testicles for malignant disease, **xxvii**, 210; diagnosis of inflammatory affections in right iliac fossa in women, **xxviii**, 141; dislocations of acromial end of clavicle directly backward, **v**, 410; dislocations of the semilunar cartilages of knee-joint, **xxviii**, 536; dislocation of the toes, **xxxiii**, 643; double hip ankylosis; **xxxvi**, 288; drainage in empyema, **xxii**, 119, 121; effects of small-calibre bullets as used in military arms, **xxiii**, 205, **xxv**, 36; extradural hemorrhage, **xxxvii**, 454; fracture of the anatomical neck of humerus, **xlv**, 968; fracture of the coronoid process of ulna, **xxiii** 449; fracture of the coracoid process of scapula, **xlv**, 469; fracture dislocation of atlas without symptoms of spinal-cord injury, **xlv**, 634; fractures of the internal condyle of humerus and correction of the resultant deformity by operative measures, **xxix**, 40; fracture of lower jaw, with separation of the genial tubercle, **xix**, 653; fractures of tibia involving the ankle-joint, **xxv**, 764; gangrene of gall-bladder, **xl**, 431; gas-ether anæsthesia, **xlviii**, 477; Gersuny's operation for the cure of enuresis, **xlviii**, 792; hernia cerebri, **xlvii**, 147; incision through rectus muscle, **xliv**, 720; infantile paralysis treated by tendon transplantation and nerve anastomosis, **xlviii**, 476; injuries to nerves in fractures, **xxiii**, 147, 200; ischiorectal abscess pointing in iliac fossa, **xxxv**, 657; laryngectomy under eucaine anæsthesia, **xxxiii**, 32; ligation of external carotid artery as a preliminary to extirpation of the Gasserian ganglion, **xxxi**, 505; Ludwig's angina, **xlvii**, 307; **xlviii**, 789; Marjolin's ulcer, **xxxvii**, 451; massage and movements in the treatment of fractures, **xxiv**, 691, 752; method of anastomosing the vas deferens, **xlviii**, 793; nailing a recent intrascapular fracture of femur, **xlvii**, 469; new ward surgical dressing carriage, **xxii**, 382; operations for mammary carcinoma, **xxxiv**, 308; operations for perforation of the bowel in typhoid fever, **xxxiii**, 647, **xxxviii**, 127, **xlv**, 478; operative measures in fractures of the leg, **xxxi**, 509; osteoclasis, **xxvii**, 790; peritoneal effusions resembling bile in color, **xliv**, 718; prognosis after fracture of cervical vertebræ, **xli**, 474; radical cure for direct inguinal hernia, **xliii**, 111; radical cure of hemorrhoids without general anæsthesia, **xxxv**, 824; radical cure of hernia, **xxxi**, 648, 654; relation of the technic of nurses and of hospital apparatus to the healing of wounds, **xliv**, 456; removal of lingual and mandibular nerves by the twisting method of Thiersch, **xlviii**, 636, 639; removal of loose cartilages in knee-joint, **xxiii**, 203; results after Pirogoff amputation, **xxiv**, 750; results of treatment of fracture of patella, **xxxi**, 638; rupture of liver, **xxxviii**, 123; rupture of tendon of biceps flexor cubiti, **xli**, 790; screw fixation in cases of intracap-

sular fracture of femur, **xlii**, 282, 285; shoulder dislocations, **xli**, 476; skiagraphy in orthopædic surgery, **xxxi**; 266; technic of suture of intraperitoneal ruptures of bladder, **xxviii**, 387; tendon transplantation, **xxxvi**, 289; tendon transplantation for congenital club-foot, **xlvii**, 136, 145; tonsillotomies, **xxvi**, 134; transverse incision for the removal of appendicitis, **xliii**, 106, 153; traumatic cerebral hemorrhage, **xlviii**, 633; treatment of appendicitis, **xxiii**, 625; treatment of compound fractures, **xxvii**, 784; treatment of congenital deficiencies of bones of foot and hand, **xli**, 462; treatment of fractures, **xxxix**, 778, 818; treatment of fractures of the clavicle, **xi**, 44; treatment of fractures of femur, **xlviii**, 791; treatment of fracture of the lower end of radius, **xxix**, 278; treatment of fractures of the nose, **xxviii**, 458, 668; treatment of fracture of patella, **xxii**, 677; treatment of intracapsular fracture of femur, **xxiv**, 66; treatment of the sac in operations for the radical cure of hernia, **xxiii**, 32; tubercular peritonitis, **xxxiii**, 211; tuberculosis of the spine in adults, **xxix**, 644; uranoplasty, **xxv**, 766; use of iodoform, **xxvii**, 679; use of the Masland saw for opening the cranial vault, **xliv**, 318; volvulus of the small intestine in typhoid fever simulating perforation, **xliv**, 310, 312; weak ankles in children, **xxxv**, 284; wounds of the venous sinuses of brain, **xxxiv**, 189.

Davis, John Staige: A method of splinting skin-grafts, **xlix**, 416; skin grafting at the Johns Hopkins Hospital, **l**, 542.

Davis, Lincoln: Harrington's operation of intraperitoneal cystotomy, **xlviii**, 862; primary tumors of urinary bladder, **xliii**, 55.

Davis, Thomas A.: Anuria, **xxxvii** 628; rupture of the spleen, **xxxvi**, 465; subparietal rupture of the kidney, **xxxvi**, 346; treatment of fractures of patella, **xxxix**, 141.

Dowd, Charles N.: Ability of the peritoneum to overcome sepsis, **xxxii**, 139; acute diffused gonococcus peritonitis, **xxxv**, 276; adenofibroma of breast, **xxxiv**, 181; angioma of face treated by electrolysis, **xxxiv**, 421; advantage of simplicity in operations for appendicitis, **l**, 762; benign stricture of the œsophagus, gastrostomy, dilatation by the string method, **xlviii**, 147; carcinoma of stomach, **xliii**, 926; case of cleft hand, **xxiv**, 211; chyle cysts of the mesentery, **xlviii**, 623; cleft palate, **xl**, 265; congenital dislocation of the hip reduced by operation, **xxxv**, 271; congenital dislocation of right and left knee-joints, **xxix**, 345; congenital lumbar hernia at the triangle of Petit, **xlv**, 245; constriction of intestines from obliterated Meckel's diverticulum, **xliii**, 300; dilatation and hypertrophy of stomach, **xliv**, 442; dislocation of the humerus complicated by fracture at or near the surgical neck, **xix**, 399; endothelioma of cauda equina, **xlii**, 279; excision of the knee-joint, **xxxiv**, 422; final results of X-ray treatment of carcinoma, **xlii**, 608; fracture of the neck of femur, **xlvii**, 118; frequency of liver abscess after appendicitis, **xlix**, 857; hæmaturia relieved by nephrotomy, **xlii**, 266; harelip and cleft palate, **xxxix**, 284; hydronephrosis due to calculus occlusion of ureter, **xlii**, 265; incision of pulmonary pleura for empyema, **xxxiv**, 179; late secondary carcinoma without local recurrence, **xlii**, 934; ligation of ductus arteriosus, **xlvi**, 335; long immunity after excision of carcinoma of breast, **xxxiii**, 201; long immunity from recurrence after removal of epithelioma of lower lip, **xxxiii**, 51; lymphangioma of the face, **xxxv**, 407; mesenteric cysts, **xxxii**, 515; neck incisions and nerve injuries, **xlvii**, 626, 628; nephrectomy for sarcoma, **xl**, 595; nephrectomy for tuberculosis, **xxxv**, 413; nephrotomy for calculi, **xxxv**, 419; œsophageal stricture dilated by a thread and a rubber tube, **xxxix**, 273; operative treatment of cleft palate, **xliii**, 137; partial enterocele, **xxxix**, 297; perforating duodenal ulcer, **xliii**, 390; peritonitis in children from unknown sites of infection, **xlviii**, 821, 932; persistent thyroglossal duct, **xxxvii**, 271; postoperative anuria, **xxxiii**, 337; postoperative intestinal obstruction, **xl**, 599; primary typhlitis without appendicitis, **xlv**, 964; pylorectomy for carcinoma, **xxxvii**, 270; re-

covery after resection of intestine for gangrenous intussusception in a child, **xxxvi**, 47; resection of intestine followed by end-to-end anastomosis, **xliii**, 148; resection of lower end of ileum for ileocæcal carcinoma, **xxxv**, 808; resection of lower end of ileum for tuberculosis, **xxxv**, 806; result of plastic operation on lower lip, **xxxi**, 492; results of operations for undescended testicles, **xxx**, 338; results after partial excision of elbow, **xlix**, 861; spontaneous disappearance of gastric tumors, **xxxiv**, 303; staphylococcus bone infection, **xliv**, 111; study of twenty-nine cases carcinoma of the breast submitted to operation, **xxvii**, 285; suppurative arthritis of knee treated by the Mayo method, **l**, 482; surgery of peritoneal tuberculosis, **xlvi**, 146; surgical treatment of tubercular cervical lymph-nodes, **xlii**, 49; technic of early operation for the removal of tubercular cervical lymph-nodes, **xlviii**, 169; tendon transplantation, **xlvi**, 142; thoracoplasty and lung decortication, **xlix**, 866; thrombosis of lateral sinus and upper jugular vein, **xxxix**, 276; treatment of fracture of femur in infants, **xli**, 454; treatment of undescended or maldescended testis, **xlviii**, 468; tubercular cervical lymph-nodes, **xxix**, 559, 613, 615; tubercular osteomyelitis of tibia, **xxxix**, 277; tubercular peritonitis, **xlvi**, 141; tuberculosis of femoral, inguinal, and iliac lymph-nodes secondary to foot wounds, **xxxvii**, 746, 782; umbilical hernia, **xxxix**, 1005; undescended testis complicating hernia, **xli**, 952; use of Wolfe grafts and tendon lengthening in treating cicatricial contractures, **xliii**, 278, 304; value of intestinal suture with stitches through all layers, **xxxvi**, 50; vanishing tumor of pylorus, **xliv**, 296; Volkmann's ischæmic paralysis of forearm, **xlvii**, 460; voluntary military surgeons, **xlix**, 862; webbed fingers, **xxxi**, 493; X-ray treatment of malignant tumors, **xxxvii**, 271.

Downes, William A.: Dislocation of semilunar bone and fracture of the carpal scaphoid, **xlvi**, 161; dorsal meningocele, **xlvi**, 140; epithelioma of palate and fauces, **xlvii**, 128; hour-glass stomach, **l**, 552; intestinal obstruction due to gall-stones, **xlix**, 717; lateral intestinal anastomosis with later perforation of blind end of gut, **xlix**, 562; nephrectomy for embryoma in a child, **xlix**, 140; œsophageal thoracic fistula, **xlv**, 770, 771; operation for old injury of the forearm involving the flexor tendons and median and ulnar nerves, **xlviii**, 461; perforating ulcer of stomach, **xlv**, 772; simple fracture of carpal scaphoid, **xlvii**, 72, 131; volvulus of the small intestine, **l**, 498.

Downs, Robert N., Jr.: Penetrating wounds of thorax, **xxix**, 506.

Doyen's method for Gasserian ganglion, extirpation, **xxiii**, 69.

Drainage, **i**, 60, 269, **x**, 259, **xiv**, 278; after abdominal operations, question of, **xxxviii**, 139; of bladder, suction apparatus for continuous, **xxxvii**, 886; of brain, **ii**, 15; combined tubular and capillary, **i**, 269; of fresh wounds, methods of dispensing with, **i**, 87; of gall-passages after operations, **xxi**, 118; indirect subperitoneal, in the extraperitoneal closure of persistent fecal fistulæ, **xlv**, 827; of joints *vs.* excision, **viii**, 396; in pelvic abdominal surgery, **xii**, 425; of the peritoneal cavity, **xi**, 338, **xii**, 250, **xxvi**,

250; and primary union, vii, 72; question, contribution to, xviii, 570; in suprapubic cystotomy, ix, 312; in the treatment of injuries and diseases of the floor of the cranium, x, 40; in what cases of wounds shall it be used? xii, 413.
Drainage-tube for empyema, xxii, 119, 120, 121, 122.
Drains, rubber, disinfection and hardening of, ix, 351; string, v, 415.
Dressing, carbolized, paralysis of bladder from, ii, 85; corrosive sublimate as an antiseptic, ii, 148; dry, in antiseptic surgery, iii, 122; gauze, sticky, iii, 523; glycerin as a surgical, iii, 253; peat moss as a, ix, 70; sawdust as a, iii, 340; subiodide of bismuth, for ulcers, iv, 545; sugar as a, iii, 93; tannic acid as a surgical, vi, 144; terebene as a, ix, 452.
Review of Book: Iodoform Dressing, by Mikulicz-Newell, viii, 476.
Dressing carriage for wards, xxii, 382.
Dressing materials, germs contained in, vi, 446; sterile, vi, 447.
Review of Book: Military Surgical Dressing Materials, by Langenbuch, vi, 286.
Drills and nails, after resection, iv, 269.
Dropping device for administering anæsthetics, xli, 120.
Dropsy of gall-bladder, i, 362; of hernial sac, iii, 249.
Drowning of patients in fecal vomit, xxxvii, 862.
DRUGINSKY, S.: Resection of portion of chest wall and of diaphragm for primary sarcoma of the pleura, xliii, 645.
Dry dressings, antiseptic properties of, xi, 468.
DUDLEY, E. C.: Case of appendicitis, xxxix, 821; sarcomatous degeneration of uterine myoma, xlii, 147; ureterocystostomy for accidental wound of ureter, xxxix, 755, 821.
Duhrssen's method for the operative cure of retroflexion, xvi, 478.
DULLES, CHARLES W.: Remarks upupon tetanus, xxvii, 234.
DUNHAM, THEODORE: Abscess of the liver, xxxiii, 757; control of oozing, after use of Esmarch bandage, xxxiv, 838; fracture of the femur in young children, treatment of, xli, 454, xliv, 118; harelip, l, 489; operations, retentive method after, xlii, 593; hernia of the umbilical cord, xlix, 559; improved iodoform emulsion, xlix, 721; intussusception, xlii, 592; leucocyte count in surgery, xxxi, 669; xxxii, 114; method for obtaining a skin flap from the scalp and a permanent buried vascular pedicle for covering defects of the face, xvii, 677; new instruments for treating stricture of œsophagus, xxxvii, 350; plastic of face, xxxiv, 837; sharp knives at operations, xxxiv, 838: stab wound of the spinal cord, xlvi, 641; stricture of œsophagus, xxxiv, 822; tubercular tenosynovitis, xxxvi, 135; tuberculins and the tuberculo-opsonic index, xlvi, 597, 645.
DUNHOFF, E. VON: Abscess of brain, x, 119.
DUNN, J. H.: Cases of surgery of the urinary bladder involving suprapubic section, xix, 461.
Duodenal atresia, congenital, xxxii, 858.
Fistula, xlv, 721.
Gastric ulcer, and, contributions of surgery to a better understanding of, xlv, 810; secondary to wounds of the urinary bladder, xlvii, 924, 1052. surgical cure of, xlvii, 885, 1050; treatment of, xliv, 236.
Route for the removal of biliary calculi from the common duct, xxviii, 481, 517, 525.
Ulcer, xl, 900, xlix, 837; chronic, xli, 786; excision of, success-

ful, **xx**, 241; perforating, **xxx**, 236, 634, **xxxvi**, 608, **xxxix**, 109, **xlviii**, 129, 461; perforating, associated with appendicitis, **xl**, 447; treated by gastro-enterostomy, **xxxv**, 411.

Duodenocholedochotomy, **xxxvi**, 927; value and place of, in gall-stone surgery, **xliii**, 69.

Duodenostomy, **xlv**, 30.

Duodenum, anomaly of, resulting in death after gastro-enterostomy, **xliii**, 88; artificial biliary fistula into, **v**, 231, 238; constriction of, below the entrance of the common duct, and its relation to disease, **xliii**, 80; late results after operation for benign diseases of the stomach and, **xlvii**, 873, 885, 894, 1050; pseudodiverticulum of, large, **xx**, 63; review of three hundred and three operations upon stomach and first portion of the, **xxxviii**, 30; subacute perforation of, **xlv**, 223; surgery of, **xxxix**, 302; treatment of posterior perforations of the fixed portions of, **xxxix**, 727.

Dupuytren's contracture, **xxxvi**, 973, **xxxviii**, 765; treatment of, **ii**, 82.

Dura mater, blood-tumors of cranium communicating with superior longitudinal sinus of, **v**, 355; condition of, in brain tumors, **iv**, 510; removal of tumor of, **iii**, 416; treatment of wounds of sinuses of, **xxxvii**, 609.

Dural, sub-, implantation of rubber tissue following trephining, **xxii**, 385.

Dust, surgical significance of, **xvii**, 464.

Dyball, Brennan: Parotitis after abdominal injuries, **xl**, 886.

Dysentery, amœbic, relative value of cæcostomy and appendicostomy in treatment by irrigation of the colon, **xliii**, 543; secondary infection in, **xiv**, 384; surgical treatment of amœbic, **xxxiii**, 574.

Dysosphresia, **xiv**, 46.

Dyspepsia due to defective drainage, surgical treatment of, **xli**, 36.

Dysphagia due to pressure of cervical rib, **xli**, 767.

Dyspnœa, from congenital stenosis of trachea, **v**, 70.

Dystrophies observed after resection, **viii**, 113.

Dwight, Thomas: Stylohyoid ossification, **xlvi**, 721.

E

Eads, B. Brindley: Ventral hernia following abdominal section, **xxxiii**, 1.

Ear, cocaine in surgery of, **iii**, 64; deformities of the external, **xxiv**, 206; external, removed for epithelioma, **xxix**, 49; pachymeningitis after inflammation of the middle, **ix**, 137; prominent, operation for relief of, **xi**, 49; prominent, plastic operation for, **xxi**, 301; removal of foreign bodies from, **iv**, 170; syphilitic affections of, **viii**, 65.

Reviews of Books: Diseases of the Ear, Nose, and Pharynx, by St. John Roosa, **xliv**, 794; Ear, by Buck, **i**, 385; Injuries and Diseases of the Ear, **i**, 385; Surgical Treatment of Middle Ear and Mastoid, by Oppenheimer, **xliv**, 474; Operations for Suppuration in the Middle Ear and its Intracranial Complications, by Heine, **xlviii**, 941; Text-book of Diseases of the Ear, by Dench, **xxxix**, 636; Text-book of the Ear, Nose, and Throat, by Bishop, **xxvi**, 524, 542; Text-book of Ear, Nose, and Throat Diseases, by Burnett, Ingals, and Newcomb, **xxxv**, 437.

Early days of the American Surgical Association, reminiscenses of, **xlvii**, 833, 1044.

Elevated trunk posture after operations, apparatus to facilitate, **xlix**, 410.

Eliot, Ellsworth, Jr.: Abscess of liver, **xxxiv**, 184, 186, 481; anatomy of the gall-bladder and ducts, **xxix**, 759; backward dislocation of elbow with ulnar paralysis, **xlviii**, 622; bladder calculus, **xlix**, 710; border-line tumors of the breast, **xlix**, 559; branchial cysts, **xxx**, 517; buffer accident of knee, **xlix**, 132; cavernous angioma of the neck, **xxxvii**, 284; cholecystotomy, **xxxvi**, 142; correction of deformity following supracondyloid fracture of the humerus, **xxx**, 93; correction of nasal bony defects, **xli**, 475; detection of kidney stones by X-ray, **xxxv**, 421; diagnosis of stone in kidney, **xlvii**, 1056; echinococcus of liver, **xxxiii**, 755; enterostomy for paralytic obstruction, **xlvii**, 787; excision of costal cartilage and parietal pleura for recurrent carcinoma of the breast, **xxxvii**, 775; exostosis of shoulder simulating dislocation, **xxxiii**, 53; fibro-osteoma of the humerus, **xlvii**, 808; fracture of humerus, with marked displacement, **xxxiii**, 54; functional results after amputation of the breast, **xlvii**, 436; gangrenous appendicitis obscured by enlarged liver, **xxxvi**, 269; gastro-enterostomy, **xxxix**, 280; gastrostomy for stricture of œsophagus, **xxxix**, 296; hæmaturia, **xlii**, 602; hydronephrosis, **xliii**, 627; interscapulothoracic amputation, **xxxvi**, 139; intestinal obstruction following operation for appendicitis, **xl**, 124; observations upon volvulus, **xxx**, 47, 100; operative treatment of cleft palate, **xliii**, 136; osteoma of palate, **xxxiii**, 766; perforating duo-

denal ulcer, **xlviii**, 463; gastric perforating ulcer, **xxix**, 630; peritonitis with unknown site of infection, **xlviii**, 933; pistol-shot wound of abdomen, **xxxvii**, 284; pistol-shot wound of the lung, **xlix**, 554; plastic operation for liberating circumferential scar of arm, **xxxiv**, 182; prolapse of rectum, **xxxii**, 138; question of gastro-enterostomy in ulcers of stomach, **xlviii**, 927; recurrent goitre, **xlix**, 131; remarks upon carcinoma of the tongue, **xxiv**, 682; resection of intestine, followed by end-to-end anastomosis, **xliii**, 92; result of extirpation of epithelioma of the alæ nasæ, **xxx**, 95; separation of upper epiphysis of humerus, with dislocation, **xlvii**, 622, 624; splenectomy for ruptured spleen, **xlix**, 111; splenectomy for rupture of spleen with subsequent cholecystectomy, **xlvii**, 436, 440, 444; studies in technic of carcinoma of the breast—operation, **xlvii**, 446; suppurative pericarditis, **xlix**, 60, 142; surgical treatment of torticollis, **xxi**, 493; traumatic rupture of intestines, **xxxiv**, 293; treatment of abdominal contusions, **xxxvii**, 109; treatment of epithelioma of the ala of the nose, **xxii**, 695; tubercular peritonitis, **xlix**, 269; tubercular tenosynovitis, **xxxiv**, 577; **xxxvi**, 137; tuberculosis of the kidney, **xxxv**, 415; tuberculosis of the testis, **xxxiv**, 574; tumors of the shoulder, **xxx**, 650.

Elliot, John W.: Contribution to the surgery of the large intestine, **xxv**, 351; immediate suture of gall-ducts and gall-bladder after extraction of stone, **xxii**, 86; management of certain critical cases of intestinal obstruction, **xlii**, 668; operative relief of gangrene of intestine due to occlusion of the mesenteric vessels, **xxi**, 9; report of a case in which two large fibrinous concretions were removed from the urinary bladder, **xxxix**, 256; surgical treatment of tumor of the liver, **xxvi**, 83.

Ellis, Aller G.: Cystic degeneration of mamma, transformation into carcinoma, **xxxviii**, 336; effects upon glandular tissue of exposure to X-rays, **xliii**, 460; experimental and histological study of Cargile membrane, **xli**, 787, 801.

Ellsworth, R. C.: Tumor of the cauda equina removed by operation, recovery, **xlvi**, 603.

Elsbebg, C. A.: Aphasia from contrecoup, **xlviii**, 613; craniotomy for tumor of acoustic nerve, **xlviii**, 312; enterostomy and conservative operative methods in the surgical treatment of acute intestinal obstruction, with remarks on the importance of operations in two stages, **xlvii**, 738, 800, 802; extra-dural hemorrhage, **xlvi**, 468; gastro-enterostomy for continued vomiting, **xlix**, 249; laparotomies in an infant, three, **xlv**, 764; neck incisions and nerve injuries, **xlvii**, 628; plastic operation for congenital dislocation of patella, **xlv**, 776; plate for defects of skull, **xlvii**, 795; resection of intestines, **xlix**, 252; sarcoma of the humerus, **xlvi**, 468; solitary abscess of the liver, **xliv**, 217; subphrenic abscesses after appendicitis, **xxxiv**, 729; surgical features in perforation of the intestine in children **xxxviii**, 71; surgical procedure in neurofibroma of acoustic nerve, **xl**, 311; symmetrical adenolipoma of the neck, **xlix**, 258; thoracoplasty for sinus after empyema, **xlvii**, 461.

Elting, Arthur W.: Primary carcinoma of the vermiform appendix, **xxxvii**, 549.

Ely, Leonard W.: Dislocation of the carpal scaphoid, **xxxviii**, 97; dislocation of metatarsal

bones, **xliv**, 294; fracture of the carpal scaphoid, **xlii**, 260; old fractures of tarsus, **xlv**, 69.
Elytrotomy, intraligamentous, by Boisleux (review of), **xvi**, 556.
Embolism, fatal, after operation for varicose veins, **xli**, 148; fatty, **ix**, 451; occluding pulmonary, **xlvii**, 717; of the pulmonary artery, operative interference in, **xlviii**, 772; relation of poisoning with fibrine ferment to, **iiii**, 158; and thrombosis after fractures, death from, **iv**, 261.
Embryology, Minot's Text-book of (review of), **xxxiii**, 469.
Embryoma, nephrectomy for, **xlix**, 140.
Embryonal pathology, infective, experimental researches in, **xx**, 385.
Emphysema, **xlviii**, 138; of neck, **viii**, 211; of orbit, **iii**, 417.
Emphysematous gangrene, **xxxiii**, 758, 768; of hand, **xix**, 187.
Empyema of the antrum of Highmore, **ix**, 140, **xvi**, 389, **xxi**, 335, 612, **l**, 641; operative treatment of, **iv**, 335.
Cases of, study of seventeen, **xvii**, 410.
Children, in, after-condition of, **xvi**, 569.
Drainage-tube for, **xxii**, 119, 120, 121, 122.
Fistula from, cure of, **vi**, 160.
Frontal and ethmoid sinus, of, **xliii**, 321.
Frontal sinus, of, **xii**, 438; operative treatment of, **xxix**, 523.
Gall-bladder, of, **vii**, 400, **xix**, 244; chronic, **xxxix**, 570.
Influenza, after, **xvi**, 392.
Metapneumonic, **xl**, 436.
Operations and diagnostic punctures after, **xvi**, 392.
Points for incision in, **x**, 455.
Sphenoid, of the, **xxxviii**, 137.
Subphrenic abscess, from, thoracoplasty for sinus after, **xlvii**, 461; of thorax, **xxxiv**, 179; in children, surgery of, **xxix**, 455; chronic treatment of, **xxi**, 721; decortication of lung in, **xxxvi**, 641; De Lorme's operation for, **xxxi**, 617; **xxxvi**, 440; drainage without tubes, **xxxvii**, 952; new method of operating for, **xi**, 123; operative treatment of, **xvii**, 615; resection for, **xxxviii**, 908; Schede's operation for, **xlii**, 782; statistics of twenty-three cases of, **xvii**, 370; thoracentesis for, **iii**, 83, **v**, 358; thoracoplasty for, **vii**, 458, **xxiii**, 602; treatment of, **x**, 122; surgical, **xvi**, 567, **xlv**, 373.
Thoracis, **l**, 158.
Reviews of Books: Empyema, by Robertson, **ix**, 238; Empyema of the Antrum of Highmore, by Burger, **xxi**, 355; Therapeutics of Empyema, by Ceston, **xxx**, 783.
Encephalocele, cases of operation in, **xvi**, 121.
Enchondroma, of chest wall, diaphragm involved in, **xxvii**, 724; of head, **vii**, 215; of larynx, **viii**, 135; of shoulder, **ix**, 149.
Enchondrofibromata, cystic, by König (review of), **xxviii**, 402.
Endo-aneurismorrhaphy, **xlvi**, 358, 366; reconstructive, **xlvii**, 469; in the treatment of traumatic aneurism of the femoral artery, **xlvii**, 261.
Endocranial hemorrhage, operative relief of, **xviii**, 416.
Endocranial sarcoma, extirpation of, **xviii**, 71.
Endocranial tumor, myelogenous, of the skull, **xviii**, 572.
Endocarditis, infectious, **xv**, 47.
Endometritis, **xxvii**, 143; of clavicle, **xlvii**, 465; chronic, **xlix**, 844.
Endoscopy of urethra and bladder, **xi**, 138, 473.
Endothelioma of bone, **xlii**, 358; of the carotid gland, **xliv**, 460; of the cauda equina, **xlii**, 279; of the palate, **xlv**, 781; of the testes, **xxx**, 131.
Endotheliomatous cyst of the great omentum, **xlviii**, 206.
Enterectomy, **vii**, 7, 90; in Bergmann's clinic, **xviii**, 583; and

enterorrhaphy for strangulated femoral hernia involving only part of circumference of bowel, recovery, **xvii**, 232; for intestinal obstruction, **iv**, 251, **x**, 281; for intussusception, **iii**, 240; for malignant stenosis of ileocæcal valve, **xviii**, 322; for strangulated hernia, **vi**, 168; for traumatic rupture of ileum, successful, **xix**, 732.

Entero-anastomosis, gastro-enterostomy combined with, **xxv**, 655; for malignant stenosis of the digestive tract, **xix**, 172; for malignant stenosis, final results of, **xviii**, 669.

Enterocele, partial, **xxix**, 533; **xxxii**, 136, **xxxix**, 258, 297; strangulated through obturator foramen, **xxxix**, 816; treatment of partial strangulated, **xxiv**, 663; vulvar, vaginal, and perineal, **iii**, 178.

Enterocyst, **xxii**, 368.

Entero-enterostomy, with gastro-enterostomy, **xxix**, 751; by twine triangular stitch, **xli**, 914.

Enterolith, **xxx**, 345; causing intestinal obstruction, **xxxvi**, 297; laparotomy for, **xii**, 278; in right iliac fossa, **xliii**, 767.

Enterorrhaphy, **vii**, 109, **xxxiii**, 650, **xxxix**, 282; with aid of the O'Hara forceps, **xxxiv**, 441; without buttons, plates, or rings, **xxviii**, 354; circular, for gangrenous hernia, **xix**, 647; circular, by a new method, **xiii**, 81; friability of intestinal walls as an obstacle to, **xli**, 306; in gunshot wounds of intestines, **xvi**, 574; without mechanical accessories, **xxix**, 407; methods of, **xxxv**, 610, 820; pyo-stercoral fistula caused by, **x**, 76; wounds of intestine, treated by, **xxiii**, 205, 423, 440.

Enterostenosis from cirrhotic mesentery, **xvi**, 575.

Enterostomy, **xlviii**, 314; for general peritonitis, **xli**, 944; multiple openings for flushing intestinal canal with salt solutons, **xlvii**, 953, 1062; new method for, **xlii**, 623; for paralytic obstruction of bowels, **xlvii**, 787; for relief of the intestinal paralysis of peritonitis, **xxix**, 1, 115; in surgical treatment of acute intestinal obstruction, **xlvii**, 738, 798.

Enuresis, Gersuny's operation for cure of, **xlviii**, 792; nocturnal, in children, **xi**, 65; paralytica, device for, **xxix**, 627.

Epidermis, abnormal formation of, **ix**, 356.

Epididymectomy for tuberculosis, **xli**, 780.

Epididymis, fibroma of, **vi**, 185; resection of, for tuberculosis, **xxx**, 649; removal of both testicles for carcinoma of, **viii**, 446; tuberculosis of, **v**, 430, **xlix**, 800.

Epididymitis, acute gonorrhœal, operative treatment of, **xlviii**, 876; gonorrhœal, treated with clay, **i**, 372; syphilitic, early, **ii**, 332; syphilitic, tertiary, **xxv**, 306; treatment by oil of sandal wood, **ii**, 386; treatment by bismuth subnitrate, **ii**, 510; tuberculosis, **xvii**, 430.

Epidural hemorrhage, traumatic, **xlviii**, 122.

Epigastric hernia, non-strangulated, operation, **v**, 374.

Epilepsy, brain localization in, improved method of, **xix**, 212.
Cessation after trephining and typhoid fever, **xix**, 616.
Conditions of cure, **xxxi**, 657.
Focal, specially prepared celluloid plate used after trephining, **xxxvi**, 265; surgical treatment of, **xxv**, 209.
Jacksonian, extirpation of motor centre of arm for, **xxvi**, 228; and focal, operative treatment of, **xxiv**, 122; following depressed fractures of the skull treated by trephining, **xvii**, 329, 332; non-traumatic, surgical treatment of, **xxxviii**, 898; relieved by trephining, **xvi**, 409; trephining for, **xi**, 358.
Old fracture of skull, from, **iv**, 71.

Stasis cyanosis in, simulating traumatic asphyxia, **xlix**, 762, 877.
Traumatic, **xlvii**, 617; excision of diseased cortical tissue for, **xxv**, 91; extirpation of motor centre of arm for, **xxvi**, 234; operation for, **xxv**, 737; osteoplastic resection of the cranium for, **xv**, 468, **xxxi**, 364; relieved by trephining, **xxi**, 316; trephining for, **xi**, 115, 351, **xviii**, 71, **xxvii**, 670, 770, **xxviii**, 131, **xxxviii**, 783.
Treatment of, by cervical sympathectomy, **xxx**, 121; by ligation of vertebral arteries, **x**, 190.
Trephining for, **xvii**, 91, **xix**, 544, **xxx**, 324, **xxxi**, 497, **xlix**, 707; followed by cortical abscess of brain, **xxx**, 326; relieved by, **xiv**, 406, 407, 408, 409; results of, **xlii**, 937; and subdural implantation of rubber tissue, **xxv**, 95.
Epileptoid attacks, operation for, **xv**, 468.
Epiphyseal break of the tibia, symmetrical inflammation of, **xli**, 278.
Epiphyseal cartilage, changes in, after articulation, **xii**, 449; of long bones, compensating hypertrophy of, after removal of its fellow, **xi**, 72.
Epiphyseal displacements and fractures of the upper extremity of the humerus, **xlvii**, 706.
Epiphyseal infection, septic, resections of hip-joint on account of, **xii**, 258.
Epiphyseal separation of great trochanter, **xliii**, 754.
Epiphysis (see also Child) of femur, separation of lower, **ix**, 107, **xviii**, 1, **xxviii**, 664, **xxxv**, 662; operation for, **xliii**, 615; pathological, **xxi**, 157.
Humerus, of, separation of upper, **ix**, 153.
Lower extremity, of the, traumatic separation of, **xix**, 289.
Radius, of the, effects of traumatic separation upon longitudinal growth, **xii**, 458.
Skiagraph study of the normal membral, **xxxii**, 621.
Surgery of, **ii**, 157.
Tibia, of the, compound separation of lower, **v**, 170.
Review of Book: Traumatic Separation of the Epiphysis, by Poland, **xxxii**, 147.
Epiplopexy in cirrhosis of the liver with ascites, **xxxv**, 303.
Epispadias, operative treatment of, **xxii**, 689; operative treatment of, **xxv**, 379; treatment of, in the male, **xix**, 111.
Epistaxis, otitis from tamponade in, **viii**, 126.
Epithelial cyst, congenital, of the neck, **xxii**, 132; traumatic, **xlvi**, 190; traumatic, of the hand or fingers, **xxvi**, 732.
Epithelioma, **v**, 67; of the ala of the nose, treatment of, **xxii**, 695; of cæcum, excision, **ii**, 81; calcifying, **xxv**, 513; of cheek, excision and plastic operation, **xxxix**, 812; conveyed by contact, **xvii**, 369; external ear, removed for, **xxix**, 49; excision of half of the lower jaw and half of the tongue for, **xlv**, 306; of frontal sinus, **xx**, 416; of the heel, operation for, **xliii**, 609.
Larynx, of, **v**, 357; partial excision for, **v**, 540; thyrotomy for, **vi**, 254; total extirpation of, **ix**, 141.
Lip, of, **xxxi**, 628; pyoktanin in, **xvi**, 87; removed by Regnier's method, **xxii**, 265, 266; simultaneous with epithelioma of the penis, **xvi**, 461.
Multiple, case of, **xix**, 609.
Orbit, of, treated by X-rays, **xxxvi**, 452.
Palate and fauces, of, **xlvii**, 128.
Penis, of, **vi**, 31, **xlvi**, 890.
Tongue, of, **iii**, 523; excision of, **xliii**, 436; and floor of mouth, **i**, 280; and mouth, **xxxi**, 243.
Epithelium, ciliated cysts containing, **iii**, 96.
Epulides, **vii**, 215.
Equinovarus, advanced conditions of, treatment of, **viii**, 395; anatomy of congenital, **xvii**, 293; congenital, **xxvii**, 430; extreme, **xli**, 949; talipes, **ix**, 101.

Erasion for carbuncles, viii, 301; of knee-joint, viii, 115, x, 401.
ERDMANN, JOHN F.: Abscess of liver, of traumatic origin, xxxvii, 272; accidents in hernia operations, xlix, 208, 263; acute hemorrhagic pancreatitis, xlix, 248; acute intestinal obstruction from strangulation of Meckel's diverticulum, xlvi, 311, 312; acute intussusception, xxxv, 411; acute pancreatitis with cholelithiasis, xliii, 144; adenolipomatose symétrique, xxxvii, 932; black vomit after operations on appendix, xxxviii, 108; carcinoma of intestines and peritoneum in a youth of nineteen, xxxii, 608; carcinoma of the male breast, xxxi, 742, xlviii, 465; cardiospasm, with report of an operative case, xliii, 224, 928; cases of ureteral calculus, xlii, 456; cholecystotomy for pancreatitis, xlv, 959; compound depressed fracture of the skull, xxx, 342; congenital hydronephrosis, xliii, 929; congenital lumbar hernia through the triangle of Petit, xlv, 301; ectopic pregnancy, xxxiii, 640; enterolith, xxx, 345; erysipelas and *Bacillus prodigiosus* toxins in the treatment of sarcoma, xl, 268, 1019; excision of colon, xlix, 253; excision of Gasserian ganglion, xxxvi, 957; fracture of the patella, xxxiii, 488; gangrenous intestine in ventral hernia, xxxiv, 208; gastro-enterostomy, xxxix, 594; gastro-enterostomy with the Roosevelt clamp, xlv, 958; hydronephrosis due to abnormal implantation of ureter, xlix, 256; intestinal obstruction due to intussusception, xxxi, 180, 251; intestinal resection, postoperative obstruction, repeated resection with final recovery, xl, 584; intestinal strangulation by Meckel's diverticulum, xxxii, 709; intussusception, xlvi, 313; laceration of superior longitudinal sinus, xxxvii, 607; lesions associated with gunshot wounds of the stomach, xlv, 779; ligation of the third portion of the subclavian artery for aneurismal varix, xxix, 618; loose cartilage in knee, xxxvii, 606; multiple fracture of patella, xxxii, 708; multiple septic infarcts of right kidney, with nephrectomy, xliv, 622; multiple vesical calculi, xxxi, 743; observations on the treatment of fracture of the neck of the femur, xlvii, 119; operation for ankylosis at the shoulder joint, xlvii, 118; operation for nonunion of radius, xxxi, 737; operative reduction of irreducible dislocation of shoulder, xxxviii, 449, xxxix, 591; papilloma of larynx and trachea, xl, 1014; papillomata of bladder, xlviii, 305; perforating gunshot wound of the abdomen, xxxiv, 832; perforating ulcer of the duodenum, xxx, 236; perforating ulcer of the pylorus, xl, 266; perforating ulcer of the stomach, xxxvii, 928, xlv, 772; peritonitis in children with unknown site of infection, xlviii, 934; postoperative intestinal obstruction, xl, 598; primary typhlitis, without appendicitis, xlv, 964; primary typhoidal perforation of gall-bladder, xxxvii, 878, 935; prostatectomy, xlix, 255; reamputation of lower end of leg for exostosis in a previous Bier amputation, xlviii, 624; rupture of spleen, xlii, 470; sarcoma of the ovary in a child, xlviii, 619; statistical report of seven hundred and three major amputations from the records of eight hospitals of New York City, xxii, 358; strangulation of bowel operated on under spinal anæsthesia, xxxiii,

203; suppurative arthritis of the knee-joint, **xxxii**, 144; suprapubic prostatectomy, **xlviii**, 624; thyroglossal dermoid, **xxxvii**, 97; thyroid medication for delayed union of fractures, **xxxi**, 743; torsion of uterus, **xxxix**, 817; treatment of undescended or maldescended testis, **xlviii**, 469; tumor of the shoulder, **xxx**, 650; ureteral calculus in a child, **l**, 697; use of tracheal cannula after laryngectomy, **xlv**, 962; Volkmann's ischæmic paralysis, **xlviii**, 452; volvulus, **xlii**, 591.

Erosion of carotid artery, with hemorrhage from external auditory meatus, **i**, 559.

Errors, surgical, **ix**, 79.

Eruptions, iodoform and skin, **vii**, 204.

Erysipelas, **xv**, 40; bacteriology of, **iii**, 402; clinical observations on, **v**, 137; contagiousness of, researches on, **xxxii**, 727; of face, **viii**, 300; of pharynx, **xii**, 226; reabsorption of callus in fractured thigh bone from, **v**, 437.

Treatment of, **iii**, 410, **v**, 48; by ichthyol, **vi**, 140; by Kraske-Riedel, **x**, 180.

Erysipelas toxins in carcinoma, effect of in, **xviii**, 68, **xix**, 696.

Hodgkin's disease treated with mixed, **xlvii**, 127.

Malignant tumors, in, curative effect of, **x**, 146, **xiv**, 210, **xxiv**, 44, 53, 501, **xxv**, 514.

Sarcoma, in, **xxv**, 174, **xxviii**, 244; of the abdominal wall, **xxvi**, 232; cases successfully treated, **xlvii**, 455, 807; with toxins of *Bacillus prodigiosus*, **xxx**, 510; **xxxv**, 421; spindle-celled, of the sternum, with *Bacillus prodigiosus* toxins, **xlvii**, 805; with X-rays, **xli**, 770, 771.

Syphilitic lesions, in, influence of, **viii**, 63.

Erysipeloid and its etiology, **vi**, 444.

Erythema nodosum, **xv**, 48.

Escher, Dr.: Bassini's method for radical cure of hernia, **xv**, 484.

EWING, JAMES: Delayed chloroform poisoning, **xlix,** 422.

Exarticulations at Erlangen, ii, 257.

Excision of ankle-joint, **ii,** 166; of astragalus, **ii,** 167; of colon, **vii,** 103; *vs.* drainage of joints, **viii,** 396; of elbow, **xvii,** 704; of elbow-joint, for ankylosis following fracture, **xxii,** 114; of fibro-sarcoma of abdominal wall, **ii,** 76; of head of femur, **ii,** 164; of hip, **iii,** 8; **iv,** 51, 450; of hip, new method for, **vi,** 145; of joints after gunshot wounds, indications for, **v,** 326; of joint for infantile paralysis, **iii,** 101; of kidney, **ii,** 85, 425; of the knee-joint, **iv,** 364, 427; of the larynx, **iv,** 397, 434; of parietal peritoneum, large piece of, **ii,** 76; of shoulder-joint, for chronic disease, **iv,** 270; of tarsal bone, **iii,** 206; **iv,** 293; of tarsus, partial, **ii,** 412; of tarsus and portion of metatarsus, **xvii** 104; of tongue, **ii,** 359; of the wrist, **xxxiii,** 58.

Exomphalos, operations for, **ii,** 258.

Exophthalmic goitre, xxxv, 288; in a dog, **xlvi,** 541: thyroidectomy for, **xlii,** 33; operative treatment of, **xxxvi,** 397; permanent results from the operative treatment of, **xlii,** 994; psychic factor in surgical aspects of, **xlvii,** 864, 1061; surgical treatment of, **xxxviii,** 161, 202; surgical treatment of, the results of, **xliii,** 335; thyroid serum in the treatment of, **xlvii,** 789.

Exophthalmos due to traumatic aneurism of the internal carotid artery, **xxxix,** 649.

Pulsating, following fracture of the base of the skull, **xviii,** 234; traumatic aneurism of the carotis interna cerebralis with, **xlvi,** 928; treatment of, **xxxix,** 421, 435.

Exostosis, amputation of lower end of leg for, **xlviii,** 624; bursal, **iv,** 77, **ix,** 112, **xv,** 400; congenital symmetrical, **iv,** 362; of femur, bursal, **xl,** 413; of fibula, club-foot due to, **xix,** 679; of knee, intra-articular, **viii,** 458; multiple, **xvi,** 251; multiple, including an exostosis within the spinal canal, **xlvi,** 608.

Expert examination and testimony in railway cases, **xvii,** 41.

Exploratory incision in abdominal tumors, **ii,** 418; laparotomy, **iii,** 245, 345; nephrotomy, **iii,** 172; operation in cervical vertebræ, **iii,** 490.

Exsection of bones in continuity preparatory to secondary suture of tendons and nerves, **i,** 484; of humerus, upper portion, ultimate results of, **vii,** 431; of knee-joint, **xv,** 431; partial, of tarsus, **ii,** 412; of temporomaxillary joints for true ankylosis, **v,** 141 (see Excision).

Exstrophy of bladder, vii, 306, **xxxi,** 720, **xli,** 463; modified Maydl's operation for relief of, **xxxviii,** 763; operative treatment of, **xxxiv,** 25; plastic operations for, **xlii,** 924; rectrovesical anastomosis for, **xxxvii,** 290.

Extension apparatus for the application of plaster bandages to the lower extremities and the pelvis, **xx,** 617.

External iliac arteries, simultaneous ligation of both, **xlviii,** 872.

Extra-uterine pregnancy, vi, 93, 94, 95, 281, **ix,** 151, 472, **xxxiii,** 640; and hemorrhage, **xx,** 705; laparotomy for, **iv,** 458, 459, **viii,** 71, **xxi,** 63; operation for, followed by pulmonary thrombosis, **xli,** 147; prognosis and treatment of, German statistics in, **xv,** 502; ruptured, during typhoid fever, **xlvi,** 321; specimen removed after thirteen years, **xxxix,** 464; terminating in suppurating hæmatocele, treatment of, **xxxiv,** 159, 442.

Reviews of Books: Discussion of Society of American Obstetricians and Gynæcologists on Extra-uterine Pregnancy, **x,** 398; Extra-uterine Pregnancy, by Strahan, **x,** 398; Extra-uterine Pregnancy and Pelvic Hæmatocele, by Tait, **x,** 395.

Extravasation of blood, discoloration of skin after, **iii,** 408.

Extirpation of thyroid, **iii,** 165; of uterus, **iii,** 177, 359, 444; of uterus, present status of operation for, **ii,** 486.

Extradural hemorrhage, xlvi, 468; with fractured skull, **xlviii,** 125; from rupture of middle meningeal artery, **xxxvii,** 341.

Extreme equinovarus, xli, 949.

Extremity or extremities, arterial ligation after occlusion of a vein at the root of, **iii,** 105; carcinoma of, primary, **x,** 171; fractures of the lower, ambulant treatment of, **xxi,** 187; gunshot wounds of, **xliv,** 746; injuries of the lower, **xxi,** 726; severe injuries of, treatment of, **xviii,** 470.

Reviews of Books: Guide to the Treatment of Fractures and Dislocations of the Extremities by Means of Extension, by Bardenheuer, **xiii,** 479; Injuries of the Upper Extremities, by Bardenheuer, **iv,** 284, 290, **ix,** 78; Interscapulothoracic Amputation of the Upper Extremity, by Berger, **vi,** 361; Surgical Anatomy of Upper Extremity, by Schüler, **iv,** 284, 291.

Extroversion of bladder, viii, 46; congenital, **iii,** 168, 169.

Eye, cocaine in surgery of, **iii,** 61; emphysema about, **iii,** 417; enucleation with transplantation and reimplantation, **iv,** 172; globe of, conditions demanding excision of, **xvi,** 211; incision of for traumatic intracapsular hemorrhage, **vi,** 501; perforation of, by knot of a whip, **ix,** 294; transplantation of rabbit's conjunctiva to the human, **xi,** 375; transplantation of rabbit's, to human orbit, **ii,** 505.

Reviews of Books: Disease of the Eye, by De Schweinitz, **xvi,** 499; Diseases of the Eye, by Fox, **xxxix,** 829; Diseases of the Eye, Ear, Nose, and Throat, by Miller, McEvoy, and Weeks, **xix,** 128; Eye as an Aid in General Diagnosis, by Linnell, **xxvi,** 525; Eye Injuries and their Treatment, by Ramsay, **xlvii,** 159; Eye Strain, in Health and Disease, by Ranney, **xxvi,** 526; Functional Examination of the Eye, by Claiborne, **xxiii,** 635; Injuries and Diseases of Eyes and Appendages, by Williams, **i,** 383; Treatise of Diseases of the Eye, Ear, Nose, and Throat, **xxxvi,** 316.

Eyeball, deaths following enucleation of, **i,** 575; evisceration of, **vii,** 286; meningitis following enucleation of, **xv,** 475; partial resection of, **xxvii,** 640.

Eyelid, plastic operation for restoration of, **xxv,** 476; plastic restoration of the lower, **xxxv,** 514; plastic reconstruction of upper, and of eyebrow, from the tissues of the scalp, **xlv,** 790.

F

Face, angioma of, **xliii**, 453; angioma, cavernous, **xxxvi**, 268, 292; bones of, total resection of, **xi**, 376; carcinoma of, **vi**, 77, **ix**, 146; defects of, covered by a skin-flap from the scalp with a permanent buried vascular pedicle, **xvii**, 677; deformity of, from burn, **xxviii**, 138; deformity after carcinoma, operation relieved by prothetic appliance, **xix**, 240; epithelioma of skin of, with unusual courses of lymphatic transmission, **xxvii**, 193; erysipelas of, **viii**, 300; gunshot wound of, **xxxix**, 104; jaw, and lip, clefts of, **i**, 578; lymphangioma cavernosum of, **xxix**, 257; partial resection of the upper and lower maxillæ, for congenital deformity of, **xlvii**, 278; plastic of, **xxxiv**, 837; plastic of, extensive, **xlii**, 313; plastic operation for deformity of, **xxxiii**, 764.

Reviews of Books: Diseases of Face, Mouth, and Jaws, by Horace Grant, **xxxvii**, 158; Face and Foot Deformities, by Churchill, **ii**, 347; Injuries and Diseases of the Face, Cheeks, and Lips, by Post, **i**, 389; Injuries and Surgical Diseases of the Face, by Trendelenburg, **iv**, 283, 288; Manual on the Surgery of the Face, by Terrier, **xxv**, 794.

Facial nerve, stretching of, **i**, 577, **iv**, 1; for trigeminal neuralgia, **xviii**, 466.

Facial neuralgia, intracranial, treated by neurectomy, **xl**, 264; operative treatment of, **iii**, 236, 269; treated by alcoholic injections, **xlvii**, 783.

Facial neuroplastic, **xliv**, 755.

Facial paralysis, affections of hearing in, **i**, 279; possibility of operative relief of certain forms, **xxxvii**, 660; in tetanus hydrophobicus, **xv**, 386; treatment by nerve anastomosis, **xxxvii**, 641; treatment by nerve transplantation, **xxxviii**, 901.

Fagge, Charles H.: Intussusception in children treated by laparotomy, cases of, **xli**, 407.

Fairchild, D. L.: Anuria, **xxxvii**, 626; surgery of the kidney, **xxxvii**, 963.

Fallopian tube, electrolysis in, dropsy of, **ix**, 150; fimbriated extremity of, strangulated in sac of femoral hernia, **xl**, 154; hernia of, **xxxiii**, 247; hernia of obturator, **xxxiv**, 797; hernia of, strangulated, **xix**, 618; laparotomy for removal of, **v**, 172; removal of, **vi**, 41; removal of, with ovaries, **iii**, 102, 241; pregnancy at, **ix**, 151; tuberculosis of, **xxviii**, 468.

Faries, Randolph: Administration of anæsthetics, **xxviii**, 282; brace for treatment of Pott's disease, **xxv**, 182; diagnosis of abdominal tumors, **xxv**, 489; diagnosis in cases of atypical appendicitis, **xxviii**, 140; dislocations of the semilunar cartilages of the knee-joint, **xxviii**, 537; lateral curvature of the spine in a cured case of Pott's disease, **xxvii**, 209; case of strangulated inguinal hernia in an infant, **xxv**, 487; uraniscoplasty, **xxvii**, 374.

Faschiæ of the neck, **iv**, 229.

Fat, large accumulation of, in tunica vaginalis, **iii**, 365.

Necrosis of the pancreas, **xxxii**, 733.

Fatty embolism, **ix**, 451; after orthopædic operations, **xxxi**, 666.

Fatty tumors of the knee-joint, **iv**, 359.

Fauces and palate, epithelioma of, **xlvii**, 128; surgical treatment of malignant tumors of, **iv**, 388.

Febizet: Treatment of rectovaginal fistula, **xv**, 497.
Fecal current, mechanical obstruction of, as a cause of ileus, **xxxiii**, 449.
Fecal fistula cured by intestinal anastomosis, **x**, 283; extraperitoneal closure of persistent, **xlv**, 827; following appendiceal abscess, **xlix**, 838; following gunshot wound, **xxxiv**, 424; incomplete and complete exclusion of gut for, **xxv**, 475; relieved by exclusion of segment of intestine, **xxvii**, 537; resection of ileocæcal junction for, **xlii**, 600; of small intestine following operation for appendicitis, **xxiv**, 726; treatment of, **xxv**, 475; treatment of, by partial exclusion of intestine, **xxviii**, 383.
Fecal impaction, intestinal obstruction caused by, treated by division of the anus and introduction of hand, **vi**, 515.
Fecal vomit, drowning of patients in, **xxxvii**, 862.
Feeding after surgical operations, **v**, 255.
Felon, treatment of without excision, **vii**, 298.
Female generative organs, diseases of, **xxvii**, 129, 333, 491.
Female valgus, spurious, **iii**, 355.
Femora, inequalities of the right and left, **l**, 313.
Femoral artery, aneurism of, **xxix**, 357; endo-aneurismorrhaphy (Matas) in the treatment of traumatic, **xlvii**, 261; false, **xlvii**, 464; traumatic of, **iv**, 333.
Contusion of, **iii**, 512.
Gangrene of leg following ligature of, **v**, 86.
Perforated by osteophyte, **xlix**, 427.
Superficial, excision of traumatic aneurism of, **xxix**, 605; ligation of, for hemorrhage from wound during reaction, **xix**, 242.
Suture of, **xlii**, 126, 618.
Vein, and, suture of stab wound of, **xlix**, 394; wound of, **i**, 167.
Vessels, and nerve in extirpation of tumors of Scarpa's triangle, **iv**, 274.
Femoral epiphysis, separation of lower, **xliii**, 615.
Femoral hernia, appendicular, **xliii**, 669; cure of, **xlii**, 209; gangrenous strangulated, complicated by suppurating adenitis, **xli**, 476; obscure case of, **v**, 159; operation for, **xliv**, 775; radical cure of, **xvii**, 618; **xxxix**, 927, 1015, **xliv**, 519, **xlviii**, 442; treatment of, in women, **xv**, 327.
Femoral neck, flexures of, in adolescence, **x**, 150.
Femoral shaft, operative treatment of recent fractures of, **xlviii**, 420.
Femoral veins, ligature of, **ix**, 76; ligature of common, **iii**, 411; suture of wound of, **v**, 159; wound of, beneath Poupart's ligament, **xii**, 215.
Femoral vessels, aneurism of, arteriovenous, **xxxi**, 753; aneurism of, supposed arteriovenous, **xiv**, 400.
Femur, acute periostitis of, in children, **xiii**, 443.
Curvature of neck of, **xvi**, 281, **xxi**, 243; **xxviii**, 21; in adolescence in, **ix**, 271.
Dislocation of, backward, reduction by Guermonprez's method, **xii**, 453; consecutive to typhoid fever, **xxiii**, 212; excision of head of in, **ii**, 164, 513; of head of, **v**, 169; of head of, operative, in certain cases of hip disease, **xxxvi**, 579; at hip, with fracture of neck, **xxiii**, 207; spontaneous, in acute infectious diseases, **iii**, 257.
Displacements, old, of the upper end of, and their treatment, **xx**, 27, 80, 621, 736.
Exostosis bursata of, **xl**, 413.
Forearm, and, gunshot fracture of, **xlv**, 970.
Fracture of, **xliii**, 612; in babies, treatment of, **xxvi**, 368, 480; at base of neck, disability and deformity after, **xxviii**, 139; in children, treatment of,

xli, 454, xliv, 118; in children, frame for suspension treatment of, xlix, 105; complicated with sacro-iliac dislocation, i, 463; conservative treatment of, xlviii, 748, 790; epiphyseal, of the neck of, xlvii, 118; in infancy and childhood, treatment of, xlii, 257; in infants during delivery, xxxiii, 775; in infants, Van Ardsdale's splint for, xlii, 801; of internal condyle of, xxxiii, 787; intracapsular, treated by screw fixture, xlii, 282; intracapsular, treatment of, xxiv, 27, 64; of lower end of, with vicious union, xl, 1022; of middle third of, xxxvi, 607; nailing the fragments together, xxix, 623; of the neck of, xvi, 60; xlvii, 118; xlviii, 447; of neck of, in adults, operative treatment, xlviii, 729; of neck, in childhood, xxv, 673; of the neck of, in early life, xxxi, 145, 258; of neck of, new method of treatment for, xxxvi, 746, 789; of the neck of, observations on the treatment of, xlvii, 84, 118; of the neck of, treated by arthrotomy, xxix, 622; of the neck of, treatment of, xxxiv, 61; of neck of, ununited, union by open operation, xl, 561, 606; in the newborn infant, xviii, 471; old, ununited, intracapsular, treated by nail fixation, xviii, 30, 125; opening into the knee-joint, xlvii, 630; pathological, xl, 121; portable traction apparatus for treating, xlix, 107; reabsorption of callus in, from erysipelas, v, 437; recent intracapsular, treated by nailing, xlvii, 469; spontaneous refracture of, healed, xxxix, 105; treatment of, xxvii, 594; xlvii, 1037; ununited, vi, 48; suture of, xxviii, 300.

Myelitis, acute infectious, of the upper end of, xv, 490.

Neck of the femur, operative treatment of fracture of the, l, 806.

Necrosis of lower end of, vi, 43; osteoplastic operation for, v, 553; vi, 83.

Osteomyelitis of, diffuse, treatment by demedullization, xxiii, 427.

Osteotomy of, for ankylosis of the hip, xlix, 873; of upper end of, ii, 169, 170.

Pelvis, and, fracture of, xlv, 969.

Pseudarthrosis of, ix, 155.

Removal of bullet from, xxxi, 745.

Sarcoma of, xxxvii, 100; amputation through trochanter minor without recurrence five years after, xvi, 175; complicating fracture, xvi, 175; hip-joint amputation for, xxix, 110, xlii, 311; recovery by injection of mixed toxins, xxxvii, 435; treated by mixed toxins, xlv, 130; in a young child, xxvii, 594.

Separation of cases of epiphysis of, treated by operation, xxiii, 444, 501, xxiii, 506, 606.

Separation of epiphysis of lower, ix, 107, xviii, 1, xxviii, 664, xxxv, 662; pathological, xxi, 157.

Tuberculosis of, exarticulation of hip for, xxxv, 813.

Fenger, Christian: Adenocarcinoma of stomach, xxxv, 834; chronic peri-uterine abscess and its treatment by laparotomy, i, 393; click of polished bone-surfaces in the diagnosis of osteotuberculosis of joints with large sequestra, xxii, 807; conservative kidney surgery, xxii, 804; conservative operations for renal retention, xxxiii, 369; conservative operative treatment of kidney, sacculated, xxiii, 637; diagnosis of renal calculi, xxxiii, 347; hæmostasis of the broad ligament, xxxv, 829; ileus, xxxiii, 494; loop around the hyoid bone as an aid in narcosis, xxxiii, 673; the other kidney in contemplated nephrectomy, xxx, 385; the question of priority in choledocholithotomy, xxviii, 155;

sarcoma of mesentery, **xxxv**, 835; splenic enlargement and splenectomy, **xxxiv**, 197; surgery of the bile-duct, **xxvii**, 697; surgery of the ureter, **xx**, 257; technic of choledocholithotomy, **xxiv**, 761; traumatic aneurism of the palate, **xxxiii**, 342; treatment of tuberculosis of the peritoneum, **xxxiv**, 771, 845; tuberculosis of ileocæcal region, **xxxiv**, 207.

FENNER, ERASMUS DARWIN: Apparatus to facilitate application of plasterjackets during spinal hyperextension, **xxxvii**, 92; cases of penetrating wounds of the abdomen, submitted to abdominal section, **xxxv**, 15.

FENWICK, H., Case of gastrostomy, **i**, 342.

FERGUSON, ALEXANDER HUGH: Acute postoperative dilatation of stomach, **xliii**, 470; brain tumors, **xli**, 794; contribution to the surgery of cleft palate, **xxxvi**, 560; cruroscrotal hernia, **xlix**, 98; diagnosis of renal calculi, **xxxiii**, 346; end-to-end anastomosis of popliteal artery for gunshot injury, **xxxvii**, 719; hallux valgus, **xliii**, 468; inguinal and femoral hernia, radical cure of, by operation, **xxi**, 547; ischæmic muscular atrophy, contractures, and paralysis, **xliii**, 509; metastatic renal abscesses, **xii**, 793; rupture of the spleen, **xxxvi**, 465; symptomatology of gall-stones, **xxxv**, 667; technic of intestinal anastomosis, **xxxiv**, 840; treatment of fractures of the neck of the femur, **xl**, 609; treatment of peritonitis, **xlii**, 318; urethral surgery, **xxxvi**, 463; visceral pleurectomy, **l**, 351.

Fermentation, **v**, 254.

Fever, stenosis of larynx, after typhoid, **iv**, 336; urethral, **iv**, 20; urinary urethral, or catheter, **xii**, 72.

Fibrine ferment, poisoning with, **iii**, 158.

Fibrinous tumor, peculiar form of, **i**, 423.

Fibrinous vesical concretions, removed by cystotomy, **xxxix**, 256.

Fibro-adenoma of the breast, **xliii**, 940; of the rectum, produced by the eggs and embryos of *Distomium hæmatobium*, **iv**, 352.

Fibro-angioma situated beneath extensor quadriceps of the leg, **xxiii**, 431, 487.

Fibrocystic and fibrous tumors, total ablation of uterus for, **xvi**, 474.

Fibroid tumor of the cervix uteri, Cæsarean section on account of, **iii**, 443; cystic, of the labium, complicated by pregnancy, **iv**, 457; sessile cervical, removed by abdominal sections, **iii**, 361; of the skin, **iv**, 358; of the uterus, **xvi**, 74; of uterus, with papilloma of ovary, **xxii**, 268; of uterus, pelvic abscess simulating soft, **iv**, 455.

Fibrolipoma of jaw and neck, **xliii**, 500; retroperitoneal, **xxvii**, 657; of synovial folds of the knee-joint, **xlviii**, 787.

Fibroma of the abdominal walls, **iv**, 360; arborescens, of joints, **xviii**, 674; of epididymis, **vi**, 185; of head, **vii**, 215; molluscum, diffused multiple, **xlii**, 782; myo-, of the uterus, castration in, **ix**, 370; of nose, **v**, 502; of ovary, **xxxvii**, 468; of palmaris longus, **viii**, 59; subperitoneal pelvic, **xli**, 823; uterine, electrolysis of, **viii**, 383; of uterus, **xxxvii**, 470; of vocal cord, **v**, 144.

Fibromyoma, primary, of the broad ligaments, **xlvi**, 854; of uterus, means of inducing atrophy of, without removal, **xix**, 756; of uterus, removal by morcellement, **xix**, 758; of uterus, treatment of, **xxvii**, 350.

Fibro-osteoma of the humerus, **lxvii**, 808.

Fibrous and fibrocystic tumors,

total ablation of uterus for, **xvi**, 474.
Fibroplastic, white swelling of the knee, **xvii**, 109.
Fibrosarcoma of the abdominal walls, **iv**, 360; excision of, **ii**, 76.
Fibrosarcomatous tumors, **iv**, 549.
Fibula, dislocation of head of, **viii**, 221; simple, **iv**, 84.
Excision of, remote effects of, **xxiv**, 634; for sarcoma, **xxvii**, 741; in a subject of interstitial nephritis, **xxiv**, 379.
Fracture of, compound, **iii**, 101; isolated, of the head of, **xxiii**, 242; operation for badly united, **ii**, 63; with separation of lower epiphysis of tibia, **v**, 170; spontaneous, of, **xliv**, 636.
Replacing partial loss of tibia with maintenance of both malleoli of the ankle, **xlvi**, 628; tibia replaced by shaft of, **xlix**, 820.
Sarcoma of, **xxxvi**, 614; in a child, **xxxvi**, 139.
Fifth nerve, removal of second branch of, at the foramen rotundum through orbit, **xxxvii**, 855.
Filaria sanguinis hominis, **viii**, 321.
Filariasis, **xliv**, 481.
Filigree for the repair of large defects in abdominal wall, **xxxviii**, 47, 302; silver, used to close large hernial apertures, **xxxvi**, 767; wire, suture for hernioplasty, **xli**, 945.
Finger-enucleation of the tonsil, **xlviii**, 883.
Finger-nails and bacteria, **vii**, 152.
Fingers, abortive treatment of phlegmons of, by resorcinol inoculation, **v**, 267; amputation, simultaneous, of left thigh, right arm, and left index and ring, **viii**, 154; backward dislocation of, upon metacarpus, **iv**, 540, **ix**, 280; cocaine in amputation of, **v**, 417; Dupuytren's contraction of, **ii**, 82; interphalangeal dislocations of, **vii**, 39, severed, reunion of, **v**, 263, **xii**, 285; webbed, **xxxi**, 493.
FINNEY, JOHN M. T.: Gastric and duodenal surgery, **xxxix**, 307; Hirschsprung's disease, **xlvii**, 1062; perforating typhoid ulcer, surgical treatment of, **xxv**, 233; perforating ulcer of the stomach, **xxxii**, 1; postoperative ileus, **xliii**, 870, **xliv**, 141; results after pyloroplasty, **xlvii**, 1051; transportation of skin-flaps, **l**, 324.
Finney's method, gastroduodenostomy by, **xxxix**, 587.
First aid on the battlefield, **xliv**, 741.
Reviews of Books: First Aid in Illness and Injury, by Pilcher, **xvi**, 406; First Aid to the Injured and Sick, by Warwick and Tunstall, **xxxvi**, 317.
FISCHER, F.: Lymphangitis of the extremities, **xv**, 488.
FISCHER, HERMAN: Fibrolipoma of stomach, **xlii**, 583.
FISH, HAMILTON: Importance of blood examination in reference to general anæsthetization and operative procedures, **xxx**, 79.
FISHER, JOHN M.: Shortening of the round ligaments by subperitoneal ventro-aponeurotic fixation, **xliv**, 404.
FISHER, WILLIAM H.: Stabwound of colon, diaphragm, and lung, **xxviii**, 499.
FISK, ARTHUR LAPMANN: Avulsion of brachial plexus, **xlix**, 139; both breasts amputated for carcinoma, **xxviii**, 655; case of ulcer of the stomach, **xxx**, 96; complications after operations for appendicitis, **xxxii**, 451; cyst of seminal vesicle aspirated by rectum, **xxviii**, 652; dislocation of cervical vertebra, **xxix**, 341; excision of tongue for sarcoma, **xxxvii**, 273; final results of X-rays for carcinoma, **xlii**, 607; gunshot wound of head of humerus, **xxxix**, 1006; hypertrophic stenosis of the

pylorus in infants, **xliv**, 1; intussusception, **xlii**, 593; ligature of the external carotid, **xlix**, 767, 872; operations for epithelioma of lip, **xxviii**, 382; operation for saddle-back nose, **xxxvi**, 612; reduction of old dislocation of the elbow, **xxix**, 347; result after excision of carcinoma of the tongue, **xxix**, 359; rupture of axillary artery and brachial plexus, with fracture of clavicle, **xxxix**, 1011; sarcoma of humerus, **xxxix**, 997; sarcoma of long bones, **xxxvi**, 614; sarcoma of testis, **xxix**, 492; simple fracture of carpal scaphoid, **xlvii**, 130; stenosis of the pylorus in infancy, **xliv**, 121; strangulated hernia operated upon by local anæsthesia, **xxxiv**, 178; surgery in the presence of sugar in the urine, **xxxi**, 393, 500; traumatic cyst of the pancreas, **xxxii**, 708; traumatic rupture of the ascending colon, **xxxiii**, 626; traumatic torticollis, **xxxiii**, 628; treatment of tetanus by injection of antitoxin, **xxxi**, 368; trephining in fracture of the base of the skull, **xxix**, 354; tubercular peritonitis, **xlix**, 268; tubercular tenosynovitis, **xxxvi**, 134; vanishing tumor of pylorus, **xliv**, 296.

Fisk, Edwin H.: Splenectomy for gunshot wound of the spleen, **xlvii**, 38.

Fissure of anus, **vii**, 150; of Rolando, new method to determine its position, **xiv**, 401.

Fistula in anus, associated with phthisis, **v**, 284; cure of, **iv**, 361; excision of, **v**, 495; treatment of, **v**, 515; tuberculous, **vii**, 141, 149.
  Abscess, and, treatment of, following operations for empyema of the thorax, **l**, 151.
  Artificial biliary, **v**, 231, 238.
  Bladder, of, from suprapubic puncture, **v**, 167.
  Branchial, **v**, 356, **xliii**, 854.
  Coccygeal dermoid, **xxi**, 340.
  Colo-utero-vaginal, **ii**, 431.
  Congenital, of neck, **xviii**, 574; **xxii**, 131; in tongue, **xliv**, 715.
  Fecal, the extraperitoneal closure of persistent, **xlv**, 827; persistent, following general peritonitis, **xlvi**, 153; treatment of, **xxv**, 476.
  Gastrovaginal, case of, **iv**, 459.
  Laryngeal, plastic operation for closure of, **v**, 318.
  Perineorectal, traumatic, **xvi**, 90.
  Pyostercoral, caused by enterorrhaphy, **x**, 76.
  Rectal, **vii**, 63, 311.
  Recto-urethral, **ix**, 468.
  Rectovaginal, **ix**, 149, **xvii**, 113; Febizet's treatment of, **xv**, 497; and rectal, **vii**, 138.
  Renal, **vi**, 35.

Fistula, result of operation for intestinal anastomosis, **xxvii**, 363.
  Thoracic, cure of old, by Estlander's operation, **vi**, 160.
  Urethral, non-urinary, **i**, 374; operation for, **xvi**, 462.
  Urethroperineal, **iv**, 461.
  Urinary, treatment of, **vii**, 58.
  Uterovesical, fistulorrhaphy for, **viii**, 465.
  Vesico-intestinal, **l**, 251.
  Vesicorectal in the male, operations for, **ii**, 83.
  Vesicovaginal, **ii**, 84; Italian statistics of, **iv**, 372; operations for, **xi**, 463.
  Review of Book: Piles, and Other Diseases of the Rectum, by Benton, **iii**, 535.

Fixation plates in the treatment of fractures of the leg, **xxx**, 436, 508.

Flat-foot, **i**, 494; apparatus for relief of, **xix**, 691; astragalo-scaphoid joint, resection for, **vi**, 45; and the construction of the plantar arch, **iii**, 527; contribution to the study of, **xi**, 41; device for support of, **xxix**, 635; forcible over-correction in the treatment of, **xvii**, 16; Müller operation for, **xliii**, 765; painful, **xiii**, 73; tenoplasty of, **xxxviii**, 150; treatment of, **xvi**, 401.

Review of Book: Radical Cure of Confirmed Flat-foot, by Whitman, **xv**, 462.
FLEXNER, SIMON: Pathological report on a case of actinomycosis hominis, **xxvi**, 626.
FLINT, CARLETON P.: Contusion and laceration of the mucous and alar ligaments and synovial hinges of the knee-joint, **xiii**, 445; new method of excision of the knee without opening the joint, **xliii**, 426; operative treatment of fracture of the neck of the femur in adults, **xlviii**, 729; sinus of first branchial cleft, **xlviii**, 165; study of infection of the knee-joint, **xlii**, 570.
Floating bodies in joints, **xxii**, 327.
Floating kidneys, fixation of, **iii**, 170.
Flushing the intestinal canal with salt solution through multiple enterotomy openings, **xlvii**, 953, 1062.
Foot and feet, amputation of, with a dorsal flap, **xxiv**, 706; new osteoplastic, **xii**, 273; plastic, **viii**, 441; simultaneous, of right and left arm, with right leg, and left, **viii**, 220.
Congenital deficiencies of bones of, **xli**, 461; deformity of, **xlvii**, 807.
Dislocation of, forward and outward, **xvii**, 497.
Gangrene of, **ii**, 422; with diabetes mellitus, **ix**, 464.
Painful affection of, **iv**, 53; Morton's, **xvii**, 680, 718.
Perforating ulcer of, **ii**, 154.
Phlebacteriektasia of, spontaneous, **iv**, 346.
Plastic formation of, after amputation of leg, **xxiii**, 244.
Resection of, and of hand, longitudinal incisions in, **xiv**, 397; osteoplastic, **viii**, 156; **xxvi**, 403, 404; for tuberculosis, **xxvi**, 518; after Wladimiroff-Mikulicz, **v**, 161, 553; **vii**, 296.
Tuberculosis of the bones and joints of, **xxxii**, 859; of the joints of, **xi**, 153; of the tarsus of, **iv**, 293.
Venous angioma of, **xxii**, 394.
Wounds of, followed by tuberculosis of femoral, inguinal, and iliac lymph-nodes, **xxxvii**, 746, 782.
Review of Book: Foot and Face Deformities, by Churchill, **ii**, 347.
FORBES, W. S.: Fragment of rib in the urinary bladder, **xxv**, 747; hour-glass contractions of the bladder, **xxv**, 749; improved lithotrite, **xxi**, 77.
Forcipressure in gastric surgery, **xxxv**, 543.
Forearm, deformity of, **iii**, 135.
Fracture of, **xxxi**, 738; compound, **xlv**, 970; non-union of, due to excessive bone atrophy, **xxviii**, 503; open, infected by *Bacillus aerogenes capsulatus*, **xxxiii**, 768.
Gunshot fracture of, **xlv**, 970; wound of, **xxxvii**, 458.
Inoculation-tuberculosis after amputation of, **iv**, 424.
Operation for old injury of the, involving flexor tendons, median and ulnar nerves, **xlviii**, 451.
Sarcoma of, **xlix**, 101.
Volkmann's ischæmic paralysis of, **xlvii**, 459.
Wounds of muscles of, treatment of, **xxiv**, 55.
Foreign body in abdomen, laparotomy for, **ix**, 228; accidentally left in the abdominal cavity, **xxxiv**, 499, 678; in appendix vermiformis, **xxii**, 274; in the bladder, **xv**, 495.
Body, in the, **xiii**, 369; localization of, by X-rays, **xxxviii**, 478.
Bronchus, in, **viii**, 136; **xxii**, 519; use of magnet for removal of, **xl**, 358.
Ears, in, removal of, **iv**, 170.
Frontal sinus, in, **xii**, 358.
Gastrotomy for ingested, **xiv**, 423.
Intestine, in, removal of, **vii**, 222.
Knee-joint, in, **xli**, 775.
Laparotomy for removal of, **vi**, 512.
Larynx, in, **xi**, 282; **xxxix**, 1020.
Lungs, in the, **xxxvi**, 1.

Œsophagus, in the, **iv**, 174, 193; **xxii**, 109, 111; gastrotomy for removal of, **vii**, 221; œsophagotomy for, **vii**, 187, 219.
Rectum, in, **vii**, 145.
Sigmoid flexure, in, laparotomy for, **ii**, 270.
Simulating pathological processes, **xi**, 276.
Skull and spinal column, in, localization of, **xlvii**, 467.
Stomach, in, removed, **xlv**, 238.
Swallowed, located by the Röntgen rays, **xxvii**, 64.
Thoracobronchotomy for, **xlv**, 369.
Urethra, in, male, **viii**, 51, 52.
Uterus, in **xi**, 75.
Vagina, in, **xv**, 500.
Wounds, in, **xi**, 67; left, **xlix**, 814.
Fork, gastrostomy for removal of, **x**, 297.
Formaldehyde gas, sterilization of catgut by, **xxix**, 290.
Formalin, antiseptic uses of, **xxiv**, 229; catgut, **xxiii**, 187.
Formalin-glycerin, injections in the treatment of surgical tuberculosis, **xxx**, 747.
Formulary, Pocket Medical, notice of, **x**, 240.
Fort, Rufus E.: Cysts of omentum, **xlv**, 382.
Four-tailed genital bandage, **xlvi**, 922.
Fowler, George Ryerson: Arraignment of catgut, the desirability of simplicity of method in obtaining certain asepsis in surgical work, **viii**, 450; black vomit in appendicitis, **xxxviii**, 109; caseous lymphatic gland, **i**, 566; congenital sacral cysts, **i**, 115; contraindications to immediate suturing of fractures of the patella, **xiii**, 31; crossed suture, **xv**, 351; fracture of the patella treated by wiring the fragments, **ii**, 246; hernia of the pleura into the neck, **ix**, 321; importance of the primary direction of the sac and spermatic cord in operations for the radical cure of hernia, **xxv**, 625, 627; interscapulothoracic amputation for osteomyelitis of the humerus, **xxxi**, 633, 686; is resection of the knee-joint justifiable in children? **ix**, 439; location and removal of missiles from the cranial cavity, **xxii**, 596; metallic foreign bodies in a bronchus, **xliii**, 447; new method for gastro-enterostomy, **xxxvi**, 695; new method for radical cure of inguinal hernia, **xxvi**, 603; new operative method in the treatment of fracture of the patella, **xxi**, 621; observations on appendicitis, **xix**, 4, 146, 327, 475, 546; operative technic of appendicitis **xiii**, 276; operative treatment of facial neuralgia, **iii**, 269; operative treatment of fracture of patella, **xxi**, 608; operative treatment of hernia, **xvii**, 28; removal of appendix in operations for, **xxi**, 600; rupture of rectum by colpeurynter during attempt to perform intraperitoneal cystotomy, **xii**, 129; shortening of round ligaments, **iv**, 42; intrathoracic tuberculosis, surgery of, **xxiv**, 541; surgical analgesia by spinal cocainization, **xxxii**, 847; suture of spinal cord for gunshot injury, **xlii**, 507; transplantation of large strips of skin, **ix**, 179; treatment of rupture of intestine, **xxxiv**, 295; treatment of tetanus by injections of antitoxin, **xxxi**, 367; value of Bier's method in the treatment of joint tuberculosis, **xxxviii**, 106; wire suturing of fractured patella, as an immediate method of treatment, **v**, 518.
Fowler, Harry A.: Puncture wounds of the bladder, **xlii**, 215; stone in lower ureter, **xl**, 943.
Fowler, Royale Hamilton: Diffuse septic peritonitis due to appendicitis, after-treatment with postural drainage, **xlviii**, 828.
Fowler, Russell S.: Echinococcus cyst of liver, **xxxii**, 812; interscapulothoracic amputations, **xxxi**, 35, 194; partial

enterocele, xxix, 533; surgical treatment of internal hydrocephalus, xlix, 374.
FOXWORTHY, FRANK W.: Modern bullet wounds, xl, 834.
Fracture or fractures, acupuncture in delayed union of, xix, 756.
Animals, in cases of, xxxviii, 888.
Ankylosis of elbow in extension after, xix, 236.
Astragalus, of, i, 490; with dislocation, vi, 405; removal of the entire, xliii, 295; with subastragaloid forward dislocation of the foot.
Carpal scaphoid, of, xli, 321; xlii, 260.
Clavicle, of, i, 293, 489; double, xxv, 716; sternal end of, 100; treatment of, xi, 44.
Compound, ii, 5, 63, 64, 65, 246; five hundred and sixteen cases of v, 76; of the humerus, xxvii, 783; of the lower extremity, treatment of, xxiii, 449; method of treating, xvii, 140; results and methods of treatment at the J. Hood Wright Memorial Hospital, xxx, 297; shortening of limbs after, with extensive destruction of soft parts, iii, 525; of skull followed by abscess of brain, v, 143; treatment of, xv, 279; use of wire for fixation of, xxvii, 785; value of operative treatment in, xxxiii, 171, 205.
Coracoid process, of, iii, 174.
Cranium, of, extensive and comminuted, ending in recovery, xvii, 227.
Death from, xiii, 373; from thrombosis and embolism after, iv, 261.
Deformity after healing, xvii, 108.
Delayed union, how to hasten consolidation in cases of, xxvii, 95; treated by thyroid medication, xxxi, 695, 742.
Elbow, at, in children, xxxv, 75; with rupture of biceps muscle, xxiv, 57; treatment of, xix, 236, 363.
Extensive destruction of soft parts, with operative shortening of bones of legs after, v, 551.
Femur, of, xviii, 30, 125; in children, treatment of, xli, 454; conservative treatment of, xlviii, 748, 790; extracapsular, i, 171; in infancy, treatment of, xlii, 257; intracapsular, treated by screw fixture, xlii, 282; nailing a recent intracapsular, xlvii, 469; of the neck of, xvi, 60, xlviii, 447; of the neck, in childhood, xxv, 673; of the neck of, observations on treatment of, xlvii, 84, 118; in the new-born infant, xviii, 472; opening into the knee-joint, xlvii, 630; pathological, xl, 121; of the shaft of, recent, operative treatment of, xlviii, 420; spontaneous refracture of a healed, xxxix, 105; treatment of, xlvii, 1037.
Fibula, of, with separation of lower epiphysis of tibia, v, 170.
Forearm, of, ununited, xxxiv, 416.
Humerus, of, iii, 263, iv, 68, xlii, 314; of the condyles of, treatment of, xxxix, 1033; epiphyseal, in the newborn, i, 492; of external condyle of, operation for, xxxi, 752; with interposition of soft parts, v, 448; with musculo-spiral nerve injury, xxxi, 129, 242; of neck of, with dislocation of head into axilla, xxvii, 660; of neck of, with dislocation of upper fragment, xxxi, 291, 614; operative treatment of deformity after, xxviii, 142; supracondyloid, correction of deformity following, xxx, 93; of surgical neck of, xxxvi, 607, 787; of surgical neck o complicated with dislocation, xxv, 362; ununited, frequent cause for, xxv, 638; of the upper end of, xliii, 639.
Hyoid and larynx, of, ii, 158; irreducible, operation upon, xxxiv, 448; isolated, of the great trochanter, xlvi, 292; of the greater tuberosity of the humerus, xlvii, 10.

Jaw, of, lower, new interdental splint for, xlii, 252; with separation of the genial tubercle, xix, 653.
Joints, of, treatment of, xviii, 672.
Larynx, of, i, 280; causation of, v, 144.
Leg, of, ambulatory treatment of, xxi, 187, xxiii, 240, 462; disunited, xxxvii, 439; produced during birth, xii, 451; treated with fixation plates, xxxi, 436, 508; treated by wiring the fragments, iii, 101; treatment of, xxvii, 593.
Long bones, of, development of callus after, xii, 261; external metal support for direct application to the shaft of, xliii, 271.
Massage in the treatment of, xxiv, 752, xxiv, 691; and mobilization in the treatment of, xi, 359; in the treatment of recent periarticular, xxxii, 351, 603.
Metatarsal bone, of, fifth, by indirect violence, xxxv, 697; of proximal end of, xlvii, 824.
Motor-boat, xlvi, 122.
Multiple, xlvi, 263; of bones of infants, x, 154; involving the upper extremity, xlvi, 318; of the lower jaw, treated with an interdental splint, xlvii, 826; spontaneous, xli, 451; in a syphilitic, ii, 344.
Nerve injuries in, xxiii, 147, 200; of upper extremity, xviii, 356.
Non-union of, iii, 356.
Nose, of, treatment of, xxviii, 458, 668.
Olecranon, of, rare, viii, 395.
Open measures in the treatment of, xxv, 698, 760.
Patella, of, i, 464, ii, 64, 159, 246, iii, 439, v, 401, ix, 154; immediate wire suturing of, v, 518; intra-articular inflammatory adhesions after wiring a simple, iii, 261; and olecranon, pathology of transverse, v, 177; new operation for, iv, 227; suture of, viii, 1, 186; treated by open operation and suture of the fragments, xlvii, 828; treated by wire, suture, results, i, 491; treated by wiring the fragments, iii, 101; treatment of, viii, 158; treatment by metallic suture, iv, 83; treatment of old transverse, vi, 85; wiring, viii, 1.
Pelvis, of, viii, 154; with extraperitoneal rupture of the bladder, xxxv, 288.
Penis, of, iii, 250.
Paralysis of radial nerve following, iv, 517.
Radiographs of, xxvii, 653.
Radius, of, head and neck of, xlvi, 280; indirect, iii, 256.
Rest, limitations of, in the treatment of, xv, 148.
Ribs, of, viii, 213; from sneezing, iii, 100.
Scapula, of, i, 491; anatomical neck, vi, 84.
Simple, ii, 5, 9, 64, 158, 259, 344; around and penetrating into joints, treatment of, viii, 454.
Skull, of, i, 278, ii, 5, 9, 65, 259, iii, 340, iii, 520, iv, 430, vi, 69, viii, 303; by contrecoup, vi, 151; etiology of, viii, 287; base of, followed by pulsating exophthalmus, xviii, 234; gunshot, with wound of internal carotid, v, 350; mechanism of indirect, iii, 521; treatment of compound, iv, 318; trephining in epilepsy from old, iv, 71.
Spine, of, vii, 467, xxxviii, 311.
Spiral, ix, 300.
Spontaneous, from osteoporosis, i, 65, 491.
Sternum, of, iii, 173.
Temperature in simple, ii, 158; in subcutaneous, iv, 261.
Subcutaneous, behavior of bodily temperature in, iv, 26.
Suture of, primary, xxxvi, 974.
Tarsal bones, of, xli, 363.
Thigh, of, with reabsorption of callus from erysipelas, v, 437.
Tibia, of, anterior tuberosity of, viii, 27; and fibula, ii, 63; and humerus, wiring fragments after compound, iii, 263; sarcomatous, followed by spontaneous bony union, viii, 319; ununited, xxxiv, 431; of upper end of, by compression, v, 439.

Treatment of, **xv**, 375; **xxxix**, 778, 818; ambulatory, in children, **xxiv**, 481.
Tubular bones, of, new method of retention in, **vi**, 268.
Ulna and radius, of, **ii**, 159; in upper third, with dislocation of head of radius, **iv**, 262.
Ununited, **vi**, 48, 272; etiology of, **vii**, 435; results of treatment by the Parkhill clamp, **xxxi**, 327; transplantation of bone for, **vi**, 272; treated with bone-clamp, **xxvii**, 553.
Upper extremities, of, **iii**, 174.
Vertebra, of, cervical, **vi**, 156; cervical, prognosis after, **xli**, 474; with recovery, **ii**, 506; spinal, **iii**, 98; transplantation of, **vi**, 156.
Vicious union after, **xxix**, 362.
Fracture-dislocation of atlas, without symptoms of spinal-cord injury, **xlv**, 632, 634.
Fractures, clamp for the fixation of ununited, **l**, 1114.
Laminectomy for simple, **xxv**, 105.
Operative treatment of, **l**, 363, 1106.

GROVES, ERNEST W. H.: Appendicostomy in conditions of acute peritonitis, **l**, 1334.
Guermonprez's method, reduction of backward dislocation of femur by, **xii**, 453.
Gum, removed from bladder, **xliii**, 317.
Gummata of elbow and knee-joint, **xv**, 504; syphilitic, at margin of anus, **iv**, 87.
Gums, bilateral growth of, **xxxiii**, 765; unilateral hypertrophy of, **iii**, 1.
Gun, perforation of bowel from kick of, **xxxiii**, 648.
Gunshot fractures of extremities, **xliv**, 746; of forearm, **xlv**, 970.
Gunshot wounds, **vi**, 49, 134, 152, 165, 168, 369, 504, 505, 507; with death, **iv**, 477, 528; multiple, **xxx**, 508; in the Philippino-American war, **xxxiii**, 113.
Abdomen, of, **ii**, 420, 422; **iii**, 89, 243, 422; **v**, 465; **viii**, 313; **xxxiv**, 832; **xxxv**, 116, 122; **xlvii**, 1049; involving stomach and jejunum, complicated with pregnancy, **xlviii**, 857; laparotomy for perforating, with recovery, **iv**, 344, 468, 528; necessitating colicystorrhaphy and enterorrhaphy, **xvi**, 574; penetrating, eight cases of, **xxviii**, 487.
Abdominal viscera, of, laparotomy for, **xii**, 231.
Blood-vessels, of, **xliv**, 745.
Brain, of, **xlvii**, 140, 465.
Fecal fistula following, **xxxiv**, 424.
Forearm, of, tetanus after amputation for, **xliv**, 131.
Gall-bladder and liver, of, **xxxix**, 100.
Gastro-intestinal tract, of, **xvi**, 274.
Heart, of the, **xxxvi**, 550; **xliv**, 770.
Humerus, of conservative treatment of, **ix**, 463; head of, **xxxix**, 1006.
Intestine, of, **v**, 148, 150, 151, 154, 155, 156, 371; **vii**, 379, 398; **viii**, 147, 149, 257, 314; **x**, 305; **xi**, 272, 401; multiple, **xxii**, 379; resection for, **xxxiii**, 474; twenty-one, perforating, **xliii**, 313.
Joints, of, **xliv**, 743; indications for excision after, **v**, 326; results of large, **xxxvi**, 368.
Kidney, of, perforating, **xxiv**, 717.
Knee-joint, of, **iii**, 528.
Left hypoglossal nerve, of, **xlviii**, 155.
Liver of, **v**, 225; **viii**, 81, 213.
Lungs, of, **xxvii**, 97.
Palate, of, **v**, 351.
Pancreas, of, **v**, 335.
Skull, of, **xliv**, 749; and internal carotid, **v**, 350.
Spinal cord, of, **xliv**, 757; **xlvii**, 467; suture for, **xlii**, 507.
Spine, of, healed, **iv**, 447.
Stomach, of, **viii**, 81; laparotomy for, **v**, 371; lesions associated with, **xlv**, 699; with posterior drainage, **xlvii**, 623.
Thorax and abdomen, of, penetrating, **xxxv**, 638.
Trachea, of, **ii**, 262.

Review of Book: Primary Antiseptic Healing of Gunshot Wounds, by Newell, **viii**, 476.
GURD, FRASER B.: Intracranial abscess due to the typhoid bacillus, **xlvii**, 4.

HALL, J. BASIL: Primary carcinoma of the bulbous urethra, **xxxix**, 375; splenopexy for wandering spleen, **xxxvii**, 481.

HALL, J. N.: Dislocation of hip in acute rheumatism, **xxxvii**, 563.

HALL, R. J.: Etiology of malignant tumors, **ii**, 450.

Hallux flexus, **vi**, 218.

Hallux valgus, **xxxvii**, 429, **xliii**, 467; operative treatment of, **v**, 162, **xxv**, 444, 480.

HALPENNY, J. A.: Method to facilitate the avoidance of infection during the intestinal anastomosis, preliminary report, **xlviii**, 554.

HALSTEAD, ALBERT EDWARD: Acute postoperative dilatation of stomach, **xliii**, 469; aneurism of the second part of the subclavian, **xxxvi**, 462; carcinoma of thyroid gland, **xliv**, 630; dislocation of metatarsophalangeal joint, **xliv**, 630; diverticula of œsophagus, **xxxix**, 171; exstrophy of the bladder, **xxxvii**, 293; floating bodies in joints, **xxii**, 327; hæmostatic scalp-suturing, **xli**, 795; hallux valgus, **xliii** 467, 469; hydrocele in the female, **xli**, 740, 796; inguinal hernia associated with two testes on same

side, **xlii**, 785; inguinoperitoneal and inguino-interstitial hernia, **xliii**, 704, 790; interscapulothoracic amputation for sarcoma of scapula, **xxxix**, 134, 137; intestinal obstruction from Meckel's diverticulum, **xxxv**, 471; **xliv**, 634; ligation of the first portion of the right subclavian artery for aneurism of the third portion, **xxxi**, 591; œsophageal lesion, **xli**, 791; pancreatic cyst, **xxxix**, 458; peritoneal tuberculosis, **xxxiv**, 841; pseudoleukæmic glandular tuberculosis, **xlii**, 787; resection of lower jaw, **xli**, 625; sarcoma of the ilium, **xxxvi**, 461; sarcoma and myoma of stomach, **xliv**, 638; tubercular peritonitis, **xliii**, 799; tuberculosis of the mammary gland, **xxviii**, 685; venous angioma of hand, **xxii**, 393.

Halsted, William S.: Adenocarcinomata of the breast, a study of certain results of operations at Johns Hopkins Hospital, **xxviii**, 557; parathyroid glandules, their blood supply and their preservation in operation upon the thyroid gland, **xlvi**, 489; radical cure of inguinal hernia in the male, **xvii**, 542; results of operations for carcinoma of the breast, **xx**, 497; results of radical operations for the cure of carcinoma of the breast, **xlvi**, 1.

Halsted's hammer as an aid to suture of the common bile-duct, **xxix**, 481.

Hamburg, operating pavilion of new general hospital at, **xvi**, 371.

Hammer-toe, osteotomy for, **viii**, 460.

Hammond, Levi Jay: Aneurism of the superior profunda humeri artery, **xxxiv**, 398; catheter fever, **xlix**, 90; congenital elongation of the left lobe of the liver, **xli**, 31; gunshot wound of the thorax involving the heart, **xxxvi**, 550; possibility of operative relief of certain forms of facial paralysis, **xxxvii**, 660; primary carcinoma of the vermiform appendix, **xlviii**, 192.

Ham-rind, as nucleus of vesical calculus, **xliv**, 479.

Hancock, John C.: Appendix vermiformis concealed in the postcæcal retroperitoneal space, **xl**, 721; value and place of duodenocholedochotomy in gall-stone surgery, **xliii**, 69.

Hancock, Thomas H.: Wyeth's method of hæmostasis in amputation at the hip and shoulder, **xliv**, 98.

Hand, vii, 57, 296; aneurismal varix of, **xix**, 364; cleft, **xxiv**, 211; congenital deformity of, **xlviii**, 807; critical suggestions on cleansing the surgeon's, **xxxiii**, 349; deformities of, **iii**, 135, **xlviii**, 915; experiments relating to sterilization of the, **xxx**, 496; glass-blowers' deformity of, **viii**, 151; late secondary hemorrhage from a wound of, **viii**, 467; Madelung's deformity of, **xlvii**, 794; method of disinfection of physician's, **iv**, 66; plastic operation on, **xix**, 611; syphilitic tumor of, **viii**, 65; transplantation of skin from chest to, **iii**, 247; tuberculous synovitis of tendinous sheaths of, **iv**, 444.

Review of Book: Bacteriological Investigations on Hand-disinfection, by Sarwey, **xlii**, 961.

Hand and foot, hard traumatic œdema of dorsum of, **xxxviii**, 149; longitudinal incisions in resection of, **xiv**, 397.

Hand-book of Treatment, by Aitken (review of), **vii**, 239.

Handicraft, Surgical, by Pye (review), **iii**, 538.

Hara-kiri, case of, terminating in, recovery, **xxvii**, 745, 783.

Hare, Hobart A.: Improved methods of anæsthesia, **xxviii**, 274; mediastinal surgery, **ix**, 480.

Harelip, 1, 489; death after operation, **xlii**, 507; in the Heidelberg clinic, **iii**, 80; manage-

ment of premaxillary bone in operations for, **xxxix**, 1031; operations for, **i**, 159; **xxix**, 763; traction absorber, **xlix**, 591; treatment of intermaxillary bone in double, **xxxiii**, 791.

Harelip and cleft palate, xxxix, 283; mortality of operations for, **v**, 60; newer conceptions of operative technic in, **xlix**, 34.

HARRIGAN, ANTHONY H.: Fracture of os magnum, **xlviii**, 917.

HARRINGTON, CHARLES: Some studies in asepsis, **xl**, 475.

HARRINGTON, FRANCIS B.: Feasibility of intraperitoneal cystotomy, **xviii**, 408; hernia of the bladder through the pelvic floor from traction of a subperitoneal fibroma, **xxxii**, 369; subperitoneal pelvic fibromata, **xli**, 823; use of the segmented ring in gastric and intestinal anastomoses, **xl**, 748.

HARRIS, H. F.: Hypertrophic tuberculosis of intestine, **xxxvi**, 713.

HARRIS, MALCOLM L.: Abuse of cathartics in obstruction of bowels, **xliv**, 155; actinomycosis, **xli**, 630; best method of collecting the urine from the ureters for diagnostic purposes, **xxxii**, 149; classification of anuria, **xxxvii**, 626; coxa vara, **xliii**, 636; diagnosis for renal calculi, **xxxiii**, 344; fractures of spine, **xxxviii**, 311; gall-stone surgery, **xli**, 317; hip injuries, **xxxiii**, 77; leucocytosis in typhoid ulceration, **xxxvi**, 625; operation for establishing collateral circulation in cases of cirrhosis of the liver, **xxxiii**, 655; operative treatment of old unreduced dislocations of hip, **xx**, 319; osteomalacia, **xl**, 288; prostatectomy, **xli**, 313; pure carbolic acid in hip-joint abscess, **xxxiii**, 657; removal of bladder and prostate for carcinoma through a suprapubic opening, **xxxvi**, 509; solid mesenteric tumors, **xxvi**, 66; splenectomy in splenic anæmia or primary splenomegaly, **xxxiv**, 111, 193, 202; symptoms of ileus, **xxxiii**, 497; technic of operations upon head and neck, **xliv**, 467; tendon suture, **xxxiii**, 661; treatment of actinomycosis, **xxxvii**, 466; treatment of gunshot wounds of abdomen, **xlvii**, 1049; treatment of penetrating wounds of the stomach, with report of sixteen cases, **xxxix**, 356, 469, 473; treatment of peritonitis, **xlii**, 316.

HARRISON, R.: Treatment of stone in the bladder, **i**, 499.

HARSHA, WILLIAM M.: Abdominal wall suture, **xl**, 440; actinomycosis, **xli**, 792; actinomycosis of jaw, **xxxix**, 459; distended gall-bladder, **xlii**, 789; effect of X-rays on keloid, **xxxix**, 454; gangrene of leg following rheumatic endocarditis amputation, **xliv**, 635; intestinal obstruction from Meckel's diverticulum, **xliv**, 631; ovarian cyst with twisted pedicle, **xlii**, 790; pancreatic cyst, **xxxix**, 455; perforated gastric ulcer, **xliii**, 466; spontaneous fracture of fibula, **xliv**, 636; suppurating sarcomatous kidney simulating appendicitis, **xxxv**, 429; tubal pregnancy, **xxxv**, 430.

HARTE, RICHARD H.: Angioma of the lip, hand, and forearm, **xliii**, 454; appendicitis complicating typhoid, **xlii**, 611; cæcal hernia, **xxxiv**, 441; case of hara-kiri which terminated in recovery, **xxvii**, 745, 783; cases of Littre's hernia, **xx**, 190; case of pyæmia due to appendicitis, **xx**, 422; cavernous angioma of the upper extremity, **xlv**, 469; cholecystitis following typhoid fever, **xxxiii**, 71; cleft palate, **xxxix**, 1029; contusions of abdomen, **xxxiii**, 649; drainage empyema of the chest, **xxvii**, 957; effects of gastro-enterostomy in gastric ulcer, **xl**, 435; effects upon glandular tissue of exposure to X-rays,

xliii, 460; excision of wrist-joint, xxxii, 619; exstrophy of bladder, xli, 463; fracture of cervical vertebra, **xxix, 638;** fracture of clavicle associated with aneurism of subclavian, xxxvi, 146; gangrene of the rectum, xxviii, 395; green-stick fracture of the ribs, xxxiii, 66; gunshot wound of abdomen, xxxv, 116, 122; hernia cerebri, xlvii, 143; infections of knee-joint, xliv, 139; injuries at the hip, in aged persons, xxxvii, 118; intestinal perforation in typhoid fever, xxxix, 8; laminectomy for paraplegia, the result of tuberculous disease of the spine, xliii, 309; ligature of the innominate artery for hemorrhage, xxvi, 489; Malgaigne's hooks, xxii, 112; multiple fractures involving the upper extremity, xlvi, 319; observations on fractures of the skull, xxxiv, 534; old dislocation of shoulder, xxxvi, 147; osteotomy for hip ankylosis, xlix, 873; perforating gastric ulcer simulating appendicitis, xxxiii, 212; perforation of the bowel in typhoid fever, xlv, 476; perforative peritonitis, xliii, 315; postoperative treatment, xlvi, 327; preservation of body-heat during operations, xl, 152; primary carcinoma and sarcoma of appendix vermiformis, xlvii, 968; radical cure of hernia, xxvii, 682, xxxi, 652; rarity of fractures of the coronoid process of the ulna, xxiii, 449; remarks on osteotomy, xxvii, 790; results of fracture of cervical vertebræ, xli, 473; sarcoma of intestine in childhood, xxxii, 616; sarcoma of superior maxilla, xxxiv, 437; screw and plate fixation of fractures of tibia, xlii, 775; separation of the lower epiphysis of femur, xxviii, 665; spiral fracture of humerus from muscular effort, xlii, 778; stab wounds of heart, xlv, 672; surgery of kidney, xxxvi, 151; surgical treatment of interspinal tumors, xlii, 524; suture for acromioclavicular dislocation, xxxv, 655; suture of femoral artery, xlii, 622; suture of fractured patellæ, xxxix, 1025; tendon transplantation for congenital club-foot, xlvii, 135; tetanus after vaccination, xxxv, 520, 523; thirst after abdominal section, xxi, 185; three successful laparotomies for intestinal perforation in typhoid fever, xxxviii, 63, 127; treatment of appendicitis, xxvii, 101; treatment of fractures of femur, xlviii, 791; treatment of fractures of the nose, xxviii, 668; treatment of hemorrhoids, xxxv, 828; treatment of intracapsular fracture of femur, xxix, 66; treatment of movable kidney, xxix, 761; treatment of perforative peritonitis, xlvii, 1048; use of chloride of ethyl as a general anæsthetic, xlviii, 796; use of iodoform, xxvii, 677; use of needle-holders, xxix, 263; volvulus of the small intestine in typhoid fever simulating perforation, xliv, 312; wound of œsophagus, xxii, 111.

Hartley, Frank: Anastomosis of colon after extirpation of carcinoma, xxiii, 293; experiences in cerebral surgery, xlv, 481; exstrophy of the bladder, xxxiv, 25; intracranial implantation of dermoid tumor, xxiii, 573, 606; intracranial neurectomy of the fifth nerve, xvii, 511; observations on etiology of tumors, xxvii, 401; operative treatment of club-foot, xix, 257, 367; remarks on surgery of kidney, xxix, 260; sarcoma of stomach, xxiii, 609; thyroidectomy for exophthalmic goitre, xlii, 33.

Hartley-Krause flap in hemorrhage from the middle meningeal artery, xxxvi, 591.

HARTMANN, HENRI: Cancer of kidney and bladder, **xlix**, 122; high amputation of the rectum, **l**, 1091.

HARTWELL, JOHN A.: Advisability of early operation in intracranial hemorrhage of traumatic origin, **xliv**, 450; amputation of shoulder-girdle, **xl**, 1023; arteriovenous angiorrhaphy, **xlv**, 152; bilateral ankylosis of temporo-maxillary joint, **xlv**, 140; bilateral nephrectomy for nephrolithiasis, **xlviii**, 457, 460; border-line tumors of the breast, **xlix**, 557; carcinoma of the rectum, **xlii**, 273, 277, 279; cerebral contusion, operation for, **xliii**, 936; cerebral trauma with astereognosis, **xlix**, 129; Charcot's disease of tarsal joints, **xliv**, 119; cholangeitis due to colon bacillus infection, **xlviii**, 922; cholecystectomy, **xlii**, 120; chronic hypertrophic synovitis of knee-joint, **xliv**, 444; cyst of the suprarenal gland, **xlix**, 125; deformity of shoulder-joint, **xlv**, 454, 455; diagnosis and treatment of typhoid perforation, **xliii**, 942; double castration for tuberculosis, **xlvii**, 292; fracture of lower end of femur, with vicious union, **xl**, 1022; gonococcus peritonitis, **xlviii**, 924; hydronephrosis, **xliii**, 628; intussusception, **xlvi**, 312; method of drainage of ankle-joint, **xliv**, 619; multiple septic infarcts of right kidney, nephrectomy, **xliv**, 621; necrosis of intestine following traumatism of abdomen, **xli**, 136; nephrectomy for essential hæmaturia, **xlii**, 267; old fracture of patella, lengthening of quadriceps, **xlviii**, 455; open operation for separation of lower femoral epiphysis, **xliii**, 615; operations for neoplasms of tongue, **xlv**, 629; perforating gastric ulcer, **xlvii**, 803; **xlviii**, 926; popliteal aneurism, **l**, 800; primary tuberculosis of the breast, **l**, 804; secondary gastro-enterostomy, **l**, 802; treatment of gonorrhœal arthritis with vaccines made from the gonococcus, **l**, 939; primary typhlitis without appendicitis, **xlv**, 965; psychical end-results following major surgical operations, **xlvii**, 853; question of operation for non-penetrating intracranial trauma, **xlviii**, 25; radical cure of carcinoma of the rectum, **xlii**, 399; remarks on appendicitis, **xl**, 764; resection of intestine, followed by end-to-end anastomosis, **xlm**, 149; resection of knee for tuberculosis, **xl**, 125; resection of rectum for syphilitic stricture, with end-to-end anastomosis, **xliii**, 146; retroperitoneal abscess, **xl**, 415; rupture of urethra, **xxxix**, 1014; simple fracture of carpal scaphoid, **xlvii**, 131; splenectomy, **xlii**, 464; stab wound of spinal cord, **xlvi**, 641; stenosis of pylorus, **xliv**, 122; stricture of œsophagus, **xl**, 1020; subdiaphragmatic abscess, **xlii**, 118; subdural hemorrhage, **xliv**, 447; suppurative synovitis of knee, **xlv**, 453; treatment of stricture of the œsophagus, **xlii**, 605; treatment of tuberculosis of testicle, **xli**, 780; tubercular peritonitis, **xlix**, 269; ureter in inguinal hernia, **xxxix**, 1017.

Harvey Lectures on Anatomy and Physiology (review of MS. of), **vi**, 527.

HARVIE, JOHN BRUCE: Recovery after gastrectomy for carcinoma, **xxxi**, 344.

HASBROUCK, EDWIN M.: Endotheliomatous cyst of great omentum, **xlviii**, 206.

HASHEGGER, C. J.: Skin-grafting of the heel, with a flap taken from opposite thigh, **xlviii**, 909.

HASTINGS, HILL: Osteoma of the frontal sinus, **xli**, 624.

Hatfield prize for original research in medicine, **xxxv**, 440.

Hatpin swallowed by an infant, gastrostomy for, **xi**, 354.

HAUBOLD, HERMAN A.: Report of a case of resection of liver for gumma, **xxxix**, 240.

HAWKES, FORBES: Amputation of thigh for gangrene of leg in a child of four weeks, **xxxvi**, 131; bone cyst of superior maxilla, **xxvii**, 939; bullet and wad of clothing removed from the peritoneal cavity, **xxxviii**, 447; bullet wound of pleura, lung, diaphragm, and liver, **xli**, 139; immunity from recurrence after removal of glandular sarcoma of neck, **xxvii**, 938; inflammation of bursa gastrocnemiosemimembranosa, **xxx**, 61; large lumbar hernia treated by silver filagree, **xlviii**, 304; lymphosarcoma of the neck, **xl**, 266; needle and thread removed from under liver, **xxvii**, 950; prevention of intestinal obstruction following operations for appendicitis, **xlix**, 192, 272; right-sided ureter calculus complicating chronic appendicitis, **xlvii**, 809; rupture of liver and pleura, **xli**, 138; rupture of the long head of the biceps muscle at its glenoid origin, **xlvii**, 810; stab wound of liver, **xlix**, 125; supernumerary thumb, **xxvii**, 940; thrombosis of mesentery, **xliii**, 615; ureteral calculus, **xxxv**, 519.

HAWLEY, GEORGE W.: Primary carcinoma of prostate, **xxxix**, 892; surgical problem in prostatic hypertrophy, **xxxviii**, 609.

HAYNES, IRVING S.: Acute traumatic strangulated hernia, **xxxix**, 596; bony ankylosis of temporomaxillary articulation, **xxxv**, 517; cholecystotomy, **xxxix**, 107; cystic kidney, **xxxix**, 599; dislocation of the semilunar and fracture of carpal scaphoid, **xlvi**, 161; epithelioma of cheek, excision and plastic operation, **xxxix**, 812; epithelioma of tongue, **xxxix**, 814; forward dislocation of carpus, **xliii**, 939; general tubercular peritonitis, **xlix**, 265; hydatid cysts of kidney, **xxxvi**, 95; hypertrophy (fibroadenoma) of breast, **xliii**, 940; instances of foreign bodies lodged in the body, **xiii**, 369; pain after operation for hemorrhoids, **xli**, 459; prevention of intestinal obstruction after operations for appendicitis, **xlix**, 272; primary typhlitis without appendicitis, **xlv**, 963; prolapse of rectum, bloodless resection, **xlviii**, 443; pseudocyst of pancreas, **xli**, 950; section of the costal arch for bullet wound of liver, **xlvi**, 155; splenectomy for traumatic rupture of the spleen, **xl**, 114; strangulated femoral hernia, resection of intestine, **xlviii**, 442; thrombus of carotid artery, **xli**, 778; treatment of ununited fractures, **xxxiv**, 417; tuberculosis of the testicle, **xli**, 745, 780, 783; unilateral hæmaturia due to pyelitis cystica, **xlvii**, 417, 462.

Head, aneurism or anastomosis on, **ii**, 415; bloodless operations upon, **xliv**, 752; dermoid cyst of, **xlvi**, 716; gunshot wounds of, with explosive effects, **xxxiii**, 807; penetrating wound of, **vi**, 69; technic of operation upon, **xliv**, 464, 842; tumors of, **iv**, 68.

Extension, an improved brace for, **xxxiii**, 185.

Injuries, contribution to study of, **xix**, 539; followed by bradycardia, **xliii**, 456; operative treatment of, **xiii**, 434; review of one thousand cases of, **xlix**, 449, 593.

Neck, and, cases, operating table for, **xlix**, 159.

Reviews of Books: Injuries of head, by Nancrede, **i**, 377; Malformations and Diseases of the Head, by Treves, **i**, 381; Surgery of the head, by Holmes, **xxxviii**, 465.

Healing under moist blood-clot, **v**, 419.
Hearing, affections of, in traumatic facial paralysis, **i**, 279.
HEARN, W. JOSEPH: Action of X-rays on carcinoma, **xxxvi**, 293, 296; angioma of face, **xxxvi**, 292; appendicitis complicating typhoid fever, **xlii**, 613; carcinoma of tongue, **xliii**, 318; cases of abdominal cystic tumor in the male, **xxv**, 759; effects of bile in peritoneal cavity, **xl**, 431; Ludwig's angina, **xlvii**, 309; management of the tongue during general anæsthesia, **xxviii**, 281; open measures in the treatment of fractures, **xxv**, 760; operation for saddle-nose, **xxvii**, 377; operative treatment of carcinoma of the breast, **xxvii**, 401; perforation of the bowel in typhoid fever, **xlv**, 477; pericæcal abscess without appendicitis, **xxvii**, 786; perineal dislocation of hip, **xxxvi**, 292; radical cure of hernia, **xxxi**, 653; remarks on tetanus, **xxvii**, 236; secretion of urine after prolonged operations, **xxi**, 185; subacute intestinal obstruction, **xxxix**, 433; treatment of fractures of the lower end of radius, **xxix**, 277; treatment of fracture of the patella, **xxii**, 680; use of chloride of ethyl as a general anæsthetic, **xlviii**, 797; use of iodoform, **xxvii**, 679; wiring fractured bones, **xxvii**, 785.
Heart, aspiration of right ventricle for air embolism, **ii**, 138; bound by adhesive pericarditis, operation for relief, **xxxviii**, 907; and brain, possibility of successive self-infliction of injuries of, **vi**, 152; brown atrophy of, complicating cholecystitis, **xlii**, 792, 918; catheterization and aspiration of right auricle for venous air embolism, **ii**, 143; congenital protrusion of, **xliv**, 290; direct insufflation of air into, **ii**, 137; gunshot wound of, **xxxvi**, 550; **xliv**, 770; injuries of, **ix**, 333; motion and respiration, artificial, **vi**, 442; operative treatment of wounds of the, **l**, 100; and pericardium, surgery of, **xlvi**, 934; stab wound of, **xlv**, 672, 793; **xlviii**, 138; stab wound of, suture and recovery, **xlix**, 135; surgery of, **xxx**, 518; **xxxvi**, 793; suturing wounds of, **xxviii**, 669; **xxxi**, 663; **xxxviii**, 902, 905; **xliv**, 771, 772; wounds of, **xxvi**, 722.
Heat, local effects of, **xxxviii**, 895.
HEATH, HOMER H.: The open method in the treatment of Pott's fracture of the leg, **xlvii**, 98.
HEATON, GEORGE: Treatment of intraperitoneal rupture of urinary bladder, **xxiii**, 676.
Heel, operation for epithelioma of, **xliii**, 609; skin graft of, with flap from opposite thigh, **xlviii**, 909.
Heidelberg Clinic, forty-five cases of colostomy in, **xxvi**, 396; goitre operations at, **xxxi**, 122; operations for carcinoma of breast, 1887-1897, **xxxii**, 856; report of, for the year 1898, **xxxii**, 854.
HELFERICH, PROF.: Extirpation of prostate, **xlvi**, 946.
HELMUTH, W. T.: Malignant tumors of upper jaw, **vi**, 471.
Hemiglossitis, **iii**, 76; **v**, 354.
Hemiplegia, **vi**, 69; collateral, from intradural apoplexy, **xxiii**, 324; following operations for appendicitis, **xliv**, 127.
HEMMETER, JOHN C.: Diagnosis of carcinoma of the stomach, **xxxii**, 96.
Hemorrhage, **ix**, 76, 157; from abdominal cavity during menstruation, fatal, **iv**, 456; in abscesses, from large vessels, **viii**, 126; antiseptic tamponade for, **iii**, 436; from the bowel following appendectomy, **xlviii**, 626; cerebral, traumatic, **xlviii**, 633; control

of, by forceps, in vaginal hysterectomy, vi, 275; control of, in intracranial neurectomy, xxxv, 405; diminution of, in operations, vii, 211; discoloration of skin after, iii, 408; endocranial, operative relief of, xviii, 416; extradural, xxxvii, 451; xlvi, 468; gastro-intestinal, following operation for hernia, xlviii, 632; goitre-extirpation, partial, without tamponade or, vi, 500; hepatic, due to trauma, arrest of, xlviii, 541; in hip-disease, xvi, 183; from internal carotid artery in carcinoma, fatal, xii, 221; intra-abdominal, after traumatism, xxi, 326; intracranial, of traumatic origin, advisability of early operation in, xliv, 450; in laceration of kidney, fatal, xxv, 455; laparotomy complicated by diathetic tendency to, vii, 225; late secondary, from wound of hand, viii, 467; ligation of common carotid artery for secondary, xii, 116; ligation of external carotid artery for, two cases, xxxiv, 21; meningeal, v, 76; middle meningeal, iv, 232, 512; of midwifery, intravenous saline injections for grave, xvi, 485; motor aphasia due to, in region of Broca's convolution, recovery after trephining, xxxvii, 82; ophthalmotomy for traumatic intracapsular, vi, 501; after ovariotomy, secondary intraperitoneal, vi, 274; of pancreas, v, 338; pelvic, after laparotomy, iii, 241; reactionary, vi, 86; reactionary, during reaction in a wound made for ligation of the superficial femoral artery, xix, 244; restoration of hæmoglobin in blood after, xii, 269; subcranial, treated by trephining, vii, 401; subdural, xliv, 447; surgical treatment of, from gastric ulcer, xxx, 393; from tongue, v, 64; tonsillar, fatal, vii, 213; transfusion and infusion for, iv, 331; twelve pints of saline solution infused after, with recovery, xlix, 155; after uvulotomy, iv, 521; from wound during reaction of ligation of superficial femoral artery, xix, 242.

Review of Book: Hemorrhage, by Heineke, iii, 182.

Hemorrhagic syphilis, secondary, vi, 354.

Hemorrhoids, vii, 151; aggravated, pathology and treatment of, xi, 319; carbolic injection of, followed by gangrenous periproctitis, xxviii, 395; dressing after operations for, xli, 459; electrolysis in the treatment of, ii, 501; excision of, v, 493, 523; x, 321, xxx, 377; forcible dilatation of anus for, vii, 65; operations for, xli, 459; individual excision and suture in operating for removal of, xliv, 275, 479, radical cure of, without general anæsthesia, xxxv, 824; treatment of, v, 515; treatment of, by plastic method, xxix, 306.

Henderson, M. S.: Cyst of the round ligament of the liver, l, 550.

Hepatic (see Liver), abscess, xvi, 570, xxiv, 223; contribution to surgery of, xxvi, 424.

Calculi, possible cause of difficulty, in differential diagnosis from renal, xxxvii, 36.

Cirrhosis, Marath's modification of Thalma's operation for, xlvi, 831.

Ducts, primary carcinoma of, xlvii, 728; stones in, xxvii, 539.

Flexure, carcinoma of rectum ten years after extirpation of adenoma of, xlviii, 307.

Infections, secondary to appendicitis, xlii, 627, 692.

Surgery, Thornton's recent cases, xiv, 391.

Syphilis, xxvii, 726.

Tumor, extirpation of, xviii, 243; resection of liver for, xxx, 267.

Hepatitis, acute hemorrhagic, **xlii**, 597; hepatic phlebotomy for, **v**, 226, 234.
Hepatocholangiojejunostomy, **xli**, 56.
Hepatonephrolithotomy, **xxii**, 367.
Hepatoptosis, surgical treatment of, **xxvii**, 115.
Hepburn, Thomas N.: Modified Crile tube for direct transfusion of blood, **xlix**, 115.
Hereditary deformity of forearm and hands, **iii**, 135.
Hermaphrodite, pseudo-, a male, **xlvi**, 259.
Hermaphroditism, **xxxvi**, 661.
Hernia, abdominal, median, **xiv**, 515; radical cure of, **x**, 461.
Amputation of omentum in operations, **xxi**, 658.
Appendicular, femoral, **xliii**, 669.
Appendix vermiformis, of, **xviii**, 550; **xxxvi**, 938; **xlix**, 516; complicated by appendicitis, **xlviii**, 199.
Bladder, of the, **xxx**, 772, 773; **xxxviii**, 606; complicating inguinal hernia, **xl**, 921; through the pelvic floor, **xxxii**, 369.
Brain and spinal cord, of the, operative treatment of, **ix**, 223.
Cæcal, **xv**, 122; **xxxiv**, 153, 316, 440.
Cerebri, **xlvii**, 146; treated by silver obturator, **iii**, 520.
Colon, of, through diaphragm, **iii**, 84.
Complicated by hypertrophied omentum, **xix**, 206; by undescended testis, **xli**, 951.
Complicating emphysema of mesentery, **xxix**, 282.
Congenital, operation for, **xxvii**, 151.
Contributions to theory of, **v**, 73.
Crural, radical cure of, **xvii**, 618.
Cruroscrotal, **xlix**, 98.
Cure of, **v**, 550; **xlii**, 209.
Diaphragmatic, **xxvi**, 353; operation for, **xi**, 124.
Electrolysis in the treatment of, **ii**, 501.
Epigastric and adumbilical, non-strangulated, operation in, **v**, 374.
Extramedian abdominal section, after, **xxix**, 655.
Fallopian tube, of the, without hernia of the ovary, **xxxiii**, 247; strangulated, **xix**, 618.
Fecal fistula following, **xi**, 235.
Femoral, Bassini's operation for radical cure of, **xx**, 487; excision of intestine in strangulated, **xxxiv**, 318; inflamed appendix in sac of, **xl**, 380; and inguinal, severe, radical cure of, **xliii**, 114; intestinal obstruction after reduction of strangulated, **xlix**, 732; irreducible, gangrenous, **xxxii**, 299; left, containing appendix vermiformis, cæcum, and entire colon, **xl**, 154; left, containing cæcum and appendix, **xxviii**, 708; obscure case of, **v**, 159; operation for, **v**, 15; **xliv**, 775; radical cure of, **xxxix**, 982, 1015; **xliv**, 519; simulated by varicose internal saphenous veins, **xxxii**, 297; simulated by varicose vein, **xlii**, 127; strangulated, **xxxi**, 252; **xlviii**, 442; strangulated gangrenous, **xli**, 476; strangulated, involving only part of circumference of bowel, enterectomy, enterorrhaphy, recovery, **xvii**, 232; after-treatment of congenital dislocation of hip, **xxxi**, 767; and ventral in women, treatment of, **xv**, 327; in a young child, **xxvi**, 246.
Following operation for appendicitis, **xxxix**, 128.
Foramen of Winslow, into, **ix**, 461; strangulated internal, **iv**, 442.
Gangrenous, **iv**, 253; **xxxii**, 676; **xxxv**, 528; and artificial anus, treatment of (see Bubonocele), **ix**, 445; intestinal anastomosis in, **xx**, 189; primary resection of, **xxxiii**, 357; resection of intestine for, **xxiii**, 446; **xxv**, 180; results of operations for, **xxxii**, 486; strangulated, case of, **xxv**,

462; subjected to circular enterorrhaphy, **xix**, 647; treatment of, **x**, 302, 457; **xiii**, 160; **xvi**, 336; **xvii**, 102, 371, 619.
Genesis of certain cases of, **iii**, 242.
Incarcerated, **vii**, 410; **xiii**, 219; bacteriological, examination of fluid in, **xvii**, 372; of childhood, statistics and prognosis of herniotomy for, **xx**, 377; laparotomy for internal, **xvi**, 440; large, **xxxix**, 293; mortality after operations for large, **xxxi**, 65; operation for large, **xxxi**, 714.
Inguinal, adequacy of local anæsthesia for, **xlv**, 871; Baker's operation for radical cure of, **x**, 141; Bassini's operation for cure of, late results, **xxx**, 220; bilateral, strangulated, **xxiv**, 63; of bladder, **xxix**, 778; of the cæcum, **xlix**, 491; complicated by cystocele, **xxxviii**, 106; complicated by hernia of urinary bladder, **xxiv**, 753; complicated by undescended testicle, **xxvi**, 365; congenital, in females, radical treatment of, **xvi**, 443; containing pedunculated fibroid of uterus, **xl**, 155; containing ureter, **xxxix**, 1017; direct, radical cure of, **xliii**, 111; double congenital, **xxix**, 344; in the female, **l**, 609; in the female, radical cure of, **xxxii**, 802; and femoral, radical cure of, **xxi**, 547; inguinal gangrenous, **xl**, 119; irreducible, complicating sarcoma of the testis, **xlvii**, 822; in the male, radical cure of, **xvii**, 542; new method of closing the canal in radical operations for, **xix**, 586; oblique, further consideration on anatomy of, **xxiv**, 16; operation for, **xli**, 76; operation for, followed by gangrene of small intestine, **xli**, 477; without a peritoneal sac, **xxviii**, 712; and properitoneal strangulated, **xxxix**, 290; radical cure of, **xvii**, 263; **xxiii**, 302; **xliii**, 133; relapsing, operation for, **xxv**, 361; remote results of operations, **xliv**, 440; right, operation for cure, removal of appendix, **xliii**, 665; strangulated, **xlix**, 153; strangulated, early infancy, in, **xxv**, 487; strangulated, herniotomy, and, **v**, 157, 159; strangulated, removal of appendix from, **xlvi**, 645; strangulated, in a seven weeks' old infant, **xlvi**, 642; strangulation of small intestine in, rare form of, **xxi**, 120; surgical anatomy and methods of cure of, **xxx**, 459; with two testes on same side, **xlii**, 785; undescended testes associated with, **xlviii**, 321, 467; worsted truss in, **xxxiv**, 523.
Inguinolabial—ovary, Fallopian tube, and corner of uterus in sac, **xxi**, 691.
Inguinoperineal, **xl**, 126; congenital, **xxx**, 337; double, with double ectopia testes, **l**, 638.
Inguinoproperitoneal, **v**, 551; **vii**, 161; **xliii**, 705.
Inguinosuperficialis, **v**, 73.
Interparietal ventral, at McBurney's point, **l**, 238.
Interstitial, **xli**, 427.
Intestinal resection for strangulated, **l**, 811.
Intraperitoneal, strangulated, **xxvi**, 369.
Ischiorectal fossa of, **xxiii**, 331.
Linea alba, in the, **xxii**, 464.
Littré's, **xxi** 190, 191; **xxvii**, 936; **xxix**, 533; **xxxix**, 258, 297; spontaneous recovery from gangrenous, **xxx**, 248; strangulated and gangrenous, recovery after laparotomy and enterorrhaphy, **xviii**, 32.
Local anæthesia, under, **xxxi**, 1.
Lumbar, **xii**, 20; **xxxiii**, 51; congenital, **xlv**, 245; dissection of a case of, **xvi**, 137; following nephrorrhaphy, **xxvii**, 539; large, treated by silver filagree, **xlviii**, 304; probable, **xxii**, 272, 273.
Meckel's diverticulum, of, **xxxv**, 503.
Mesocolic, **xlii**, 687; or retrogastric, **xlix**, 487.

Muscles, of, ix, 358.
New method for reducing, ix, 230.
Non-strangulated, operative treatment of, x, 285, 301.
Oblique internal, radical cure of, iv, 89.
Observations at the last meeting of the Italian surgical society, xvi, 413; on the mechanical and operative treatment of, at the Hospital for Ruptured and Crippled of New York, xvii, 527.
Obturator, xiii, 217; of bladder and of Fallopian tube, xxxiv, 796; strangulated, xvii, 57; xxxii, 285; strangulated partial enterocele, through obturator foramen, xxxix, 816.
Omental, by abdominal wounds, iv, 240; intestinal obstruction relieved by liberating the omentum from, iv, 526.
Omphaloproperitoneal, xx, 244.
Operations and operative treatment of (see also Radical treatment of), xvii, 28; xxi, 589, 592; abdominal, xliv, 776; accidents in, xlix, 208, 263; accidents which may follow removal of portions of omentum for, xvii, 269, 320; Bardeleben's, vii, 159; Bassini's, modified, xvii, 619; combined with operation for removal of the appendix, xlvi, 157; complicated by wounds of the bladder, xxi, 707; fibres from tendon of external oblique muscle as suture material in, xxxiv, 323; at German Hospital of Philadelphia, 1907 and 1908, xlix, 839; at Goeteborg, Sweden, xviii, 81; incising the intestine in, vii, 225; intestinal obstruction following, xxxviii, 806; observations on, xxviii, 577; overlapping the aponeurosis in, xliii, 349; rapid recovery from, xxiii, 192; removal of testicle in, xix, 697; report of two hundred cases, xxi, 389; resource after failure of, x, 343; use of Murphy button in, xxxv, 401; use of silver wire in, xliii, 547; wire suture in, xli, 946; wounds of the bladder in, xxi, 631.
Ovary, of, xv, 151; strangulated, in an infant, xliv, 958.
Parietal, xii, 69.
Pathology and therapy of, xxxvi, 303.
Perineal, vii, 314; traumatic, ix, 66.
Peritoneal, strangulated, xxxii, 136.
Pleura into neck, of, ix, 321.
Postoperative treatment of, median, xxxv, 542.
Prevention and cure by the approximation of the abdominal aponeuroses, xxxix, 245.
Properitoneal, xxi, 594; xxiii, 126; xxxiii, 622; xlix, 569; and interstitial, xxx, 696.
Radical treatment of, viii, 5, 26; xv, 395; xvi, 336, 505; xxix, 51; xxxi, 648; Bassini's method, xv, 484; in Billroth's clinic, xiv, 518; complicated with gangrene of the intestines, xiii, 159; dangers of modern operative procedures for, i, 129; eight hundred and fifty-five cases of operation for, xxxiv, 1; of enormous, xxix, 280; fatal case of attempt at, i, 120; gastro-intestinal hemorrhage following, xlviii, 632; Greig Smith's, xii, 54; Halsted's method for, xix, 363; in Hamburg, xii, 138; Kolischer's method of, xiii, 214; Macewen's operations for, xiii, 156; modified operation for, xxvii, 459; new method for, xxvi, 613; new method of suture in, xxxi, 286; new operation for, xi, 234; results of one thousand operations for, xxvii, 801; Socin's operations for, v, 241; three hundred and sixty cases of, xxv, 270; treatment of the sac in operations for, xxiii, 32; technic of operations for, xxv, 625; in women, xv, 378.
Relation of congenital phimosis to, x, 208.

Retrocolic fossa, into the, **xlix**, 572.
Retroperitoneal, internal, **xiv**, 307; recent contribution to the literature of, **xix**, 738.
Richter's, **vii**, 52; **xxxix**, 446, 448.
Rupture of intestine in, **v**, 547.
Simulated by inguinal abscess, **xliii**, 768; by a suppurating lymphadenitis of groin, **xii**, 216.
Spontaneous reposition of, **iv**, 74.
Stomach, of, through diaphragm into thorax, **xlv**, 680.
Strangulated, **xxv**, 366; acute traumatic, **xxxix**, 287, 596; complicated by phlebitis of the cord, **xxix**, 281; danger of hypodermic injection of morphine in, **v**, 373; enterectomy for, **vi**, 168; ether irrigations in, **x**, 140, 141; excision of portion of intestine in, **vi**, 514; strangulated gangrenous, **xiv**, 517; **xxii**, 515; **xxv**, 462; and herniotomy, **v**, 157; in an infant eight months old, **xviii**, 82; intestinal obstruction due to fibrous stricture consequent upon, **xxxix**, 733; laparotomy in treatment of, **iii**, 459; **ix**, 99; laparotomy for internal, **iv**, 526; mortality of operations for relief of, in London hospitals, **xix**, 739; and non-strangulated, reduction *en masse* of, **xlvii**, 573; operation for, under cocaine anæsthesia, **xx**, 371; operation for, followed by intestinal obstruction after three weeks, **xxxviii**, 132; operations for, followed by washings out of stomach, **xvii**, 754; operation under local anæsthesia, **xxxiv**, 178; resection of sigmoid flexure in, **xxxvi**, 264; statistics of operations for, at the Zurich clinic, **xxiv**, 102; study of thirty-nine cases of, **xxi**, 438; treatment of, **xx**, 187; **xxiv**, 663; treatment of when gangrene is imminent, **xvii**, 101; treatment of gangrenous, **xvii**, 102, 619; **xviii**, 351; value of operating in two stages for gangrenous, **xlix**, 295; ventroperitoneal, **l**, 238.
Testicular affections, and, **iv**, 190.
Transmesenteric, of appendix vermiformis, **xlii**, 262; combined with volvulus, **xlii**, 209; strangulated internal, **xxx**, 505.
Treated by subcutaneous injection, **v**, 376.
Tuberculosis of, **xvii**, 101; **xxv**, 377; of contents of, **xxxiv**, 787.
Tumor of spermatic cord simulating, **iii**, 256.
Umbilical, **xxii**, 399; **xxxix**, 1005; autoplasty for, **xxxviii**, 302; case of spontaneous rupture externally of, **xii**, 230; in a child, with preservation of the navel, **xlvii**, 306; congenital, **ix**, 226; **xlix**, 565; congenital, relieved by operation soon after birth, **xix**, 737; laparotomy for, in a new born infant, **viii**, 317; management and treatment of, **vi**, 193; operation for, **xxi**, 384; **xxxix**, 132, 1013; **xliv**, 776; **xlvii**, 625; operations for, followed by gangrene of fat of abdominal wall, **xxxix**, 606; operation for the radical cure of, **xxxiv**, 276; radical cure of, **xxxii**, 663; radical cure of, **xxxviii**, 118; strangulated, **xx**, 189, 191; **xlii**, 461; strangulated, omphalectomy for, **viii**, 217; strangulated, in a pregnant woman, **iv**, 442; and ventral, radical cure of, **xliii**, 760.
Umbilical cord, of the, **xix**, 737; **xlix**, 559; congenital, large, treated mechanically, **xxii**, 272.
Uterus, of the, through the inguinal canal, **xl**, 98, 154.
Ventral, **xxx**, 98; **xxxiv**, 572; following abdominal section, **xxxiii**, 1; closed with silver filigree, **xxxviii**, 302; with gangrene of bowel, **xxxiv**, 298; operation for, **vi**, 169; **xii**, 229; **xxi**, 382; after operation for appendicitis, **xxix**,

625; result after operation for, **xxxi**, 746.
Volvulus, with, **xxxi**, 405; **xxxiv**, 316.
Vulvar, vaginal, and perineal intestinal, **iii**, 178.
Reviews of Books: Anatomy and Surgical Treatment of Hernia, by Marcy, **xviii**, 680; Atlas and Epitome of Abdominal Hernia, by Sultan, **xxxvi**, 809; Cases of Hernia with Unusual Complications, by J. Chalmers Da Costa, **xxix**, 280; Diagnosis and Treatment of Abdominal Hernia, by De Garmo, **xlviii**, 316; Hernia, by Pierre Franco, **ii**, 174; *Idem*, by Wood, **i**, 589; Radical Cure of Hernia, by Lucas-Championniere, **vi**, 356; **xvi**, 590; Retroperitoneal Hernia, by Moynihan, **xxvii**, 120; **xxxii**, 740; Technic of Modern Operations for Hernia, by Ferguson, **xlvii**, 153.
Hernial apertures, large, closed by implantation of silver filigree, **xxxvi**, 767.
Hernial sac, cyst of, **xxii**, 123; hydrocele of, **iii**, 249; **iv**, 259.
Hernio-enterostomy, **vii**, 225.
Hernioplasty, with wire filigree suture, **xli**, 945.
Herrington, W. J.: Spontaneous recovery from gangrenous Littré's hernia, **xxx**, 248.
Herzog, Maximilian: Contribution to renal and ureteral surgery, **xlviii**, 703; solid mesenteric tumors, **xxvi**, 66; splenectomy in splenic anæmia or primary splenomegaly, **xxxiv**, 111, 193, 200.
Hessert, William: Actinomycosis of jaw, **xli**, 792; amœbic abscess of the liver, **xl**, 448; carcinoma of head of pancreas, **xl**, 445; cervical rib, **xliv**, 630; complicated appendicitis, **xxxix**, 132; congenital atresia of ileum, **xliv**, 471; diagnostic value of potassium iodide in syphilis, **xliv**, 624; dislocation of individual carpal bones, **xxvii**, 402; lymphosarcoma of rectum, **xxxvi**, 459; metastatic renal abscess, **xli**, 792; perforated gastric ulcer, **xliii**, 462; renal tuberculosis, nephrectomy, **xliv**, 625; resection of four feet of small intestine for injury done during curettage of uterus, **xl**, 443; resection of the knee for tuberculosis, **xxxix**, 131; umbilical hernia, **xxxix**, 132.
Heusner's method for resection of superior maxilla, **x**, 186.
Hewson, Addinell: Carcinoma of breast, **xliii**, 317; fixation of fracture of tibia by screws, **xxxi**, 510; fracture of the coracoid process of the scapula, **xlv**, 470; ligation of the external carotid artery as a preliminary to extirpation of the Gasserian ganglion, **xxxi**, 505; mulberry vesical calculus, **xli**, 785; osteosarcoma of the mandible, **xlix**, 614, 734; perforating gastric ulcer, **xxxix**, 116; punctured fracture of skull, **xlvii**, 144; result after Pirogoff amputation, **xxiv**, 749; supernumerary ribs, **xxxi**, 507; treatment of fracture by massage, **xxiv**, 752.
Highmore, antrum of, empyema of, **xvi**, 389; **xxi**, 335, 612.
Hilton, David C.: Teratomata of the inguinoscrotal region, **xliv**, 582.
Hip-joint, abscess of, acute, **xxxix**, 292; opening into bladder, **i**, 373; pure carbolic acid in, **xxxiii**, 657.
Amputation at, **ii**, 468; **iv**, 185; **vi**, 46; **xvii**, 623, 711; **xx**, 79; **xxi**, 62, 173; **xxvi**, 504; **xxvii**, 524, 753; **xxviii**, 129, 138; **xlii**, 311; for chronic osteomyelitis of femur, **xxxi**, 495; clamp for femoral vessels during, **xxiii**, 67; under cocaine anæsthesia, **xx**, 181, 371; with compression of common iliac artery by direct abdominal finger-pressure, **xxv**, 610; contributions to study of, **xvii**, 1; control of hemorrhage during, **xxv**, 741; for diabetic gangrene, **xxxi**, 494; digital compression of

common iliac vessels in, **xxii**, 404; by ischiatic arthrotomy, **xii**, 454; new method of controlling hemorrhage after, **xvi**, 266; new method for preventing hemorrhage during, **xii**, 150; new method for successful, **xxiii**, 153; preliminary ligature of common iliac artery in, **x**, 1; reinjection of blood after, **iii**, 572; report of sixty-nine cases done by Wyeth's bloodless method, **xxv**, 129, 178; for sarcoma, **xxv**, 93; **xxix**, 110; **xliii**, 623; for sarcoma of femur, **xxvii**, 91; **xxxiii**, 318; tendency to recurrence of sarcoma after, **xxxiv**, 584; for tuberculosis, **xxvii**, 456; for tuberculosis of femur, **xxxv**, 813; Wyeth's method of hæmostasis in, **xliv**, 98.

Ankylosis, bilateral, **xi**, 296; double, after coxalgia, **xxxvi**, 286; operative treatment of, **x**, 219; osteotomy of femur for, **xlix**, 873; resection and osteotomy for, **ii**, 169, 170; **viii**, 230.

Arthritis, chronic rheumatic, **iii**, 529; deformans, resections for, **ix**, 304.

Bursitis, bilateral tuberculous, **xlvi**, 919.

Charcot's disease of, in locomotor ataxia, **xx**, 369.

Complications in fractures involving the, **xxxiii**, 801.

Congenital dislocation of, **xxi**, 243; **xxvii**, 249, 428; **xxxvi**, 198, 305, 609; bloodless treatment of, followed by femoral hernia, **xxxi**, 767; Hoffa's operation for, **xvii**, 625; **xviii**, 111; Lorenz on the bloody reposition of, **xxi**, 727; non-operative treatment of, **xxi**, 348; operative treatment for, **xii**, 463; **xvi**, 582; reduced by operation, **xxxv**, 271; reduction of, **xxii**, 413; specimen of, **xxiii**, 212; treatment of, **x**, 219; **xx**, 80, 129, 138, 621.

Disease, **xv**, 249; acute, bilateral excision for, **xi**, 392; amputation for, **xxxvi**, 781; cause and correction of deformity after, **ii**, 168; diagnostic value of rectal examination in, **iv**, 80; hemorrhage in the course of, **xvi**, 183; hysterical, **xv**, 301; indications for discontinuance of mechanical treatment of, **xv**, 402; management of abscesses of, **i**, 494; method of irrigating abscess cavities after, **x**, 229; operation for relief of ankylosis after, **xxxi**, 641; operative dislocation of head of femur in certain cases of, **xxxvi**, 579; padded board stretcher in, **viii**, 106; resection in, **xii**, 467; **xliv**, 790; subperiosteal amputation after, **v**, 552; treated by portable traction splint, without immobilization except during inflammatory stage, **xvi**, 176; treatment of deformities following, **xxvi**, 407; ultimate results of cases observed at the Hospital for Ruptured and Crippled, **xxvii**, 435.

Dislocation at, **v**, 169, **vi**, 48, 266; in acute rheumatism, **xxvii**, 503; in children, **xi**, 393; consecutive to typhoid fever, **xxiii**, 212; double traumatic, **xl**, 735; with fracture of neck of femur, **xxiii**, 207; irreducible, **v**, 379; irreducible traumatic, operative treatment of, **xii**, 461, 464; mechanics of, **xxxiii**, 75; new method of reducing, **i**, 490; obturator, specimen of, **xxxvi**, 586; old, causes of irreducibility of, **xi**, 239; old, reduced by arthrotomy, **xvii**, 586; old unreduced traumatic, treatment of, **xx**, 27, 319, 621, 736; operative reduction of, **xxix**, 386; paralytic, pathology and treatment of, **x**, 226; perineal, **xxxvi**, 292; spontaneous, during acute infectious diseases, **xxvi**, 448; thirty-two cases of, **xii**, 459; traction apparatus for, **xxxviii**, 890; traumatic, of both, **ix**, 305; upward, **xvi**, 527; voluntary, **xliv**, 791.

Excision of, iii, 8; iv, 57; xxviii, 663; new method for, vi, 145; in pulmonary tuberculosis, iv, 450.
Injuries in aged persons, xxvii, 118, 388.
Knee-joint, and, consecutive resection of, xviii, 595.
Osteotomy for deformity at, iii, 102.
Perityphilitic abscess implicating right, ix, 384.
Resections of, on account of septic epiphyseal infection, xii, 258; forming a new acetabulum in certain, viii, 161; total, xxi, 243; ultimate result of, xliii, 438.

HUTCHISON, J. C.: Results of operative treatment of trigeminal neuralgia, **i**, 577.
Hydatid cyst, cured by operative treatment, **iii**. 438.
Intrathoracic, **x**, 203.
Kidney, of, **xxxvi**, 95; 449; abdominal nephrectomy for, **v**, 273.
Liver, of, **iii**, 345; **iv**, 73; **v**, 215; **xvii**, 585; **xxxiii**, 755; **xxxiv**, 833; **xxxv**, 425; **xxxviii**, 307, 309; complicating cholelithiasis, **xlviii**, 614; with ligature of the portal vein, **xlvii**, 619.
Man, in, **v**, 215, 285, 361, 362.
Obstructing popliteal artery, **ii**, 422.
Omentum, of, **i**, 362.
Parotid and mammary glands, of, **ii**, 157.
Prostate, of, **xxxiii**, 565, 753.
Secondary infection of, **xiv**, 389.
Subdiaphragmatic, **vi**, 191.
Transverse mesocolon, of, **ix**, 229.
Uterus, of, **xv**, 150.
Ventricle, of, trephining, **xiv**, 402.
Hydatid disease, surgery of, **xiv**, 399.
Hydrarthrosis of knee, antiseptic irrigation for, **vi**, 44.
Hydrencephalocele, case of, **xviii**, 26.
Hydrocele, bilocular, **xxv**, 708; bottle operation for radical cure of, **xlvi**, 915; **xlvii**, 379,

480; congenital, in an adult, radical operation for, xx, 93; dangers of use of cocaine in surgical treatment of, **xvi**, 164; double, **vi**, 31; encysted, of the cord, resembling omental hernia, **xlviii**, 448; eversion of the tunica vaginalis, as a remedy for, **xxxiii**, 305; in the female, **xvi**, 42; **xli**, 740, 796; of hernial sac, **iii**, 249; **iv**, 259; of the inguinal canal, with venous thrombosis, **xlviii**, 247; neonatorum, **ix**, 380; new method of treating, **xix**, 745; origin of bilocular, **ii**, 335; radical cure of, **ix**, 465; radical treatment of, **iii**, 429; results of treatment of, **xi**, 135; results of treatment by injections of iodine, **xxiii**, 243; traumatic cephal-, **viii**, 304; treated by carbolic injections, **xiv**, 292; treated by iodine injections, **xv**, 140; treatment of, **v**, 431; **xxv**, 759; treatment of, by incision, **xii**, 287; of tunica vaginalis, radical cure of, **iv**, 30; vaginal, treated by sublimate injections, **vii**, 62.

Hydrocephalus, internal, surgical treatment of, **xlix**, 374; lumbar puncture for relief of, **xvii**, 90.

Review of Book: Les Hydrocéphalies, by d'Astros, **xxix**, 783.

Hydrogen gas, insufflation of, in diagnosing gastro-intestinal perforation, **viii**, 190, 371.

Hydrogen peroxide, application of in surgery, **xxxiii**, 88; dangers attending use of in certain cases, **xxvii**, 382; as a diagnostic help, **xl**, 160.

Hydronaphthol, **iii**, 157.

Hydronephrosis, **xxvii**, 367; **xxxiii**, 72, 73; **xxxvii**, 967; **xliii**, 625, 784; from abnormal ureteral implantation, **xlix**, 256; with calcification of cyst wall, **xxi**, 698; complicating appendicitis, **xliii**, 783, 784; congenital, **xliii**, 929; with distention of urinary bladder, **xliii**, 779; etiology of, **xlviii**, 575; intermittent, **xxvii**, 542; intermittent, from stricture of the ureter, **xxix**, 320; nephrectomy for, **xvii**, 67; **xix**, 497; **xxiii**, 183; **xlv**, 765; from papilloma of the renal pelvis, **xxxix**, 743; from stone impacted in the ureter of a child, **xxvii**, 643; traumatic, **iv**, 192; from ureter obstruction by bladder tumor, treated by left ureterostomy and right nephrostomy, **xlvii**, 287; from ureteral calculus, **xlii**, 265; ureteroplasty for intermittent, **l**, 639; from valvular stricture of ureter, **xviii**, 658.

Hydrophobia, **vii**, 209; **x**, 255; persistence of virus of, **xi**, 135; treatment of, **xxi**, 103.

Hydrophobic tetanus, **ix**, 72.

Hydrorrhachis, osteoplastic operation for, **v**, 168.

Hydrosalpinx, **ix**, 150.

Hygroma proliferans endothelialis, **xiii**, 142.

Hyoid bone, diseases of, **xiv**, 575; fracture necrosis of cornu of, **xxiv**, 233; and larynx, fracture of, **ii**, 158; median osteotomy of, **xxxiii**, 356; primary chondroma of, **xv**, 477; traction on, by loop, as an aid in narcosis, **xxxiii**, 673.

Hyoid bursa, sub-extirpation of, **v**, 512.

Hyperæmia constriction for acute inflammation, **xliv**, 729.

Hypernephroma, **xxxix**, 468; bone metastases of, **xliv**, 851; **xlv**, 326; **xlvi**, 320; extirpation of, **xlv**, 91; of kidney, **xl**, 1005; **xlvi**, 244; **xlix**, 428; recurrence of, in bronchial lymph-glands, **xxxviii**, 910; treated by nephrectomy, **xlv**, 616.

Hypertrophy, congenital and acquired, **vii**, 210; nature of prostatic, **v**, 164; operative relief of prostatic, **viii**, 47; unilateral, of the gums, **iii**, 1.

Hypochondriac and epigastric regions, exposure of, by raising osteoplastic flap of arch of ribs, **xxxviii**, 764.

Hypoglossal duct, extirpation of

fistula from persistent, **xliv**, 758.
Hypoglossal nerve, gunshot injury of the left, **xlviii**, 155.
Hypophysis, removal of tumor of, for cure of acromegaly, **xlviii**, 781.
Hypospadias, **xlvii**, 816: Beck's operation for, **xxxiii**, 809; glandular, operations for, **xxxi**, 126; operation for, **ii**, 82; **xxiii**, 378; **xlvi**, 244; operation for, by scrotal flap, **xvi**, 89; operative treatment of, **xxv**, 379; **xxix**, 780; **xxx**, 536; **xxxix**, 1007; Russell's operation for, **xxxiii**, 218; scrotal, **xxiv**, 226; scrotal, operative treatment of, **xvi**, 461; with stricture of urethra, **xi**, 143; systematic operation for penile, **xlvii**, 68; treatment of, **xix**, 111.
Hysterectomy, abdominal, **xix**, 696.
Carcinoma, for, **xvi**, 477; advantages of abdominal over vaginal, **xl**, 135; by combined abdominal and vaginal dissection, **xix**, 125; final results of, **xxiii**, 339; principles of, **xxvi**, 280; relative merits of supravaginal, and, amputation, **xvi**, 588; vaginal, **iii**, 177, 359; **iv**, 367, 371, **xvi**, 83, 429, **xix**, 697.
Control of hemorrhage in, by forceps, **vi**, 275.
Fibroma, for, technic of, **xviii**, 598.
Myoma, for, **xxvii**, 355; **xxviii**, 142.
New method for securing pedicle after intraperitoneal, **xvi**, 475.
New and rapid method, by a, **xvii**, 305.
Perineovaginal, **xxi**, 225.
Sacral route, by, **xviii**, 464, 559, 561.
Treatment of pedicle by elastic ligature, **xv**, 154.
Uterine fibroids, for, **xxi**, 592.
Vaginal, **i**, 75, **v**, 449, **vi**, 275, **xv**, 153; followed by ureteral fistula, **xviii**, 600, 603; with median section of uterus, in pelvic suppurations, **xvii**, 629; by morcellement, **xix**, 758; operative technic of, **xviii**, 324.
Wound of ureter during, **xli**, 126.
Hysteria from a surgical standpoint, **xxviii**, 177.
Hysteric tumors of mammæ, **xviii**, 79.
Hysterical paralysis in syphilitic subjects, **vi**, 282.
Hysteropexy for uterine retroversion, **xv**, 498.
Hysterorrhaphy, **xv**, 153.

I

Ice, lupus treated with, **xi**, 148.
Ichthyol in treatment of erysipelas, **vi**, 140.
Icterus, emotional, accompanied by a general eruption of lichen, **iv**, 426.
Ideal dressing for abdominal wounds, **xv**, 496.
Idelson. V.: Diagnosis and treatment of pancreatic cysts, **viii**, 389; injuries of heart, **ix**, 333; recent contributions to pulmonary surgery, **ix**, 285.
Idiocy, non-microcephalic, operative treatment of, **xix**, 453.
Review of Book: Microcephalic Idiocy, xxxii, 731.
Ignipuncture in affections of joints and bones, **xii**, 299; in tuberculous tumors, **vii**, 212.
Ileo-appendicular fold, abnormal, as a cause of partial occlusion of the bowel, **xlvi**, 787.
Ileocæcal coil, extirpation of, **xxiii**, 326; **xxv**, 216; **xxvii**, 729; **xxix**, 119; resection of, for tuberculosis, **xlv**, 783.

Ileocæcal junction, resection of, in fecal fistula, **xlii,** 600.

Ileocæcal loop, hæmatoma of, simulating appendicitis, **xxv,** 188.

Ileocæcal orifice and chronic constipation, **xxxii,** 364.

Ileocæcal region, carcinoma of, **xxxv,** 808; surgical relations of, **iv,** 529.

Review of Book: Die Entzundlichen Erkrankungen des Darms in der ileocæcalis Regio, by Richard Leuzmann, **xxxiv,** 721.

Ileocæcal resection for tuberculosis, **xxxix,** 1010.

Ileocæcal valve, acute stricture of, **ix,** 461; **x,** 77; enterectomy for malignant stenosis of, **xviii,** 322; tuberculosis of, **xxxiv,** 205.

Ileocolic fossa, hernia into, **xliv,** 683.

Ileocolic intussusception, xlv, 619.

Ileocolostomy, carcinoma of cæcum relieved by, **xix,** 734; by means of Murphy's button, **xvii,** 652; **xviii,** 327.

Ileotomy for carcinoma of colon, **xx,** 414.

Ileovesical fistula, xxix, 69.

Ileum, carcinoma of, **xix,** 472; congenital atresia of, **xliv,** 471; double perforation of, and perforation of gall-bladder, in typhoid, **xlv,** 34; fibroadenoma of, **xl,** 1008; follicular perforation of, **xxxi,** 259; traumatic rupture of, relieved by enterectomy, **xix,** 732; typhoid perforation of, **xlii,** 927; **xliii,** 446; **xlviii,** 133; volvulus of, **xli,** 148; volvulus of, with cæcal hernia, **xxxiv,** 316.

Ileus (see also Intestinal Obstruction), adynamic and dynamic, **xliv,** 141; after appendicitis, **xxiv,** 376; arteriomesenteric, with acute dilatation of the stomach, **xlvii,** 390; from axial rotation of a mesenteric tumor, **xvii,** 63; caused by neoplasms, **xxxiii,** 457; classification of forms of, **xxxiii,** 496; discussion on, before the Chicago Surgical Society, **xxxiii,** 494; gall-stone, **iv,** 180, 255; **xviii,** 582; **xxxiii,** 634; gastromesenteric, **xlvi,** 736; indications for laparotomy in, **xviii,** 79; intestinal poisons in, **xxxviii,** 914; of jejunum, operation in two stages for relief of, **xlvi,** 224; laparotomy for, **ii,** 509; from mechanical obstruction to the fecal current, **xxxiii,** 449; mesenteric, acute dilatation of, **xlvii,** 532; obturation, **xliv,** 150; after ovariotomy, **xi,** 410; pathology of, **xi,** 287; postoperative, **xliii,** 870; **xliv,** 141; strangulation, **xliv,** 146; treatment of, **xiii,** 220; from vascular obstruction, **xxxiii,** 443.

Iliac abscess, trephining the ilium for, **xii,** 394.

Iliac artery, common, ligation of, followed by gangrene of toes, **xxviii,** 129; ligation of the left, **xlviii,** 22; preliminary ligature of, in hip-joint amputations, **x,** 446; **xxxiii,** 318; transperitoneal compression of, during hip-joint amputation, **xxviii,** 130.

External, aneurism of, **xxviii,** 128; aneurism of, cured by compression, **xiv,** 401; extirpation of aneurism of, **xxxiii,** 473; extraperitoneal ligature of, for aneurism, **xliv,** 96; ligature of, **ii,** 429; ligature of common for aneurism of, **iv,** 519; ligature of, for femoral aneurism, **xxxi,** 256; simultaneous ligation of both, **xlviii,** 872; transperitoneal ligature for aneurism of, **xli,** 620; treatment of aneurism of, by digital compression, **xxxviii,** 498.

Internal, ligature of right, **v,** 351; simultaneous ligature of both, effects of, upon prostatic hypertrophy, **xx,** 44, **xxiii,** 705; simultaneous ligature of both, for hemorrhage during hysterectomy, **xx,** 248.

Iliac dislocation complicated by fracture of neck of femur, **xxiii,** 207.

Fossa abscess, right, containing enterolith, **xliii**, 767.
Iliopsoas muscle, influence of, upon the rotation of the thigh, **xix**, 223.
Ilium, removal of bullet from, **xxxi**, 746; resection of, for osteomyelitis, **xxi**, 240; sarcoma of, **xxxvi**, 461; trephining, for draining pelvic abscesses, **iv**, 351.
Ill, Edward J.: Tubercular diseases of the female urinary tract, **xxxviii**, 524.
Immobilization of bony fragments as support for the periosteum by ivory dowels, **xvii**, 108.
Immobilizing bandages, dangers of, **xvii**, 502.
Impaction of gall-stone, **iv**, 183, 184, 251.
Implantation dermoid tumor, intracranial, **xxiii**, 573, 606.
Incision, combined transverse and longitudinal, in laparotomy, **xl**, 178, 259; points for, in empyema, **x**, 455.
Incontinence of urine in children, **iv**, 188; following Gersuny's operation for prostatectomy, **xliii**, 922; as a sequel of prostatectomy, **xli**, 558.
Indigo-carmine test as an aid in diagnosis of ureteral occlusions, **xliv**, 553.
Infancy, stenosis of the pylorus in, **xliv**, 121.
Review of Book: Diseases of Infancy and Childhood, by Holt, **xxxvii**, 479; Treatise on the Diseases of Infancy and Childhood, by Koplik, **xliv**, 476.
Infant, fracture of skull in, **iv**, 430; laparotomy for congenital umbilical hernia in a newborn, **viii**, 317; multiple fractures of bones of, **x**, 154; three laparotomies in, **xlv**, 764.
Infantile paralysis, **iii**, 354; spastic, treatment of, **xxxvii**, 415; treated by excision of the joint, **iii**, 102; treated by tendon transplantation and nerve anastomosis, **xlviii**, 470.
Infantile pseudoparalysis, syphilitic, **iii**, 362.
Infection, contact and air, in practical surgery, **ii**, 409; mixed, and secondary, **xiv**, 374; through superficial suppurating surfaces, **xiv**, 521; surgical, **xiii**, 187.
Infectious diseases, spontaneous dislocation of femur in acute, **iii**, 257.
Review of Book: Infectious Diseases, by Roger, **xxxix**, 637.
Infectious endocarditis, **xv**, 47.
Infective ecphyaditis, **xvii**, 749.
Inflammation, as a cause of predisposition to secondary cancer, **iii**, 407; connective-tissue cell changes in acute, **vi**, 497; constriction hyperæmia for, **xliv**, 729; Landerer's theory of, **ii**, 479; of pancreas, **v**, 336; pathology of, **xiii**, 161; pelvic, **xvi**, 473; of skin and mucous membrane, formation of cancer from chronic, **ii**, 429; about uterus, deposits accompanying, **vii**, 471.
Inflation of bladder as a preliminary to suprapubic cystotomy, **xxviii**, 358, 383.
Influenza, **xiv**, 480; empyema after, **xvi**, 392.
Infusion, intravenous saline for shock and acute anæmia, **xv**, 345; twelve pints of normal saline solution, after hemorrhage, with recovery, **xlix**, 155.
Ingalls, Henry A.: Splanchnoptosis and its surgical treatment, **xxxv**, 319.
Inglis, Roy: Memoir of Beriah A. Watson, **xvii**, 257.
Ingrowing toenail, **vi**, 48; treatment of, with tannin, **v**, 75.
Inguinal abscess simulating hernia, **xliii**, 768.
Aneurism, **ii**, 429.
Canal, venous thrombosis and hydrocele of, **xlviii**, 247.
Colotomy, **v**, 491; **vii**, 458.
Cystocele, **xii**, 293.
Extraperitoneal route for operations on lower end of ureters, **xli**, 216.

Glands, gangrene of the scrotum after removal of enlarged, **iii**, 40, 90; removal of, **iii**, 411; sarcoma of, **xlv**, 148, 149, 150.
Hernia (see also Hernia), adequacy of local anæsthesia for operations, **xlv**, 871; combined operation for cure of, and removal of appendix, **xliii**, 665; irreducible, complicating sarcoma of the testis, **xlvii**, 822; nervous anatomy of, **xxxi**, 1; operation for, **xli**, 76; radical cure of oblique, **iv**, 89; remote results of operations for radical cure of, **xliv**, 440; strangulated, **xlix**, 153; undescended testis associated with, **xlviii**, 467.
Lymph-nodes, complete amputation of external genitals and, **xlviii**, 450.
Telelymphangioma, congenital, **xxx**, 600.
Inguino-interstitial and inguinoperitoneal hernia, **iii**, 242.
Inguinoperineal hernia, **xl**, 126.
Inguinoproperitoneal hernia, **vii**, 161.
Inguinoscrotal region, teratomata of, **xliv**, 582.
Inhalers, ether, contagion through the use of, **vi**, 137.
Injury, gunshot, of the brain, **l**, 66.
Injuries, **viii**, 134; surgery of, **v**, 86, 455; of upper extremities, surgery of, **iv**, 260.
Reviews of Books: Injuries and Diseases of the Mouth, etc., by Heath, **i**, 390; Injuries and Diseases of Upper Extremities, by Bardenhauer, **iv**, 284, 290; Manual of Instruction in Aid to the Injured, by Doty, **xxviii**, 154.
Innominate artery, aneurism of, **v**, 57; cured by electrolysis through coil of inserted wire, **xxvi**, 646; ligature for, **xxvi**, 512; **xxxvi**, 960; ligature of carotid and subclavian for, **v**, 538; treated by simultaneous distal ligation of right common carotid and right subclavian arteries, **xiii**, 336.
Compression of, **iv**, 332.
Ligation of, **xxviii**, 1; artery, **xlii**, 1, 802; **xlv**, 966; for hemorrhage, **xxvi**, 489; method of exposing for, **xxxiv**, 472; successful, **xxxi**, 629.
Inoculation, with resorcin, abortive treatment of digital phlegmons by, **v**, 267.
Insanity from a cerebral cyst cured by aspiration, **iii**, 522.
Reviews of Books: Insanity, by Spitzka, **vii**, 239; Compendium of Insanity, by Chapin, **xxviii**, 412; Hand-book of Insanity, by Kirchhoff, **xvii**, 632.
Instrument bag, portable, **xxi**, 279.
Instruments, antiseptic surgical, **iv**, 230.
Interdental splint for fracture of the lower jaw, **xli**, 1; **xlii**, 252; **xlvii**, 826.
Interlocking intestinal suture, **xlviii**, 837.
Internal carotid artery, erosion of, with hemorrhage from external auditory meatus, **i**, 559.
Internal iliac artery, distribution of the branches of, and zones of exsanguination resulting from its deligation, **xxxv**, 189.
Internal strangulation of intestine, **i**, 366.
International Clinics (review of), tenth series, vols. iii and iv, **xxxiii**, 666; eleventh series, vol. i, **xxxiv**, 327; twelfth series, vol. iii, **xxxvii**, 636; thirteenth series, vols. ii and iii, **xxxix**, 158; thirteenth series, vol. iv, **xxxix**, 480; fourteenth series, vols. i and ii, **xli**, 156; fifteenth series, vols. i and ii, **xlii**, 639.
International Society of Surgery, Congress of 1908, discussion on cancer of kidney and bladder, **xlix**, 118.
Interscapulothoracic amputation, **xi**, 88; **xxix**, 384; **xxx**, 260; **xxxi**, 35, 194; **xxxiv**, 320; **xxxvi**, 139, 321, 456, 573; **xxxix**, 997; **xli**, 267; for injury, **xxiv**, 182; for osteomyelitis, **xxxi**, 633, 686; for sar-

coma, **xlvii**, 785; for sarcoma, recurrence successfully treated with mixed toxins, **xlvii**, 807; for sarcoma of scapula, **xxxix**, 134; ultimate result of a case of, **xxxiv**, 712.
Interspinal tumors, surgical treatment of, **xlii**, 524.
Interstitial hernia, **xli**, 427; **xliii**, 705, 790.
Intestinal anastomsis, **xv**, 126, 391; **xxxi**, 504; button, with potato, **xxvii**, 543; by invagination, **xxx**, 767; **xlix**, 690; case of, Maunsell's method, **xxviii**, 126; fecal fistula for, **x**, 283; forceps for, **xxix**, 297; instrument for facilitating, **xxxv**, 279, 352; lateral with later perforation of blind end of gut, **xlix**, 562; method to facilitate the avoidance of infection during, **xlviii**, 554; Murphy button, result of use of at the Heidelburg clinic, **xxv**, 654; Murphy button and absorbable plates, relative value of, in, **xxi**, 166; Murphy button, table of recent cases of use of, in, **xxi**, 41; Murphy's button, cases of use of in, **xxi**, 67, 71, 72, 73; neoplasm for, **xviii**, 664; secondary excision of rectum after, **xxviii**, 519; suggestions as to the technic of, **xv**, 126; technic of, **xvii**, 322; **xxxiv**, 840, 850; Ullman's improved method of, **xxv**, 230; use of potato plates in, **xiv**, 527; use of segmented ring, **xl**, 748.
Approximation, mechanical *versus* suture methods for, **xxxiv**, 846, **xxxv**, 36.
Attachment, extent of possible safe removal of mesentery from, **x**, 460.
Calculus, **xxxix**, 444, 448.
Canal, flushing with salt solution through multiple enterostomy openings, **xlvii**, 953, 1062; in man, anatomy of, **ii**, 264.
Carcinoma, anatomical and clinical researches in, **xxxviii**, 911.
Fistula, following appendicitis, **xxiv**, 488, 502.
Exclusion, studies in, **xlvi**, 568.
Forceps, **xl**, 272.
Incarceration, acute, treated by stomach washing, **xvii**, 617.
Injury following abdominal contusions, **xxxvii**, 525, 623.
Localization, **xxxviii**, 574.
Loop, "naval," **xxii**, 343.
Neurosis, **xlix**, 839.
Obstruction (see also Ileus), **xxxviii**, 102; abdominal section for acute, **xii**, 231; abdominal section, immediately following, **xvi**, 273; acute, **xlviii**, 314; **ii**, 80; acute cases of, **xxxii**, 676; acute, from strangulation of Meckel's diverticulum, **xlvi**, 309; acute, relieved by laparotomy, **xiv**, 510, 511; acute, value of enterostomy in surgical treatment of, **xlvii**, 738, 798; from adhesive bands after appendicectomy, **xxxii**, 292; after operation for appendicitis, **xxi**, 315, **xxxix**, 584, 592; after reduction of strangulated femoral hernia, **xlix**, 723; by degenerated Meckel's diverticulum, **xxxvii**, 111; by band, **xxxvii**, 781; Bryant, on mode of death from, **i**, 177; by an enterolith, **xxxvi**, 297; cæcostomy under cocaine for incomplete, **xlv**, 621; carcinoma of cæcum, obstruction from, **xix**, 97; carcinoma of colon, enterostomy, and later ileocolostomy, **xvii**, 652; cases of, **i**, 367; caused by tumor, cured after enterostomy, **xiv**, 511; due to adhesions about a sloughing gall-bladder, **xl**, 133; due to band and volvulus of ileum, **xli**, 148; due to carcinoma, colostomy for, **xxix**, 487; due to fibrous stricture consequent upon strangulated hernia, **xxxix**, 733; due to gall-stones, **xxv**, 101, **xxxvi**, 161, 300; **xlix**, 717; due to tubal pregnancy, **xlix**, 271; due to volvulus, **xlix**, 161; enterostomy and laparotomy for, **x**, 281; five cases of laparotomy for, **xxxvi**, 245;

following appendicitis, **xix**, 677, 682, **xxxiv**, 660, 708; following intraperitoneal operations, **xxi**, 104; following operation for appendicitis, **xl**, 122, **xli**, 150, **xlix**, 838; following operations for appendicitis, prevention of, **xlix**, 192, 272; following operation for inguinal hernia, **xxxviii**, 806; gall-bladder, acute inflammation of, simulating, **xviii**, 84; from carcinoma of colon, **xix**, 672; from hernia into the foramen of Winslow, **iv**, 442; management of certain critical cases of, **xlii**, 668; massage of abdomen for, in men, **ii**, 269; from Meckel's diverticulum, adherent, **xvii**, 341, **xliii**, 299, **xliv**, 631; Murphy button, intestinal obstruction relieved by anastomosis with, **xix**, 472; operation by short circuit for, **xvi**, 439; study of one thousand operations for, **xxxii**, 486, 611; operative relief of, **xxix**, 264; postoperative, **xl**, 510, 584, 598; resection for gangrene from strangulation, **xix**, 416; resection of sigmoid flexure for, **xxix**, 114; relieved by liberating the omentum of an omental hernia, **iv**, 526; subacute, **xxxix**, 443; surgical treatment of, **x**, 302, 347; temporary typhlotomy for, **xvii**, 753.

Occlusion following ovariotomy, **x**, 230.

Paralysis of peritonitis, enterostomy for, **xxix**, 1, 115.

Perforation in typhoid fever, **xxxix**, 8, 118; in typhoid fever in children, surgical features of, **xxxviii**, 71; in typhoid fever, successful laparotomies for, **xxxviii**, 63, 127.

Poisons in ileus, **xxxviii**, 914.

Polyposis and carcinoma, **xxxvi**, 104.

Resection, cases of, **xxxviii**, 135; for tuberculosis, **xxi**, 119; repeated with final recovery, **xl**, 584.

Stasis, chronic, **l**, 190.

Stenosis, new operation for, **xl**, 689.

Strangulation, by Meckel's diverticulum, **xxxii**, 709; and obstruction, **xiv**, 323.

Stricture from operations for carcinoma, **xiii**, 154.

Surgery at the Heidelberg clinic, **xvii**, 730; surgery, syllabus of, **xvii**, 557.

Suture, **xxxv**, 610, 820; experimental research upon, **xxxii**, 735; interlocking, **xlviii**, 837; **xlix**, 590; Maunsell's method, note on, **xxii**, 688; new, **xxii**, 281; new method for, **xiv**, 507; a new method, by Horsley, **xxxviii**, 741.

Suturing, technic of, **xxii**, 284.

Tract, exclusion of portions of in disease, **xxviii**, 383.

Transplantation for formation of an artificial vagina, **xl**, 398.

Walls, friability of, as an obstacle to enterorrhaphy, **xli**, 306.

Reviews of Books: Intestinal Suture, by Terrier and Baudouin, **xxxi**, 773; Treatise on Constipation and Intestinal Obstruction, by Gant, **xlix**, 588.

Intestin, chirurgie de l', review of Jeannel on, **xxix**, 785.

Intestine (see also Appendix Vermiformis, Colon, Colotomy, Enterorrhaphy, Hernia, Ileocæcal, Ileum, Intussusception, Jejunum, Perityphlitis, Pylorus, Rectum, Stomach), actinomycosis of, case of, **xvii**, 230.

Anastomosis of, after resection for obstruction, **xxv**, 735; anastomosis of, with aid of the O'Hara forceps, **xxxiv**, 441; anastomosis of, clamp for, **xxiii**, 38.

Artificial biliary fistula into, **v**, 231, 238.

Carcinoma of large, operations for, **iv**, 247; carcinoma of large, causing intestinal obstruction, operative treatment of, **xliv**, 261; carcinoma, resection of large for, **iii**, 469.

Contusion of abdomen with rupture of, **vii**, 385; contusion and gangrene of, **xxv**, 455.

Cyst of mesentery of the small, **xlv**, 757.
Dangers of ureteral transplantation into, **xli**, 470.
Delayed opening of, in colotomy, **ii**, 270.
Entero-anastomosis for malignant stenosis of, **xix**, 172.
Excision of, following strangulated femoral hernia, **xxxiv**, 318; excision of, for gangrenous hernia, **xl**, 119.
Exclusion of a segment of, for relief of fecal fistula, **xxvii**, 537.
Fecal impaction in, treated by division of anus and introduction of hand, **vi**, 515.
Fibro-adenoma of small, **xl**, 1008.
Functional disturbances of, due to malposition of appendix, **xlii**, 394, 472.
Gangrene of, **xl**, 364, **xliii**, 629; gangrene of, complicating herniotomy, **xiii**, 159; gangrene of, due to vascular obstruction, **xxxiii**, 443; gangrene of, from occlusion of the mesenteric vessels, operative relief of, **xxi**, 9.
Gangrenous typhlitis, partial resection of, **xv**, 483.
Gunshot wounds of, **v**, 148, 150, 151, 154, 155, 156, 371, 465; **vi**, 369; **viii**, 147, 149, 257, 314; **ix**, 90; **x**, 305; **xi**, 272, 401; **xviii**, 623; **xl**, 252; multiple, **xxii**, 379; with death, **iv**, 475, 528; gunshot wound of, with recovery, **iv**, 344, 468; gunshot wounds of, management of, **v**, 154, 465; gunshot wounds of, with recovery after laparotomy and suture, **xxi**, 360; gunshot perforation of, with button anastomosis, **xxiii**, 54; gunshot perforations of, multiple, recovery after operation, **xli**, 637; gunshot perforations of, twenty-one, **xliii**, 313.
Hernia of, umbilical, **vi**, 193; ventral, **vi**, 169.
Hernial rupture of, **v**, 547.
Herniotomy with excision of part of, **vi**, 369; with incising, **vii**, 225.
Hydrogen gas insufflation of, in diagnosis of obstruction of, **viii**, 371; of perforation of, **viii**, 190.
Hypertrophic tuberculosis of, **xxxvi**, 713.
Internal strangulation of, **i**, 366; of small, relieved by laparotomy, **ii**, 506, 508.
Intussusception of, **ix**, 92; of small, **xlii**, 474.
Invagination, operative treatment of, **v**, 544.
Iliac colotomia, **iv**, 345.
Laparotomy for, recovery after, **xx**, 59; for internal strangulation of, **v**, 88; for injury of, **vi**, 130; for gunshot wound of, **vii**, 398, 399; for gunshot wounds of, **vi**, 155, 166, 507; explorative, in obstruction of, **v**, 157; for foreign body in, **ii**, 270; laparotomy for obstruction of, by internal strangulated hernia, **iv**, 526; for obstruction of, **iii**, 84, 89, 139, 214, 240, 420, 524, 525, **viii**, 371; for perforation of, **iii**, 386; for typhoid perforation of, **viii**, 219; for wound of, **iii**, 422.
Large, myofibroma of, **xliv**, 249.
Method of operating to lessen dangers of exsection of, **ix**, 382.
Micro-organism can pass through the intact wall of (?), **xxv**, 378.
Mesentery, after separation from, behavior of, **vi**, 72.
Necrosis of, following traumatism of abdomen, **xli**, 136.
Obstruction of, by gall-stones, **xxiii**, 125; by Meckel's diverticulum, **xxvii**, 448.
Operations on, at the Heidelberg clinic, **xxvi**, 395.
Operative technic of prolapsed invaginated, **xxxviii**, 760.
Partial excision of large, for tumor, **xxiv**, 373.
Passage of a large piece of glass through, **xviii**, 579.
Perforating ulcer of, **ix**, 59.
Perforations of, complicating typhoid fever, **xxxvii**, 380; for strangulation by band, **xxxvii**, 946; typhoid fever, **xxxvi**, 622.

Peritoneum, and, carcinoma of, in a boy of nineteen, **xxxii**, 608.
Perityphilitic abscess of, **iii**, 424.
Pistol-shot wounds of, recovery from, **xxx**, 217.
Prolapse of, with patent Meckel's diverticulum, **vii**, 158; from stab wound of abdomen, **viii**, 140, 141, 143, 145: through a ruptured vaginal wall, **viii**, 154.
Purgatives in treatment of obstruction of, **vi**, 60.
Rectal examination for obstruction of, **iii**, 333.
Removal of a spoon from the, **vii**, 222.
Resection of, **ii**, 81, 420; **iv**, 344, **xi**, 56, **xv**, 391, **xlviii**, 442, **xlix**, 252, 253; and suture of, **vi**, 513, 514; Hahn's method of diminishing the danger of, **x**, 280; resection, extensive condition of, two years after, **xxxviii**, 451; for gangrene, **xxvii**, 650; for extensive carcinoma, **xxxvi**, 955; for gangrenous hernia, **xxiii**, 446; **xxxv**, 401; ileo-cæcal coil, **xx**, 642; of loop of, for injury done during curettage of uterus, **xl**, 443; followed by end-to-end anastomosis, **xliii**, 92, 148; of ten feet two inches of small, **xlv**, 49; in strangulated hernia, **vi**, 168; in Bergmann's clinic, **xviii**, 583; in tuberculosis of, **xxxv**, 806; method of, **xliv**, 550.
Rupture of, **vii**, 385, 390; **xlii**, 661; **xliv**, 669; associated with abdominal contusion, **xxxv**, 331; by contusion, **xxxix**, 282; cases of, treated in St. Thomas' Hospital, **xxx**, 137; recovery after, **xvii**, 590; small, **xlii**, 464; subcutaneous, after contusion of abdomen, **xxxvi**, 965; traumatic, of the, **xxxiv**, 293; traumatic, recovery after abdominal section, **xxxii**, 673; traumatic successfully treated by laparotomy and suture, **xx**, 485.
Sarcoma of, causing intussusception, **xxiii**, 441; in childhood, **xxxii**, 616.
Small, sarcoma of, **xlv**, 242; studies in the surgical anatomy of, **xlii**, 543.
Signification of collapsed intestine in laparotomy for obstruction of, **iv**, 240.
Stab wounds of, **v**, 547; **viii**, 139, 145; **xix**, 89; laparotomy for, **vii**, 397, 398; suture of, **ix**, 97.
Stomach, and, bullet wounds of, recovery after laparotomy, **xxx**, 637; technic of operations upon the, **xlvi**, 163.
Strangulation of, acute surgical treatment of, **ix**, 381; by an adhesion band, **xx**, 59; by Meckel's diverticulum, **xxvi**, 179; indicated by acute peritoneal effusion, **xxx**, 653; the wall of, **ix**, 459.
Surgery of, **v**, 491; the large, **xxiv**, 105, **l**, 200; of the large, contribution to, **xxv**, 351.
Surgical relations of ileocæcal region, **iv**, 528.
Surgical treatment of obstruction of, **vii**, 1, 53, 81, 99, 171, 199, 264, 329, 367, 376, 386, 387, 388, 389, 390, 421.
Suture of, **ii**, 422; by stitches through all layers, value of, **xxxvi**, 50; circular, **vii**, 385; suture of, for typhoid ulceration, perforating the, **v**, 359.
Suturing, holder for, **xxxiii**, 23; progress of repair on tenth day, **xxx**, 345.
Transplantation of, for relief of stricture of rectum, **xvii**, 587.
Treatment of obstruction of, caused by Meckel's diverticulum, **xxxv**, 471.
Tubercular constrictions of, multiple, **xxvi**, 593.
Tuberculosis of, **xxxvii**, 106.
Tuberculous stricture of, **xviii**, 579.
Tumor of large, **xxxi**, 763.
Volvulus of, **xli**, 214; of the small, **l**, 498.
Wounds of, **i**, 45, 46, 479, **xxxv**, 400; wounds of, treated by enterorrhaphy, **xxiii**, 205, 423, 440; treatment of, **xvii**, 97.
Intestines, are they able to propel their contents in an anti-

peristaltic direction (?), **xlvi**, 576.
Review of Book: Surgery of Intestines and Stomach, by Wölfler, **xxv**, 640.
Intracapsular fracture of the femur, nailing a recent, **xlvii**, 469.
Intracerebral hemorrhage, traumatic, **xlviii**, 122.
Intracranial abscess due to typhoid bacillus, **xlvii**, 4.
Hemorrhage, osteoplastic resection of the skull for, **xlv**, 621; traumatic origin of, advisability of early operation in, **xliv**, 450; traumatic, operations in, **xliv**, 374.
Implantation dermoid tumor, **xxiii**, 573, 606.
Injury, operation, early, question of, in cases of, **xliv**, 801.
Neurectomy, **xxxvii**, 665; cases of, **xix**, 725; for facial neuralgia, **xl**, 264; for trifacial neuralgia, **xxi**, 296, 510, **xxxv**, 404; of the fifth nerve, **xvii**, 511.
Surgery, technic of, **xxvi**, 307.
Trauma, non-penetrating, question of operation for, **xlviii**, 25.
Tumor, removal of an, **iii**, 416.
Intraligamentous elytrotomy, **xvi**, 556.
Intramediastinal bronchotomy, **xxxvii**, 299.
Intramural echinococcus, **xii**, 393.
Intraperitoneal bladder tears, treatment of, **xliv**, 790.
Cystotomy, **xlviii**, 862.
Wounds, adhesions from, the prevention of, **xiii**, 71.
Intraspinal, tumors surgical treatment of, **xlii**, 524.
Intrathoracic operations in positive and negative atmospheric pressure, **xlviii**, 784.
Intra-uterine amputation, case of, **xix**, 614.
Fracture of the tibia resulting in congenital ankle deformity, **xxii**, 777.
Intravenous saline infusion during hip-joint amputation, **xx**, 181.
Infusions, saline, hot, results of, **xxi**, 302; effects of, **xxix**, 288.
Injection for the grave hemorrhages of midwifery, **xvi**, 485.
Intubation and tracheotomy for diphtheritic croup, relative merits of, **xvi**, 367, 532.
Larynx, of, iii, 79; iv, 73, **xvii**, 370; and tracheotomy, **iv**, 523; for diphtheritic croup, **xii**, 361.
Retained instruments, **xxxi**, 547.
Intussusception, ii, 420, **iii**, 216, 240, **ix**, 92, **xxxiv**, 178, **xlii**, 952, **xliii**, 473, **xlvi**, 210.
Acute, **xxxv**, 411.
Bowel, resection of, for, **xli**, 304.
Cases of, **xx**, 418; a series of, **xli**, 415; in children treated by laparotomy, **xli**, 407.
Chronic, **xxx**, 643.
Colon, of, due to sarcoma, **xxviii**, 260.
Gangrenous, in a child, recovery after intestinal resection, **xxxvi**, 47.
Ileocæcal, caused by laparotomy, **xiv**, 508; due to myoadenoma of the ileum, **xlv**, 730.
Ileocolic, **x**, 77; in an adult, **l**, 875.
Ileum, of, due to traction of an adenoma, **xxiv**, 733.
Intestinal, **xlv**, 42; complicating typhoid fever, **xlix**, 111, 448; obstruction due to, **xxxi**, 180, 249, 251; Rydygier on the treatment of, **xxiv**, 243; of small, **x**, 303, **xlii**, 474.
Laparotomy for, **vii**, 53.
Meckel's diverticulum, of, **xi**, 796, **xxxv**, 32.
Pathology and classification of, **xxxviii**, 690.
Subjected to operation, **xliv**, 674.
Surgery and pathological anatomy of, **xxxi**, 766.
Traction of intestinal sarcoma, from, **xxiii**, 441.
Traumatic, **xliv**, 302.
Treatment of, **ii**, 79.
Tuberculous abscesses, treatment of, **x**, 146.
Typhoid fever in, **xxxix**, 604.
Intussusceptions, with prolapse through anus, operative technic of, **xxxviii**, 760.

Invagination, intestinal, **vii**, 14; operative treatment of, **v**, 544.
Iodine, catgut, **xlii**, 321.
Injections, in hydrocele, **xv**, 140, **xxiii**, 243.
Iodoform, absorption of, mechanical conditions attending, **xxvi**, 512.
Abuse of, **xxvii**, 676.
Action of, as an antiseptic, **vi**, 445; anti-bacterial, **vii**, 206; antiseptic, **xxxviii**, 894; antitubercular, **vi**, 445.
Antiseptic, as an, **ix**, 202; value of, **xi**, 17.
Antitubercular power of, **x**, 161.
Coffee to disguise the odor of, **vi**, 144.
Collodion, antiseptic protection of, **ix**, 351.
Emulsion, improved, **xlix**, 721.
Glycerin, and, glycerin intoxication after injections of, **xxii**, 128.
Gonorrhœa, in, oil of, **vii**, 301.
Injections, for bone and joint tuberculosis, **xv**, 1; in the treatment of hip-joint tuberculosis, **xviii**, 110; in psoas abscess, **xv**, 145; in treating tuberculous joints and cold abscesses, **xii**, 271, 450.
Poisoning, **xxxiii**, 352.
Skin eruptions, and, **vii**, 204.
Spermaceti mixture for filling bone-cavities, **xlvi**, 926.
Substitutes for, **xxv**, 371.
Use of, **xxvii**, 681; ethereal solutions of, as an injection in the treatment of cold abscesses, **ii**, 493.
Review of Book: Iodoform in Surgery, by Mikulicz-Newell, **viii**, 476.
Iodoformized oil injections in the treatment of bone-tuberculosis, **xi**, 73.
Irrigation in arthritis, **viii**, 229.
Irritants, local, action of, **xxxviii**, 895.
Ischæmic muscular atrophy, **xliv**, 442; contractures and paralysis, **xliii**, 599.
Paralysis of forearm, **xlvii**, 459; and contracture of Volkmann, nerve involvement in, **xlix**, 330; Volkmann's, **xlviii**, 394.
Ischial tuberosity, hygroma and fibroma of bursæ, **xxxvii**, 393.
Ischias scoliotica, **xix**, 751.
Ischiatic arthrotomy, **xii**, 454.
Ischiorectal fossa, drainage of prostatic abscess through the, **xlv**, 103.
Israel, Dr.: Experiences in the surgery of the kidneys, **xx**, 384; extirpation of prostate, **xlvi**, 945.
Italian Surgical Society, observations upon hernia at last meeting, **xvi**, 413.
Iverson: Peri-uterine suppuration, **xvii**, 221.
Ivory dowels, periosteum for direct immobilization of the bony fragments and as support for the, **xvii**, 108.

J

Jaboulay's anastomosis button, **xl**, 282, **xlii**, 741.

Jacksonian epilepsy, fractures of the skull treated by trephining, following depressed, **xvii**, 329, 332; trephining for, **xxxix**, 607.
Jacobson, Arthur C.: Telephonic searcher for use in the bladder, **xlvi**, 459.

JACOBSON, NATHAN: Case of brain tumor, **xiii**, 104; contribution to the surgery of malignant disease of prostate gland and of the tonsils, **xxxiii**, 269; domain of the knife in the treatment of carcinoma, **xvii**, 397; end results following operation for carcinoma of breast, **xlvi**, 43; tetanus and the serumtherapy, **xliv**, 321; toxic nephritis dependent upon surgical conditions, **xlv**, 891; value of X-ray in diagnosis of renal stone, **xlvii**, 1056.

JACOBSON, W. H. A.: Healing of nerves, **xxxvi**, 627; practical points in the treatment of rodent ulcer, **viii**, 101.

JACOBY, GEORGE W.: Craniotomy for tumor of acoustic nerve, **xlviii**, 311.

JAMIESON and DOBSON: Lymphatics of the colon, **l**, 1077.

JANEWAY, HENRY H.: The serum reaction in cancer, **xlix**, 27.

Jaundice, and syphilis, **vi**, 355; cystic duct, accompanying obstruction of, **xxvi**, 284; obstructive, mortality in operations for, **xxxiv**, 165, 441.

Jaw (see also Maxilla), abscess of, containing amœbæ, **xvi**, 580.

Ancient dislocation of lower, **viii**, 179.

Ankylosis of, **xlii**, 137; bony, **vii**, 468; of lower, operation for relief of, **xiii**, 129; relieved by Esmarch's operation, **xxvi**, 241; relieved by Humphrey's operation, **xxvi**, 245; operation for, **xviii**, 39.

Carcinoma of inner side of cheek, involving alveolar process of, **xlviii**, 313.

Cicatricial ankylosis of, operations for relief, **xi**, 258; obviated by skin transplantation, **xi**, 377.

Closure of, and its treatment, **vi**, 153.

Common carotid in resection of, preliminary ligation of, **xxxv**, 684.

Cyst-adenoma of, **xliv**, 627.

Cystic tumor of, **ii**, 343.

Dentigerous cyst of lower, **xlii**, 352.

Exostoses of, **xxx**, 373.

Fractures, treatment of, involving, **xviii**, 672; treatment of, **xxxviii**, 630.

Gums, and, unilateral hypertrophy of, **iii**, 1; necrosis of, phosphorus, **iii**, 163.

Lip, and face, clefts of, **i**, 578.

Neck, and, fibrolipoma of, **xliii**, 500.

Pharynx, and, sarcoma of, for removal of, partial exsection and dislocation of, **vi**, 156.

Phosphorus necrosis of, **vii**, 288.

Sarcoma of, **xxiii**, 491; in young child, **xxxvi**, 285; partial excision of, for, **xxviii**, 383.

Splint for fracture of, **xxxix**, 294.

Tumor of, due to abnormal development of teeth, **xv**, 323; statistics of, **x**, 188.

Review of Book: Certain Diseases of the Jaws, by Heath, **vi**, 348.

Jaw, lower, ankylosis of, resection of condyles for, **xv**, 79; appliance to correct the deformity after removal of one-half of, **xx**, 35, 78; backward dislocation of, **xvi**, 565; bilateral bony ankylosis of temporal articulation, surgical treatment of, **xxxviii**, 212; carcinoma of, **xxxi**, 498; with separation of the genial tubercle, **xix**, 653; fractures of, interdental splint for, **xli**, 1, **xlii**, 252; gunshot wound of lower, with great deformity, **xxiii**, 479; multiple fracture of the, treated with an interdental splint, **xlvii**, 826; necrosis of entire, **xxxix**, 294; cases of total necrosis of, **xxv**, 628; of total necrosis following osteomyelitis, **xxv**, 373; new method of reducing dislocation of, **xviii**, 76; operation for relief of ankylosis of, **xxviii**, 656; osteoma of, **xxx**, 372; resection of, for sarcoma, **xxxiii**, 330; sarcoma of,

xlix, 614, 734; sarcoma of, resection, with long immunity from recurrence, **xxxii**, 291; total excision of, **xvii**, 296; tumor of, cystic, removal of, **vi**, 126.

Jaw, upper, carcinoma of, extirpation of, **xxiii**, 302; excision of, **xliii**, 302; Heusner's resection of, **x**, 186; malignant tumors of, **vi**, 471; necrosis of, case of total, **xxv**, 629; of entire right, **xxvi**, 241; plastic after removal of tumor of, **xxxiv**, 836; resection of, **xxxv**, 683, **xxxvi**, 442; sarcoma of, **xxx**, 225, **xxiv**, 232, **xlii**, 607; sarcoma removed without recurrence, **xix**, 688; tooth-bearing tumor of, **xlii**, 310; tumor of the, use of skiagraphy in diagnosis of, **xxiv**, 490.

Jayne, Walter A.: Acute pancreatitis, **xlvi**, 841.

Jejuno-ileostomy, **vii**, 184.

Jejunostomy, a new method of, **xx**, 239; for case of inoperable carcinoma of the stomach, **xvii**, 310.

Jejunum, beginning of the, to find, **vi**, 503; direction of the, in the operation of gastro-enterostomy, **xlvii**, 481; operation in two stages for relief of ileus of, **xlvi**, 224; septic ulcer of, **xl**, 186.

Jenkins, A. R.: Asepsis in antiseptic dressings, **viii**, 35; calculus preputialis, **v**, 211; case of chronic cerebral abscess, **vi**, 480; padded board stretcher in the treatment of hip disease and various traumata, **viii**, 106; string drain, **v**, 415; technic of suture of fractured patella, **viii**, 186.

Jepson, William: Anuria, **xxvii**, 627; means of regulating inflation of the bladder preliminary to suprapubic cystotomy, **xxviii**, 258; primary sarcoma of the spleen and its treatment by splenectomy, **xl**, 80.

Johns Hopkins Hospital Reports, Report II on Gynæcology, review of, **xix**, 633.

Johnson, Alexander B.: Administration of ether, **xxviii**, 525; amputations for diabetic gangrene, **xxxi**, 500; anomalies of kidney and ureter, **xlv**, 125; appendicitis from misplaced appendix, **xlviii**, 137; bullet wound of stomach and small intestine—recovery, **xxx**, 637; carcinoma of cheek and lower jaw, **xxxi**, 498; carcinoma of the gall-bladder, **xxxviii**, 600; carcinoma of stomach, **xliii**, 927; case of multiple melanotic, **xxx**, 221; case of recovery from perforating ulcer of the duodenum, **xxx**, 634; cases of cholelithiasis, **xxxvi**, 275; cases of ruptured spleen, **xxxi**, 735; Charcot's disease of the knee-joint—resection, **xxxii**, 130; cholecystectomy, **xxvii**, 602; complications after operations for appendicitis, **xxxii**, 448; contribution to the surgery of the kidney, **xxix**, 10, 218, 259, 320; cystosarcoma of thigh, **xxix**, 624; cystotomy for vesical calculus not demonstrated by X-rays, **xlv**, 766; enterostomy in peritonitis, **xxix**, 117; epidural hemorrhage, **xlv**, 137; excision of tubercular cervical lymph-nodes, **xxix**, 613; fibroma plus tuberculosis of the breast, **xxxii**, 604; fracture of carpal scaphoid, **xxxv**, 516; fracture of cervical vertebra, **xxix**, 341; fracture of the femur opening into the knee-joint, **xlvii**, 630, 631; fractures of forearm, **xxxi**, 738; gangrenous hernia, **xxxv**, 401; gastric ulcer, **xlviii**, 135; gastro-enterostomy, **xlviii**, 136; gastro-enterostomy for cicatricial obstruction of pylorus, **xxxix**, 1010; Gritti's amputation, **xxxii**, 602; hypospadias, **xlvii**, 816; intestinal obstruction after appendicectomy, **xxxii**, 292; laminectomy for dislocation of spine, **xxx**, 222; later history of tuberculous ureter after nephrectomy, **xxix**, 754; lesions

associated with gunshot wounds of stomach, **xlv**, 777; long immunity from recurrence after resection of sarcoma of lower jaw, **xxxii**, 291; Malgaigne's operation for epithelioma of lip, **xxviii**, 381; nephrectomy for acute pyelonephritis, **xxxv**, 402; nephrectomy for calculous pyonephrosis, **xxx**, 328, **xxxv**, 403; nephrectomy for renal calculus, **xxxi**, 356; nephrectomy for tuberculosis, **xxvii**, 605, **xlvii**, 448, 455; nonrecurrence after removal of sarcoma of superior maxilla, **xxxii**, 134; observations of the effects on the skin by the discharge of small arms loaded with smokeless powder, **xxxix**, 798, 1006; œsophageal-thoracic fistula, **xlv**, 771; pancreatic fistula, **xxxi**, 627; perforation of solitary ilium, **xxxi**, 260; plastic operations for epithelioma of lip, **xxxi**, 628, 632; post-typhoid suppurative synovitis of wrist, **xxxii**, 135; prostatectomy, **xxxi**, 408, 738, **xxxiv**, 426; pyonephrosis of a congenitally misplaced kidney—nephrectomy, **xlvii**, 797; recovery after suture of typhoid perforation of ileum, **xlii**, 927; removal of bullet from ilium, **xxxi**, 746; removal of nose for epithelioma, **xxvii**, 772; removal of tubercular lymphomata of the neck, **xxix**, 355; renal calculus, **xlviii**, 930; result of operation for perineal fistula, **xxxiii**, 47; result of operation for undescended testis, **xlviii**, 932; sarcoma of the abdominal wall, **xxix**, 363; sarcoma of femur treated by mixed toxins, **xlv**, 136; semilunar cartilage of dislocated knee, **xxvii**, 773; stab wound of the abdomen with perforation of colon, **xxxv**, 400; stab wound of kidney, **xlv**, 124; stab wound of liver, **xxxi**, 744; stereoscopic radiography, **xxxv**, 455; sterilization of knives, **xxxiii**, 639; subphrenic abscesses, **xlviii**, 628; technic of prostatectomy, **xxxiii**, 477; tetanus treated by antitetanic serum, **xxxi**, 360, 370; traumatic rupture of kidney, **xxvii**, 774; traumatic rupture of liver, kidney and lung, **xxxi**, 247; treatment of fractured patella, **xxxiii**, 196; treatment of injuries of spinal cord, **xxx**, 332; treatment of malignant disease of upper jaw, **xxx**, 228; treatment of tuberculous ureter after nephrectomy, **xxix**, 611; treatment of wounds of liver, **xli**, 139; tubercular peritonitis, **xlix**, 267, 268, 270; tuberculosis of the cæcum, **xxxv**, 811; tuberculosis of femoral lymph-nodes, **xxvii**, 782; tumors of parotids, **xxvi**, 732; ununited fracture of clavicle treated by suture, **xxxviii**, 99; use of rubber gloves in operative surgery, **xviii**, 134; ventral hernia after operations for appendicitis, **xxix**, 625; vesical calculus containing an opened safety-pin as a nucleus, **xlvii**, 796, 797; volvulus, fatal case of, **xxx**, 101.

KAMMERER, FREDERICK: Acute intestinal obstruction, **xlviii**, 314; the advantage of the lateral position in certain operative procedures, **xlv**, 302; anæsthetics in operations for typhoid perforations, **xxxvii**, 287; appendicitis, **xvii**, 201; artificial anus for relief of chronic ulcer of lower bowel, **xxxvii**, 445; arthrotomy for old dislocation of hip-joint, **xvii**, 588; avulsion of brachial plexus, **xlix**, 137; benign obstruction of pylorus, **xxxii**, 17; treated by gastro-enterostomy, **xxxiv**, 300; backward dislocation of elbow—ulnar paralysis, **xlviii**, 621; benign stricture of œsophagus, gastrostomy—dilatation by string method, **xlviii**, 147; bilateral renal calculi, **xliv**, 113; carcinoma of liver, **xxxiv**, 185; carcinoma of œsophagus, **xxxii**, 298; carcinoma of the pylorus, **xxxix**, 106; case of biliary colic, due to adhesions, **xvii**, 333; case of goitre, **xxvii**, 764; case of intermittent hydronephrosis, **xxvii**, 542; case of cholecystectomy, **xl**, 128, 130; case of Charcot's joint-disease, **xxi**, 588; a case of hydronephrosis and nephrectomy, **xix**, 497; a case of vasectomy for hypertrophy of prostate, **xxvii**, 768; cavernous angioma of face, **xxxvi**, 268; cervical ribs, **xxxiv**, 578, 637; colostomy in cases of stricture of rectum, **xxviii**, 521; chronic pancreatitis, **xxxix**, 588; closure of large defects in the abdominal wall, **xxxviii**, 118; danger of intestinal anastomosis by button, **xxi**, 74; diagnosis of appendicitis, **xxxiii**, 632; dislocation of the thumb reduced by operation, **xxvii**, 654; double trephining for relief of pressure from brain tumor, **xix**, 685; effects of removal of colon, **xxxvii**, 617; epithelioma of leg, **xxiv**, 53; excision of bladder for carcinoma, **xl**, 263; exclusion of a segment of intestine for relief of fecal fistula, **xxvii**, 537; exophthalmic goitre, **xxi**, 66; experience with castration for hypertrophied prostate, **xxiii**, 742; exploratory nephrectomy, **xxvii**, 655; external œsophagotomy in the treatment of stenosis of the œsophagus, **xxi**, 307; external œsophagotomy for relief of stricture of the œsophagus, **xx**, 735; foreign body in larynx, **xxxix**, 1020; gastro-

enterostomy, xxxi, 759, xxxvii, 941, xxxix, 594; for benign tumor of pylorus, xxxix, 1009; for hæmatemesis, xl, 263; gastroptosis with vomiting, posterior gastro-enterostomy for, xxxiv, 302, 305; gastrostomy, xvii, 594; for stricture of the œsophagus, xxxix, 297; hemorrhage from rupture of tubal pregnancy, laparotomy, recovery, xvii, 210; from spleen in typhoid fever, xxxvii, 288; hour-glass contraction of stomach, xxxvii, 281; hydronephrosis, xliii, 627; ileocæcal resection for tuberculosis, xxxix, 1010; incomplete and complete exclusion of gut for fecal fistula, xxv, 475; infection of ureter by catheterization, xxxi, 751; inflammatory tumors of pylorus, xxxix, 281; intestinal obstruction after appendicitis operation, xxxix, 585; from carcinoma of cæcum, xix, 97; from Meckel's diverticulum, xvii, 342; intussusception, xxxiv, 178; irreducible gangrenous femoral hernia, xxxii, 299; laparotomy for strangulated hernia, xxi, 596; laryngectomy, xlix, 864; late result of case of excision of rectum for carcinoma, xxviii, 523; ligation of first portion of the subclavian for aneurism, xxxi, 371; ligation of thyroid arteries for Graves's disease, xxxv, 513; local anæsthetics, xxvii, 669; lymphosarcoma, xl, 267; malignant disease, xvii, 710; mammary cysts in males, xix, 87; modified incision for quiescent appendicitis, xxvi, 225, 228; molluscum fibrosum, xxx, 343; multiple symmetrical lipoma, xlv, 141; musculospiral paralysis, xxxi, 755; myxosarcoma of sciatic nerve, xxxv, 649; nephrectomy for carcinoma and for tuberculosis, xxix, 753; for renal cysts, xxxiv, 419; for sarcoma, xl, 597; for tumor of kidney, xl, 260; nephrectomy on tubercular kidney, xxvi, 239; operation for bronchiectasis, xlix, 865; for carcinoma of bladder, xxvi, 357; for carcinoma of stomach, xlii, 117; for neoplasms of tongue, xlv, 628, 630; for prolapse of rectum, xxi, 45; for total prolapse of uterus and rectum, xix, 97; operative treatment of hernia, xxi, 590; osteomata of nasal cavity, x, 98; osteoplastic amputations, xxxiii, 638; osteoplastic resection of sacrum as a preliminary to resection of rectum, xix, 677; of the skull for traumatic epilepsy, xxxi, 364; partial gastrectomy for carcinoma, xlv, 129; perineal prostatectomy, xliii, 621; peritonitis from unknown causes, xxxvi, 785; perineal prostatectomy, xxxvii, 622; pin in appendix vermiformis, xxii, 274; plastic of face, xxxiv, 837; plastic on cheek, xxxviii, 114; plastic operation for restoration of lower lip, xl, 598; points in the technic of resection of rectum, xxi, 1, 58; posterior gastro-enterostomy, xxix, 486, 752; pylorectomy for carcinoma, no recurrence, xxxvii, 444; recent contribution to rectal surgery, vii, 137; relief of fecal fistula by partial exclusion of intestine, xxviii, 383; removal of biliary calculi from the common duct by the duodenal route, xxviii, 518; of greater part of stomach for carcinoma, xxxiii, 197; resection of bladder, xxvii, 370; of pneumogastric nerve, xxiii, 741; of pylorus for benign stenosis, xxxix, 587; of rectum for syphilitic stricture, with end-to-end anastomosis, xliii, 146; results of operation for calculus and tuberculosis, xlvii, 1022, 1024, 1053; sarcoma of colon with intussusception, xxviii, 260; sarcoma of kidney, xxiii, 747, xix, 93; of neck, xxxvii, 938; separa-

tion of upper epiphysis of humerus with dislocation, **xlvii**, 624; silver-wire matting for ventral hernia, **xxxiv**, 573; spinal anæsthesia, **xxxiii**, 203; splenectomy, **xix**, 688; for splenic anæmia, **l**, 484; spontaneous refracture of a healed fracture of the femur, **xxxix**, 105; strangulation of intestine by Meckel's diverticulum, **xxvi**, 179; subdural hæmatoma, **xxxiii**, 329; subphrenic abscess, **xxxiii**, 194; suprapubic lithotomy, double nephrotomy, nephrectomy, **xxvii**, 663; surgical invasion of anterior mediastinum, **xxxiii**, 56; technic of gastroenterostomy, **xxxiv**, 835; the radical cure of femoral hernia, **xxxix**, 982, 1015; the Murphy button in gastroenterostomy, **xxvi**, 122; typhoid with double perforation of the ileum and perforation of the gall-bladder, **xlv**, 141; thyroidectomy for exophthalmic goitre, **xxii**, 792; traumatic rupture of kidney, **xxvii**, 775; traumatic paralysis of musculospiral nerve, **xxv**, 624; traumatic torticollis, **xxxiii**, 628; treatment of abdominal contusions, **xxxvii**, 108; of general septic peritonitis, **xxvi**, 237; of prolapse of the rectum, **xxvi**, 247; of sarcoma of radius, **xxiii**, 182; of tuberculous ureter left after nephrectomy, **xxix**, 757; tumor of brain, **xxiii**, 748; of parotid, **xliii**, 624; unilateral infections of kidney, **xlvii**, 1058; use of gloves in operative surgery, **xxviii**, 135; value of enterostomy and of conservative operative methods in the surgical treatment of acute intestinal obstruction, **xlvii**, 799; volvulus of parovian cyst, **xl**, 260.

Karewski: Syphilomata, surgically important, **xiv**, 73.

Keefe, John W.: Cases of radical cure of psoas abscess by operation, **xxv**, 727.

Keenan, C. B.: Primary carcinoma of appendix, **xlviii**, 560; of tongue, **xxxix**, 956.

Keene, Thomas Victor: Bacillus pyocyaneus septicæmia, **xl**, 613.

Keen, W. W.: Amputation of entire upper extremity, **xxi**, 715; apparatus for siphonage of cavities, **xxiii**, 174; apparent disappearance of supposed malignant tumor of stomach after exploratory section, **xxv**, 750; apparatus for retaining patients in any desired position, **xlii**, 135; bone defect in skull filled by bone chips, **xlii**, 296; Cargile membrane, **xli**, 788; case of anthrax, **xlii**, 295; case of wiring the patella for old fracture, **xxii**, 671; choice of operations on male bladder, **xxx**, 360; combined tubular and capillary drainage of wounds, **i**, 269; cystosarcoma of omentum, **xxvii**, 220; dangers attending the use of peroxide of hydrogen in certain cases, **xxvii**, 382; dislocation of semilunar cartilage of knee-joint, **xl**, 285; effect of ligature of the spermatic cord on prostate gland, **xxiii**, 485; extensive compound fracture of skull, **xxiii**, 488; excision of branchial fistula, **xlv**, 791; facial deformity following a burn, **xxviii**, 138; foreign bodies in bladder, **xxv**, 748; in œsophagus, **xxii**, 111; fracture at anatomical neck of humerus, with dislocation of the head into the axilla, **xlv**, 945, 968; fracture of the greater tuberosity of humerus with dislocation of humerus into the axilla; nailing of fragment of tuberosity in place, **xlv**, 938, 968; galactocele, **xl**, 275; gastroplication for dilatation of stomach, **xl**, 279; gastrostomy by Witzel's method for carcinoma of the œsophagus, **xviii**, 638; gunshot wound of the lung, **xxvii**, 100; gunshot wound of optic nerve, **xix**, 693; hæmostasis in

hip-joint amputations, **xxviii**, 138; indications for early laparotomy in appendicitis, **xiii**, 255; instruments for opening the skull, **l**, 653; intestinal obstruction from carcinoma of the hepatic flexure of colon; enterostomy, later ileocolostomy by means of Murphy's button, **xvii**, 652; inveterate trifacial neuralgia, pathology and treatment, **xvii**, 713; Jaboulay's button, **xl**, 282; metatarsalgia, **xvii**, 718; new method of operating for relief of deformity from prominent ears, **xi**, 49; nephrorrhaphy, **xii**, 81; new method for compressing the subclavian artery and for ascertaining whether the bladder is or is not ruptured, **xii**, 33; operation for carcinoma of stomach, **xlv**, 972; operative cure of hernia, **xxi**, 720; pancreatic cyst, **xxv**, 492, **xlii**, 130; popliteal aneurism, **xxii**, 392; resection of the liver for neoplasm, **xxx**, 267; rhinophyma, **xxxix**, 665, 818; restoration of urethra after sloughing, **xxi**, 713; rupture of the tendon of biceps flexor cubiti, **xli**, 756, 789; screw fixation in intracapsular fracture of femur, **xlii**, 284; severe burn of top of head at seven months of age followed by necrosis of entire osseous cap of cranium, **xlv**, 641; sprain-fractures, **xl**, 285; stretching of facial nerve, **iv**, 1; sterilization of catgut by bichloride of palladium and bichloride of mercury, **xxii**, 801; by the Jefferson method, **xxvii**, 49; tendency to recurrence after amputation at hip-joint for sarcoma, **xxxiv**, 584; technic of laryngectomy, **xxx**, 1; treatment of carcinoma involving walls of great vessels, **xxvii**, 94; of fractures, **xxxix**, 818; of traumatic lesions of kidney, **xxiv**, 138; of polypus of colon, **xxviii**, 140; thoracoplasty, **xxi**, 721; Trendelenburg posture during operations on cavities of the mouth, nose, and trachea, **xxvi**, 96; two cases of ligation of external carotid artery for hemorrhage, **xxxiv**, 21; use of gloves in surgical operations, **xxvii**, 224; of Röntgen rays in diagnosis of renal calculi, **xxxi**, 264; venous angioma of hand, **xxii**, 393; venous angioma of foot, **xxii**, 394; washing out bladder after renal colic, **xix**, 691.

KEETLEY, C. B.: Appendix vermiformis, **l**, 1342; carcinoma and cancerous diseases, **vii**, 195; contagion through the use of ether inhalers, **vi**, 137; cure of varicocele, **viii**, 205; dangers of modern operative measures for radical cure of hernia, **i**, 129; disarticulation at the hip-joint, **ii**, 468; etiology of fractures of skull, **viii**, 287; French Congress of Surgery and radical cure of hernia, **viii**, 26; laceration of knee-joint, **vi**, 35; laparotomy in the treatment of strangulated hernia, **iii**, 459; management and treatment of old umbilical hernia, **vi**, 193; material organization of surgical clinic at Paris, **vii**, 283; nature and origin of tetanus, **vii**, 45; model operating theatre and its fittings, **vii**, 441; new treatment of cervical dermoid cysts, **viii**, 386; notes on plastic surgery, **vi**, 97; notes on wry neck and its treatment, **vii**, 252; obstinate club-foot treated by division of ligaments, **ii**, 166; osteoclasis, **iv**, 417, **v**, 40; "plastic" amputation of foot, **viii**, 441; radical cure of hernia, **viii**, 5; simplification of postoperative treatment of resection of knee-joint, **vi**, 424; scraping out the marrow for osteomyelitis, **i**, 1; stiffness and tenderness of the metacarpophalangeal joint of the great

toe and hallux flexus, **vi**, 218; the etiology and essential nature of scoliosis, **vii**, 126.
KEHR: Statistics of seven hundred and fifty laporatomies for gall-stones, **xxxviii**, 141.
KEILLER, WILLIAM: Anatomy of a case of cystic adenoma of thyroid gland, **xliii**, 327.
KELLY, HOWARD A.: Acid intoxication, its significance in surgical conditions, **xli**, 161; cylindrical instruments for use through rectal specula, **xxxvii**, 924; cystoscopy and and catheterization of the ureters in the male, **xxvii**, 475; the fat appendix, **l**, 474; ideal dressing for abdominal wounds, **xv**, 496; improved lock for paired instruments, **xix**, 231; new method of examination and treatment of diseases of rectum and sigmoid flexure, **xxi**, 468; the examination of the bladder and the catheterization of the ureters in men, **xxvii**, 71; the use of a steel comb for dissection in axilla, **xliv**, 104; uretero-ureteral anastomosis, **xix**, 70.
KELLY, JAMES A.: Carbolic acid gangrene of the finger, **xlix**, 245; cystic dilatation of the vermiform appendix, **xlix**, 524; dislocation forward of the atlas with fracture of the odontoid process of the axis, **xlii**, 245.
Keloid, effect of X-rays on, **xxxix**, 454; massive, of face and hand, **i**, 332; multiple, **xxxiv**, 706; of median nerve, traumatic, **xxxiii**, 13; thiosinamin in the treatment of, **xxxiv**, 708.
KENERSON, VERTNER: Gangrene of the hollow viscera, **xl**, 364.
KENNER, E. B.: Chewing-gum nucleus of vesical calculus, **xliv**, 292.
KENYON, JAMES H.: Experiences in cerebral surgery, **xlv**, 481.
KERR, NORMAN: Combined superior tibiofibular and astragalofibular osteoplasty as a means to prevent shortening of the leg after extensive osteomyelitis of the tibia occurring after adolescence, **xliv**, 425.
KEYES, E. L.: Choice of operation for stone in bladder, **xv**, 180; comparison of the merits of cystotomy, suprapubic and perineal, **xxx**, 108; points in syphilology, **ii**, 299; treatment of stone in the bladder when associated with hypertrophy of the prostate, **xxvii**, 571; tuberculosis of the testicle, **xlv**, 918.
Kidney (see also Hydronephrosis, Hypernephroma, Nephrectomy, Nephrolithiasis, Nephropexy, Nephrotomy, Pyonephrosis, Renal), abnormal **xxiv**, 498.
Abscess of, bilateral, **xxiii**, 440; in the fatty capsule of, **xxv**, 660; multiple, **xxiii**, 262, 282; nephrectomy for, **xxi**, 65, **xxv**, 190, **xxvii**, 366.
Acute hæmatogenous infection of one, in persons apparently well, **xlviii**, 680.
Acute surgical, **xxxix**, 581.
Anæsthetics, effect of, upon, **xix**, 630.
Bilharzia hæmatobia in, lesions caused by eggs and embryos of, **iv**, 350.
Bladder, and, cancer of, discussion on, at International Surg. Soc., 1908, **xlix**, 118.
Bleeding, **xlix**, 628, 652; with macroscopically unaltered kidneys, **xxx**, 768.
-Board and arm-gallows, **xlvii**, 294.
Calculus, colossal, of the, successfully removed, **xlvii**, 1028, 1054; enormous, removal of, from, **vi**, 185; exploration of, in cases of suspected, **xxviii**, 663; extirpation of, for, **xxx**, 328, **xxxi**, 356; with abscess, **xlix**, 840; with nephrolithotomy, **x**, 339.
Carcinoma of, **iii**, 427; extirpation of, for, **xxix**, 753; primary, **xxxiv**, 827; right, **v**, 260.
Child, in a, **xli**, 299; extirpation of, **xii**, 290.

Chloroform on, influence of, **xix**, 719, 720.
Circulation in the, observations upon, **xxv**, 660.
Clamp, use of, on vessels after extirpation, **xxxi**, 359.
Congestive phenomena in the pathology of, **xxx**, 769.
Cyst-wall, calcification of, cystic dilatation of, with, **xxi**, 698.
Cystic, **xxxix**, 598; degeneration of, **xlviii**, 241; degeneration of the, cases of, at the Roosevelt Hospital, **xxix**, 249; large, **xliv**, 959; sarcoma of, in an infant, **xlvi**, 161; true, surgery of, **xxxiv**, 811.
Cystine calculus of, nephrectomy, **xxxvii**, 294.
Cysts of, intermittent, **xxv**, 529; multilocular, of the contribution to the surgery of, **xxxiii**, 147.
Decapsulation of, effect of, upon hæmaturia from chronic nephritis, **xxxix**, 370; for Bright's disease, **xxxix**, 617; results of, **xxxvii**, 592.
Diagnosis of, **xxix**, 260.
Digital exploration of, **vi**, 187.
Drainage, permanent, of both, through lumbar opening, **xlvii**, 148; permanent, method of, of both, after nephrostomy, **xliii**, 406; through renal fistula in the loin, **xlvi**, 430, 952.
Excision of, **ii**, 85, 336, 423, 424, 425; exploratory, **ii**, 86, 87.
Extirpation of, **iv**, 2, 56, 259, **xix**, 98, 497, **xxv**, 402, 403, 413, 638; for calculous pyonephrosis, **xxx**, 328; for suprarenal tumor, **xxxi**, 759; for tuberculosis, **xxxviii**, 524; of thyroid of, **iii**, 165; partial, **xii**, 293, 383; Weir, **i**, 309.
Failure after removal of other kidney, **xxxiii**, 225, 336, 342.
Fibrinous calculi in, **xlviii**, 378.
Fibrolipoma of, **xxvi**, 128.
Floating, fixation of, **iii**, 170; cystic, **viii**, 42; etiology of, **xxx**, 771; with floating gall-bladder, **xxvii**, 199.
Fetal type, adult, of, **xxxiv**, 203.
Fracture of, recovery after nephrectomy, **xxxiii**, 714.
Function, the freezing point of the blood as an index to, **xxxiii**, 96.
Functional power of, determination of, **xxxvi**, 308, **xliii**, 724.
Gunshot wound of, perforating, cases of, **xxiv**, 717; laparotomy and suture, **xxi**, 115.
Hæmatogenous infection of, acute, **xl**, 1010.
Hemorrhage from, without organic changes, **xxix**, 382.
Horseshoe, **xx**, 731, **xxxiv**, 580; containing calculi, **xlix**, 714; unilateral extirpation of, **xl**, 136.
Hydatid cyst of the, **xxxvi**, 95, 449.
Hydronephrosis of, **xxxiii**, 73, **xliii**, 625; removal of, for, **xxv**, 744.
Hypernephroma, **xxxix**, 464, **xl**, 1005, **xlvi**, 418, **xlix**, 428.
Incision of, discussion on, at French surgical congress, **xxix**, 366; for removal of enormous number of calculi, **xxx**, 347.
Infections, acute unilateral hæmatogenous, of, **xlvii**, 1054.
Injuries of, **xv**, 81; traumatic, **vi**, 439; **l**, 715.
Kryoscopy in the diagnosis of affections of, **xxxvi**, 968.
Lacerated, treated by nephrectomy, **xvi**, 579.
Laceration of, **xxxviii**, 121; with fatal hemorrhage, **xxv**, 455.
Laparotomy for removal of a large cystic sarcoma of, **vi**, 257.
Lesions, traumatic, treatment of, **xxiv**, 138.
Lipoma of, **xlviii**, 707.
Liver and lung, traumatic rupture of, **xxxi**, 247.
Malposition of, **xxxiii**, 74.
Movable, **xxi**, 129, **xxix**, 706, 761; treated by nephrorrhaphy, **xvii**, 755; unsuspected lesions of, discovered during nephropexy, **xl**, 215.
Multiple and consecutive opera-

tions on, for calculi, **xlvii**, 600.
Multiple cystic degenerations of, **xxxiv**, 419.
Multiple infarcts of, in a child, nephrectomy for, **xlix**, 541.
Nephrectomy by abdominal section for hydatids of, **v**, 273; in contemplated, of other, **xxvii**, 425, **xxx**, 385; for gunshot wound of, **vi**, 166; for pyonephrosis, **xl**, 289, **xli**, 131; for renal calculus, **xxxix**, 1018.
Nephrolithiasis, incision in cases of, **xxvi**, 320.
Nephrorrhaphy for floating, **vii**, 192.
Neuralgia, for, free division of capsule of, **x**, 104.
Obstructive dilatation of, due to papilloma of the renal pelvis, **xxxix**, 743.
Operation for, cases of, **xli**, 292; report of cases of, **xvii**, 243.
Operations on, for tuberculosis, results of, **xxxvi**, 515; in the Zurich clinic, **xxxvi**, 642; upon the, at the German Hospital in Philadelphia, **xxxvi**, 87, 130.
Palpation of, **xi**, 237.
Paranephritic abscess, **ii**, 358.
Pelvis, and, contribution to the surgery of, **xxvii**, 416, 542.
Phthisis renalis, for, extirpation of, **viii**, 226.
Polycystic, **xxxix**, 467.
Prolapsed, method of suturing, **xxxviii**, 769.
Pyonephrosis, for, extirpation of, **ix**, 467; of a congenitally misplaced, **xlvii**, 197.
Removal of, **i**, 156, **xli**, 126, 127, 129, 131; case of, **xxi**, 31; for tuberculosis, **xxxvii**, 605.
Renal calculi, **ii**, 271, 423, 424.
Resections of, Kümmel on, **xviii**, 566.
Retention, conservative operations for, **xxxiii**, 369.
Retro- and intraperitoneal incision for tumors of, **iv**, 445.
Right, multiple septic infarcts of, nephrectomy, **xliv**, 619.
Röntgen-ray diagnosis of, **xxxix**, 748.
Rupture of, **iv**, 192, **xxxvii**, 97, **xlv**, 792, **xlviii**, 709; Reeves on treatment of, **i**, 371; subcutaneous, **xxxvi**, 346, 899, 967; traumatic, **xxvii**, 774.
Ruptured, case of, **xiv**, 120; cases of, **xix**, 641.
Sacculated, operative treatment of, **xxiii**, 637.
Sarcoma of, **xx**, 176, 373, **xxiii**, 259, 747, **xlix**, 429; extirpation of, **xxi**, 223; in children, **xxvi**, 529; nephrectomy, **xvii**, 68, **xxi**, 75, **xxii**, 269, 270, **xxx**, 317, **xl**, 595; operative treatment of, **xix**, 58; recurrence after removal, **xxv**, 360; no recurrence after nephrectomy, **xxvii**, 364; recurrent, removal of, **xxv**, 745; removal of, for, **xix**, 92.
Single, with two ureters, **xliii**, 955.
Stab wound of, **vi**, 187.
Stone in, **xxiii**, 257, **xxix**, 237, **xlviii**, 930; cases of operation for, **xxii**, 716; causing death after operation for appendicitis, **xxvi**, 369; detection of, by Röntgen rays, **xxx**, 178; diagnosis of, by the X-ray, **xxxiii**, 239, 343; diagnosis of obscure cases of, **xlv**, 905; its diagnosis and the indications for treatment of, **xv**, 169; -stone, colossal, **xlvii**, 1057; large branched, in each, **xlv**, 766; manipulation without incision as possible treatment in, **vi**, 257; nephrotomy for, **xxxv**, 419; report of cases simulating, at the Massachusetts General Hospital, **xxx**, 192; in young child, **xxxvi**, 283.
Stones, **xxxiii**, 71; movable, **xxxiii**, 72; X-ray in the diagnosis of, use of, **xlii**, 864.
Suppurating sarcomatous, simulating appendicitis, **xxxv**, 429.
Suppuration, removal of, for, **xxi**, 568.
Surgery of, **v**, 273, **xx**, 384, 609, **xxiii**, 288, **xxxvii**, 963; cases of, **xxxiii**, 714, 760; cases of, treated in Roosevelt Hospital, **xxix**, 10, 218, 259, 320; conservative, **xxii**, 804; development of, **xxxi**, 100; experimental studies in, **xii**, 289.

Surgical affection of the, **xxvii**, 643, 655, 663; diagnosis and treatment of, **xxv**, 1; discussion at the American Surgical Association of 1908, **xlvii**, 1055; anatomy of, **ii**, 286; exploration of, **xi**, 236; treatment of, **xv**, 173.
Suture of floating, **xxxv**, 137.
Traumatic cyst involving, **xxxix**, 573, 597.
Traumatisms of, **xxxix**, 597.
Tubercular, **ii**, 87, **xxiv**, 496; extirpation of, **xxiv**, 52; incision of, after extirpation of other kidney, **xxvi**, 239.
Tuberculosis of, **i**, 369, **xxix**, 609, 753, **xxxv**, 416, 419; cases of, of the, **xxix**, 226; nephrectomy, **xxv**, 173, **xxvii**, 368, **xxxiv**, 434; operative treatment of, **xii**, 277; remote results of operations for, **xxvii**, 14, 84; removal of, for, **xxxi**, 749; **xxxiii**, 478; results of surgical treatment of, **xxxii**, 461; septic conditions of, **xlviii**, 88; surgical treatment of, **xxxvi**, 310.
Tumors of, **xxix**, 326; malignant, in adults, **xxii**, 404; removed by nephrectomy, **xl**, 260.
Unilateral, of obscure origin, **xxx**, 770.
Ureter, and, anomalies of, **xlv**, 125; nephrectomy for tuberculosis of, **xlviii**, 144; functioning of the, as a means of surgical diagnosis, **xxxvi**, 800.
Urine, suppression of, after removal of calculus from, relieved by saline infusions, **xxii**, 266, 267, 268.
Varix of, **xlix**, 652.
Wandering, **xlix**, 840.
Wound, perforating, of, **xxix**, 492; suture of, **xxv**, 172.
Wounds of, **x**, 465.
X-rays, calculi in, detected by, **xxx**, 344.
Reviews of Books: Diagnosis and Surgery of Diseases of the, by Kamsammer, **xlix**, 879; Diagnosis and Treatment of Diseases of the Kidney Amenable to Direct Interference, by W. Bruce Clarke, **vii**, 229; Diseases of the Kidneys and Bladder, by W. F. McNutt, **xvii**, 121; Handbook of Surgery of, by Garré and Ehrhardt, **xlviii**, 944; Lectures on Diseases of the Kidney Amenable to Surgical Treatment, by Newman, **xii**, 237; Treatise on Bright's Disease of the Kidneys, by Willard, **xv**, 507; Surgical Diseases of the Kidney, by Israel, **xxxiv**, 726; Surgery of the, by Morris, **iv**, 281, **xxix**, 399; Surgical Diseases of Ureter and, by Morris, **xxxviii**, 155; Topography of, and Its Relations to Kidney Surgery, by Zondek, **xxxviii**, 459.

Laparo-elytrotomy, **vi**, 278, **vii**, 469; case of, successful, **i**, 25.
Laparomyotomy, **ii**, 432.
Laparotomies, gall-stones, for, Kehr's statistics of seven hundred and fifty, **xxxviii**, 141; infant, three, in an, **xlv**, 764.
Laparotomy (see also Abdominal Section, Appendicectomy, Cæsarean Section, Cholecystotomy, Cœliotomy, Gastro-enterostomy, Gastrotomy, Nephrectomy, Ovariotomy, Splenectomy), **ii**, 171, 268, 270, 506, 507, 508.
Abdomen, for gunshot wound of, **v**, 148, 151, 154, 156, 371, 465, **vi**, 369, **vii**, 398, **viii**, 313; for shot wound of, **xii**, 276, 369; for penetrating stab wound

of, **vi**, 324; for penetrating wounds and visceral injuries of, **iii**, 422; for perforating gunshot wound of, recovery, **iv**, 344, 468, 528; for perforating pistol shot wound of, **vi**, 49; for stab wound of, **vii**, 397.
Abdominal injuries, for, **xii**, 66; stab or shot wounds, **iii**, 243; tumor, suppurating, for a, **vi**, 41; tumors, for, **v**, 258.
After-treatment, early rising in, **xlviii**, 774.
Appendicitis, for, **x**, 434.
Appendix, for excision of, **ix**, 89.
Appendix vermiformis, perforated, for, **vi**, 41, 508.
Aseptic, **xiv**, 421.
Bladder, urinary, intraperitoneal wounds of, for, **iii**, 349; for rupture of, **iii**, 349, **v**, 167, 452, 547, **vi**, 175, **vii**, 64, 311, **viii**, 475, **xvi**, 458, **xviii**, 647.
Carcinoma, and resection of large intestine for, **iii**, 469; of stomach, for, **vi**, 450.
Cervical fibroids, for, **iii**, 361.
Child, in a, one hour old, **ix**, 226.
Cocaine anæsthesia in, **xix**, 90.
Curing disease, for, mental effect of, **v**, 233.
Death, with, **iv**, 475, 528.
Diagnostitial, **iv**, 240.
Enterectomy for strangulated hernia, **vi**, 168.
Enteroliths, for, **xii**, 278.
Explorative, **iii**, 245, 345, **iv**, 184, **v**, 146.
Fetation, in extra-uterine, **iv**, 458, 459.
Fibroids of the cervix, for, **iii**, 361.
Fœtus in uterus bicornis, for retained, **iv**, 371.
Foreign body, for removal of, **ix**, 228.
Fork, for removal of, **x**, 297; **vi**, 512.
Gall-stones, for, **iii**, 86, 88, 381, 397.
Gonorrhœal pyosalpinx, for, **v**, 90.
Gut, for gunshot wound of, **ix**, 90.
Hemorrhage, pelvic, after, **iii**, 241; from rupture of tubal pregnancy, recovery, **xvii**, 210.
Hemorrhagic diathesis, true, complicated by, **vii**, 225.
Hernia, in a case of internal incarcerated, **xvi**, 440; congenital umbilical for, in a new-born infant, **viii**, 317; internal strangulated, for, **iv**, 526; for strangulated, **ix**, 445, 459; strangulated gangrenous, Littre's, for, **xviii**, 32; strangulated, with resection and suture of gangrenous intestine for, **vi**, 514; strangulated, in treatment of, **iii**, 450.
Ileocæcal region, for affections of, **iv**, 529.
Ileus, for, indications for, **xviii**, 79.
Iliac artery, common, ligature of, and, **iv**, 519; for gluteal aneurism, in ligature, **v**, 55.
Incision in, the combined transverse and longitudinal, **xl**, 178, 259.
Incisions for, modified, **xxxiii**, 489.
Internal strangulation, for, **v**, 88.
Intestinal invagination, for, **v**, 544; obstruction, for, **iii**, 84, 89, 139, 214, 240, 420, 524, 525, **viii**, 371, **x**, 281, 302, 347; obstruction, acute, relieved by, **xiv**, 510, 511; obstruction, in, explorative, **v**, 157; obstruction, for, signification of collapsed intestine in, **iv**, 240; perforations, for, **i**, 161; strangulation, for internal, **i**, 366; suture, and, for perforating typhoid ulceration, **v**, 359.
Intestine, for acute strangulation of, **ix**, 381; and exsection of, **ix**, 382; for gunshot wound of, **vi**, 165, 505, 507, **viii**, 257, 314; large, for carcinoma of, **iv**, 247; for obstruction of, **iv**, 527; for perforating ulcer of, **ix**, 59; small, gunshot of, **iii**, 89.
Intoxication, sublimate, in case of, **iv**, 551.
Intraperitoneal injury, for, **vi**, 130.

Intrathoracic hydatid cyst, **x**, 203.
Intussusception, for, **ii**, 216, 240, **ix**, 92.
Liver surgery, in, **v**, 212, 216, 224, 230, 231, 233; tumor of, **x**, 142.
Mesenteric cysts and drainage, for, **viii**, 218.
Mesocolon, for hydatid cyst of, **ix**, 229.
Mironow on the question of asepsis in, **xvii**, 76.
Myoma, for uterine, **viii**, 71.
Nephrectomy, and, **v**, 166, 273, 274.
Ovarian tumor, for supposed (pregnancy), **x**, 235.
Pancreatic cyst, for, **xii**, 280.
Patients, in aged, **xvii**, 630.
Pelvic abscesses, and, **iii**, 532.
Peritoneal cavity, use of hot water in, to prevent shock, during and after, **vi**, 160.
Peritoneum, washing out, after, **viii**, 318.
Peritonitis, chronic, **x**, 293; for purulent, **ix**, 379.
Perityphlitic abscess, for, **iv**, 242, 243.
Peri-uterine abscess, **i**, 393.
Pneumonia as a sequel to, **xlii**, 946.
Pregnancy, for extra-uterine, **vi**, 94, 95, **viii**, 71.
Pylorus, for excision of, **iii**, 524.
Results of, for acute intestinal obstruction, **vii**, 329.
Salpingitis, for, **viii**, 69, **vii**, 461.
Spinal anæsthesia and scopolamin sleep, **xliv**, 736.
Spoon, removal of, **x**, 297.
Stomach and intestines, **iii**, 386; and intestine, pistol shot wound of, for, **v**, 371; and liver, gunshot wound of, **viii**, 81; for perforating ulcer of, **ix**, 59, 95.
Strangulation, for internal, **iii**, 218, 420.
Subperitoneal abscess and, **vii**, 461.
Thrice on one patient, **xii**, 246.
Traumatism, for, **v**, 547.
Tubercular peritonitis, in, **xi**, 125, 131; infants, in, **xvi**, 394.
Tuberculosis of peritoneum, for, **vi**, 504.
Typhoid ulcer, for perforated, **viii**, 219.
Urachus, for congenital cyst of, **ix**, 227.
Uterine appendages, and removal of, **iii**, 102, 241; appendages, for removal of, **v**, 172, **vi**, 41; hydatids, for, **xxv**, 150.
Uterus, for ruptured, **viii**, 69.
Vermiform appendix, perforation of, **viii**, 23.
Visceral injuries, for, **vi**, 505; wounds, in, **x**, 304.
Volvulus of the sigmoid flexure, for, **xviii**, 28.
Review of book: Greig Smith on, **vi**, 518.
LAPLACE, ERNEST: New forceps for intestinal anastomosis, **xxix**, 297.
LAROQUE, G. PAUL: Angulation at sigmoid, **xliv**, 678.
Laryngeal muscles, paralysis of, after extirpation of thyroid tumors, **ii**, 504.
Laryngectomies, Kocher's clinic, at, **xviii**, 468.
Laryngectomy, **xxxvi**, 621, **xlv**, 961; for cancer, **xlix**, 864; case of, **xxi**, 59, **xxvi**, 637.
Carcinoma, for, **xxx**, 331; results after, for, in Bergmann's clinic, **xxvii**, 246; total, for, **xliv**, 193; unilateral, for, with non-recurrence after three years, case of, **xxii**, 785.
Eucaine anæsthesia, under, **xxxiii**, 32.
Technic of, **xxx**, 1.
Two cases of, **xii**, 440.
Unilateral, **xxxiii**, 635; case of, **xviii**, 18.
Laryngitis, œdematous, **v**, 64.
Laryngopharyngotomy, subhyoid, a recovery from self-inflicted, **xlv**, 636.
Laryngotomy, **viii**, 211.
Crico-, **v**, 511.
Intra-cricothyroidean, **xii**, 327.
Larynx (see also Cricoid), cancroid per vias naturales, extirpation of, **v**, 543.
Carcinoma of, **ix**, 344, **xii**, 227, **xxxvi**, 617, **xxxvii**, 463, 632, **xlv**, 961, 962; extirpation of, for, **i**, 74; Kocher's operations for, **xxx**, 752; present status

of operations for partial and total extirpation of, for, **xxvi**, 275; statistics of operations for, **ix**, 143.
Cartilaginous growths of, **xi**, 121.
Cocaine in surgery of, **iii**, 79.
Congenital diverticulum of, case of, **xxv**, 711.
Cricotomy for papilloma of, **v**, 511.
Croup, for, intubation of, **xii**, 361.
Cyst of left vocal cord of, **ix**, 143.
Enchondroma of, **viii**, 135.
Epithelioma, for, partial excision of, **v**, 540.
Excision of, **iv**, 397, 434, **vi**, 254; for carcinoma, **l**, 92.
Extirpation of, **v**, 357; partial, **iii**, 28, 38, 67; total, **ix**, 141, **x**, 273; unilateral, **iii**, 20.
Fibroma of vocal cord in, **v**, 144.
Foreign body in, **xi**, 282, **xxxix**, 1020.
Fracture of, **viii**, 211, **x**, 449.
Fractures of, **i**, 280; causation of, **v**, 144; of hyoid and, **ii**, 158.
Intubation of, **iv**, 73, 523; twenty-two cases of, **xvii**, 370.
Laryngitis, acute, paralysis of, from, **viii**, 305.
Malignant disease of, Gluck on surgical relief of, **xxx**, 754; laryngectomy for, **xxxix**, 968.
Operations, Billroth's clinic, in, **ii**, 261.
Papilloma of, **xl**, 1014.
Pharynx, and, carcinoma of, inoperable, treated by excision of the external carotid artery, **xxxiv**, 568; extirpation of, **xiv**, 417.
Postdiphtheritic stenosis of, **xxxi**, 547, 747.
Removal of, partial, **xxxiv**, 824.
Stenosis of, chronic, **xxxvi**, 138, **xl**, 458; complete, relieved by incision and skin-grafting, **xxxiv**, 432; implantation of costal cartilage for relief of, **xxxi**, 661; mechanical treatment of, **ii**, 261; relieved by Abbe's string method, **xxviii**, 521; treated by skin-grafting, **xxxiv**, 649.
Surgery of, **vii**, 281; recent Russian contribution to the, of, **xiii**, 63.
Telangiectatic myofibroma of, **xi**, 88.
Thyreotomy for papilloma of, **xii**, 363.
Thyrotomy for epithelioma of, **vi**, 254.
Typhoid fever, after, stenosis of, **iv**, 336.
Reviews of Books: Atlas and Abstract of Diseases of the Larynx, by Grunwald, **xxviii**, 413; Malignant Disease of the Larynx—Total Laryngectomy, by Wallace J. Terry, **xxxix**, 968; Autoscopy of Larynx and Trachea, by Hirstein, **xxv**, 520; Stenosis of the Larynx, by Francis J. Quinlan, **xxxvi**, 139.
Lateral curvature of the spine, a hard rubber spring brace for, **xxxiii**, 185.
Lateral cystotomy, **vi**, 33.
Lateral sinus, aural disease, consecutive to, operations for septic thrombosis of, **xii**, 61.
Otitis, acute, pyemic thrombosis of, from, operation for, **xviii**, 73.
Septic infection of, **xix**, 118.
Thrombosis of, **xxxviii**, 599, **xxxix**, 276; suppurating, **xli**, 942.
Lathrop, Walter: Fracture of skull, **xxxiv**, 401; fracture of spine, **xxxii**, 833.
Lauenstein, C.: Catgut as a source of pus-infection, **xxiii**, 109.
Lavage, gastric, postoperative, value of, **xl**, 612; in the treatment of postoperative vomiting, **xl**, 194.
Le Boutillier, W. G.: Diffuse peritonitis from gangrene of appendix, recovery, **xxxvii**, 431; excision of patella in wound of knee, **xxxvii**, 945; gastrostomy, **xxxvi**, 954; in-

flamed appendix removed from a strangulated inguinal hernia, **xlvi**, 645; postoperative comfort, **xliv**, 106; results and methods of treatment of compound fractures at the J. Hood Wright Memorial Hospital, **xxx**, 297; stab wound of the spinal cord, **xlvi**, 639; strangulated inguinal hernia in a seven weeks' old infant, **xlvi**, 642; thoracic injuries involving the lungs, **xxxv**, 553; thrombosis of portal vein after appendicitis, **xlix**, 858; treatment of tetanus, **xxxi**, 369; the volunteer military surgeon, **xlix**, 847, 861.

Le Conte, Robert G.: Appendiceal abscess pointing in the right side of the scrotum in a patient free from hernia, **xliii**, 155; carcinoma of the appendix with metastasis to the ileocolic glands, **xlvii**, 1000; carcinomatous degeneration of uterine myoma, **xxxiii**, 60; case of abdominal section for gunshot wounds, **xxi**, 79; closure of abdominal wounds, **xxxix**, 129; compound fracture of radius and ulna, **xlv**, 970; congenital absence of anus and rectum, **xxvii**, 776; congenital fistula in tongue, **xliv**, 716; diagnosis of inflammatory affections in the right iliac fossa in women, **xxviii**, 141; diagnosis of intestinal injury following abdominal contusion, **xxxvii**, 525, 623; disability and deformity following fracture of the base of the neck of the femur, **xxviii**, 139; excision of the carpus for tuberculosis, **xxxiii**, 58; fracture of femur and pelvis, **xlv**, 969; further note on interscapulothorax amputations, **xxxvi**, 573; gangrenous hernia, **xxxv**, 528; gastroenterostomy in cases of gastric perforation, **xlix**, 732; gastroplication, **xl**, 281; general purulent peritonitis, **xliv**, 715; gunshot fractures of femur and forearm, **xlv**, 970; gunshot wounds of the abdomen, **xxxv**, 111; hernia of urinary bladder complicating inguinal hernia, **xxiv**, 753; incision through rectus muscle, **xliv**, 723; inefficiency of gall-bladder drainage after gastro-enterostomy, **xli**, 291; intestinal obstruction due to band and volvulus of ileum, **xli**, 148; intestinal obstruction due to gall-stones, **xxxvi**, 300; malignant affections of ovary, **xli**, 301; nailing a recent intracapsular fracture of the femur, **xlvii**, 469; necrosis of entire lower jaw, **xxxix**, 130; nephrolithotomy, **xli**, 299; O'Hara's method of bowel anastomosis, **xxxiii**, 207; operation in the preperforative stage of typhoid fever, **xxxiii**, 645; operative treatment of appendicitis, **xxvii**, 105; operative treatment of intestinal perforation in typhoid fever, **xxxix**, 118, 127; osteomyelitis of tibia, **xlii**, 300; pyopneumothorax, **xxxiii**, 67; radical cure of hernia, **xxxi**, 653; relation of kidneys to toxic symptoms in cholæmia, **xl**, 432; removal of loose cartilages from knee-joint, **xxiii**, 204; removal of tumors of the kidney, **xliv**, 907; resection of spinal accessory nerve for torticollis, **xlviii**, 152; results of operations for sarcoma of bone, **xxxiv**, 597; rupture of bile-duct subsequent to cholecystotomy, **xl**, 429; rupture of gall-bladder in acute cholecystitis, **xl**, 427; rupture of the lung without costal injury, **xlvii**, 383; sequelæ to fracture of the neck of the femur in an aged person, **xxxvii**, 118; shot as a nucleus of vesical calculus, **xxxiii**, 647; stab wound of the lung treated by suture, **xliii**, 150; surgical treatment of perforating gastric ulcer, **xliv**, 907, 957; thrombosis of pulmonary artery after operation for

acute appendicitis, **xli**, 145; thrombosis of pulmonary artery after removal of large ovarian cyst, **xli**, 143; thyroid cyst, **xxxiii**, 212; traumatic intussusception, **xliv**, 303; treatment of acute traumatic hæmothorax, **xxix**, 509; treatment of diffuse septic peritonitis, **xliii**, 231, 314, **l**, 457; treatment of gall-stones in the common duct, **xxxvii**, 113; treatment of intracapsular fractures of femur, **xlii**, 284; treatment of perforating typhoid ulcer, **xli**, 288; tubercular peritonitis, **xxxiii**, 208; tuberculosis of the mammary gland, **xxviii**, 685; ultimate results of an interscapulo-thoracic amputation, **xxxiv**, 712; unsuccessful nephrolithotomy, **xxviii**, 661; volvulus of the small intestine in typhoid fever simulating perforation, **xliv**, 314; wounds of the internal mammary artery, **xliv**, 951; X-ray in carcinoma, **xxxvi**, 294.

Lee, Edward H.: An intestine holder, **xxxiii**, 23.

liver abscesses, **l**, 810; nephrectomy for sarcoma, **xl**, 597; for tuberculosis, **xlvii**, 452; operations for prostatic obstruction, **xxxvii**, 622; operations upon stomach, **xlv**, 762; operations without ether or chloroform narcosis, **xxvii**, 581, 669; operative treatment of acute abscess of lung, **xlvi**, 473; of cleft palate, **xliii**, 136; osteoplastic amputation of the leg, **xli**, 452; pancreatic fistula, **xxxi**, 625; partial enterocele, **xxxix**, 298; perforating duodenal ulcer, **xlviii**, 307; plastic of face, **xxxiv**, 837; plate for defects of the skull, **xlvii**, 796; postoperative anuria, **xxxiii**, 337; postoperative intestinal obstruction, **xl**, 599; prostatectomy, **xxxiii**, 478; primary cholecystectomy, **xl**, 44, 129, 132; pulsating exophthalmos, **xxxix**, 435; pylorectomy, **xxxvii**, 442; pyloroplasty, **xxxix**, 281; remarks on appendicitis, **xl**, 762; removal of astragalus for club-foot, **xxxv**, 646; of cervical lymphomata, **xxix**, 356; of gall-bladder, **xlii**, 121; of scapula for sarcoma, **xxxviii**, 308, 602; resection of transverse colon for carcinoma—no return after three and a half years, **xxvii**, 661; of colon for carcinoma, **xxiii**, 601; of elbow, **xxx**, 341; of humerus for sarcoma, **xlvii**, 786; of intestine for gangrenous hernia, **xxiii**, 446; of liver, **xxix**, 365; of sigmoid flexure for intestinal obstruction, **xxix**, 114; results after prostatectomy, **xxxviii**, 307; after removal of whole colon, **xxxvi**, 956; of operations for exstrophy of bladder, **xlii**, 925; sarcoma of breast, **xlii**, 455; of the humerus, **xlvi**, 467, 468; of neck and stomach, **xlv**, 147; of rib cured by operation and injection of mixed toxins, **xxxvii**, 440; of the scapula, **xxxviii**, 115; of thigh, **xlii**, 268; treated by means of mixed toxins, **xliii**, 611; self-retaining trocar and canula for the aseptic evacuation of distended viscera, **xliii**, 913; stone found in kidney after death in a case operated upon for appendicitis, **xxvi**, 369; in the pelvic ureter, **xl**, 589; subcutaneous rupture of popliteal artery and vein, **xlv**, 144; subclavian aneurism, **xlii**, 271; suprapubic prostatectomy, **xxxix**, 811, **xliii**, 621; followed by formation of vesical calculi, **xxxix**, 436; suppurating gumma of liver, **xxxvi**, 132; suppurating hydatid liver cyst, and cholelithiasis, **xlviii**, 614; surgical engines for cranial operations, **xl**, 125; suture of typhoid perforations, **xlii**, 930; treatment of tetanus, **xxvi**, 507; thrombosis of the mesentery, **xliii**, 614; thyroid extract in cases of non-union after fracture, **xxxiv**, 417; tibiofibular osteoplasty, **xxiv**, 48; treatment of cicatricial contractures, **xliii**, 305; diffuse suppurative peritonitis following appendicitis, **xliv**, 299; fractured patella, **xxxiii**, 195; hemorrhoids, **xli**, 458; prostatic abscess, **xli**, 134; rupture of spleen, **xlii**, 470; prostatic hypertrophy by enucleation through a suprapubic incision, **xli**, 535; tubercular infection by catheterization of ureter, **xxxi**, 750; tenosynovitis, **xxxvi**, 136; peritonitis, **xlix**, 266; tuberculosis of femoral lymph-nodes after foot wounds, **xxxvii**, 783; use of oxygen gas with ether for anæsthesia, **xxiii**, 197; silver filigree in closing large defects in abdominal wall, **xxxviii**, 118; skiagraphy in diagnosis of tumor of the upper jaw, **xxiv**, 490; X-ray in diagnosis of stone in ureters, **xli**, 134; value of the differential leu-

cocyte count in acute surgical diseases, **xliii**, 625; volvulus, **xlii**, 591; vanishing tumor of the pylorus, **xliv**, 295; vesical calculus containing an opened safety-pin as a nucleus, **xlvii**, 797; Volkmann's ischæmic paralysis of forearm, **xlvii**, 459, 461; wire filigree suture for hernioplasty, **xli**, 945.

Limbs, some common injuries of, by Cotterell (review of), **ii**, 523.

Lime, carbonate of, for arresting growth of cancerous tumors, **vi**, 249.

LINDH, DR.: Successful operation for two cases of cerebral abscess, **xix**, 723.

Lingual artery, ligation of, through mouth, **xxxvi**, 15.
Arteries, excision of the tongue, in ligature of, **ii**, 359.
Goitre, **xl**, 323, **xlvi**, 826.
Lipoma, case of, **xxv**, 201.
Nerve, stretching of, for relief of neuralgia of tongue, **xxiii**, 48.

Lip, restoration of lower, after excision for carcinoma, **xxvi**, 147; results of operations for, **iv**, 173; of upper, **x**, 448.
Cheiloplasty by borrowing from healthy, **xxii**, 131.
Cleft palate, and, operations for, mortality of, **v**, 60.
Epithelioma of, **xxxi**, 628, 632; of lower, long immunity from recurrence after removal of, **xxxiii**, 51; Malgaigne's operation for, **xxviii**, 381; pyoktanin in, **xvi**, 87; no relapse ten years after removal, **xxiii**, 186; removed by Regnier's method, **xxii**, 265, 266; simultaneous with epithelioma of the penis, **xvi**, 461.
Face and jaw, clefts of, **i**, 578.
Loss of entire lower, **xli**, 118.
Plastic operation on upper, **xxxi**, 492; for restoration of lower, **xl**, 598.
Restoration of the lower, after the method of Regnier, **xxi**, 688.
Trichinous infection of a carcinoma of, **xlvii**, 332.

LIPMAN E.: Bacteriæmia in cases of gall-bladder disease, **xl**, 131.

Lipoma, kidney, of, **xlviii**, 707.
Knee, of, **iv**, 265, 359.
Leg, of, **xxvi**, 231.
Multiple symmetrical, **xlv**, 141.
Studies on, **viii**, 60.
Telangiectatic, **xliii**, 789.
Tendon sheaths, of, **ix**, 146.
Thigh, of, simulating sarcoma, **xxvi**, 230.
Review of Book: Lingual Lipoma, by William Barton Hopkins, **xxv**, 201.

Lipoma arborescens, of, extensor tendon sheaths of forearm, **xxv**, 623.
Knee, of, **xl**, 598.

Lipoma testis, **iii**, 365.

Lipomata, perineal, retroperitoneal, **xliv**, 60.

Lipomatosis, multiple symmetrical, **l**, 643.

Lips, adenoma of the mucous glands of the, as a cause of macrocheilia, **xl**, 320, 438.
Carcinoma of, operative treatment of, **xxii**, 445.
Tongue, and, malignant tumors of, etiology and diagnosis, **x**, 249.

Lip-tie, **xxxix**, 433.

Listerian precautions in surgical joint-affections, **ii**, 61.

Lithiasis, urinary, symptoms and signs, **xlv**, 584.

Litholapaxy, **ii**, 333, 334, **v**, 84, 164, 280, 422, 425, 426, **vi**, 33, 263, **vii**, 228, **xix**, 691.
Bottini operation at one sitting, and, **xxxvi**, 17.
Children, in, **xii**, 75, **xv**, 136, **xvi**, 39.
Cocaine in, **v**, 81.
Evacuator for, rapid, **iv**, 257.
Male children and adults, in, **vi**, 147.

Lithotomy (see Bladder, Calculus, Cystotomy, Suprapubic), **ii**, 84, 334, **v**, 164, **vi**, 263.
After-treatment of, **i**, 372.
Bilateral, **iii**, 436; after partial closure of exstrophy of, **xxi**, 181.

Cases of, **ix**, 391.
Children, in, **x**, 377; lateral, in, **vi**, 182; median, in, **vi**, 181.
Hepato-nephro-, **xxii**, 367.
Lateral, **v**, 281, 282.
Lithotrity, or, for stone in bladder, **xv**, 180, 185.
Median, **x**, 311.
Nephro-, **v**, 1, 166, 557, **viii**, 39, 40, 41, **xi**, 52.
Perineal, antiseptic dressing for, **i**, 373; and suprapubic, relative value of, **xv**, 135.
South China, in, **iii**, 90.
Spine, after fracture of, **xix**, 609.
Statistics, **viii**, 223.
Suprapubic, **i**, 159, 371, **iii**, 90, 92, 171, 349, 428, 432, 435, **vi**, 258, 264, **viii**, 44, **x**, 174, 378, 389, 473, 474, **xi**, 1, 63, **xii**, 444, **xxvii**, 663; translation of first case of, **ii**, 176.
Suture, etage, in Allarton-Dolbeau section, **x**, 381.
Twice in fourteen months, **iii**, 172, **iv**, 187.
Utero-, transperitoneal, **xxii**, 363.
Vaginal, **iii**, 251.
Reviews of Books: Lithotomy, by Pierre Franco, **ii**, 175; Lithotomy in the Male, by Smits, **ix**, 398.
Lithotripsy, **ii**, 334.
Children, in, **vi**, 182.
Cystotomy, and, **xii**, 390.
Lithotrite, cystoscope, combined with, **xlvi**, 452.
Forbes' improved, **xxi**, 77.
Lithotrity (see Bladder, Litholapaxy), **vii**, 228.
Guyon's method of evacuating débris after, **xvi**, 457.
Indications and contra-indications to rapid, **v**, 422, 426.
Limits of, **v**, 425.
Perineal, **ix**, 390; case of, **xvii**, 442.
Statistics, **viii**, 223.

MANTEUFFEL, VON ZOEGE: Cocaine as an hæmostatic in hæmophilia, xviii, 570.
MARCY, HENRY O.: Aseptic principles involved in the immediate hermatic sealing of wounds, xxxi, 450; the question of priority in choledocholithotomy, xxviii, 158; contribution to the history of operations on the common choledoch duct, xxv, 80; cure of hemorrhoids by excision, x, 321; ileocæcal fistula, xxix, 69; mortality after operations for large incarcerated herniæ,

xxxi, 65; surgical treatment of spina bifida, xxi, 237; tubercular peritonitis in woman, xlii, 755; in what class of wounds shall we use drainage? xii, 413.

Marjolin's ulcer, xxxvii, 450, 496.

MARKOE, FRANCIS H.: Anatomy of gall-ducts, xxix, 758; capillary drainage, i, 60; cases of nephrectomy, xix, 98; choledocholithectomy, xx, 741; intestinal obstruction following appendicitis, xix, 678; chronic intussusception, xxx, 643; entero-anastomosis for malignant stenosis of the digestive tract, xix, 172; fractures of skull, xxix, 353; hydatid cyst of liver, xvii, 585; later history of tuberculous ureter after nephrectomy, xxix, 56; œsophagotomy for foreign bodies lodged in the tube, iv, 193; pyloroplasty for cicatricial stenosis, xx, 740; remarks on vasectomy, xxvii, 767; sacro-coccygeal dermoid, xxi, 706; sarcoma following traumatism, xxx, 643; secondary nerve suture, ii, 181; splenectomy, xx, 737; splenectomy, xvii, 582; synovial tuberculosis of elbow-joint, xxiii, 189; thyrodermoid of the coccyx, xxii, 502; treatment of fracture of patella, xxiv, 48; treatment of ruptures of quadriceps' extensor tendon, xxii, 507; treatment of knee-joint suppuration, xxii, 505; tuberculosis of bladder, xxii, 513; uretero-ureteral anastomosis, xxix, 593; use of oxygen gas with ether for anæsthesia, xxiii, 194.

MARNOCH, JOHN: Two cases of rupture of bladder, xliii, 241.

Marrow, osteogenetic power of, i, 484.

MARTIN, EDWARD: Acute general peritonitis without demonstrable lesion, xliv, 917, 952; ambulatory treatment of fractures of the leg, xxiii, 462; apparatus for sterilization of soft urethral instruments, xxiv, 226; case of hepatic abscess, xxiv, 223; case of hypospadias, xxiv, 226; castration for prostatic hypertrophy, xxiv, 223; danger of appendicitis, xxiii, 625; diffuse aneurism, xxii, 391; dislocation of a vertebra, xliv, 457, 460; early operations for osteomyelitis, xxiv, 236; extensive angioma of the face, xliii, 453; extirpation of carcinoma of upper jaw, xxiii, 302; gastrostomy for carcinoma of œsophagus, xxiii, 299; intestinal suture, xxxv, 820; old fracture of the patella, operative results in an, xliii, 452; operative treatment of fracture of patella, xxiv, 232; penetrating wounds of chest, xliv, 950; perineal testicle restored to its proper position, xx, 94; radical cure of congenital inguinal hernia, xxiii, 302; suture of femoral artery, xlii, 618; treatment of hemorrhoids, xxxv, 826, 827; treatment of ununited fracture of humerus, xxiv, 382.

MARTIN, FRANK: Report of a case of recovery after abdominal section for multiple gunshot wounds of the abdomen, xxxiii, 311; the surgical treatment of trifacial neuralgia, xlv, 649.

MARTIN, WALTON: Abscess of liver after appendicitis, xlix, 857; gunshot wound of the lung, xlix, 557; intestinal obstruction due to tubal pregnancy, xlix, 271; the lesions associated with gunshot wounds of the stomach, xlv, 699, 779; perforated ulcer of the stomach, xlix, 863; removal of multiple tuberculous foci, including resection of ankle-joint and of the seventh costosternal articulation, l, 477; resection of the ankle for tuberculosis, xlv, 144;

Roux Y-operation for pyloric stenosis, **xlix**, 548; typhoid perforation of ileum, **xlviii**, 133.
MASLAND, H. C.: Use of the Masland saw for opening the cranial vault, **xliv**, 161, 320; operating upon the cranial vault, **xlix**, 371.
MASON, J. M.: Study of burns involving the periosteum of the vault of the skull, **l**, 815; treatment of dislocation of the shoulder-joint complicated by fracture of the upper extremity of the humerus, with an analysis of sixty-three cases with fracture at the head of the humerus, and twenty-one cases with fracture of the greater tuberosity reported since 1894, **xlvii**, 672.
Massachusetts General Hospital, end results of 376 primary operations for carcinoma of the breast at the, **xlvi**, 20.
Massage, abdomen, for intestinal obstruction, of the, **ii**, 269.
Mercury bath, by plunging into, **xxxviii**, 767.
Mobilization and, in the treatment of fractures, **xi**, 358, 359.
Movements and, in the treatment of fractures, **xxiv**, 691.
Periarticular fractures, recent, in the treatment of, **xxxii**, 351, 603.
Scoliosis, treatment of, by, **iv**, 266, 485.
Review of Books: Massage, by Graham, **ii**, 178; **xxxvii**, 639; Massage and Swedish movements, by Ostrom, **xxxvii**, 639.
MASTIN, C. H.: Lumbar hernia, **xii**, 20.
MASTIN, W. M.: Filaria sanguinis hominis, **viii**, 321; recurrence at a late period after operation of carcinoma of the breast, **xlviii**, 527; venous blood-tumors of cranium, **i**, 324, 439.
Mastitis, sculptor's white clay in, **viii**, 471.
Mastoid abscess, **xxxviii**, 599.
Cells, aural polypus, perforation for relief of, **xiv**, 411.
Trephining of, resulting in open bony cavities lined with epithelium, **xvi**, 435; trephining the, cases of, **xxi**, 610; new method of, **ix**, 371.
Review of Book: The Modern Mastoid Operation, by Whiting, **xlii**, 635.
Mastoiditis, appendicitis, and, simultaneously operated upon, **xxiii**, 613.
Purulent, **xl**, 348.
MATAS, RUDOLPH: Fecal origin of some forms of tetanus and its prophylaxis by proper dietetic or culinary measures, **l**, 338; interdental splint for fracture of lower jaw, **xli**, 1; management of acute traumatic pneumothorax, **xxix**, 409; method of treating case of aneurism, **xxxviii**, 493; operation for aneurism, **xli**, 115, **xlii**, 123, 124; a popliteal aneurism, presenting unusual difficulties in the application of Matas's operation, **xlviii**, 15; radical cure of aneurism by arteriorrhaphy, **xxxvii**, 161; traumatisms and traumatic aneurism of the vertebral artery and their surgical treatment, **xviii**, 477.
Materia medica (reviews of), Bowen, **ix**, 478; Morris on essentials of, **x**, 480; Wood's, **ix**, 240.
MATHEWS, FRANK S.: Enucleation of the tonsils, **l**, 797; finger-enucleation of the tonsils, **xlviii**, 883; fracture of the external condyle of the humerus, **xlix**, 712; ligature of external carotid as preliminary to excision of cancer of the tongue, **xlix**, 862; nephrectomy for multiple kidney infarcts in a child, **xlix**, 541; pneumococcus peritonitis, **xl**, 698; physiological salt solution, **xl**, 243.
Mattress for operating table, **xxvii**, 682.
MAUNSELL: Method of intestinal suture, **xxii**, 688.

MAURY, J. W. D.: Twine triangular stitch for gastro- and entero-enterostomy, **xli**, 914; is death in high intestinal obstruction due to the absorption of bile? **xlvi**, 556; observations upon a form of exophthalmic goitre occurring in a dog, **xlvi**, 541; plans of a sanitary animal cage for laboratory use, **xxxix**, 991; preliminary report of experimental studies on thoracic œsophagus, **xlvi**, 544; studies upon the function of pylorus and stomach after gastro-enterostomy has been performed, **xlvi**, 549.

Maxilla (see Jaw), cystic tumor of, **ii**, 343.
Fracture of inferior, **xix**, 653; with separation of genial tubercle, **xix**, 653.
Heusner's method for resection of, **x**, 186.
Incision of the inferior, for carcinoma, **xlvii**, 812.
Inferior, anchylosis of temporo-maxillary joint with osteotomy of, for cure, **x**, 426, ancient dislocation of, case, **viii**, 179; bilateral dislocation of, reduced after 136 days, **xix**, 239; non-development of the, **xxxiv**, 430.
Neuralgia of inferior, cured by resection of alveolar border, **ii**, 260.
Removal without recurrence, **xix**, 241, 688, **xxxii**, 134.
Resection of lower, **xli**, 625.
Sarcoma of the superior, **xxxiv**, 300, 437.
Superior, crush of, **xlix**, 858; excision of, **xi**, 305.

Maxillæ, congenital deformity of the face, partial resection of the upper and lower, for, **xlvii**, 278.

Maxillary joints, excision of temporo-, for true ankylosis, **ii**, 415, **v**, 141.
Nerve, resection of superior, **iii**, 236.
Sinus, empyema, operative treatment of, **iv**, 335; surgery of, **xxi**, 612.

MAY, B.: Amputation of entire upper extremity in continuity of the trunk by the method of Paul Berger, **viii**, 434; hemorrhage from external auditory canal by erosion of internal carotid artery, **i**, 559.

MAYDL: Operation for relief of modified exstrophy of bladder, **xxxviii**, 763.

MAYER, OSCAR J.: Angiotripsy in general surgery, **xxxvi**, 183; case of laminectomy, **xxvi**, 207; chronic inflammation of the spermatic cord with gangrene of testis, **xxvi**, 666.

MAYLARD, A. ERNEST: Cause of stitch abscesses and their prevention by inunctions of oleate of mercury, **xxxv**, 1; hepato-cholangio-jejunostomy, **xli**, 56; intestinal anastomosis by invagination, **xlix**, 690; investigation into the antiseptic value of iodoform, **xi**, 17; plea for a revised nomenclature of operations upon the alimentary canal, **xxvi**, 289; sponges and their use in surgery, **xiii**, 321; tracheotomy with ulceration of the tube through the trachea into the innominate artery and death, **ix**, 192.

MAYO, CHARLES H.: Case of hydrencephalocele, **xviii**, 26; ligation of the thyroid vessels in certain cases of hyperthyroidism, **l**, 1018; the parathyroid question, **l**, 79; surgical treatment of bunion, **xlviii**, 300; transperitoneal removal of tumors of the bladder, **xlviii**, 105.

MAYO, WILLIAM J.: Analysis of three hundred and twenty-eight operations upon gall-bladder and bile passages, **xxxv**, 732; case of intussusception of ileum due to action of an adenoma, **xxiv**, 733; of vaginal anus, cured by ileo-colostomy, **xxvi**, 634; of volvulus of the sigmoid flexure, relieved by abdominal section, **xviii**, 28; complications following gastro-enterostomy, **xxxvi**, 231; contributions of surgery to a better

understanding of gastric and duodenal ulcer, **xlv**, 810; duodenal ulcer, **xl**, 900; extirpation of the mucous membrane of gall-bladder, **xxxiii**, 192; ileocæcal orifice and its bearing on chronic constipation, **xxxii**, 364; malignant diseases of stomach and pylorus, **xxxii**, 251; mesocolic or retrogastric hernia, **xlix**, 487; observations on the surgery of gall-bladder and bile-ducts, **xxx**, 450; operation for the radical cure of umbilical hernia, **xxxiv**, 276; operation upon gall-bladder, **xxxvi**, 159; radical operation for the cure of carcinoma of the pyloric end of the stomach, **xxxix**, 321; relation of the mesocolic band to gastro-enterostomy, **xlvii**, 1; remarks on cases involving operative loss of continuity of bile duct, **xlii**, 90; remarks on the radical cure of hernia, **xxix**, 51; review of fifteen hundred operations upon the gall-bladder and bile passages with especial reference to the mortality, **xliv**, 209; review of five hundred cases of gastro-enterostomy, **xlii**, 641; of three hundred and three operations upon the stomach and first portion of the duodenum, **xxxviii**, 30; study of gastric and duodenal ulcers, with especial reference to their surgical cure, **xlvii**, 885, 1052; surgery of the large intestine, **l**, 200; technic of gastrojejunostomy, **xliii**, 537; treatment of complications of chronic gall-stone disease, **xxxviii**, 453.

Mayo, William J., and Charles H.: Clinical report, **xxi**, 35.

McArthur, L. L.: Actinomycosis, **xli**, 635; acute postoperative dilatation of stomach, **xliii**, 470; adenocarcinoma of stomach and liver, **xxxv**, 832; adult kidney of fetal type, **xxxiv**, 203; anuria, **xxxvii**, 629; biliary calculi in common and other biliary ducts, **xli**, 797; blood examinations in their relation to surgical procedures, **xxxviii**, 418; carcinoma of the liver, **xlii**, 626; carcinoma of the rectum, **xxxiii**, 661; operation for establishing collateral circulation in cases of cirrhosis of the liver, **xxxiii**, 653; cystadenoma of jaw, **xliv**, 629; decapsulation for chronic nephritis, **xxxix**, 618; dermoid cyst of thorax, **xxxv**, 659; diagnosis of stone in the kidney, **xlvii**, 1057; excision of liver tissue, **xlii**, 633; exposure of ureter, **xxxvi**, 464; exstrophy of bladder, **xxxvii**, 291; fecal fistula after prostatectomy, **xli**, 314; friable intestinal walls, **xli**, 309; hæmangio-endothelioma of axilla, **xliv**, 629; hepatic infections following appendicitis, **xlii**, 629; hermaphroditism with imperforate anus, **xxxv**, 661; ileus due to vascular obstruction, **xxxiii**, 443; nephrectomy, **xliv**, 627; operation for establishing pancreatic cyst, **xxxix**, 458; pylorectomy for carcinoma, **xxxvii**, 962; perforated gastric ulcer, **xliii**, 465; removal of birth-marks, **xxxvii**, 961; rupture of spleen, **xxxvi**, 466; splenic enlargements and splenectomy, **xxxiv**, 199; surgery of the kidney, **xxxvii**, 968; symptomatology of gall-stones, **xxxv**, 666; technic of removal of malignant disease of the rectum, **xxxvi**, 460; tendon fibres from external oblique muscle as suture material in hernia operations, **xxxiv**, 323; three unsuccessful cases of operation for perforating typhoid ulcer, **xxxvi**, 624;; treatment of hip-joint abscess, **xxxiii**, 658; of perforating wounds of abdomen, **xxxix**, 471; tubercular peritonitis, **xliii**, 794; tuberculosis of ileocæcal valve, **xxxiv**, 205.

McBurney, Charles: Administration of ether, **xxviii**, 524; amputation at hip-joint for sarcoma, **xxviii**, 129; of forearm by a new method for sarcoma of radius, **xxiii**, 181; aneurism of external iliac—ligation of common iliac, **xxviii**, 128; aneurismal angioma of hand, **xix**, 367; appendicitis obliterans, **xxiii**, 608; case of removal of extensive osteosarcoma of jaw without recurrence, **xix**, 688; case of prolonged immunity from recurrence of sarcoma after removal of the superior maxilla, **xix**, 241; cases illustrating the use of a mechanical appliance to correct the deformity after removal of half of the lower jaw, **xx**, 35, 78; chronic dislocation of shoulder with fracture reduced by hooks, **xxi**, 299; reduction of dislocation of the humerus complicated by fracture at the anatomical neck, **xxiii**, 501; control of hemorrhage during amputation at hip-joint, **xxv**, 741; cyst of pancreas, **xix**, 492; direct intra-abdominal finger-compression of the common iliac artery during amputation at the hip-joint, **xxv**, 610; dislocation of the humerus complicated by fracture at or near the surgical neck, **xix**, 399, 493; at the anatomical neck, **xxiii**, 444, 501; exploration of abdominal wounds, **xix**, 89; exploratory nephrotomy, **xxvii**, 655; extirpation of tubercular kidney, **xxiv**, 52; Halsted's method for the radical cure of hernia, **xix**, 363; hip-joint amputation with direct pressure on common iliac through the abdominal incision, and intravenous saline infusion, **xx**, 181; incision made in the abdominal wall in cases of appendicitis, **xx**, 38; indications for early laparotomy in appendicitis, **xiii**, 233; injection of saline solution for urinary suppression after nephrolithotomy, **xxii**, 266; intestinal obstruction after excision of grangrenous appendix, **xix**, 683; after operation for appendicitis, **xxi**, 315; multilocular vermiform appendix, **xx**, 186; nephrectomy for abscess of kidney, **xxiii**, 282, 289; operation for separation of upper epiphysis of humerus, **xxiii**, 177; operative treatment of carcinoma of the breast, **xxiii**, 607; of club-foot, **xix**, 369; operative treatment of separation of the lower epiphysis of femur, **xxiii**, 506, 606; osteoplastic operation for defect of tibia, **xxii**, 511; parietal incision for gall-bladder operations, **xxiii**, 286; plastic operation for prominent ears, **xxi**, 301; for deformity of the nose, **xxviii**, 258; preliminary tracheotomy in operations on the upper air-passages, **xxv**, 742; pyloric stenosis, **iii**, 372; question of the removal of the appendix in every case of appendicular abscess, **xxiii**, 750; Regnier's and Malgaigne's methods for removing labial epithelioma compared, **xxii**, 265; relation of surgeons to cases of appendicitis, **xix**, 680; removal of biliary calculi from the common duct by the duodenal route, **xxviii**, 481, 517, 525; of the kidney for sarcoma, **xix**, 92; resection of clavicle for osteosarcoma, **xxviii**, 259; of small intestine for sarcoma with intussusception, **xxiii**, 441; result after operation for appendicitis without division of muscular fibres, **xxi**, 308, 312; of Halsted's operation for carcinoma of the breast, **xxv**, 363; of hot saline intravenous infusions, **xxi**, 303; sarcoma of undescended testicle, **xvii**, 448; sarcoma of kidney, **xx**, 373; of ovary, **xxi**, 706; separation of the lower epiphysis of femur treated by operation, **xxiii**, 444, 501; specimens of appendicitis, **xix**, 498;

stenosis of larynx, **xxviii**, 522; suture of musculospiral nerve, **xxii**, 262; Szymanowski's operation applied to the cure of urethroperineal fistula, **iv**, 461; toxine treatment for sarcoma, **xxii**, 263, 264; transverse fracture of patella without separation, **xxi**, 312; treatment of elbow fractures, **xix**, 237; of fracture of the patella, **xxiv**, 46; of rupture of quadriceps extensor tendon, **xxii**, 506; treatment of tubercular peritonitis, **xxv**, 739; ureterolithotomy, **xxi**, 76; use of gauze tampons in intestinal surgery, **xxiii**, 294; use of rubber gloves in operative surgery, **xxviii**, 108, 134.

McCatty, Alex. J.: Case of laparo-myotomy, **ii**, 432.

McClellan: Anatomy in its relation to art, **xxxv**, 434; a well-proportioned anatomical model, **xxxviii**, 120.

McCollin, Dr.: Personal immunity from sarcoma recurrence after amputation of thigh, **xxxiv**, 596.

McConnell, Guthrie: Carcinoma of the cardiac end of the stomach, **xlv**, 682.

McCosh, Andrew J.: Acute hæmatogenous infection of kidney, **xl**, 1012; air-distention in suprapubic cystotomy, **xxv**, 180; anæsthetics in operations for typhoid perforations, **xxxvii**, 287; aphonia following extirpation of goitre, **xxx**, 642; appendicitis with general septic peritonitis—recovery, **xxv**, 179; carcinoma of the male breast, **xxxi**, 742; case of popliteal aneurism, **xxix**, 608, 617; case of trephining and drainage of the lateral ventricles, **xvii**, 703; cases of gangrenous hernia subjected to circular enterorrhaphy, **xix**, 647; cases of quadriceps femoris tendons treated by suture, **xxv**, 355; cessation of epilepsy after trephining and typhoid fever, **xix**, 616; cases of dislocation and fracture of costal cartilages and of clavicle, **xxiii**, 279; cysts of suprarenal bodies, **xlv**, 301; of the suprarenal gland, **xlv**, 878; diagnosis of appendicitis, **xxxiii**, 629; empyema of gall-bladder complicating typhoid fever, **xxix**, 495; enterostomy in peritonitis, **xxix**, 116; excision of the rectum with secondary intestinal anastomosis, **xxviii**, 519; excision of the rectum for carcinoma, **xlvii**, 284; extirpation of bladder for carcinoma, **xl**, 262; excision of the ureter after nephrectomy, **xxvi**, 364; general septic treatment of peritonitis, **xxv**, 687; hæmostasis in hip-joint amputation, **xxi**, 175; hip-joint amputation, **xxv**, 179; hypertrophy of tibia, **xix**, 615; injuries of brachial plexus, **xxxv**, 109; injury of pelvis, intraperitoneal hemorrhage, **xxvi**, 127; intra-uterine amputation, **xix**, 614; laminectomy for simple fractures, **xxv**, 105; limitations of sacral operations, **xxviii**, 262; lumbar hernia following nephrorrhaphy, **xxvii**, 539; nephrectomy for abscess, **xxiii**, 291; objections to artificial bridges for the nose, **xxviii**, 253; observations on the results in 125 cases of sarcoma, **xl**, 161, 268; operation for hallux valgus, **xxv**, 484; perforating ulcer of the duodenum, **xxx**, 237; persistent traumatic œdema of ankle, **xxvi**, 368; peritonitis in the male as a complication of gonorrhœa, **xxi**, 140, 175; postoperative comfort, **xliv**, 115; primary carcinoma of the appendix—no recurrence after nine years, **xlviii**, 128; question of operation for non-penetrating intracranial trauma, **xlviii**, 127; removal of biliary calculi from the common duct by the duodenal route, **xxviii**, 519; removal of biliary calculus from the common duct, **xxiii**, 180; re-

sults of operation on the kidney for calculus and tuberculosis, **xlvii**, 1022, 1054; result of operation for spinal tumor, **xxxiii**, 45; rhinoplasty, **xxv**, 95; sarcoma of the inguinal glands, **xlv**, 150; sarcoma of the long bones, **xxxvi**, 615; skin-grafting in the treatment of complete stenosis of the larynx, **xxxiv**, 433, 649; stenosis of larynx, **xxxi**, 747; spontaneous disappearance of sarcoma, **xxv**, 176; suprapubic drainage of the bladder, **xxix**, 349; syphilis cutanea vegetans, or frambœsia, **xxi**, 46; the technic of Alexander's operation, **xxv**, 99; thyroidectomy for exophthalmic goitre, **xxii**, 793; treatment of fracture of femur in babies, **xxvi**, 368; of chronic ovaritis, **xxviii**, 253; of general septic peritonitis, **xxvi**, 238; of renal tuberculosis, **xxvii**, 87; of tuberculosis of the ureter, **xxviii**, 249, **xxix**, 757; trephining and heteroplasty for traumatic epilepsy, **xxvii**, 670; trephining for aphasia, **xxx**, 325; for traumatic epilepsy, **xxviii**, 131; in fractures of the skull, **xxix**, 354; tuberculosis of intestines, **xxxv**, 810; use of oxygen gas with ether for anæsthesia, **xxiii**, 197.

McCoy, John C.: Traumatic epilepsy, **xxxviii**, 783.

McCurdy, Stewart LeRoy: Venereal arthropathies, **xxviii**, 725; congenital absence of radii with operation, **xxiii**, 44; treatment of fracture of the mandible, **xxxviii**, 630; wrist resection by the lateral incision, **xliv**, 102.

McDonald Ellice: Puerperal general peritonitis, **xlv**, 203.

McGraw, Theodore A.: Aneurisms, in young people, **l**, 59; gastro-enterostomy by the Podrez method, **xxxi**, 524; method of making intestinal anastomosis which will prevent subsequent contraction of the orifice, **xviii**, 313; new operation for intestinal stenosis, **xl**, 689; treatment of obstruction of common gall-duct, **xxii**, 167; use of elastic ligature for entero-enterostomy, **xxxv**, 406; of elastic ligature in gastro-enterostomy, **xxxix**, 144; splenectomy for leukæmic enlargement, **xxxvi**, 252; surgery of the intestine, **xxiv**, 105.

McGuire, Hunter: Operative treatment of carcinoma of the male genitals, **xxii**, 472.

McLaren, John Shaw: Congenital dislocation of patella, **xxxi**, 679; electrolysis in prostatic enlargement, **ix**, 347.

Experience with, **xliv**, 124.
Hernia of, **xxxv**, 503.
Ileus due to, **l**, 1278.
Intestinal obstruction from, **xvii**, 341, **xliii**, 299, **xxxv**, 471, **xliv**, 631; from degenerated, **xxxvii**, 111; from strangulation of, acute, **xlvi**, 309.
Intestinal operation, as a cause of, **xxvii**, 448.
Intestinal strangulation by, **xxvi**, 179, **xxxii**, 709.
Intussusception of, **xxxv**, 32, **xl**, 796; associated with, **xxxviii**, 712.
Invagination of, **xlviii**, 801.
Inversion of the patent, **vii**, 158.
Murphy button retained in, for three years after gastro-enterostomy, **xlix**, 134.
Omphalomesenteric duct, and other vestiges of the, clinical experiences with, **xliv**, 87.
Patent at navel, **xxxv**, 503.
Perforation of, as a cause of peritonitis, **xxxvii**, 297.
Seeds, filled with, **xliii**, 764.
Unclosed, with prolapse of ileum, **xxviii**, 647.

Median nerve, gangrene of, without loss of function in supplied parts, **vi**, 501.
Ulnar nerve grafted upon, **iv**, 161.

Mediastinal glands, suppuration of, case of, **i**, 361.

Mediastinum, abscess of, **ix**, 299.
Milton's method of exposing the anterior, **xxxiv**, 472.
Surgical exposure of, anterior, **xxxiii**, 56.
Surgical intervention in lesions of the posterior, **xxx**, 531.
Review of Book: Surgery of the Mediastinum, **ix**, 480.

Medical Annual and Practitioner's Index, by Wilde (reviews of),

vi, 288, xix, 382, xxvi, 521; for 1894, xx, 126; for 1895, xxii, 539.
Medical Diagnosis (reviews of), by Da Costa, xiii, 80, xiv, 430; Musser's (John H.) Treatise on, xl, 770; Solis-Cohen's Essentials of, xvi, 399.
Medical Jurisprudence and Toxicology, by Chapman (review of), xxv, 119, xxxix, 700.
Medical Physics, Essentials of, by Brockway (review of), xvi, 399.
Medical Society of London, proceedings of (review of), viii, 80.
Medicine, Hatfield prize for original research in, xxxv, 440.
Reviews of Books: American Year-Book of Medicine and Surgery, for 1896 and 1897, xxv, 668; for 1898, xxvii, 807; for 1899, xxix, 658; for 1901, xxxiii, 669; for 1903, xxxviii, 159; Anomalies and Curiosities of Medicine, by Gould and Pyle, xxvi, 150; Annual Cyclopædia of Practical Medicine, by Sajous, xxviii, 291, xxix, 532; Annual of the Universal Medical Sciences, by Sajous, xv, 342; Atlas of Legal Medicine, by Hofmann, xxvii, 415; Diagnostics of Internal Medicine, Glentworth R. Butler, xxxvi, 318; Dictionary of Medicine, by Keating-Hamilton, xvi, 503; Manual of the Practice of Medicine, by Stevens, xvii, 637; Practice of Medicine, by Wood and Fitz, xxv, 227; Text-book of Medicine, by Pepper, xix, 119, 637; Theory and Practice of Medicine, by Whittaker, xviii, 694.
Medico-Chirurgical Society of West London, review of proceedings of, viii, 240.
Medico-Chirurgical Transactions (review of), by Keetley, i, 188.
Medulla oblongata, abscesses of, xvi, 165.
Meisenbach, A. H.: Neudörfer's method of amputating extremities, xx, 355; pathological separation of the lower epiphysis of the femur, xxi, 157.
Melanosarcoma in an infant, xv, 369; of penis, vii, 300; specimen of, xxi, 322.
Melanotic tumors, orbit of, xix, 726.
Whitlows, iv, 357, 360.
Mellish, Ernest J.: Chronic empyema of the gall-bladder, xxxix, 570; large vesical calculus, xxxiii, 347; total avulsion of the scalp, xl, 644.
Meloplasty, xiv, 21.
Melsome, W. S.: Lower limitations of the pleural cavities with regard to certain surgical operations, xxvi, 417.
Meltzer, Samuel J.: Intraspinal injections of magnesium sulphate in tetanus, xliii, 444.
Meningeal artery, extradural hemorrhage from rupture of middle, xxxvii, 341; fracture, without rupture of middle, xii, 116; hemorrhage from, middle, ix, 232, 512; Hartley-Krause flap in, xxxvi, 591; middle, research on the surgical anatomy of, xxiii, 540; rupture of branches of, middle, by contrecoup, xxxix, 451; surgical anatomy of middle, xxxvi, 680.
Hæmatoma, intracranial, trephining in, vi, 251.
Hemorrhage, v, 76.
Meninges, cervical, intradural tumor of, removal of, xxxix, 943; of the brain, and tuberculosis, surgical intervention, xliii, 161.
Meningitis, after middle otitis, ix, 137; cerebrospinal, xv, 47 following enucleation of eyeball, xv, 475; operative treatment of purulent, xlii, 938; traumatic, iv, 430.
Meningocele, congenital occipital, xv, 79; dorsal, xlvi, 140; spurious, xxxvii, 449.
Menorrhagia, uterine appendages, removal of, for, iii, 102.

Menstruation, hemorrhage, fatal, into abdominal cavity during, **iv**, 456.
Mental effect of laparotomy in curing disease, **v**, 233.
Mercuric bichloride (see Sublimate) as an antiseptic, pathological action of, **v**, 137.
Mercury (see Calomel), elimination of, by the urine, **vi**, 282; subcutaneous injections of, for syphilis, **v**, 174; of mild chloride of, in syphilis, **vi**, 282.
MERIWETHER, F. T.: Simultaneous ligation of common carotid and subclavian for aneurism of ascending aorta, **ix**, 326; subclavian aneurism, **xiv**, 223.
Mesenteric artery, embolism of, **xliii**, 629.
Arteries, rupture of, by fall on buttocks, **xxxv**, 342; thrombosis of, **xxxviii**, 110, **xli**, 302, 310.
Cysts, **xxvi**, 1, **xxxii**, 515; congenital, **xlix**, 618, 734.
Glands, lesions in, caused by eggs and embryos of *Bilharzia hæmatobia*, **iv**, 350.
Hole, strangulated internal hernia through a, **xxx**, 505.
Occlusion, **xxxix**, 554.
Slit, volvulus and hernia through, combined, **xlii**, 207.
Tumor, causing ileus, **xvii**, 63.
Veins, thrombosis of, as a cause of death after splenectomy, **xxi**, 24.
Vessels, gangrene, occlusion of, with operative relief of, **xxi**, 9.
Mesentery, chyle cysts of, **vii**, 395, **xlviii**, 565; chylous cysts of, **xxiii**, 605, **xliii**, 380; cysts of, **xxvi**, 527.
Dislocation of the, and its relation to intestinal obstruction, **l**, 229.
Enterostenosis, from cirrhotic, **xvi**, 571.
Gunshot wound of, **iv**, 468.
Gut, behavior of, after separation from, **vi**, 72.
Intestinal attachment, extent of possible safe removal from, **x**, 460.
Intestine, small, of the, cyst of, **xlv**, 757; study in the surgical anatomy of, **xlii**, 543.
Laparotomy and drainage for cysts of, **viii**, 218; for gunshot wound of small intestine and, **iii**, 89.
Lymphatic cyst of, **xxiii**, 330.
Sarcoma of, **xxxv**, 790, 835, **xlv**, 242.
Serous cyst of, **xvii**, 96.
Technic of tying off, in doing a resection of intestine, **xlix**, 591.
Tumors of, **xliv**, 892; solid, **xxvi**, 66, **xliii**, 366; treatment of, **xxx**, 757.
Volvulus of, **xxxix**, 1036.
Mesocolic band, gastro-enterostomy, relation of, to, **xlvii**, 1.
Hernia, **xlii**, 487, 687.
Mesocolon, hydatid cyst of, **ix**, 229; wound of, **vi**, 324.
Mesosigmoiditis, and its relations to the recurrent volvulus of sigmoid flexure, **xl**, 523.
Metabolism and Practical Medicine, by Carl von Noorden (review of), **xlviii**, 954.
Metacarpal bones, Bennet's fracture of, **xliii**, 803; fractures of, **xliii**, 288.
Metacarpal fracture and subluxation, **xl**, 283.
Metacarpophalangeal joint of great toe, stiffness and tenderness of, **vi**, 218.
Metacarpus, dislocation of fingers upon, backward, **iv**, 549, **ix**, 280.
Metal support, fractured long bone, for direct application to the shaft of a, external, **xliii**, 271.
Metatarsal bone, fracture of the fifth, **xlvi**, 475; by indirect violence, **xxxv**, 697; of the proximal end of the fifth, **xlvii**, 824.
Metatarsal bones, dislocation of, **xliv**, 294.
Metatarsalgia, **xvii**, 680, 718, **xxviii**, 297; operation for, result of, **xli**, 776.
Metatarsophalangeal joint, dislocation of, **xliv**, 630.
Methodist Episcopal Hospital reports (review of), **xxviii**, 551.

Metritis, xxvii, 143.
Metrorrhagia, extirpation of ovaries for, xi, 79.
MEYER, WILLY: Abdominal section for pericolonic peritoneal adhesions, xlv, 624, 626; actinomycosis of cæcum, xxx, 91; amputation of penis, xx, 179; appendicostomy for chronic colitis, xxxviii, 781; for colitis, xxxix, 268; arterio-venous angeiorrhaphy, xlv, 151; artificial nose, xxvii, 773; autoplasty with umbilical hernia, xxxviii, 302; black vomit with appendicitis, xxxviii, 108; border line tumors of the breast, xlix, 558; Bottini's operation for prostatic hypertrophy, xxxvi, 274, xxxvii, 622; bullet removed from cranial cavity, xlvii, 818; carcinoma of the male breast, xlii, 460, xlvii, 445; carcinoma of temporal region, xxxiii, 194; carcinomatous stricture of pylorus, xxv, 369; case of gastro-enterostomy and pylorectomy, xxvi, 117; of resection of small intestine for gangrene, xxvii, 650; catheterization of ureters, xxx, 644; cholecystectomy, xl, 130; cholecystitis, xxxvi, 143; cholecystotomy, xxxiii, 193, xxxix, 271; choledochotomy for chronic cholangeitis, xl, 412; cicatricial stricture of œsophagus, xxxviii, 104; treated by string method, xlii, 603; coccygeal cyts, xx, 173; complications after operations for pyloric stenosis, xlvii, 1050; complete thyroidectomy, xlvii, 816; congenital deformity of hands and feet, xlvii, 807; pyloric stenosis, xliii, 142; cranial heteroplasty with celluloid, xxii, 508; craniotomy for tumor of acoustic nerve, xlviii, 309, 313; craniotomy for tumor of the brain, l, 640; cystoscope in diagnosis of tuberculosis of genito-urinary tract, xxxiii, 487; diagnosis of carcinoma of the bladder, xxvi, 358; diagnosis of kidney tuberculosis, xxxv, 418; of stone in kidney, xlvii, 1057; of tuberculosis of the bladder, xxii, 512; double castration for tuberculosis, xlvii, 292; empyema, l, 641; of gall-bladder, xix, 245; encysted vesical calculus, xx, 175; end-to-end anastomosis of ileum by Murphy's button, xxi, 73; entero-enterostomy with elastic ligature supplementary to gastro-enterostomy, xxxv, 406; excision of cortical tissues for traumatic epilepsy, xxv, 91; of Gasserian ganglion, xxiii, 61; of rectum for carcinoma, xl, 411, xlii, 606, xlvii, 283, 811; excision of recurrent carcinoma of breast involving costal cartilages, xxxvii, 777; exophthalmic goitre, xxi, 67; exostosis bursata of femur, xl, 413; experience in the effect of the simultaneous ligation of both internal iliac arteries for hypertrophy of the prostate gland, xxiii, 705; exploratory thoracotomy, under positive pressure, for œsophageal cancer, l, 642; exposure of lungs under differential pressure, xlix, 556; extirpation of motor centre of arm for Jacksonian epilepsy, xxvi, 228; of tuberculous retroperitoneal glands, xxxvi, 273; fatal hemorrhage following removal of clamps after nephrectomy, xxxi, 359; fracture of the neck of femur treated by nailing the fragments together, xxix, 623; of the vertex and base of the skull, xxix, 351; gangrene of toes after ligation of common iliac, xxviii, 129; gastrectomy for carcinoma of posterior wall of stomach, xxxix, 997; gastroduodenostomy for benign obstruction of pylorus, xxxix, 995; gastro-enterostomy with elastic ligature, xxxix, 590, 593, 594; gastro-intestinal anatomosis of ulcer of stomach, xxv, 368; gas-

trostomy, **xxvi**, 244; by Kader's method, **xxv**, 88; by Marwedel's method, **xxvii**, 650; for carcinoma of œsophagus, **xvii**, 592, **xxxi**, 257; Gigli's wire saw, **xxvii**, 658; habitual dislocation of shoulder, **xlvii**, 811; hallux valgus, **xxv**, 478; hemorrhage during excision of Gasserian ganglion, **xxxvi**, 958; heteroplasty with celluloid, trephining for traumatic epilepsy, **xxi**, 316; ideal cholecystotomy, **xxiii**, 179; ileocolostomy by Murphy's button, **xxi**, 69; implantation of silver filagree for the closure of large hernial apertures, **xxxvi**, 767; incomplete intestinal obstruction—cæcostomy under cocaine, **xlv**, 623, 624; intestinal obstruction, **xxxviii**, 102; after appendicitis operation, **xxxix**, 585; following appendicitis, **xxxiv**, 709; intracranial neurectomy for trifacial neuralgia, **xxxv**, 404; intussusception, **xxxi**, 251; intussusception due to intestinal tumors, **xxviii**, 261; from traction of sarcoma of intestine, **xxiii**, 443; laminectomy after spinal fracture, **xxi**, 50; large lumbar hernia treated by silver filagree, **xlviii**, 304; later conditions after Witzel's method of gastrostomy, **xix**, 238 ligation of external iliac artery for femoral aneurism, **xxxi**, 256; lipoma arborescens of extensor tendon sheaths of forearm, **xxv**, 623; of thigh simulating sarcoma, **xxvi**, 230; malpositions of appendix, **xlii**, 472; Matas's operation for popliteal aneurism, **xlii**, 123; method of radical c ıre of umbilical and ventral hernia, **xliii**, 761; Murphy button in gastro-enterostomy, **xxvi**, 125; nephrectomy during spinal cocainization, **xxxiv**, 434; for hydronephrosis, **xvii**, 67; for relief of sudden total suppression of urine occurring some time after nephrectomy, **xv**, 286; for tuberculosis, **xxix**, 755; **xlvii**, 454; new urinal for continuous drainage after suprapubic cystotomy, **xx**, 371; œsophageal tube for use during narcosis, **xliii**, 928; œsophagogastrostomy after intrathoracic resection of the œsophagus, **l**, 175; operation for deformity after Pott's fracture of leg, **xxxi**, 733; for traumatic paraplegia, **xx**, 185; for ventral hernia, **xxxi**, 746; operative technic for carcinoma of the breast, **xxv**, 478; operative treatment of carcinoma of the breast, **xli**, 159; operative treatment of club-foot, **xix**, 367; operative treatment of intractable vomiting, not due to pyloric obstruction—neurosis of the stomach, **xlvii**, 730, 817; osteoplastic gastrotomy for stricture of œsophagus, **xxxix**, 1000; resection of the skull for intracranial hemorrhage, **xlvi**, 621; papilloma of bladder, **xxxiii**, 201; combined with stone, **xx**, 174; of colon, **xxxix**, 269; partial gastrectomy for carcinoma, **xlv**, 129; perforating duodenal ulcer, **xlviii**, 463; pericardiotomy for tuberculous effusion, **xlix**, 261; place of Murphy button in gastro-enterostomy, **xxvi**, 31; posterior gastroenterostomy, **xxvii**, 769; **xxix**, 752, **xxx**, 648; with Murphy's button, **xxviii**, 246; positive differential chamber for intrathoracic surgery, **l**, 647; proctotomy for papilloma of the rectum, **xxvii**, 88; prolapse of the cæcum after appendicostomy, **xlvii**, 808; prothesis for relief of deformity following removal of carcinoma of face, **xix**, 246; prostatectomy, **xxxi**, 740, **xxxiii**, 477; by the perineal route, **xxxv**, 410, **xxxvii**, 621; pyloric obstruction, **xliii**, 758; rare complications after operations for appendicitis, **xxxiii**, 605; re-amputation of lower end of leg

for exostosis in a previous Bier amputation, **xlviii**, 624; remarks on vasectomy, **xxvii**, 767; removal of bullet from femur, **xxxi**, 745; of tongue for carcinoma, **xxix**, 360; of cervical lymphomata, **xxix**, 355; resection of epididymis and orchidotomy for tuberculosis, **xxx**, 649; of intestine followed by end-to-end anastomosis, **xliii**, 149; of the internal jugular vein for sinus phlebitis, **xxxiv**, 571; of the liver, **xxix**, 364; of the rectum for carcinoma after osteoplastic resection of sarcoma and coccyx, **xix**, 675; of rectum for syphilitic stricture, with end-to-end anastomosis, **xliii**, 147; of shoulder and elbow for tuberculosis, **xlv**, 150; of shoulder and elbow on same extremity, **xxx**, 92; of stomach for carcinoma, **xxxix**, 999, **xli**, 455, **xlii**, 122; for malignant pyloric stricture, **xlix**, 551; of tuberculous elbow, **xlviii**, 455; of vesical end of ureter for tumor of bladder, **xx**, 78; result of Bier's treatment of tuberculosis of the tarsus, **l**, 639; result obtained from use of aniline products in treatment of carcinoma, **xviii**, 522; result one year after operation for sarcoma of acoustic nerve, **xlix**, 552; Roberts's operation for prolapse of rectum, **xxvii**, 89; simultaneous ligation of both lateral iliac arteries for hypertrophy of prostate gland, **xx**, 44, 173, 174; skiagraph of bullets in brain, **xxv**, 478; splenectomy for rupture of spleen, **xlvii**, 443; for sarcoma, **xliii**, 759; for splenic anæmia, **xlix**, 258; starving malignant growths by excision of both external carotids, **xxxii**, 296; stenosis of aperture of cholecystenterostomy, **xxi**, 486; stricture of œsophagus, **xlix**, 260; suppurative tenosynovitis of flexors of hand and wrist, **xlviii**, 618; suprapubic cystotomy and nephrectomy for genito-urinary tuberculosis, **xxviii**, 248, 250; technic of nephrectomy, **xxvii**, 369; of renal tuberculosis, **xxvii**, 86; of resection of rectum, **xxi**, 57; tetanus after an appendectomy, **xlii**, 458; thoracoplasty, **xxxi**, 621; thoracoplasty for bronchial fistula, **xxxi**, 256; total necrosis of lower jaw, **xxv**, 628; transperitoneal compression of common iliac artery during hip-joint amputation, **xxviii**, 131; transthoracic resection of the lower end of œsophagus, **xli**, 667; treatment of cirsoid aneurism of temple and scalp, **xxxiv**, 415; of elbow fractures, **xix**, 238; of empyema of antrum, **xxxvi**, 443; of gangrenous hernia, **xxiii**, 447; hypertrophied prostate, **xxiii**, 743; of prolapse of rectum, **xxvi**, 248; of prostatic hypertrophy associated with stone in the bladder, **xxxvi**, 17; of ruptures of quadriceps extensor tendon, **xxii**, 508; of injuries of spinal cord, **xxx**, 334; of tetanus by injection of antitoxin, **xxxi**, 367; of tubercular cystitis, **xxxiii**, 334; of ureter after nephrectomy for tuberculosis, **xxxvii**, 606; Trendelenburg's operation for pulmonary embolism, **xlix**, 264; trephining for intracerebral cyst, **xxvii**, 770; tubercular tenosynovitis, **xxxvi**, 137; tuberculosis of retroperitoneal glands, **xxxvii**, 620; of the tibiotarsal joint, **xlvii**, 810; of the testis, **xxxiv**, 574; of the wrist treated by Bier's method, **xxxviii**, 106; tumor of bladder removed under spinal anæsthesia, **xxxiv**, 575; of the shoulder, **xxx**, 651; ulnar paresis from shot wound of arm, **xxv**, 477; unilateral laryngectomy, **xxxiii**, 635; ureteroplasty for intermittent hydronephrosis, **l**, 639; use of appendix to flush colon, **xxxvii**, 615;

of celluloid plates to close trephine opening, xxv, 632; of gloves in operative surgery, xxviii, 134; value of enterostomy and of conservative methods in the surgical treatment of acute intestinal obstruction, xlvii, 801; of cautery in advanced carcinoma of parotid, xl, 258; of cocainization of the nares, preliminary to general anæsthesia, xxiii, 63; ventral hernia, xxxiv, 572; closed by silver filagree, xxxviii, 302; wiring of fractured patella, xxxiii, 194; X-ray treatment of malignant tumors, xxxvii, 434.

Observations on, **xxx**, 192.
Remarks on, **x**, 339.
Nephrectomy, **i**, 75, 159, 371, **ii**, 85, 336, 423, 424, 425, **iii**, 170, 248, 346, 427, **iv**, 256, **v**, 269, 289, 556, 557, 559, **viii**, 38, 39, 42, **x**, 156, **xi**, 136, **xii**, 290, **xxv**, 172, **xliv**, 619, 625, **xlvii**, 797.
Abdominal section, by, **v**, 166, 273, 274.
Abscess, for, **xxiii**, 282.
Adenocarcinoma, for, **xviii**, 35.
Adenoma, for, **vi**, 37.
Anuria following, **xxxiii**, 225, 336, 342.
Calculus pyelonephrosis, for, **xxxv**, 403, **xli**, 131; pyonephrosis, for, **xxx**, 328.
Carcinoma, for, **xxix**, 753; renal, **xii**, 389.
Cases of, **xvii**, 318, 319, **xviii**, 100, 102, **xix**, 98, 497, **xx**, 168, 170, 417, **xxi**, 568, **xxxvi**, 92, 95, 779; requiring, **xliii**, 413, 787.
Clamp, use of, to vessels after, **xxxi**, 359.
Cystic degeneration, for, **xxxiv**, 419.
Cystine calculus, anuria after, **xxxvii**, 294.
Fibrolipoma, for, **xxvi**, 128.
Fistula, for ureteral, **xviii**, 600.
Fracture, for, **xxxiii**, 714.
Hæmaturia, for, **xlii**, 267.
Hemorrhage, control of, in, **xlvii**, 1058.
Hydronephrosis, for, **xvii**, 67, **xxiii**, 183, **xxv**, 744, **xlii**, 265, **xlv**, 705.
Hypernephroma, for, **xlv**, 616.
Kidney abscess, tumor of, removed by, **xl**, 260; for acute surgical, **xxxiv**, 581; for gunshot wound of, **vi**, 166; infarcts, multiple, in a child, **xlix**, 541; for lacerated, **xvi**, 579; the other, in complicated, **xxvii**, 425; in contemplated, **xxx**, 385; for sarcoma of, **xxii**, 269, 270.
Nephropexy, a new method of, **l**, 509.
Nephrolithotomy, following, **xv**, 67.
Note on partial, **l**, 1132.
Partial, **xii**, 292.
Patient 23 months old, on a, **iv**, 259.
Persistent sinus, incomplete, followed by, **xli**, 784.
Pyelonephritis, for, **xli**, 793; for acute, **xxxv**, 402.
Pyonephrosis, for, **v**, 377, **ix**, 467, **xii**, 388, **xxv**, 190, **xxx**, 323, **xl**, 289.
Renal calculus, for, **xxxi**, 356.
Resection of two ribs, with, **xviii**, 34.
Sarcoma, for, **xvii**, 68, **xxiii**, 259, 747, **xxv**, 745, **xl**, 595; of kidney, for, **xxx**, 317.
Stone, for, **xxiii**, 257; in kidney, for, **xxxix**, 1018.
Subcapsular, **v**, 275.
Suprarenal tumor, for, **xxxi**, 359.
Technic of, **xlvii**, 612.
Tubercular kidney, for, **xxv**, 173.
Tuberculosis, for, **xxix**, 609, 753, **xxxi**, 749, **xxxiii**, 478, **xxxiv**, 434, **xxxv**, 413, 638, **xxxvii**, 605, **xlvii**, 448; of the kidney and ureter, for, **xlviii**, 144; for renal, **xli**, 129.
Ureter, for traumatic rupture of, **xli**, 127; for wound of, during hysterectomy, **xli**, 126.
Nephritis, anæsthetics, on safety of, influence of, **vi**, 141, 142.
Chronic, decapsulation of kidney, effect of, upon hæmaturia from, **xxxix**, 370.

Decapsulation for chronic, **xxxix**, 617.
Interstitial, as a complication of surgical operations, **xxiv**, 379; with multiple abscess formation, **xlviii**, 148.
Laparotomy, after, and ligature of common iliac, fatal, **iv**, 519.
Suppurative, **xliii**, 918.
Toxic, dependent upon surgical conditions, **xlv**, 891.
Nephrolithiasis, **iii**, 170, 248, **xxiii**, 257, **xxxiii**, 71.
Deaver's cases of, **xxxvi**, 90.
Kidney, incision of, in cases of, **xxvi**, 320.
Nephrotomy for, bilateral, **xlviii**, 457.
Operations for, results of, **xlvii**, 1022, 1024, 1028, 1053.
Skiagraphy, and, **xlii**, 864.
Study of, contribution to, **xxii**, 716.
X-ray, diagnosis of, by, **xxxiii**, 239, 343.
Nephrolithotomy, **ii**, 271, 423, **iii**, 172, **v**, 1, 166, 559, **vi**, 185, 558, **viii**, 39–41, **x**, 339, **xi**, 52, 382, **xv**, 7, 191, **xxiv**, 196, **xxviii**, 661, **xxxiv**, 580, **xli**, 292, **xliii**, 785, 787.
Bilateral, with reference to certain aspects of calculus anuria, **xlvi**, 441.
Double, **xv**, 70.
Hepato-, **xxii**, 367.
Indications for, **xii**, 386.
Nephrectomy, following, **xv**, 67.
Pregnancy, during the fifth month of, **vi**, 186.
Nephropexy, Deaver's cases of, **xxxvi**, 87.
Kidney abscess, movable unsuspected lesions of, discovered during, **xl**, 215.
Technics of, **xxxv**, 137.
Nephrorrhaphy, **v**, 273, 290, 556, **xii**, 81, **xiv**, 223, **xv**, 207.
Hernia, lumbar, followed by, **xxvii**, 539.
Kidney, for floating, **vii**, 192; for movable, **xvii**, 755.
Nephrostomy, kidneys, both, method of permanent drainage of, in connection with, **xliii**, 406.
Right, status of a case four months after, **xlv**, 455, 458, 459.
Ureteral implantation, as a substitute for, in cases of bladder resection, **xlii**, 805.
Ureterostomy, and, hydronephrosis for, synchronous, **xlviii**, 314; right and left, for hydronephrosis due to ureter obstruction by bladder tumor, **xlvii**, 287.
Nephrotomy, **ii**, 86, 87, 424, **v**, 269, 289, **vi**, 37, **xliii**, 787.
Bilateral, for nephrolithiasis, **xlviii**, 457.
Cases of, **xxvii**, 366, 368.
Explorative, **iii**, 172.
Exploratory, **xxvii**, 655.
French surgical congress, discussion on, 1898, **xxix**, 366.
Hæmaturia, for, **xlii**, 266, 268.
Nephrectomy, after, **xv**, 286; and, for pyonephrosis, **xxvii**, 663.
Pyonephrosis, **v**, 377.
Renal calculi, for, **xviii**, 669, **xxx**, 347, **xxxv**, 419; varix, **xlix**, 652.
Ureteral obstruction, **xlix**, 713.
Nerve or nerves (see Neuropathic, Neuritis) anastomosis for facial paralysis, **xxxvii**, 641.
Blocking, Gritti amputation in, **xlviii**, 903.
Cerebral, syphilitic affections of, **i**, 276.
Compression, operation to relieve, **viii**, 125.
Defects, bridging of, **xl**, 595.
Different function, of, union of, considered in its physiological and surgical relations, **iv**, 161.
Dissociation, **xlvi**, 686.
Exsection of bones in continuity preparatory to secondary suture of tendons and, **i**, 484.
Extraction, **x**, 261.
Fractures, injuries to, **xxiii**, 147, 200.
Inferior maxillary, infrabuccal division of, **v**, 504.
Injuries, **xlvii**, 628; fractures of the upper extremity, complicating, **xviii**, 356; to peripheral, **xliv**, 747.

Involvement in ischæmic paralysis and contracture of Volkmann, **xlix**, 330.
Keloid of median, **xxxiii**, 13.
Median and ulnar, secondary suture of, **iv**, 161.
Neuralgia, facial, operative treatment of facial, **iii**, 269; of internal plantar, **iv**, 517; results of evulsion of, for, **xxv**, 517; section for, **viii**, 125.
Neuroma, enucleation of a, value of, which seemed to demand resection of a, **iv**, 521.
Operation on, **iv**, 517; for old injury of forearm, involving median and ulnar, **xlviii**, 451.
Paralyzed by Esmarch's bandage, radial and ulnar, **ix**, 76.
Peripheral, operative treatment of loss of substance in, **iii**, 233.
Peroneal, paralysis of, **xxxi**, 755.
Radial, paralysis of, following fracture, **iv**, 68.
Resection, **viii**, 124; of the sciatic, **l**, 295.
Sarcoma, excision and suture for, case of, **xxi**, 52.
Section and suture, **viii**, 125.
Spinal accessory, stretching and resection of, **vi**, 64.
Stretching, **i**, 577, **iii**, 301, 340, **iv**, 1, **viii**, 25; leprosy, for anæsthetic, **iv**, 517; therapeutic value of, **ix**, 360, **xiv**, 400.
Sup. maxillary and inf. dental, resection of, **iii**, 236.
Surgery of, **iv**, 1, 66, 68, 161, 447, 817, **vi**, 69, 88, 146, 339, 416, 501, **viii**, 130, 397; clinical contributions to, **ix**, 359; recent contributions to, **i**, 132.
Suture, **iii**, 341, **iv**, 161, **v**, 349, **vi**, 339, **viii**, 123, **xxxiii**, 354; case of, **xix**, 91; secondary, **ii**, 181, **vii**, 212, **viii**, 123, 125, **xlii**, 315; and regeneration, case of, **xxiii**, 757; of tendon and, distance, **v**, 348.
Suturing, **xviii**, 229; axilla, in, **xi**, 373.
Transplantation, facial paralysis, for relief of, **xxxviii**, 901.
Tumor of median, **xxxii**, 609.
Wry-neck, section for spasmodic, **viii**, 125.
Review of Book: Healing of Nerves, by Ballance and Stewart, **xxxvi**, 627; Nueva concepta de la histologia de los centros nervosos, by Ramon y Cajal, **xviii**, 122.
Nervous anatomy of the inguinal region, **xxxi**, 1.
Reviews of Books: Chirurgische Klinik der Nierenkrankheiten, by Israel, **xxxiv**, 726; Circulation of the Central Nervous System, by Browning, **xvii**, 693; Diseases of the Nervous System, by Baudrey, **xvi**, 184; Diseases of the Nervous System Resulting from Accident and Injury, by Bailey, **xlv**, 796; Essentials of Nervous Diseases and Insanity, by Shaw, **xv**, 167; Healing of Nerves, by Ballance and Stewart, **xxxvi**, 627; Injuries and Surgical Diseases of the Peripheral Nerves, **xiv**, 334; Nierendiagnostik und Nierenchirurgie, by Kapsammer, **xlix**, 879; Remote Consequences of Injuries of the Nerves, by Mitchell, **xxiii**, 359; Text-book of Nervous Diseases, by C. L. Dana, **xvii**, 118; Treatise on Organic Nervous Diseases, by Starr, **xxxix**, 153; Treatise on Nervous System, by Barker, **xxxi**, 143.
Neudorfer's method of amputating extremities, **xx**, 355.
Neuralgia of bladder, **vii**, 305.
Facial, intracranial neurectomy for, **xl**, 264; intracranial operations for the cure of, **xxiv**, 575, 736; operative treatment of, **iii**, 269; removal of the semilunar ganglion through the floor of the skull for, **xvi**, 166; treated by alcohol injections, **xlvii**, 783.
Gasserian ganglion for trifacial, excision of, **xxxiii**, 683.
Hartley's operation for trifacial, **xxv**, 97.

Inferior maxilla cured by resection of the alveolar neural border, ii, 260.
Nerve canal, its treatment by chiselling out the, and lining with musculoperiosteal flaps, xliv, 755; results of evulsion of, for, xxv, 517.
Pathology of, xxxiii, 696.
Plantar nerves, of external, iv, 517.
Superior maxillary and inferior dental for, iii, 236.
Trifacial, intracranial neurectomy for, xxxv, 404; nerve, comparative value of operations for relief of, xvii, 711; exsection of second branch of, xxiv, 501; the surgical treatment of, xlv, 649.
Trigeminal, cured by stretching the facial nerve, xviii, 466; Hutchinson on operative results, i, 577.
Review of Book: Paralysis from Peripheral Neuritis, by Buzzard, v, 176.
Neural infixation, xxii, 320.
Neurectomy, iii, 236, 272, 338, iv, 517.
Infra-orbital, of, i, 78, 345.
Intracranial, xxxvii, 665, xix, 47; cases of, xix, 725; of the fifth nerve, question of priority in devising a method for, xviii, 362; for tic douloureux, xxxvi, 957; trifacial, xxi, 296, 510.
Lingual and mandibular, xlviii, 636.
Neuralgia, for trifacial, by Lossen's method, xxi, 320; of trimeninal nerve, for, xv, 386.
Neuroma, brachial plexus, of, xxii, 113.
Enucleation of a, iv, 521.
Review of Book: Neuroma and Neurofibromatosis, by Thomson, xxxii, 872.
Neuromata, arm, multiple of, xl, 422.
Malignant, vi, 416.
Neuropathic affection, bones of, xxxiv, 437; joint affections, vi, 88.
Neurotomy, iii, 272.
Spinal canal, within, x, 264.

Occlusions, ureteral, indigo-carmin test as an aid in diagnosis of, xliv, 553.
Ochsner, A. J.: Acute post-operative dilatation of the stomach, xliii, 471; aseptic surgical technic, xl, 453; closure of abdominal wounds, xl, 439; combined superior tibiofibular and astragalo-fibular osteoplasty as a means of preventing shortening of the leg during adolescence following extensive osteomyelitis, xliv, 470; constriction of the duodenum below the entrance of the common duct and its relation to disease, xliii, 80; decapsulation for chronic nephritis, xxxix, 621; demonstration of McGraw elastic ligature, xxxix, 144, 146; final results of 164 cases of carcinoma of the breast operated upon during the past fourteen years at the Angustana Hospital, xlvi, 28; further case of removal of the upper extremity together with the scapula and clavicle, xxii, 736; ileus caused by neoplasms, xxxiii, 457, 501; interscapulothoracic amputations, xxxix, 136; splenomegaly, xxxiv, 197; stricture of œsophagus treated by gastrostomy and gradual dilatation, xxxvii, 785; surgery of the gall-bladder, xxxv, 708; of gall-bladder and biliary duct, xli, 315; treatment of actinomycosis, by iodide of potash, xxxvii, 464; of fistulæ and abscesses following operations for empyema of the thorax, l, 151; of fractures of the neck of the femur, xl, 608; tubercular peritonitis, xliii, 795; gall-stone surgery, xxxv, 671; technic of operations upon the head and neck, xliv, 466; hydrocele in the female, xli, 796; specimen of intussusception, xli, 307; ovarian cysts with twisted pedicle, xlii, 791.
Ochsner, Edward H.: Actinomycosis, xxxvi[i], 468; an aspirating trocar, xxxvii, 769; congenital dislocation of hips, xxxvi, 198; coxa vara, xliii, 633; ischæmic atrophy, contractures and paralysis, xliii, 599, 604; macroglossia, xliii, 638; multiple exostoses, including an exostosis within the spinal canal, with surgical and neurological observations, xlvi, 608; pancreatic cyst, xliii, 951; sarcoma and myoma of the stomach, xliv, 637; sarcoma of thigh, xliv, 629; the diagnostic value of potassium iodid in syphilis, xliv, 623; treatment of fractures involving the hip-joint, xxxiii, 801.
O'Conner, John: Clinical contribution to the surgery of the liver, xxv, 547; surgical treatment of acute rheumatic arthritis, xxvii, 177; treatment of acute infective arthritis and cellulitis, xxix, 469; treatment of some traumatic lesions of the knee-joint, xxiv, 620; of varicose veins, xxv, 526.
Odiorne, Walter B.: Undescended testicle, xl, 962.
Odontoid process, fracture of the axis with dislocation forward of atlas, xlii, 245.
Odontology, contribution to, iii, 80.
Œdema, blue, hysterical, xviii, 667; consequent upon wound of axillary and subclavian veins, and ligature, v, 256; malignant, xiv, 240; malignant case of, xxxviii, 481; of glottis, iv, 336; of groin, consequent upon wound of vein in, v, 11; of larynx, v, 64.

Œsophageal abscess containing foreign body (Peri), xliii, 769.
Diverticulum, xlviii, 615.
Lesions, diagnosis of, xliii, 858, 947.
Polyp, xliii, 944; removed by operation, xliii, 944.
Stricture, divulsion in, xl, 870, 1020.
Thoracic fistula, xlv, 770.
Tube for use during narcosis, xliii, 928.
Œsophagogastrostomy after intrathoracic resection of the œsophagus, l, 175.
Œsophagoscopy, Von Hacker on, xxviii, 397.
Œsophagotomy, iv, 193, vi, 22, xlviii, 530; deep external, xxx, 98; external, for stricture, xx, 735; for a foreign body, vii, 187, 219, x, 200, 288, xiii, 100, xv, 389; at the Zurich clinic, xx, 567; for impacted coin in a nineteen months' old infant, xlvii, 295; for a penny which had ulcerated into bronchus, vi, 255; for stricture of œsophagus, iii, 237.
Internal, xx, 734.
Intramediastinal, a case of, xxxvii, 299.
External, for stricture, xxix, 615.
Œsophagus, benign stricture of, xlviii, 146.
Carcinoma of, vi, 78, xxxii, 298, xlvi, 809; gastrostomy for, xvii, 592; requiring gastrostomy, xxiii, 299; resection of, for, xxx, 754; Witzel's method of gastrostomy for the relief of, by use of the "string-saw," xviii, 37.
Cicatricial stenosis of, gastrostomy for, xxi, 543, xxx, 633; treatment of, xvii, 92.
Cicatricial stricture of, xxxviii, 104; subjected to gastrostomy, string and elastic tube dilatation, xxxi, 352; treatment of, xxiv, 654; by retrograde dilatation, xxi, 253, 306; by string method, xlii, 603.
Dilatation, forcible in malignant stricture, ix, 298.
Diverticula of, xxxix, 171; operation for, xxxiii, 91.
Diverticulum of, xxxi, 525.
Endothoracic incision and resection of, viii, 308.
Epithelioma of, xii, 367.
Fibrous stricture of, xii, 321.
Foreign body in, iv, 174, 193; impacted, removed by gastrotomy, xxiii, 415; located by skiagraph, xxiv, 238; value of skiagraphy to detect, xxv, 650.
Gastric fistula, formation of, in cases of impermeable stricture of, xxiv, 655.
Gastrostomy for carcinoma of, iv, 237, vii, 224; for scirrhous of, vii, 223; for stricture of, xxxvi, 954, xxxix, 295, xxxi, 243, 259; for digital exploration, vii, 221; for foreign body in, v, 133; for malignant stricture of, viii, 212; for relief of obstruction of, xxiv, 656; retrograde dilatation treated by, xix, 385; with stricture of, v, 145.
Instruments for treating stricture of, xxxvii, 350.
Jack-stone in, xxii, 109, 111.
Œsophagotomy, by internal, xx, 734.
Osteoplastic gastrostomy for, stricture of, xxxix, 1000.
Removal by œsophagotomy of an impacted toy bicycle in the, xliii, 347; removal of impacted peach stone through wound in the stomach, xvii, 228.
Resection of lesser curvature of stomach and, xlviii, 530.
Stenosis of, relieved by gastrostomy, xxviii, 254; treatment of, xii, 360.
Stricture of, xxv, 359, xxxiv, 822, xxxvii, 785, xli, 791, xliv, 130, xlv, 620; cured by string saw, xix, 88; dilatation of cicatrical, xxxix, 161; dilated by a thread and a rubber tube, xxxix, 273; divided by string, xvii, 489; gastric fistula for, xlix, 260; malig-

nant, i, 361; relieved by string-saw after gastrostomy, xx, 733; removal of foreign body lodged between, xxxvi, 261.
Thoracic, experimental studies upon, xlvi, 544.
Transthoracic resection of, xli, 667.
Typhoid fever, stricture of, following, xlii, 144.
Typhoidal stricture of, xxxix, 683.
Wound of, xxii, 111.
Ogston, Alexander: Forming new acetabulum in certain resections of hip-joint, viii, 161; operation for varicocele, iv, 120.
O'Hara, M., Jr.: Method of performing anastomosis of hollow viscera by a new instrument, xxxiii, 179, 207; specimen of suture of bowel, xxxiii, 650.
O'Hara forceps, anastomosis of intestine with aid of, xxxiv, 441; enterorrhaphy with aid of the, xxxiv, 441.
Oleate of mercury, stitch abscesses, inunctions with, for the prevention of, xxxv, 1.
Olecranon, bursa of tuberculosis of, xlii, 118.
Fracture of, rare, viii, 395; suture of, xxxvi, 610; transverse, v, 198; ununited, xxxi, 756.
Ulna sutured to lower end of, in elbow-joint excision, v, 75.
Oliver, John C.: Cases of properitoneal hernia, xxxiii, 622; colossal kidney-stone, xlvii, 1057; cysts in connection with the teeth, xxxvii, 65; end results following operations for carcinoma of the breast, xlvi, 51; question of surgical intervention in cases of injuries to the spine, xxxvii, 238; resection of ileocæcal coil, xxvii, 729; treatment of perforative peritonitis, xlvii, 1047; of congenital pyloric stenosis, xlvii, 1053.
Ollier: Circular testimonial, xxxiii, 672; simplification of post-operative treatment of resection of knee-joint, vi, 424.
Olmstead, Ingersoll: Case of Jacksonian epilepsy relieved by trephining, xvi, 406.
Omental cyst, xlix, 427.
Fixation to establish collateral circulation in cases of hepatic cirrhosis, xxxiii, 653, 663, 715, 791.

Periorchitis hemorrhagica, **i**, 371.
Periosteum (see Pericranium) grafting, **ii**, 514; in repair of bone, **vi**, 290, 389.
Periostitis, abscess, cerebral, subsequent to orbital, **iv**, 334; acute, of the femur in children, **xiii**, 443; albuminosa, **xi**, 394, **xix**, 746; during and after typhoid fever, **ii**, 345; of the orbit, suppurative, **vii**, 451.
Periprocteal abscesses, treatment of, **xii**, 395.
Perirenal lipomata, retroperitoneal, **xliv**, 60.
Perithelioma of bone, **xlii**, 358.
Peritoneal abscess and laparotomy, **vii**, 461.
Adhesions after laparotomy, **xxxvi**, 961.
Cavity, drainage of, **xi**, 338, **xxvi**, 250; fæces, inundated by, recovery after abdominal section, **xiii**, 212; foreign bodies in, statistics of, **xxiv**, 365; after and during laparotomy to prevent shock, use of hot water in, **vi**, 160.
Effusion, acute, as a symptom of intestinal strangulation, **xxx**, 653; resembling bile in color, **xliv**, 718.
Incision for tumors of the kidney, retro- and intra-, **iv**, 445.
Pericolonic adhesions, abdominal section for, **xlv**, 624, 626.
Pseudomyxoma of spleen and colon, penetrating, **xlv**, 839.
Rupture of bladder, method of early diagnosis of intra-, **v**, 556.
Tuberculosis cured by laparotomy, **xvii**, 618; surgery of, **xlvi**, 145.
Review of Book: Drainage of the Peritoneal Cavity, by Delbet, **xii**, 250.
Peritoneum (see Laparotomy), ability of the, to overcome sepsis, **xxxii**, 139; absorption of fluids by the, observations on, **xxv**, 332; chemical and microparasitic irritants upon, effect of, **xxiii**, 225; drainage of, **xxxii**, 143; excision of a large piece of parietal, **ii**, 76; exclusion of dead spaces from cavity of the, **vii**, 451; fibroma of the, **xl**, 604; formation of adhesions between adjacent surfaces, **xxii**, 812; histology of union of folds of, **ix**, 75; laparotomy after washing out, **viii**, 318; lymphatics of the, pathology of, **xxxi**, 214; in man, anatomy of, **ii**, 264; palliative incision for tuberculosis of, **vi**, 504; parietal, as material for sutures, **xxiii**, 320; pseudotuberculosis of, **xliii**, 359; relations of bladder to the, **vii**, 22; sarcoma of, primary, **xlviii**, 848; serous coat of blood-vessels compared with, **xlviii**, 18; tuberculosis of, **xxxiv**, 765, 771, 839.
Review of Book: The Peritoneum, by Robinson, **xxvii**, 396.
Peritonitis (see Appendicitis), **xiv**, 50.
Acute general, without demonstrable lesion, **xliv**, 917, 952; acute, appendicostomy in conditions of, **l**, 1334.
Appendicitis, following, treatment of diffuse suppurative, **xliv**, 197.
Children, in, from unknown sites of infection, **xlviii**, 821, 932.
Cholecystitis, following, **xxxiv**, 831.
Chronic, laparotomy in, **x**, 293; treatment by permanent drainage, **xiv**, 422.
Diffuse, **xxxvii**, 932, **xlviii**, 130, **l**, 1303; from gangrene of appendix, recovery from, **xxxvii**, 431; septic, drainage in, **xlii**, 75.

Drainage in acute spreading, **xlii**, 316.
Extensive, **xlix**, 709; following appendicitis, recovery, **xxxiv**, 828.
General, with enterostomy, **xli**, 944; with persistent fecal fistula, **xlvi**, 153; purulent, **xliv**, 708; recovery from, **xxxvi**, 443; septic, treatment of, **xxi**, 179, **xxv**, 687, **xxvi**, 235, 515; due to appendicitis, treatment of, **xviii**, 42.
Generalized, **xliii**, 930.
Gonococcus, **xlviii**, 924.
Gonorrhœa as a complication of, in the male, **xxi**, 140, 175.
Gonorrhœal, **xxxvii**, 619; acute diffuse, **xlvi**, 111.
Inflammation and perforation of Meckel's diverticulum, from, **xxxvii**, 297.
Intestinal paralysis of, treated by enterostomy, **xxix**, 1, 115.
Operations for general, exclusion of actinic rays of light during, **xxxvii**, 798.
Operative treatment of acute diffuse putrid-purulent, **v**, 527; of perforative, **x**, 289, 292.
Pathology of, **v**, 120.
Perforation, from, laparotomy for, **ii**, 268.
Perforative, treatment of, **xlvii**, 870, 1045.
Peritoneal cavity, due to catheter in, **xxxviii**, 446.
Pneumococcus, **xxxviii**, 918; due to, **xl**, 698.
Puerperal, general, **xlv**, 203.
Purulent, surgical treatment of, **ix**, 379.
Recurrent pelvic, abdominal section for, **xvi**, 481.
Septic, diffuse—due to appendicitis, results of treatment of, **xlviii**, 828; treatment of, septic, diffuse, **l**, 457; general, and appendicitis—recovery, **xxv**, 179.
Suppurative, acute diffuse, **xliv**, 297; following perforating appendicitis, **xxii**, 397; treatment of, **xvi**, 170; without discoverable source of infection, **xvii**, 202.
Surgical treatment of, **v**, 22, **vi**, 131, **xi**, 283.
Treated by abdominal section, **xiii**, 148, 212.
Treatment of, **xix**, 619; of diffuse, **xxxviii**, 265; septic, **xliii**, 231, 314; of perforating gastric ulcer due to, **xxv**, 213; of septic, by use of purgatives, **vi**, 160; of tubercular, **vi**, 71.
Tubercular, **xvii**, 462, **xxxiii**, 208, **xlvi**, 95, 141, **xlix**, 265; cases of, **xix**, 85, 100; cure of, **xxv**, 737; with distention of gall-bladder, **xliii**, 790; effects of laparotomy upon, **xxiii**, 120; of infants, laparotomy, **xvi**, 394; laparotomy in, **xi**, 125; operative treatment of, **x**, 134; surgical treatment of, **xiii**, 146; in women, **xlii**, 755.
Tuberculous, intestinal treatment of, **xxx**, 253.
Unknown cause, from, **xxxvi**, 784.
Vermiform appendix, starting from, surgical treatment of, **xiii**, 59.
Review of Book: Etiology and Treatment of Peritonitis, by Reichel, **xii**, 43.
Perityphlitic abscess implicating right hip-joint, **ix**, 384; laparotomy for, **iv**, 242; operation for, **vi**, 78, 508; surgery of, **iii**, 424; treatment of, **x**, 382.
Perityphlitis (see Appendicitis), **iv**, 243.
Mortality of, in Stockholm, **xviii**, 580.
Operative treatment, early, **x**, 138, 434; experience in, **xvi**, 440.
Pathology and therapy of, **xii**, 373.
Perforation of vermiform appendix in relation to, **x**, 78.
Resection of vermiform appendix in treatment of, early, **xii**, 373.
Perivesical inflammation, chronic, **xxiii**, 140, 284.
PERKINS, G. W.: Cases of fracture of styloid processes of ulna and radius by indirect violence, **xii**, 134; of hydronephrosis with calcification of

cyst-wall, **xxi**, 698; of inguinolabial hernia, ovary, Fallopian tube, and cornu of uterus in sac, **xxi**, 691; of sarcoma of the tongue, **xxiii**, 585; of double consecutive castration for primary tuberculosis of testicle, **x**, 169; extraperitoneal exploration of the ureter followed by nephrolithotomy, **xxiv**, 196; fecal fistula of small intestine following operation for appendical abscess, **xxiv**, 726.

PERKINS, JOHN W.: Case of complete dislocation of the patella, **xviii**, 654; of hydronephrosis with stone impacted in ureter of a child, **xxvii**, 643.

Peruvian balsam and castor-oil mixture as a surgical dressing, **xxvi**, 329; in surgical practice, **xiv**, 158.

Pes valgus, correction of, **xxvii**, 375.

PETERKIN, G. SHEARMAN: The abdominal "suspender" bandage—the four-tailed genital bandage, **xlvi**, 922.

PETERS, G. A.: Operations for the radical cure of hernia and amputation of penis for cirrhosis, **v**, 15.

PETERS, LINDSAY: Resection of pendulous, fat abdominal wall in cases of extreme obesity, **xxxiii**, 209.

PETTY, ORLANDO H.: Fracture of the coracoid process of the scapula, **xlv**, 469; caused by muscular action, **xlv**, 427.

PFARRE, J. A.: On vulcanized rubber for handles to surgical instruments, **i**, 95.

Phagedæna, chronic, due to mixed infection, **xxxv**, 586.

Phagedenic ulceration of breasts, **xlvi**, 672.

Phalanx, fracture of, near epiphysis, **xlii**, 761; dislocation, backward, of first, upon metacarpus, **iv**, 540.

Phantom ureteral calculi, **xlv**, 313.

Pharyngeal abscess, post-, **vi**, 70.
Occlusion, plastic operation for, **xxxiii**, 56.
Tumors, removal of naso-, **ix**, 374.

Pharyngotomy, lateral, for extirpation of malignant tumors of tonsillar region, **iv**, 139; for removal of tonsillar tumors, **vi**, 502.
Subhyoid, **i**, 580, **xxxi**, 376.
Suprahyoid, preliminary to removal of tumors of the nasopharynx, **xlvi**, 932.

Pharynx, adenoid growths in, **v**, 69.
Carcinoma of, operative treatment of, **xxii**, 445; Krönlein on, **xxvi**, 641.
Cicatricial stricture of, cured by plastic operation, **xxxiii**, 152.
Cocaine in surgery of, **iii**, 64.
Common carotid artery wounded by fish bone through, **iii**, 234.
Erysipelas of, **xii**, 226.
Large visible pulsating artery on posterior wall of, **vi**, 67.
Larynx, and, extirpation of, **xiv**, 417.
Naso-, operations for removal of adenoid growths in, **iii**, 342.
Removal of sarcoma of, **vi**, 156.
Stenosis of, severe, relieved by operation, **xvii**, 705.
Treatment of adenoid vegetations of the, **vi**, 502.
Tubage of, in operations on mouth and face, **xxxvii**, 859.

PHELPS, CHARLES: Analytical and statistical review of one thousand cases of head injury, **xlix**, 449, 593; question of early operation in intracranial injury, **xliv**, 801.

Phelps method of treating clubfoot, **viii**, 459; pigmentary syphilis, **viii**, 64.

PHELPS, V. A.: Fatal hemorrhage from trephining, **xxxviii**, 487.

Philadelphia Academy of Surgery, Transactions of, **xvii**, 711, **xviii**, 321, 434, **xix**, 248, 691, 696, **xx**, 84, 187, 422, **xxi**, 179, 181, 324, 326, 712, **xxiii**, 476, 479, **xxiv**, 55, 63, 749, **xxv**, 759, 763, **xxvii**, 101, 228, 672, 783, **xxviii**, 142, 385, 660, **xxix**, 263, 270, 497, 632, 760, **xxx**,

103, 350, xxxi, 503, 635, xxxii, 616, 714, xxxiii, 58, 62, 205, 208, 643, 768, 785, xxxiv, 187, 308, 316, 437, 584, 711, xxxv, 111, 279, 320, 651, 820, xxxvi, 145, 283, 450, xxxvii, 111, 447, 456, 623, 951, xxxviii, 119, 888, xxxix, 109, 302, 438, 600, 1021, xl, 135, 273, 422, xli, 143, 283, 461, 785, xlii, 124, 282, 611, 774, xliii, 150, 308, 318, 452, 766, xliv, 124, 302, 453, 708, 945, xlv, 303, 467, 632, 781, 968, xlvi, 315, 476, xlvii, 135, 295, 464, 632, 823, xlviii, 151, 470, 625, 787, xlix, 143, 276, 425, 723, 873, l, 499, 648.
The Samuel D. Gross prize of the, xxix, 660.

Philadelphia College of Physicians, transactions of the section on general surgery of, xx, 93, xxi, 77, xxii, 676, 801, xxiii, 200, 295, 408, 611, 750, xxiv, 223, 377, xxv, 182, 187, 487, 633, 747, xxvi, 130, xxvii, 93, 209, 374, 776, xxviii, 138, 266, 527, xxxi, 263.

Nerves, anastomosis of the external and internal, for infantile paralysis, **xliv,** 453.
Porro Cæsarean section, xii, 319.
Portable traction splint, used in hip-joint diseases, **xvi,** 176.
Portal stasis, relieved by parietomental adhesions, **xxxvi,** 191, 272, 962.
Vein, diversion of blood current through, into vena cava, **xxxvi,** 964; ligature of, **xlvii,** 619; occlusion of, due to surrounding inflammatory adhesions, **xlv,** 27.
Porter, Charles Allen: Massive keloid of face and hands, **l,** 332; multiple carcinomata following chronic X-ray dermatitis, **xlvi,** 649.

Porter, Charles B.: Successful excision of a sarcoma of the wall of the thorax and diaphragm, **xxxiv**, 281; suppurative pericarditis, and its surgical treatment, **xxxii**, 769.
Porter, John L.: Coxa vara, **xliii**, 634, 952.
Porter William G.: Abuse of iodoform, **xxvii**, 676; cases of tetanus treated by antitoxine, **xxvii**, 228; chylous cysts of the mesentery, **xliii**, 380; gastro-enterostomy—why it is not a harmless operation, **xliv**, 901; marriage of syphilitics, **xx**, 94; mental symptoms following upon use of continuous suprapubic drainage of bladder, **xvii**, 262; plaster of Paris as an immediate dressing after fracture of the leg, **xxxiii**, 798; rupture of liver, **xxxi**, 647; stone in the bladder of a female child of four years, **xxxiv**, 819; treatment of strangulated hernia, **xx**, 190; twig of tree as nucleus of vesical calculus, **xxxiii**, 648; urogenital tuberculosis in male, **xx**, 396; wound of longitudinal sinus, **xxxiv**, 188.
Post, Alfred C.: Deformity of hands from cicatricial contractions, **i**, 64.
Postanæsthetic paralysis, cases of, **xxx**, 226.
Postcæcal abscess of appendicular origin, **xxviii**, 665.
Postoperative comfort, **xliv**, 106.
Ileus, **xliv**, 141.
Treatment, **xlvi**, 298.
Postparalytic deformities, treatment of, results obtainable in, **xxx**, 571.
Postural treatment, results of, in diffuse septic peritonitis, **xlviii**, 828.
Potassium iodide, use of, in actinomycosis, **xli**, 633.
Diagnostic value of, in syphilis, **xliv**, 62.
Potato-plates, intestinal anastomosis, in, **xiv**, 507, **xxvii**, 543.
Pott's curvature of the spine, rapid reduction of, **xxvi**, 737.
Disease, **xvi**, 469; brace for, modified, **xxv**, 182; forcible rectification of deformity in, effects of, **xxix**, 390; forcible straightening of spine in, **xxvii**, 463; syphilis of vertebræ, differentiation of, from, **xxix**, 641; treatment of, **x**, 220.
Fracture deformity to correct talipes varus, **xxi**, 461; of the leg, open method in the treatment of, **xlvii**, 98; operative relief of deformity after, of the tibia, **xxxi**, 733.
Paraplegia, laminectomy, **xxxi**, 667.
Poupart's ligament, wound of femoral vein beneath, **xii**, 215.
Powers, Charles A.: Arthrotomy for elbow ankylosis in extension, **xix**, 236; bilateral dislocation of lower jaw of 136 days' standing relieved, **xix**, 239; branchial carcinoma, **xxvii**, 187; bridging of nerve defects, **xl**, 632; case of melanosarcoma in an infant, **xv**, 369; of primary tuberculosis of breast, **xxv**, 86; complete denudation of penis, **xlix**, 238; complete detachment of the facial bones, **l**, 73; conical stump after amputation in childhood, **xxxi**, 486; methods and results in operative surgery at the sea level and in places of high altitude, **xxvi**, 297; non-parasitic cysts of the spleen, **xliii**, 48; permanent suprapubic drainage for tuberculosis of the bladder, **xxxvi**, 426; primary sarcoma of the prostate, **xlvii**, 58; question of operative interference in recent simple fractures of patella, **xxviii**, 67; specimens of appendicitis, **xix**, 500; surgical procedures designed for the relief of pulmonary tuberculosis, **l**, 441; thyroid gland tissue tumor at foramen cæcum of tongue, **xx**, 77; tuberculosis of breast, **xx**, 159, 417.
Practice of Medicine, Stevens' Manual of (review of), **xvii**, 639.

Practice of Surgery, Wharton and Curtis's Treatise on, review of, **xxvi,** 748.
Pregnancy, carcinoma of the breast, influence of, on, **xlvi,** 487.
Complicated by fibromyoma of uterus, cases of, **xxvii,** 362.
Cystofibroid of labium majus complicated by, **iv,** 457.
Ectopic, **xxxiii,** 640; ruptured, during, **xlvi,** 321.
Extra-uterine (see Uterus) laparotomy, **xxi,** 63; prognosis and treatment of German statistics in, **xv,** 502; terminating in suppurating hæmatocele, treatment of, **xxxiv,** 159, 442.
Intraligamentous tubal, **ix,** 472.
Laparotomy for extra-uterine, **iv,** 458, 459; for tubal, **iv,** 458.
Myomata during parturition and, treatment of, **xxii,** 408.
Nephrolithotomy during fifth month of, **vi,** 186.
Seven years' duration, of, **iv,** 459.
Tubal, **ix,** 151.
Reviews of Books: Ectopic Pregnancy and Pelvic Hæmatocele, by Tait, **x,** 395; Extra-uterine Pregnancy, discussion of Society of American Obstetricians and Gynæcologists, **x,** 398; Extra-uterine Pregnancy, by Stahan, **x,** 398.
Pregnant woman, strangulated umbilical hernia in, **iv,** 442.
PREINDEL, DR.: Extirpation of prostate, **xlvi,** 945.
Prepatellar bursa, **xliii,** 158.
Preputial calculus in, **v,** 211.
Folliculitis, gonorrhœal, **xi,** 142.
Presbyterian Hospital of New York (reviews of reports), **xxviii,** 549; 1902, vol. **v, xxxvii,** 316.
Prevesical abscesses, **iii,** 254, **xlviii,** 224.
Cellulitis, idiopathic, **xvii,** 105.
Space, inflammation of, **v,** 434; perineum, drainage of, through the, in suprapubic cystotomy, **xlv,** 101.
PREWITT, THEODORE F.: Gunshot injuries of spine, **xxviii,** 187.
Priapism, operative treatment of, **viii,** 55.
PRICE, JOSEPH: The propriety of and indications for resection of the appendix vermiformis during the quiescent stages of chronic relapsing appendicitis, **xiii,** 356.
PRICE, JOHN W., JR.: Report of five cases Ludwig's angina, **xlviii,** 649, 788.
PRIMROSE, ALEXANDER: Partial resection of the bladder for malignant tumor by the transperitoneal route, **l,** 1137.
PRINGLE, J. HOGARTH: Avulsion of the spine of tibia, **xlvi,** 169; notes on the arrest of hepatic hemorrhage due to trauma, **xlviii,** 541; repair of the urethra by transplantation of the urethra of animals, **xli,** 387.
Probing granulating wounds, **ix,** 353.
Processus vaginalis peritonei, vii, 157.
Procidentia recti, treatment by excision, **xlix,** 681.
Proctoclysis, apparatus for, **xlix,** 404, 440.
Proctosigmoiditis, principles of a radical treatment for, **l,** 1095.
Progressive Medicine (review of), vols. i, ii, and iii, **xxx,** 784; December, 1899, **xxxi,** 778; **xxxii,** 741; vol. iii, **xxxiii,** 364; vol. iv, **xxxiii,** 814; vol. i, 1901, **xxxiv,** 455; vol. vi, No. 1, **xl,** 157.
Projectiles, accidents following sojourn of, in the tissues, **xi,** 385.
Small-bore, the modern, surgical aspects of, **xxxi,** 75.
Review of Book: Projectiles des armes de guerre, by Mimier and Laval, **xxxii,** 746.
Prolapse, postoperative, of abdominal viscera, **xlii,** 951.
Rectum in children, of the, **xxxi,** 311.
Uterus, of the, and rectum, operation for, **xix,** 240.
Prolapsus ani, operation for, **v,** 497.
Uteri and vaginæ, operations

for, **iii**, 264; treatment of, **xxvii**, 341.
Properitoneal hernia, **xliii**, 705, **xlix**, 569.
Prostate, calculus impacted, **ii**, 332; calculus of, sequel to fracture of the spine, **xl**, 143.
Carcinoma of, **l**, 1147; operative treatment of, **xxii**, 481; primary, **xxxix**, 892.
Castration for enlarged, **xxv**, 107, 121, 381; question of, **xxiv**, 223, 265, 388; unilateral, effect of, **xxi**, 616.
Cyst of, obstruction from, **xxxi**, 762.
Dilatation of, remarks on, **xvii**, 442, 450.
Electrolysis in hypertrophy of, **ix**, 347.
Enlarged, operations on, **xiii**, 134; relieved by prostatectomy one year after castration without benefit, **xxviii**, 378.
Enlargement of, treated by, castration, **xxiii**, 486, 687, 741.
Exsection of, **xviii**, 104.
Extirpation of, **xlvi**, 943, 944; discussion upon, at the 1907 German Surgical Congress, **xlvi**, 938.
Female, the, **xliv**, 576.
Hypertrophied, operative relief of, **v**, 433, **viii**, 47, 479; operative treatment of, **ix**, 1, 387, **xxxix**, 833; the surgery of, **xvii**, 70.
Hypertrophy of, **v**, 164; operative treatment of, **x**, 208, 467; present position of the surgery of, **xviii**, 152; results of double castration in, **xxii**, 1.
Iliac arteries, internal, experience in the effect of the simultaneous ligation of both, upon, **xxiii**, 705.
Lesions caused by eggs and embryos of *Bilharzia hæmatobia* in, **iv**, 350.
Rectum, stricture of, following abscess of, **viii**, 221.
Sarcoma, primary of, **xlvii**, 58.
Suprapubic cystotomy, extirpation of hypertrophied middle lobe of, **v**, 558.
Surgery of the, contribution to, **xlviii**, 266; of the hypertrophied, **iii**, 173, **xl**, 782.
Surgical treatment of hypertrophy of, in the feeble and aged, conservative, **xlvi**, 884.
Tuberculosis of, **xviii**, 587; evidement of, for, **xxiv**, 219.
Vasa deferentia for, ligation of, **xxiii**, 737, 744.
Review of Book: Extirpation of Prostate, by De Quervain, **xlvi**, 944.
Prostate gland, hydatid of, **xxxiii**, 565, 753.
Hypertrophy of, has the catheter a place in the treatment of? **xli**, 492; conservative perineal extirpation of, **xli**, 549; obstructive, etiology and pathology of, **xli**, 481; perineal operation for, **xli**, 310; study of various forms of, from post-mortem specimens and by the cystoscope, **xli**, 590; treated by castration, **xx**, 52; treated by simultaneous ligation of both internal iliac arteries, **xx**, 44, 173; treatment by enucleation through a suprapubic incision, **xli**, 535.
Incontinence, cause of, as a sequel to extirpation of, **xli**, 558.
Malignant diseases of, **xxxiii**, 269.
Operative method, choice of, for removal of, **xli**, 565.
Prostatectomy, **iii**, 173, 432, **xvii**, 64, **xxix**, 313, 348, **xxxi**, 738, 740, **xxxiv**, 426, **xlix**, 841.
Alexander's method, by, **xxxiii**, 476.
Anatomical points connected with the performance of, **xli**, 507.
Complications and sequels of, **xxxix**, 385.
Cystoscope, use of, with reference to, **xli**, 590.
Incontinence, cause of, as a sequel to, **xli**, 558; following Gersuny operation for, **xliii**, 923.
Lateral, **xiii**, 140.
Operative methods for, choice of, **xli**, 565.
Perineal, **xvi**, 459, **xxiv**, 767,

xxxvi, 263, 267, **xxxvii**, 621, 711, **xli**, 310, **xliii**, 620, **xliv**, 616, **xliii**, 622, **xlviii**, 306; combined with suprapubic cystotomy, **xxiii**, 333; galvanocautery, **xxxix**, 809; prostatic tractor for, **xxxviii**, 359; route, by, **xxxv**, 408, 467; perineal, sequels of, prevention and treatment of the, **l**, 356.
Prostatomy, and, **xxxiv**, 444.
Relative merits of suprapubic and perineal, **xlix**, 296.
Spine, after fracture of, **xix**, 609.
Suprapubic, **xviii**, 104, **xx**, 606, **xxxvi**, 438, **xxxix**, 808, **xli**, 535, **xlviii**, 624, **l**, 357; case of, **xlix**, 255; control of hemorrhage after, **xvi**, 454; incision, **xvii**, 64; points in, **xl**, 159; question of priority in the adoption of the method of, **xli**, 520; route, **xi**, 107; treatment of prostatic hypertrophy by, **xli**, 535; without ether or chloroform, **xli**, 540.
Technic of, **xxxii**, 874, **xxxvi**, 649.
Two stages, **xliv**, 563.
Vesical calculi, followed by formation of, **xxxix**, 436.
Prostatic abscesses, ischiorectal fossa, drainage of, through the, **xlv**, 103; observations on, **xli**, 134; on pathology and operative treatment of, **xlix**, 533, 563; prerectal curvilinear incision for, **xxxvi**, 670.
Calculus, enormous, case of, **xxxix**, 391.
Enlargement, comparative value of various measures for relief of, **xlviii**, 258.
Hypertrophy, beginning, **xxxviii**, 925; bladder, associated with stone in the, treatment of, **xxxvi**, 17; complicating stone in, treatment of, **xxvii**, 571; with stone in; value of castration in cases of, **xxvii**, 329, 383; Bottini operation for, **xxxv**, 837, **xxxvii**, 621, 711; cured by, **xxxvi**, 274; final result of, **xlv**, 284; castration for, **xxi**, 217, 351, 363; ultimate results of, **xxvii**, 684; vasectomy for, results of, **xxxii**, 309; cauterization for, transvesical, **xxxv**, 836; treated by, **xxxvi**, 29; operations for, results of, **xxxviii**, 306; operative treatment of, **xxix**, 381; operative treatment of, results of, **xxxiii**, 810; pathogenesis and pathological anatomy, **xxxvi**, 813; spermatic cord, treatment of, by ligature of, **xxi**, 181; surgical problem in, **xxxviii**, 609; treatment, **xxxvi**, 307; vasectomy for, **xxvii**, 766.
Ischuria, urogenital diaphragm, destroying the, as a means of relieving, **xlii**, 874.
Periprostatic abscess, and, **xlii**, 883.
Surgery, perineal route for, reasons for preferring the, **xxxvi**, 431.
Prostatism, without enlargement of prostate, **xli**, 497.
Prostatotomy, **iii**, 173, **iv**, 532.
Prostatectomy, and, indications for their performance, **xiii**, 136.
Thermo-electric, **ii**, 333.
Prosthesis (review of), by Brandt, viii, 479.
Proteus, bacillus, vulgaris, rôle of the, in surgery, **xxxvi**, 120; infection and hospital gangrene, identity of, **xxxvi**, 762.
Protozoa, liver abscess with, **xxi**, 109.
Pseudarthrosis, of thigh, **ix**, 155.
Pseudomyxoma peritonei, spleen and colon, penetrating, **xlv**, 838.
Pseudorheumatism, xv, 47.
Psoas abscess, iodoform injections, treated by, **xv**, 145; operation, radical cure of by, cases of, **xxv**, 727; posterior operation for cure of, **xlviii**, 788.
Muscles, appendix vermiformis, and, **xxxiii**, 387.
Psoitis, suppurative, trephining pelvis in treatment of, **x**, 383; postpuerperal, **xxix**, 143.

Psoriasis, lingual, treatment by decortication, **xxix**, 577.
Psychic factor, Graves's disease, in surgical aspects of, **xlvii**, 864, 1061.
Psychical end-results following major surgical operations, **xlvii**, 853.
Pterygium, skin grafts in operation for, **xvi**, 238.
Pterygomaxillary fossa, sarcoma of, **xxxvi**, 448.
Ptomains, relation of suppuration to, **ix**, 352.
Puberty, precocious, **ix**, 67.
Pubes, sarcoma of, **xliv**, 946.
Puerperal disease, amputation of septic uterus for cure of, **v**, 453; peritonitis, **v**, 22.
General peritonitis, **xlv**, 203.
State, **xv**, 61.
Puerperium, breasts, phagedenic ulceration of, during, **xlvi**, 672.
Pulmonary (see Lungs), abscess, pneumotomy for, **xii**, 368; surgically treated, **xiv**, 420.
Artery, aorta, and, pistolshot wound of, **xxvii**, 124; embolism of operative interference in, **xlviii**, 772.
Cavities, surgical treatment of, **xix**, 129.
Complications following abdominal operations, **xl**, 149.
Cysts, treatment of, **iii**, 239.
Embolism, injuries and operations, after, **xxxvi**, 639; occluding, **xlvii**, 717; Trendelenburg's operation for, **xlix**, 264.
Injuries, thoracic, complicating, **xxxv**, 553.
Pleura, empyema, incision of, during operation for, **xxxiv**, 179.
Surgery, **xi**, 34, **xviii**, 78; contribution to, **xxxv**, 536, 540, 553.
Thrombosis, after operation for appendicitis, acute, **xli**, 145; ectopic gestation, after operation for, **xli**, 147; ovarian cyst, large, after removal of, **xli**, 143.
Vein, perforated by sarcoma, **xxi**, 323.
Pulmonectomy, **ix**, 285.
Puppy's skin, grafting, for, **xii**, 136.
Purgatives in treatment of septic peritonitis and intestinal obstruction, **vi**, 160.
Purse string suture, peritoneal wounds, to, **xxx**, 655.
Purulent (see Suppurative) peritonitis, **v**, 22.
Pus, green, **xviii**, 454.
PUSEY, WILLIAM A.: Use of X-rays in carcinoma, **xlii**, 910.
Pustule, malignant, three cases of, **iv**, 425.
Gangrene, and, of skin, peculiar form of, **xx**, 481.
Putrefaction, **v**, 254.
Pyæmia due to appendicitis, **xx**, 422.
Bacteriology of, **iii**, 401.
Subphrenic abscess, and, **xxvii**, 647.
PYE, W.: Local lesions caused by the alkaline salts of chromic acid, **i**, 303.
Pyelitis cystica, hæmaturia due to unilateral renal, **xlvii**, 417.
Gonorrhœal, **xliii**, 787.
Nephrectomy for calculous, **iii**, 170.
Pyelonephritis, acute, nephrectomy for, **xxxv**, 402; diagnosis of, **xi**, 142; nephrectomy for, **xli**, 793.
Pyeloparanephric cyst, traumatic, **xxxix**, 573, 597.
Pyelosalpinx, cases of, **xi**, 399.
PYLE, W. L.: Two cases of laminectomy, with tabulated collection of fifty cases of recent date, **xix**, 664.
Pylephlebitis, suppurative, appendicitis followed by, **xxxvii**, 471.
Pylorectomy, **xxxvii**, 270, 442, 444, 962; for cancer of the stomach, **xxxi**, 758; for carcinoma, **xviii**, 36, **xxxiv**, 418, **xlii**, 116.
Review of Book: Pylorectomy, by Rydygier, **ii**, 78.
Pyloric obstruction, **xliii**, 758; stomach, resection of, for benign, **xxxix**, 995.
Spasm, with resultant dilatation of stomach, **xl**, 201.

Stenosis, hypertrophic, in the infant, **xlii**, 201; operations for, **iii**, 372, 524; Roux's operation for, **xlix**, 548; ulcer, from old—posterior gastro-enterostomy, **xlv**, 756.
Stricture, resection of stomach for, **xlix**, 551.
Ulcer, perforating, **xlix**, 724.
Review of Book: Pathology and Operative Relief of Non-malignant Pyloric Stenosis, by Carle and Fantino, **xxvii**, 792.
Pyloroplasty, **xvi**, 276, **xxxix**, 279, **xlii**, 641; case of, **xvii**, 588.
Gastro-enterostomy, and, **xli**, 686.
Pylorus, for cicatricial contraction of, **xviii**, 36.
Stenosis, for cicatricial, **xx**, 740.
Stomach, for ulcer of, **xx**, 176.
Stricture, non-malignant, for, **xxxi**, 503.
Pylorus (see also Gastric, Stomach), carcinoma of, **xlix**, 425; result after excision, **xxxix**, 106; surgical palliative treatment of, **xix**, 731; isolation of non-operable, **xxv**, 215.
Carcinomatous stricture of, **xxv**, 369.
Cicatricial obstruction of, gastro-enterostomy for, **xxxix**, 1010.
Congenital stenosis of, **xliii**, 141, 763.
Digital divulsion of, for cicatricial stenosis, **x**, 298.
Excision of, **i**, 77, 160; for carcinoma, **iii**, 524.
Gastro-enterostomy for benign obstruction of, **xxxiv**, 300, 834; benign stricture of, relieved by, **xxix**, 484; studies on function of, after, **xlvi**, 549.
Hypertrophic stenosis of, **xlviii**, 928; in infants, **xliv**, 121, **xlvii**, 946, 1053.
Metastasis in carcinoma of, **viii**, 472.
Mikulicz's operation for cicatricial stenosis of, **xiv**, 425.
Normal, seven years after simple pyloroplasty for stricture, **xliv**, 716.
Obstruction of the, benign, **xxxii**, 17, 874.
Operative treatment of stenosis of, **vi**, 503.
Perforating ulcer of the, **xl**, 266.
Resection of, **ii**, 78, 269, **vi**, 74.
Stenosis of, benign, gastro-enterostomy for, **xxxvii**, 940; operative treatment of, **x**, 276; pathology and operative relief of non-malignant, **xxvii**, 792; resection for benign, **xxxix**, 587; of circular, **xxvi**, 697.
Treatment of benign obstructions of, **xliv**, 236.
Tumor of, benign, gastro-enterostomy, for, **xxxix**, 1009.
Tumors of the, inflammatory, **xxxix**, 281; vanishing, **xliv**, 295.
Pyocyaneus, bacillus, septicæmia, **xl**, 613.
Pyogenic organisms, **xiii**, 378.
Pyoktanine, epithelioma of the lips, for, **xvi**, 87.
Experiments with, **xiv**, 66.
Inoperable malignant new growths, for, **xvi**, 92.
Surgical practice, in, **xiv**, 158.
Treatment of carcinoma, in the, **xviii**, 522.
Pyonephrosis, **ii**, 86, **v**, 272, 377; case of, **xvii**, 318, 319; cases of at the Roosevelt Hospital, **xxix**, 218.
Congenitally misplaced kidney, of a, **xlvii**, 797.
Nephrectomy for, **ix**, 467, **xii**, 388, **xxv**, 190, **xl**, 289.
Pyopneumothorax, operative treatment of, **xxvii**, 216; with greenstick fracture of ribs, **xxxiii**, 62.
Pyosalpinx, laparotomy for gonorrhœal, **v**, 90.
Rare form of, **xvii**, 630.
Surgery of, **xxxviii**, 540.
Pyothorax, costal and thoracic resection for, **xxxix**, 403.
Subphrenicus, **xii**, 368, **xv**, 480, **xviii**, 578.
Pyralin, metal braces, as a covering for, **xlv**, 638.

R

Rabies, cantharides in, **vii**, 209; tetanus in, **ix**, 72; treatment of, **xxx**, 363.
Races, comparison of surgical diseases of white and colored, **vi**, 250.
Radial nerve, paralysis of, following fracture, **iv**, 68.
Radiographs, exhibition of, **xxvii**, 653.
Radiography, stereoscopic, **xxxv**, 455.
Review of Book: Radiography and Phototherapy, by Charles W. Allen, **xl**, 769.
Radium, use of, in sarcoma of thigh, **xlii**, 268.
Radius, arrest of growth at lower end of, after separation of its epiphysis, **xlviii**, 115.
Case of congenital symmetrical dislocation of the head of each, **xiv**, 370.
Congenital absence of, operation for, **xxiii**, 44.
Dislocation of, in fracture of the upper third of ulna, **iv**, 262.
Etiology of indirect fractures of the shaft of, **iii**, 256.
Fractures of, **iii**, 174; by twisting, **ii**, 159; of the base of, treatment of, **xvi**, 1; of the carpal end of the, with associated injuries, **xxxiv**, 249; of the head and neck of the, **xlvi**, 280; of the lower end of the, **xl**, 284; of lower end of, with anterior displacement of, **xl**, 423; as seen by Röntgen rays, **xxv**, 470; ignorance of surgeons regarding, **xxix**, 272; pathology of, **xxxii**, 194, 388; skiagraph of deformity after, **xxv**, 194; treatment, **xxi**, 239; with fracture of styloid process of ulna, **xxviii**, 651; with vicious union, **xxxiii**, 335; of the neck of the, mechanism of, **xxx**, 691.
Green-stick fracture of the lower end of the ulna complicating fracture through the lower part of the, **l**, 499.
Head of, fissure of, **xxxiii**, 466; fracture of, **xxvii**, 536; fractured and dislocated, **xlix**, 860; dislocation of, with fracture of upper end of ulna, **xvi**, 465; lateral luxations, **xix**, 750; neck of, and fracture of, **xxvii**, 365.
Isolated dislocation outward of the capitulum, **v**, 438.
Musculospiral (radial) paralysis due to dislocations of the head of, **xlviii**, 275.
Old dislocations at humeral joint, **iii**, 530.
Sarcoma of, amputation of forearm by a new method, **xxiii**, 181.
Subluxation of head of, in children, **ix**, 401; pathology of, **xi**, 104; of the head of the, in young children, **iii**, 530.
Traumatic separation of its epiphysis upon longitudinal growth, effects of, **xii**, 458.
Ulna, and, fracture of styloid processes of, by indirect violence, **xii**, 134; fracture of, compound, with gas-bacillus infection, **xlix**, 561.
Ununited, operation for cure of, **xxxi**, 737.
Review of Book: Cause of Deformity after Fracture of the Lower Extremity of the Radius, by William Barton Hopkins, **xxv**, 196.
Railway cases, examination and testimony, expert, **xvii**, 41.
Rake, Herbert V.: Strangulation of vermiform appendix, in femoral ring, **xxxvi**, 438.
Ramsay, A. C. L.: Contribution to pulmonary surgery, **xi**, 34; laparotomy for gunshot wounds of abdomen, **xiv**, 289; talipes varus, treated by cuneiform osteotomy, **xii**, 421.

RANSOHOFF, LOUIS: Cause of sudden fall in blood-pressure while exploring the common bile-duct, **xlviii**, 550.
Ranula, origin of, **v**, 144; and nature of, **xxvi**, 650.
Rauschbrand, **xiv**, 245.
RAW, NATHAN: Result of operation for carcinoma of penis, **xxxii**, 831.
RAYMOND, EMILE: The pathological anatomy and bacteriology of salpingo-ovaritis, **xxiv**, 315.
Raynaud's disease, **xliii**, 641; cases of, with symmetrical gangrene of the, **xxviii**, 125.
READY, C. F. W.: Blastomycetic dermatitis, **xxx**, 545.
REBERT, MICHAEL A.: Primary spasm and hypertrophy of pyloric sphincter, and resultant dilatation of the stomach, **xl**, 201.
Receptaculum chyli, overdistention of, **ii**, 418; by ether, **i**, 570.
Rectal anæsthesia, **xlvi**, 589; experimental studies together with a report of its practical employment at Roosevelt Hospital, **xlvi**, 589.
Drainage, pelvic abscess, for, **xlvii**, 1034, 1063.
Examination in intestinal obstruction, **iii**, 333.
Growths extirpated through vagina, **xxxi**, 381.
Incision of appendical abscesses, **xxxiii**, 809.
Incontinence, torsion for the cure of, **xix**, 612.
Instruments, **xxxvii**, 924.
Tumors, abdominal route for approaching, use of, **xxxvi**, 222.
Review of Book: Rectal and Anal Surgery, by Andrews, **xi**, 155.
Recti muscles, hernia, median postoperative, method of uniting in cases of, **xxxv**, 542.
Rectocele vaginalis or vestibulans, **viii**, 67.
Rectorectal anastomosis by the aid of Murphy's button, **xix**, 736.
Rectovaginal fistula, **xvii**, 113; in the male, operations for, **ii**, 83; treatment of, **xv**, 497.
Rectovesical fistula, operative relief of, **xxix**, 744.
Rectum, amputation of, followed by sphincterplasty, **xviii**, 344; by prolapse of, **xxxi**, 133; amputation, high, of the, **l**, 1091.
Ballooning of, as a sign of stricture of the bowel, **x**, 79.
Bladder, and shot wound of, recovery after, **xii**, 288.
Carcinoma of, **vi**, 78, **vii**, 138, **ix**, 131, **xxix**, 356, **xxxi**, 640, **xxxii**, 726, **xxxiii**, 661, **xlii**, 272, 273, 277, **xlvii**, 280, 811, **xlviii**, 610, **xlix**, 139; cases of excision of, **xvii**, 374, 503; for colotomy, **vii**, 54; excision of, **v**, 160, **xvi**, 444, **xl**, 411, **xlii**, 606, **xlviii**, 80; excision of, methods and re-

sults of, xv, 373; excision of, with secondary intestinal anastomosis, xxviii, 519; extirpation of, by the abdominoperineal route, xxxi, 134; in first twenty years of life, ii, 342; high-lying, explored through laparotomy, x, 445, xxiii, 477; high-lying, extirpation of, ii, 414, xii, 375; Kraske's operation for, xxvi, 371, xxviii, 126; operation for, xliv, 785; operations for, through the vagina, xxix, 530; operative treatment of, xi, 201, xvi, 554, xxii, 485, xxv, 385; pathological anatomy of, xxvi, 727; radical treatment of, xlii, 399; removal of movable, by invagination and ligature, xxxii, 863; resections of, for, xix, 675; results of extirpation of, xxxiii, 95; technic of removal of, xxxvi, 461; ten years after extirpation of adenoma of hepatic flexure, xlviii, 307; treatment of, at the Rostock clinic, xxxii, 861.

Children, prolapse of, in, xxxi, 311.

Congenital absence of, xxvii, 776.

Coxitis, in, diagnostic value of examinations by the, iv, 80.

Cyst of seminal vesicle aspirated by, xxviii, 652.

Dermoid cyst of left ovary protruding into, iii, 263.

Displacement of bladder by tamponing the, iii, 166.

Endoscopic examination of, xxvii, 91.

Fibroma of, xviii, 41.

Fistula in, vii, 66, 311.

Foreign bodies in, x, 467.

Gangrene of, xxviii, 389.

Gumma of, in a youth of eighteen, xxxii, 609.

Hemorrhage from, treatment of, i, 368.

High-lying stricture of, v, 32.

Imperforate, xxxiii, 788; colotomy, i, 78.

Introduction of salines into the, apparatus for, xlix, 404, 440.

Lesions caused by eggs and embryos of *Bilharzia hæmatobia* in, iv, 352.

Limitations of colotomy in disease of, ii, 510.

Lymphosarcoma of, xxxvi, 459.

Melanotic sarcoma of, iii, 255.

Operation for removal of, result of, xxvii, 90.

Perineal incision of deep abscesses about, viii, 57.

Plastic of, xlii, 313.

Polypoid growths, multiple, of, xxvi, 397.

Proctotomy for papilloma of, xxvii, 88.

Prolapse of, xiii, 218, xxxii, 138, xlviii, 443, xlix, 681; of bowels, with, spontaneous rupture of, xii, 281; of, colopexy for, xxvi, 165, 247; of, complete, new operation for relief of, xi, 255; of, operation for, xix, 240; of, operations for cure of, xxi, 45; of, operative treatment of, ix, 65, xvii, 373; treated by Robert's operation, xiii, 333, xxvii, 89; of, treated by ventrofixation of the, xxi, 153; of, treatment of, xii, 282.

Prostatic abscess, following, stricture of, viii, 221.

Resection of, through abdomen, xxxviii, 916; after division of the sacrum, xviii, 463; for prolapse, xxi, 121; for syphilitic stricture, with end-to-end anastomosis, xliii, 146; technic x, 462, xxii, 55.

Rupture of, during attempt to introduce colpeurynter, xii, 129.

Sigmoid flexure into, anastomosis of, xxii, 402; new method of examining diseases of, xxi, 468.

Stricture of, non-malignant, relieved by transplantation of intestine, xvii, 576; pathology and treatment of, xxvii, 545; strictures of syphilitic, xlii, 140; cured by means of Kraske's sacral extirpation, xvi, 267; treatment of, v, 516, xxxvi, 312.

Surgery of, contribution to, xviii, 189.

Ulceration of, non-malignant, removal for, **xvii**, 325.
Urethra, and, fistula between, **ix**, 468.
Vagina, and, congenital deficiency between, **ix**, 149; extirpation of, by, **xxiv**, 631.
Reviews of Books: Diseases of Rectum, by Benton, **iii**, 535; Diseases of Rectum and Anus, by Gant, **xxiv**, 539; Diseases of the Rectum and Anus, by Cripps, **xlvii**, 155; Diseases of the Rectum and Anus, by Kelsey, **xviii**, 684, **xxx**, 133; Diseases of the Rectum, Anus, and Sigmoid Colon, by F. Swinford Edwards, **xlix**, 301; The Rectum, by Cooper, **vii**, 74; The Rectum and Anus, by C. B. Ball, **vii**, 74; Treatise on Diseases of the Rectum, Anus, and Sigmoid Flexure, by Matthews, **xix**, 373.
Rectus abdominis, congenital shortening of, **xxxi**, 663; needle extracted from, **x**, 137; longitudinal incision through, **xliv**, 720.
REDRESSEMENT: Genu-valgum and varum, **xii**, 468.
REED, R. HARVEY: Experimental research upon the implantation of the ureters into the rectum, **xvi**, 193; neural infixation, **xxii**, 320; traumatism inflicted by animals, **xxxi**, 431.

Saphenous vein, congenital ossification, **xxxiv**, 706; cystic distention of internal, simulating femoral hernia, **xxxii**, 297.
Sarcoma, **vi**, 44.
Abdomen, of myo-, **iv**, 448.
Abdominal walls, of the, **xx**, 372, **xxix**, 363; cured by mixed toxins, of, **xxvi**, 232; and pelvis, inoperable spindle-celled, **xlv**, 769.
Amputation, interscapulo-thoracic, for, **xlvii**, 785.
Appendix vermiformis, of, **xlvii**, 968.
Axilla, of, **iii**, 515.
Back, of, cured by mixed toxins, **xlviii**, 465; recurrent proposed treatment by mixed toxins, **xxii**, 263, 264, 265.
Bile duct, of common, and ampulla of Vater, **xlvii**, 948, 1058.
Bladder, of, **iii**, 352, **v**, 276, 278, **ix**, 393, **xlii**, 831; of male, **xv**, 137.
Bone, of, affecting lower extremities, **viii**, 155; long, **xxxvi**, 613; results of operations for, **xxxiv**, 594.
Brain, of, removal of, **vi**, 149; trephining for, **v**, 505.
Breast, of, **xlix**, 426, 428; in a child of eleven years, **xliii**, 308.
Cæcum, case of, of the, **xxiv**, 42; resection of, for, **xix**, 735.
Chest wall, of, cured by injections of mixed toxins, **xl**, 1019; extensive thoracotomy, **viii**, 254.
Chondro-, **iv**, 359.
Chondro-osteoid-, of thyroid body, **iv**, 272.
Clavicle, **ii**, 343; excision of, for recurrent, **viii**, 232.
Colon, resection of, **xxi**, 592.
Cystic, of, in an infant, **xlvi**, 161.
Endocranial, extirpation of, **xviii**, 71.
Excision of both external carotids for, **xxvi**, 366.
Female breast, of, **vi**, 413.
Femur of, **xxxvii**, 100; after complicated fracture, **xvi**, 175; cured by injections of mixed toxins, **xxxvii**, 435; hip-joint amputation, **xxix**, 110; without recurrence five years after amputation through the trochanter minor, **xvi**, 175; young child, in a, **xxvii**, 594.
Fibro-, or spindle-celled, **iv**, 547.
Fibula, of, **xxvii**, 730, 741.
Forearm, of, **xlix**, 101.
Fracture, originating in, **v**, 76.
Hand, of, cured by injections of erysipelas toxins, **xxiv**, 501.
Head, of, **vii**, 215.
Hip, at, disarticulation for, **xliii**, 623.
Hip-joint, of, **xxvii**, 103; amputation for, **xxv**, 93, **xxix**, 110; tendency to recurrence after, **xxxiv**, 584.
Hodgkin's disease, and, **xlvii**, 1060.
Humerus, of, **xxxix**, 997, **xlvi**, 829.
Inoperable, cured by mixed erysipelas toxins, **xxv**, 174; treated successfully by mixed toxins, **xxx**, 510.
Interscapulo-thoracic amputation for, recurrence successfully treated with mixed toxins, **xlvii**, 807.
Intestine and mesentery, of the small, **xvii**, 111, **xlv**, 242.
Ischiorectal fossa, originating in, **xlv**, 310.
Jaw, of, **xlii**, 607; upper, of, **xxx**, 225; treated by excision of both external carotids, **xxiv**, 494; in young child, **xxxvi**, 285.
Kidney, of, **xxiii**, 259, **xlix**, 429; cystic, large, laparotomy

for, **vi**, 257; in children, **xxvi**, 529; nephrectomy, **xxii**, 269, 270; nephrectomy for, **ii**, 423, **xvii**, 68, **xxiii**, 259, 747, **xl**, 595; no recurrence after nephrectomy, **xxvii**, 364; removal of for recurrent, **xxv**, 745.
Knee-joint, of, **iv**, 359; floating, **vi**, 76.
Knowledge of, contribution to, **xiv**, 199.
Larynx, of, **v**, 357.
Liver, excision of, from, **xiii**, 151; of the whole left lobe of the, for, **xlvii**, 33.
Long bones, **xxxvi**, 614, **xlv**, 321.
Mandible, of, **xlix**, 614, 734.
Melanotic, multiple, **xxx**, 221.
Mixed toxins, treated by, **xlvii**, 455, 805, 807.
Myelogenous, of long bones, resection of, **xviii**, 247.
Myoma, and, stomach, of, **xliv**, 637.
Nasopharyngeal, treatment of a case of, **xxiv**, 44.
Neck, of, favorable effect of X-ray and Coley's fluid, **xlii**, 134; immunity from recurrence after removal, **xxxvii**, 938; tonsils, and, of, **xlv**, 148.
Nose and orbit, of, **xli**, 152.
Omentum, primary, of the, **xliv**, 16.
Ovary, of, **xli**, 300, 946.
Parotid, of, cured by injections of mixed toxins, **xxxv**, 431.
Pharynx, of, removal of, **vi**, 156.
Pleura, primary of, resection of chest wall and diaphragm for, **xliii**, 759.
Prostate, primary, of, **xlvii**, 58.
Pubes, of, **xliv**, 946.
Rectum, of, melanotic, **iii**, 225.
Recurrence of, frequency of, **xxxiv**, 375; operations for, **xxxiv**, 594.
Results in 125 cases of, **xl**, 161, 268.
Retroperitoneal, **v**, 258, 259, 272.
Ribs, of, cured by operation and injections of mixed toxins, **xxxvii**, 440.
Scalp, of, **viii**, 110.
Shoulder, of, **xxxi**, 373; melanotic, **xlvii**, 464.
Skin, of, spindle-celled, **iv**, 358.
Spine, dorsal, of the, **xlvii**, 819.
Splenectomy for, **xliii**, 759.
Sternum, spindle-celled, of the, successfully treated with mixed toxins of erysipelas and *Bacillus prodigiosis*, **xlvii**, 805.
Stomach, of, operative treatment of, **xxiii**, 733; and pylorus, of, **viii**, 213.
Superior maxilla, of, **xxxiv**, 300, 437; non-recurrence after removal of, **xxxii**, 134; without recurrence in three years, **xix**, 241.
Testicle, of, undescended, **xvii**, 448.
Thigh, of the, **xxix**, 624, **xliv**, 629; large parosteal, **xxiv**, 188.
Thyroid, of, **iv**, 272, **xlvi**, 829.
Tibia, of, **xxvii**, 371; causing spontaneous fracture following bony union, **viii**, 319.
Tongue for, excision of, **xxxvii**, 273; late result of removal of, **xxii**, 271.
Toxins of erysipelas and *Bacillus prodigiosus*, cured by, **xxviii**, 244; mixed, treated by means of, **xliii**, 610; use of, in the treatment of, **xxiii**, 177.
Transmissibility of, **xii**, 351.
Traumatism, **xxx**, 643; influence of, on the development of, **xxvii**, 259.
Treated by electrolysis and cataphoresis, **xxvi**, 196; by incision, radium, and extirpation, **xlii** 268.
Ulna, of, **xlv**, 768.
Uterus, of, **xvii**, 111.
Wound infection, disappearance of, after, **xxviii**, 741.
X-ray, cured by, and mixed toxins, **xli**, 770, 771; of pelvic organs not benefited by, or Coley's fluid, **xlii**, 132; treatment of, final results of, **xlii**, 161.
Sarcomatous degeneration of uterine myoma, **xlii**, 127.
SARGENT, PERCY W. G.: Intestinal obstruction due to fibrous stricture consequent

upon strangulated hernia, xxxix, 733; volvulus of cæcum, xli, 63.
Sawdust as a wound-dressing, iii, 340.
SAXON, GORDON J.: Apparatus for the introduction of salines into the rectum, xlix, 404, 440.
SAYRE, REGINALD: Discolorations of the semilunar cartilages of the knee-joint, xxviii, 527.
Scalp, avulsion, total, of, xl, 644.
Cirsoid aneurism of, xi, 93.
Cornu cutaneum, of, xliii, 908.
Extirpation of wens in, iv, 227.
Fatal wound of, i, 277.
-Flap, with permanent buried vascular pedicle for covering defects of the face, xvii, 677.
Hæmostatic suturing of, xli, 794.
Reconstruction of eyebrow and upper eyelid from the tissues of the, plastic, xlv, 790.
Sarcoma of, viii, 110.
Review of Book: The Scalp, by Jackson, vii, 238.
Scaphoid bone, carpal, dislocation of, xxxviii, 97; fracture of, xxxiv, 297, xli, 321, 863, xlii, 260; anterior, xxx, 213; dislocation, with habitual, xli, 265; fracture of the tarsal, xlvi, 633.
Carpal, fracture and dislocation of semilunar, xlvi, 161; fracture, simple, of, xlvii, 72, 130; and dislocation of, xxxv, 516, 574.
Scapula, clavicle, with upper extremity and, removal of, xxii, 736.
Congenital dislocation of, xxxvi, 314; displacement of, xxxv, 651; malposition of, xxix, 584.
Coracoid process of, fracture of, xlv, 427.
Excision of, xxxvii, 918; total, xxxvi, 245.
End results after total excision of the, for sarcoma, l, 1.
Extirpation of entire, iv, 225.
Fracture of anatomical neck of, vi, 84; of coracoid process of the, iii, 174.
Fracture of old ununited suture, cure, i, 491.
Sarcoma of, xxxviii, 115; complete excision of, for, xxxix, 807; excision of, for, xxxi, 257; interscapulo-thoracic amputation, xxxix, 134; removal of, for, xxxviii, 308, 602.
Spine, of, transplantation of, to take the place of defect of humerus, xxv, 787.
Scapulothoracic amputations of upper extremity, inter-, v, 346.
Scar carcinoma, xlii, 313.
Scarlatina, infection in, mixed, xiv, 483.
Scarpa's triangle, extirpation of tumors of, iv, 274; tumors of, vessels and nerve in extirpation of, iv, 272.

Dislocated bones of, reduced by a cough, viii, 156.
Excision of, partial, for sarcoma, xiii, 96; for retrosternal abscess, vii, 455.
Fracture of, contrecoup, xli, 252.
Sarcoma, spindle-celled of the, successfully treated with mixed toxins of erysipelas and *Bacillus prodigiosus*, xlvii, 805.
Scaphoid, operation for the relief of, xxvii, 219.
STERRILL, J. GARLAND: Carcinoma of gall-bladder and ducts, xliv, 866.
STETTEN, DE WITT: Musculospiral (radial) paralysis due to dislocations of the radius, xlviii, 275.

STEWART, D. D.: Treatment of aneurism of thoracic aorta, **xxxiv**, 311; tumors of stomach, **xxv**, 753.

STEWART, FRANCIS: Acute hemorrhagic pancreatitis, **xliv**, 723; advanced carcinoma of breast, **xxxvi**, 454; arterial angioma of ear and neck, **xxxvi**, 453; arteriotomy for thrombosis and embolism, **xlvi**, 339; cæcal hernia with volvulus of ileum, **xxxiv**, 316; cases of intestinal resection, **xxxviii**, 135; congenital dislocation of patellæ brachydactylia, **xxxix**, 452; congenital umbilical hernia, **xlix**, 565; effect of X-ray on carcinoma, **xxxvi**, 294; end-to-end anastomosis of the brachial artery, **xlviii**, 152; eight cases of operation for perforated typhoid ulcer, **xxxix**, 126; excision of condyle of jaw for temporomaxillary ankylosis, **xxxix**, 450; excision of tibia, **xlii**, 298; fracture of the lower extremity of radius, with anterior displacement of lower fragment, **xl**, 423; of upper cervical vertebræ, **xli**, 474; gall-stones with acute suppurative pancreatitis, **xliv**, 304; gastro-enterostomy, **xli**, 291; gastro-enterostomy for gastric ulcer, **xliii**, 151; general purulent peritonitis, **xliv**, 715; left-sided appendiceal abscess, **xxxiii**, 772, 773; lymphangioma of the cheek, **xliv**, 945; multiple neuromata of arm, **xl**, 422; new method of enterostomy, **xlii**, 623; perforating gastric ulcer, **xxxix**, 117, **xliv**, 955; perforating gunshot wound of stomach, **xxxix**, 117; phantom ureteral calculi, **xlv**, 315, 319; properitoneal hernia, **xlix**, 569; pyopneumothorax with greenstick fracture of the ribs, **xxxiii**, 62; reconstructive endo-aneurysmorrhaphy, **xlvii**, 472; retrocolic hernia, **xlix**, 572; rupture by contrecoup of branches of meningeal artery, **xxxix**, 451; of kidney, **xlv**, 308; sarcoma of the ovary, **xliv**, 306; of pubes, **xliv**, 946; skiagraphs of greenstick fractures, **xxxi**, 263; stab wound of diaphragm, **xlvii**, 633; suture of divided quadriceps extensor tendon, **xxxix**, 603; of femoral artery, **xlii**, 126, 621; toxæmia following operations for cholecystitis, **xl**, 430; traumatic intussusception, **xliv**, 302; volvulus of omentum, **xli**, 624; of the small intestine in typhoid fever simulating perforation, **xliv**, 313.

STEWART, GEORGE D.: Acute dilatation of stomach, **xlvii**, 532; benign stricture of the œsophagus, gastrostomy, dilatation by the string method, **xlviii**, 146; carcinoma of the cheek, no recurrence after thirteen years, **xlvii**, 814; of rectum, **xlviii**, 610; complete thyroidectomy, **xlvii**, 815; double castration for tubercular testicle, **xli**, 778; excision of the inferior maxilla for carcinoma, **xlvii**, 812; foreign bodies in bronchi, **xliii**, 449; hydronephrosis, **xliii**, 625; lead pencil removed from cæcum, **xliii**, 451; methods of radical cure of hernia, umbilical and ventral, **xliii**, 760; nephrectomy for tuberculosis of the kidney and ureter, **xlviii**, 144; pathology of tuberculosis of testicle, **xli**, 781; primary sarcoma of the appendix, **xlviii**, 607; remarks on appendicitis, **xl**, 763; strangulated Littré's hernia, **xxxvii**, 937; transverse incision of the knee-joint for drainage in severe infections, **xlv**, 464; Volkmann's ischæmic paralysis, **xlviii**, 606; X-ray treatment of malignant tumors, **xxxvii**, 434.

STEWART, J. CLARK: Aneurismal varix, **xliv**, 920; report of a case of pyæmic glanders in the human subject of laboratory origin, **xl**, 109.

Sticky gauze dressing, **iii**, 523.

STIMSON, LEWIS A.: Artificial bridge of nose, xxxiii, 44; for saddle-back nose, xxi, 707; arteriovenous aneurism of femoral vessels, xxxi, 753; carcinoma of vermiform appendix, xxiii, 186; case of perforating gunshot wound of abdomen, without wound of intestine, xxv, 364; case of sarcoma of suprarenal capsule perforating vena cava, xxi, 323; coaptation fork for treating fracture of patella, i, 464; the combined transverse and longitudinal incision in laparotomy, xl, 178, 259; cubitus varus, xxxii, 301; diagnosis of stone in kidney, xxv, 369; dislocation of semilunar and fracture of the carpal scaphoid, xlvi, 160, 161; of the head of the humerus, with fracture of its neck, xx, 70; complicated by fracture at the surgical neck, xix, 493; excision of aneurism of femoral artery, xxix, 357; experience in operation for appendicitis, without division of muscular fibres, xxi, 310; fatal shot wound of cranium, xxv, 365; fracture of carpal scaphoid, xxxv, 516; fracture and dislocation of astragalus, vi, 405; of the head and neck of the radius, xxvii, 365; of the head of radius, xxvii, 536; of olecranon, xxxi, 756; of patella without separation of fragments, xxi, 314; of skull, xxix, 352; inflammatory tumors of colon, xxviii, 127; injuries of main blood-vessels in reducing dislocations of the shoulder, ii, 369; inquiry into the use of the ligature in the treatment of aneurism, i, 13; intestinal anastomosis with potato-button, xxvii, 543; intramuscular entrance in operating for appendicitis, xxv, 364; irreducible unilateral dislocation of temporomaxillary joint, xxvii, 366; lacerated wound at elbow, xix, 91; modified incisions for laparotomy, xxxiii, 489; moot points in the treatment of appendicitis, xxi, 597; multiple gunshot injuries, xxx, 508; multiple urethral calculi, xix, 92; musculospiral paralysis, xxxi, 754; old dislocations of the elbow, vi, 201; operation for fracture of external condyle of humerus, xxxi, 752; operative treatment of fractures of patella, xxi, 602; osteochondroma of humerus, xxxix, 1005; peculiar forms of appendix, xxiii, 186; pistol-shot wound of abdomen—recovery, xix, 90; radiographs of fractures, xxvii, 653; recurrent dislocation of shoulder, xxvii, 364; remarks on the results of Hoffa's operation for congenital dislocation of hip, xx, 736; surgical operations at the New York Hospital, results and methods, xxiii, 717; xxiv, 50; results of operations for carcinoma, xx, 75; some practical deductions from personal experience in the treatment of appendicitis, xlvi, 122; stab wound of the abdomen, with multiple wounds of intestine—recovery, xix, 89; surgical treatment of stone in kidney, xv, 173; technic operations for the relief of appendicitis, xiii, 264; teratoma of coccygeal region, xxiii, 187; traumatic cubitus varus, xxxiii, 48; dislocation of semilunar bone, xxvii, 365; treatment of dislocation of the humerus, complicated by fracture of the anatomical neck, xxiii, 444; of fracture of patella, xxiv, 45, xxviii, 216; of injuries of spinal cord, xxx, 333; upward dislocation of hip, xvi, 527; vertical suspension for compound injuries of elbow, xxxv, 516.

STINSON, J. COPLIN: Observations on the surgical anatomy and methods of cure of inguinal hernia, xxx, 459.

STIRLING, R. A.: Lingual goitre, xlvi, 826.

Stitch abscesses, cause and prevention of, xxxv, 1.

Stitch-hole infection, cutaneous sutures, in, xxix, 650.
Stokes, J. Ernest: Cases of ante-operative asphyxia following intestinal obstruction, xxvi, 340.
Stokes, W.: Astragaloid osteotomy in flat-foot, ii, 219; traumatic subdural abscess of brain, viii, 241.
Stokes, W. T.: Case of subcranial hemorrhage treated by secondary hemorrhage, vii, 401.
Stomach (see Gastro, Gastrostomy, Pylorus), adenocarcinoma of, xxxv, 834.
Adhesions about, xxxii, 123.
Benign diseases of, and duodenum, late results after operations for, xlvii, 873, 885, 894, 1050.
Brigham's case of recovery after removal of entire, xxix, 375.
Bullet wound of, i, 364, xxxviii, 450.
Cancer of gastric ulcers, how frequently do, develop, xlvii, 922, 1052; with hour-glass constriction, xlix, 425.
Carcinoma of, xliii, 926, xlix, 836; anatomical and clinical researches in, xxxviii, 911; of cardiac end of, xlv, 682; diagnosis of, xxxii, 96; excision of pylorus, no recurrence after eighteen months, xxxiv, 418; foreign bodies in, xl, 909; gastro-enterostomy, xxv, 746. gastro-enterostomy for, specimen showing result of, xl, 285; gastrojejunostomy for, xxxvi, 953; improved technic in the operative surgery of, xxxiii, 157; liver metastasis, with, x, 296; new operation for, vi, 450; partial excision, for, xlv, 950, 971; partial resection of, for, xxxvii, 442; 444; pedunculated tumor of, removal of, by gastrotomy, xxiv, 310; pylorectomy for, xxxi, 758, xlii, 116; rupture of the pyloric end of the, radical operation for, xxxix, 321; pylorus of, non-operable, isolation of, xxv, 215; removal of entire, for, xxxi, 344, 587; removal of greater portion for, xxxiii, 197; removed by partial gastrectomy, xlviii, 444; resection for, xxxix, 997, 999; resection of, for, xli, 455, xlii, 122; results after excision of pyloric portion of, for, xxxix, 106; of operations for, in the Berne clinic, xxx, 375; subjected to pylorectomy, xxxvii, 270; in a youthful person, xiv, 424.
Cardiac orifice, cicatricial stenosis of, plastic operations for, xxvi, 391.
Cirrhosis of, xxxix, 341.
Congenital protrusion of, xliv, 290.
Critical review of recent series of operations upon, xlv, 687, 761.
Diaphanoscopy of, xlviii, 785.
Dilatation of the, acute, xlvi, 736, xlvii, 532; and arterio-mesenteric ileus, xlvii, 390; acute, complicating typhoid fever, xlviii, 678; postoperative, xliii, 469; gastroplicature for, xxx, 249, xl, 279; gastroptosis, and, xliii, 775; hypertrophy of, and, xliv, 441; pylorus, from benign stenosis of, xxxiv, 834; pylorus, from primary spasm of, xl, 201; relieved by digital divulsion of pylorus, iii, 372; surgical considerations pertaining to, xli, 715; surgical treatment of, xxxii, 41; tetany, and, xxxix, 527.
Dilated, gastrorrhaphy for diminishing size of, xvi, 276.
Diseases of, non-carcinomatous, surgery of, xxv, 212.
End results of benign lesions of, surgically treated, xlv, 818.
Fibrolipoma of, xlii, 583.
Fistula, Fontan's method of establishing a, xxx, 376.
Foreign bodies removed from, xlv, 238.
Gastrectomy for, partial, xliii, 438, 801.
Gastro-enterostomy, complications following, xxxvi, 231; combination of, with entero-anastomosis, xxv, 655.

Gastrotomy for foreign body in, v, 124.
Gunshot wound of, xxxix, 100, 117, 1002, xlviii, 857; laparotomy for, xxv, 111, 146; suture of, and, vi, 166; with posterior drainage, xlvii, 632.
Hemorrhage, gastro-enterostomy for, xl, 263.
Hernia, strangulated, washings after operations for, xvii, 754; through diaphragm into thorax, xlv, 680.
Hour-glass, xxxviii, 593, 598, l, 552; contraction of, relieved by operation, xxv, 652; its surgical treatment, xxxii, 56.
Hypertrophic pyloric stenosis, xlviii, 928.
Inflammation, chronic, of the, resulting from gastric atony and dilatation, surgical treatment of, xli, 36.
Intestinal incarcerations, acute, washing in, xvii, 617.
Intestine, and, bullet wound of, recovery after laparotomy, xxx, 637; movements of, xliii, 512.
Laparotomy for gunshot wound of, viii, 81; for perforating ulcer of, ix, 59, 95; for perforation of, iii, 386; for wound of, iii, 422.
Lesions associated with gunshot wounds of, xlv, 699, 777; perforative, xlv, 753.
Liver, and, adenocarcinoma of, resection, xxxv, 832; perforating gunshot wound of, xxxvi, 228.
Lymph-glands, infection of the, in carcinoma of the pyloric portion of, xxxvi, 798.
Malignant diseases of, xxxii, 251, xlv, 749.
Marwedel's method of opening of, xxvii, 650.
Neurosis of, producing intractable vomiting, xlvii, 730, 817.
Obliteration of, result of gastric ulcer, xlv, 30.
Œsophagus, impacted peach stone in, removal through wound in, xvii, 228.
Operations on, report of 103, xxiv, 657; results of, at the Heidelberg Clinic, xxix, 767.
Operative measures, results obtainable by, in affections of, xxxviii, 789.
Peptic ulcer of, after gastro-enterostomy, xxxviii, 913.
Perforation of hydrogen gas, insufflation of, in diagnosing, viii, 190; subacute, xlv, 223.
Pyloric extremity, carcinomatous stricture of, xxv, 369; orifice of, benign obstruction of, xxxii, 17; pathology and operative treatment of non-malignant stenosis of, xxvii, 792.
Pylorus and stoma after gastro-enterostomy, studies upon the function of, xlvi, 549.
Reefing, xx, 484.
Resection of, xi, 56: in Billroth's clinic, vii, 212; of the middle third of the, for carcinoma of greater curvature, xli, 712; œsophagus, and, resection of lesser curvature of, and œsophagostomy, xlviii, 530; pyloric stricture, xlix, 551.
Sarcoma of, xxiii, 609, xxx, 596; myoma, and, xliv, 599, 637.
Schlatter's case of complete removal of, xxix, 294.
Stab wound of, viii, 137, xxx, 235, xxxvi, 611; protruding from, ix, 91.
Surgery of, xxii, 396, xxvi, 117, xxxix, 302, xxxiv, 300, 302; cases of, xxi, 361; Heidelberg clinic, at, xvii, 730; and intestines, xxv, 640, xliv, 666; Krönlein clinic, 1881–1902, xxxviii, 920; contribution to, xiii, 214, xxxi, 572; recent, xvii, 452, 475, 588, 592; plastic, xiv, 426.
Tumor of, apparent disappearing, after exploratory section of abdomen, xxv, 750.
Ulcer of, xlii, 128, 129; contribution to the surgery of, xli, 44; duodenum, and, secondary to wounds of urinary bladder, xlvii, 924, 1052; excision of, xxix, 629; excision of, from posterior wall, xxx, 95; hemorrhage from, surgical treatment of, xxx, 393; hour-glass contraction

with, **xxxvii**, 280, 281; one hundred cases of gastro-enterostomy for, **xxxix**, 690; operative treatment of, **xxi**, 110, 111, 112, 113; perforated, **xxxix**, 109, **ix**, 59, **xlv**, 772, **xxxiii**, 262, **xxxvii**, 617, 928, 929, **xliii**, 462, **xlix**, 858, 863, **xl**, 116, 266, 686; on posterior wall, **xl**, 419; relieved by gastro-enterostomy, **xl**, 432, **xli**, 290; surgical treatment of, **xliv**, 907, 952, 957, **xlvii**, 885, 1050; perforating, **xxxii**, 1, **xlv**, 772, **xlviii**, 620, 926; abscess due to, **xli**, 288; perforating, contribution to the surgery of, **xxxix**, 333; followed by peritonitis, treatment of, **xxv**, 213; surgery of, **xxiv**, 640; pyloroplasty for, **xx**, 176; relieved by gastro-intestinal anastomosis, **xxv**, 368; surgical cure of, **xlvii**, 885, 1050; surgical treatment of, **xxiv**, 220, **xxiv**, 50, 640, **xxxv**, 529; surgery of, **xxxi**, 458, **xlv**, 810; treatment of, **xliv**, 780.

Vagina, and, fistula connecting with distended stomach, **iv**, 459.

Wounds of, **xxxi**, 572, **xxxiii**, 651; penetrating of the, the treatment of, with report of sixteen cases, **xxxix**, 356, 469, 473; pistol-shot, recovery from, **xxx**, 217.

Reviews of Books: Carcinoma and Other Tumors of the Stomach, by Fenwick, **xxxvii**, 794; Chirurgie de l'estomac, by Terrier and Hartmann, **xxx**, 781; Diseases of the Stomach, by Hemmeter, **xxxvi**, 982; Diseases of the Stomach, by William W. Van Valsah and J. Douglas Nisbet, **xxix**, 133; Operations upon the Stomach, by Mayo, **xxxviii**, 30.

Stone (see Calculus, Cystotomy, Litholapaxy Lithotomy), bladder, in the, comparative frequency of, in white and negro races, **xxiii**, 729; hairpin as nucleus, with, **xviii**, 588; large, in the, **xxxii**, 347; leather shoe-string as nucleus, with, **xxxiii**, 648; ligatures due to, and bone spicule, **xxxiv**, 715, 716; ligature knot as nucleus, with, **xviii**, 588; litholapaxy, for, **xix**, 691; operations for, **xii**, 384; pneumaturia, with intermittent, **xlvii**, 1013, 1057; prostatic hypertrophy with—value of castration to facilitate detection of, **xxvii**, 329, 383; recurring, **xxxi**, 743, 760; shot as nucleus, with, **xxxiii**, 647; treatment of, **i**, 499; twig of tree as nucleus, with, **xxxiii**, 648.

Common duct, with acute septic cholangeitis, **xxxix**, 104; without characteristic symptoms, **xxxix**, 103.

Cystotomy, intraperitoneal suprapubic, removed by, **xxiii**, 132.

Kidney, large branched, in each, **xlv**, 766.

Nephrectomy for, **xxiii**, 257.

Peach, impacted, removed from œsophagus through wound in the stomach, **xvii**, 228.

Pelvic ureter, in, **xl**, 586, 588.

Ureter, in the, **xlv**, 767.

Stone, Harvey B.: Desmoid tumors of the abdominal wall, **xlviii**, 175.

Stone, Isaac Scott: Floating spleen with twisted pedicle—splenectomy, **xxx**, 321 perforation of the urinary bladder by an appendiceal abscess, **xxxix**, 265.

Stone, James S. A.: Male pseudohermaphrodite, **xlvi**, 259; partial loss of the tibia, replaced by transfer of the fibula, with maintenance of both malleoli of the ankle, **xlvi**, 628.

Stout, George C.: Recovery from self-inflicted complete subhyoid laryngopharyngotomy, **xlv**, 636.

Stow, Bond: Fibrolymphosarcomata of both ureters metastic to a primary lym-

phosarcoma of the anterior mediastinum of thymus origin, l, 901; ureteritis cystica chronica, xlvi, 233.
St. Bartholomew's Hospital Report (review of vol. xxiii), viii, 77.
Strangulation, ileus, xliv, 146; internal intestinal, v, 88, 157, 544.
Intestinal, acute, indicated by acute peritoneal effusion, xxx, 653.
Resulting from distension of hollow viscera, xlvi, 736.

Syphilitic affections of cerebral nerves, **i**, 276.
Chancre, excision of, **ii** 299.
Early, **ii**, 332.
Epididymis, of, **xxv**, 306.
Growths, sarcomata and lymphomata, how distinguished from other, **xxiii**, 112.
Joint affections, **xxviii**, 730.
Hereditary disease of joints, **i**, 488.
Lesions of anus, **vii**, 147.
Multiple fracture in a, **ii**, 344.
Stricture of rectum with end-to-end anastomosis, **xliii**, 146; rectum, of, relieved by means of Kraske's sacral extirpation, **xvi**, 267.
Syphilitics, marriage of, **xx**, 94.
Syphilology, points in, **ii**, 299.
Syphiloma, diffuse hypertrophic, **vi**, 354.
External muscles of, **ix**, 157.
Liver, of, **xxii**, 517.
Muscle, of, **xi**, 65.
Surgically important, **xiv**, 73.
Syringomyelia, **vi**, 90.
Szymanowski's operation applied to cure of urethro-perineal fistula, **iv**, 461.

T

Tabetic disease of knee-joint, **xliv**, 463.
Table for operations of head and neck cases, **xlix**, 159.
TAIT, DUDLEY: Elastic ligature and the ligature method, **xliii**, 190; eversion of the tunica vaginalis as a remedy for hydrocele, **xxxiii**, 305; cases of Tait's operation, **ii**, 518.
Talipes (see Club-foot), excision of astragalus for, **xxvii**, 529; operative treatment of, **vi**, 92; tarsectomy for, **xxvii**, 776.
Calcaneus, equinovarus in adult, **xxxvii**, 430; result of, **xxxvii**, 107; paralyticus, operative treatment, **xi**, 240.
Calcaneus, paralytic, treatment of by astragalectomy and backward displacement of the foot, **xlvii**, 264, 291.
Equinovarus, **ix**, 101; astragalus, relief of, by excision of, **xxix**, 270, 632; inveterate, operative treatment of, and relapsed cases of, **xxix**, 449; operative treatment of, **xxiii**, 478; orthopædic surgery, results of, **ix**, 306; osteotomy for the relief of double congenital, **xi**, 334; treated by osteotomy, inveterate, **v**, 201.
Valgus, tendon transplantation for, **xlviii**, 788.
Varus, cuneiform osteotomy, treated by, **xii**, 421; posterior tarsotomy for old cases of, **ii**, 167; Pott's fracture deformity, note on its correction by artificially produced, **xxi**, 461.
Talma's operation, parieto-omental adhesions, for, **xxxvi**, 962.
Tamponade, antiseptic, **iii**, 436.
Tampons, absorbable antiseptic, **ix**, 221.
Review of Book: Absorbable Tampons, by Gluck, **xii**, 266.
Tannic acid as a surgical dressing, **vi**, 144.
Tannin, treatment of ingrowing toe-nail with, **v**, 75.
TARNOWSKY, GEORGE DE: Contre-coup fracture of sternum, **xli**, 252.
Tarsal bones, excision of, **iii**, 206; fractures of, **xli** 363.
Joints, Charcot's disease of, **xliv**, 119.
Scaphoid bone, fracture of, **xlvi**, 633.
Tarsectomy, talipes, for, **xxvii**, 776.
Tarsometatarsal resection, **ix**, 233.
Tarsotomy in club-foot, **i**, 94; for old cases of talipes varus, **ii**, 167.
Tarsus, excision of the bones of, **iv**, 293; of entire, **i**, 271; subperiosteal, **xvii**, 104; fractures of, old, **xlv**, 69; partial resection of, **ii**, 412; result of Bier's treatment of tuberculosis of the, **l**, 639.
TAYLOR, ALFRED L.: Neck incisions and nerve injuries, **xlvii**, 628.

TAYLOR, M. H.: Hernia following operations for appendicitis, **xxxix**, 128.
TAYLOR, R. TUNSTALL: Dislocations of the semilunar cartilages of knee-joint, **xxviii**, 530; osteoma of knee-joint, **xxxvii**, 84.
TAYLOR, WILLIAM J.: Acute carcinoma of breast, **xlix**, 153; cæcal hernia, **xxxiv**, 440; chewing gum removed from bladder, **xliii**, 317; dislocation

of a vertebra, **xliv**, 459; drainage in empyema, **xxii**, 119; dermoid cyst in the abdominal wall of a man, **xxiii**, 296; differentiation of syphilis of the vertebra from Pott's disease, **xxix**, 644; effect upon glandular tissue of exposure to, **xliii**, 431, 460; excision of the wrist by Mynter's method, **xxxii**, 360, 618; experience with Meckel's diverticulum, **xliv**, 124; extradural hemorrhage, **xxxvii**, 453; excision of wrist, **xxxiii**, 59; exploration of kidney in cases of suspected calculus, **xxviii**, 663; fracture of the thyroid cartilage, **xvii**, 715; gangrene of the forearm after hysterectomy, **xxxvi**, 153; goitre as affected by the X-ray, **xlix**, 578, 580; gunshot wound of the brain, **xlix**, 876; hæmophilic knee-joint, operation, control of hemorrhage by use of thyroid extract, **xliv**, 787; intestinal obstruction from degenerated Meckel's diverticulum, **xxxvii**, 111; jack-stone in œsophagus necessitating tracheotomy for dispnœa, **xxii**, 109, 111; late results from fracture of patella, **xxxix**, 1027; leontiasis, **xxiii**, 308; Moynihan's clamps and split-eyed needles for use in gastro-enterostomy, **xl**, 424; multiple fractures of bones, **xvii**, 716; multiple fractures of upper extremity, **xlvi**, 319; multiple neuromata of leg, **xl**, 422; myositis ossificans, **xxxvii**, 825, 959; œsophagotomy for impacted coin, **xlvii**, 296; operations for badly united fractures of elbow, **xxviii**, 142; operative relief of intestinal obstruction, **xxix**, 264; operative treatment of perforated typhoid ulcer, **xxxix**, 124; ossium leontiasis, **xxxix**, 443; osteoma of the **xli**, 151; osteoplastic resection of skull, **xxxvi**, 152; pain complicating injuries to the hip in aged, **xxxvii**, 119; perforation of intestine from gun, **xxxiii**, 648; postoperative treatment, **xlvi**, 326; protest against vaginal hysterectomy for carcinoma, **xl**, 140; rupture of gall-bladder followed by profound toxæmia, **xl**, 425, 430; traumatic aneurism of the left subclavian artery produced by fracture of clavicle, **xxxviii**, 638; of intestine, **xxxvii**, 448; of liver, **xxiv**, 234; treatment of fractures of the lower end of radius, **xxix**, 277; of movable kidney, **xxix**, 761; of tetanus, **xxxv**, 521; of tubercular abscess, **xxii**, 104; unreduced elbow dislocation, **xliii**, 780; urethrotomy for urethral stricture, **xliii**, 455; use of cautery for hemorrhoids, **xxxv**, 826; varicose veins simulating femoral hernia, **xlii**, 127; vesical calculus with nucleus of chewing gum, **xli**, 479; volvulus of the small intestine in typhoid fever simulating perforation, **xliv**, 312.

Teeth, cysts in connection with, **xxxvii**, 65.
Extraction, treatment of pain after, **ix**, 454.
Hutchinsonian, **ii**, 305.
Reviews of Books: Local Anæsthesia for the Extraction of Teeth, by Vian, **vii**, 30; Surgery of the Teeth, by N. W. Kingsley, **i**, 391.

Telangiectasia, treatment of, **iv**, 166.

Telangiectatic lipoma, **xliii**, 789.
Myofibroma of larynx, **xi**, 88.

Telelymphangioma, congenital of groin, **xxx**, 600.

Telephonic searcher for use in bladder, **xlvi**, 459.

Temperature of blood attending simple fractures, **ii**, 158.
Relationship existing in shock, experimental research into, **xxxviii**, 843.
Subcutaneous fractures, in, **iv**, 261.

Temple, carcinoma of, **xxxiii**, 194.

Temporal bone, fracture involving the petrous portion of,

xvi, 179; necrosis of entire, xxx, 223.
Fascia, cranial defects, to cover in, on the use of, xliv, 170.
Region, aneurism tumors of, ii, 251.
Temporomaxillary ankylosis, xxvii, 572; condyles for, resection of, xvii, 227; excision of condyles of jaw for, xxxix, 450; operation for, new, xx, 597.
Joint, ankylosis of, bilateral bony, surgical treatment of, xxxviii, 212; ankylosis of, vi, 153; ankylosis of, bony, xxxv, 517; operation for, xviii, 39; ankylosis of, with osteotomy of inferior maxilla for cure, x, 426; dislocation of, irreducible unilateral, xxvii, 366; true ankylosis, exsection of, for, v, 141.
Tendon, of biceps muscle, rupture of long, v, 268.
Club-foot, congenital, transplantation for, xlvii, 135.
Elongation of a muscle for contracted, iii, 337.
Exsection of bones in continuity preparatory to secondary suture of, and nerves, i, 484.
Fibres, oblique muscle, external, as suture material in hernia operations, from, xxxiv, 323.
Grafting in club-foot, xlii, 932.
Healing of severed, researches regarding the, xvi, 269.
Injuries of, vi, 227.
Lengthening and Wolfe grafts, use of in treating cicatricial contractures, xliii, 278, 304.
Lipoma of sheath of, ix, 146.
Nerve, and, distance suture of, v, 348.
Operation, plastic, for lengthening, xxiv, 371.
Palmaris longus, of, pure fibroma of, viii, 59.
Paralytic deformities, relief of by transplantation, xxiii, 333.
Periosteal implantation, xxxiii, 100.
Rupture of quadriceps extensor cruris, xi, 102, xviii, 98, xl, 273; on both sides, v, 455; treated by suture, xxv, 355; treatment, xxii, 506; suture of divided, xxxix, 603; of old rupture of, xxix, 490.
Surgery, xxxiii, 582, 659.
Suture, ii, 427, xxxiii, 661; functional prognosis of, ix, 55; late, of divided, xxiii, 739; teno-plastic, viii, 152.
Transplantation, xxxvi, 288, xlv, 635, xlvi, 142; transplantation and nerve anastomosis, infantile paralysis, treated by, xlviii, 470; transplantation for talipes valgus, xlviii, 788.
Treatment of ruptured or divided, vi, 170.
Tuberculosis of, xxviii, 384.
Wrist and hand, tuberculous synovitis of sheath, iv, 444.
Tendoplasty, xxxi, 132.
Tendovaginitis, tuberculous, i, 564.
TENNEY, BENJAMIN: Anatomy and surgery of the internal derangements of knee-joint, xl, 1; some surgical conditions in knee-joint, xlviii, 714.
Tenoplastic surgery, xxvi, 153.
Tenoplasty, flat-foot, for, xxxviii, 150.
Tenorrhaphy, xxxix, 284.
Tenosynovitis, chronic, xxxiv, 576, xli, 778.
Tubercular, xxxvi, 137.
Wrist, of, xlviii, 617.
Tenotomy of accessory tendons of ring finger in musicians, i, 185.
Club-foot, treatment of, by immediate restoration after, viii, 396.
Knee, contracted, by open method for, xvii, 406.
Teratoma sinus frontalis, iv, 68; of testis, xxxiv, 391, 415.
Teratomata, inguinoscrotal region of, xliv, 582.
Terebene, as a surgical dressing, ix, 452.
TESCHNER, JACOB: Post-paralytic, results obtainable in the treatment of some deformities, xxx, 571; postural deformities of the trunk by means of rapid and thorough physical development, xxii, 226.
Testes, two on one side, xlii, 785.
Testicle (see also Castration,

Chylocele, Hydrocele), carcinoma of, in a child, **xv**, 142; in infants, **i**, 482; operative treatment of, **xxii**, 478.
Castration for tuberculisis of, **vi**, 54; for primary tuberculosis of, **ix**, 387.
Chondrocarcinoma of, **xxx**, 210.
Consecutive extirpation of both, for primary tuberculosis of, **x**, 169.
Ectopion of, surgical treatment of, **xii**, 391.
Epididymectomy for, **xli**, 780.
Epididymis, for recurrent carcinoma of, removal of, **viii**, 446.
Femur, primary tumor of, with metastasis in head of, **xli**, 799.
Gangrene of, after chronic inflammation of the spermatic cord, **xxvi**, 666.
Hernia, and, affections of the, **iv**, 190; complicating, undescended, **xli**, 951; from tuberculosis of scrotum, **v**, 430; inguinal, in radical operations for, conditions justifying removal of, **xix**, 697.
Inflammatory diseases of, **ix**, 466.
New classification of tumors of, **vi**, 232.
Perineal, restored to its proper position, **xx**, 94.
Removal of, **v**, 8.
Sarcoma of retained, **xxvii**, 640; of undescended, **xvii**, 448.
Strangulation of, from torsion of the spermatic cord, **xx**, 97; from twist of spermatic cord, **xix**, 530.
Tubercular, double castration, for, **xli**, 778.
Tuberculosis of, **i**, 369, **xli**, 745, **xlv**, 918, **xlix**, 800; resection of, for, **xxx**, 649.
Undescended, **xl**, 962; cases of, **xxx**, 338; operation for, **xxvi**, 365.
Testis, descending in an adult, **iii**, 250.
Ectopy of the, transverse, **xl**, 223.
Endotheliomata of, **xxx**, 131.
Galactocele of the tunica virginalis, **ii**, 335.
Hernia, inguinal, associated with, reposition followed by necrosis, **xlviii**, 467; irreducible inguinal, complicating sarcoma of the testis, **xlvii**, 822.
Lipoma of, **iii**, 365.
Lymph-nodes, lumbar, malignant disease of, excision of, for, **xxxvi**, 539.
Misplaced, **xxxvii**, 102; operation for, result of, **xlviii**, 351, 932.
Sarcoma of, **xxix**, 492, **xxxii**, 712.
Strangulation of, by torsion of the cord, **xxxiv**, 234.
Teratoma of, **xxxiv**, 391, 415.
Tuberculosis of, **xxxii**, 606, **xxxiv**, 306, 574, **xlvii**, 290; results of castration for, **xxxvi**, 309.
Undescended, **xxxiv**, 296; or maldescended, associated with inguinal hernia, treatment of, **xlviii**, 321.
TETAMORE, F. L.: Parrafin molds for plaster casts, **ii**, 478.
Tetanic virus, antidotes to, **xi**, 469.
Tetanus, **v**, 248, **xiv**, 138, **xxxii**, 219, 416, 575.
Absolute rest, treated by, **xi**, 113.
Amputation, after, for gunshot wound of forearm, **xliv**, 131.
Antitetanic serum for, intracerebral injections of, **xxx**, 366, 368, 749; recovery from, under large doses, **xxix**, 287.
Antitoxin, cases of recovery from, after use of, **xxviii**, 237; treated by, **xxvii**, 228; treated by intraneural and spinal injections of, acute, **xl**, 417, 759; treatment of, by intracerebral injections of, **xxix**, 516; treatment of, with, **xxvi**, 507, 657.
Appendectomy, after, **xlii**, 458.
Carbolic acid injections, by, **xi**, 470.
Etiology of, **vi**, 63, **ix**, 355, **x**, 180; in man, **iv**, 533.
Fecal origin of some forms of, prophylaxis by proper dietetic or culinary measures, **l**, 338.
Frost bite, after, **v**, 533.
Geographical distribution, pro-

phylaxis, and treatment of, **xxvi**, 710.
Goitre, following extirpation of, **xi**, 223.
Hydrophobicus, **ix**, 72, **x**, 255; facial paralysis in, **xv**, 386.
Immunity against, **xix**, 699.
Intramural injections of, antitoxin, **xlii**, 939.
Magnesium sulphate, treated by intraspinal injections of, **xliii**, 440, **xliv**, 367.
Remarks on, **xxvii**, 234, 236.
Serum therapy of, **xliv**, 321.
Surgical prophylaxis, **xiii**, 131.
Tetanic antitoxin, effects of, in treatment of, **xxxi**, 119, 273, 360, 366, 370.
Traumatic, **ii**, 499.
Treatment of, by chloretone, **l**, 52.
Umbilical wounds from, **ii**, 88.
Vaccination, after, **xxxv**, 520.
Wound, bacilli, infecting—excision—no tetanus, **xxxvii**, 399.
Tetany, **xiv**, 125.
Appendicitis, with, **xlviii**, 859.
Gastric, **xl**, 909; dilatation and, **xxxix**, 527.
Parathyreopriva, **xlvi**, 507.
Stomach of, **xxxix**, 527.
Thyroidectomy, following, cured by the subcutaneous injection of parathyroid emulsion, **xlviii**, 161.
Texas, Cupples' report on surgery in, **v**, 462.
Theine—new analgesic, **iii**, 158.
Therapeutics (reviews of books), Applied, by Wilson and Eshner, **xxv**, 522; by Wood, **ix**, 240; Text-book of Practical, by Hare, **xii**, 473, **xliii**, 804, **xxxvi**, 986.
Thermopile and secondary battery for producing electricity for medical and surgical purpose, **vi**, 248.
Thienhaus, Charles O.: Duodenocholedochotomy for impacted gall-stones, **xxxvi**, 927; fracture of astragalus, **xliii**, 295; separation of great epiphyseal trochanter, **xliii**, 754.
Thiersch grafting, late changes in, **xliii**, 306; method of, **xii**, 78; after-course of the transplanted patches, **xii**, 78, **xix**, 705; pterygium, in the operation for, **xvi**, 258; skin according to, **ix**, 179, 290, 357; twisting method in neurectomy, **xlviii**, 636.
Thigh, actinomycosis of, **viii**, 468.
Amputation of, for gangrene of leg in a child of four weeks, **xxxvi**, 131; lower third of, senile gangrene of toes, **xvi**, 174.
Aneurism of, varicose, **xxii**, 372, 391.
Bone, fracture of, in babies, treatment of, **xxvi**, 480.
Dermoid cyst of, deep-seated, **xvi**, 462.
Erysipelas, reabsorption of callus in fractured, **v**, 437.
Extirpation of tumors of Scarpa's triangle of, **iv**, 274.
Left leg and right forearm, simultaneous amputation of right, **viii**, 153.
Malignant growths by exarticulation, curability of, **xii**, 376.
Osteoplastic amputation of, **xxxi**, 131.
Pseudarthrosis, resection and bone suture in, **ix**, 105.
Right arm and left index and ring fingers, simultaneous amputation of left, **viii**, 154.
Sarcoma of, **xliv**, 629; large periosteal, **xxiv**, 188; personal immunity from recurrence after amputation of, for, **xxxiv**, 596.
Thiosinamin, keloids, in the treatment of, **xxxiv**, 708.
Thomas, Benjamin A.: Œsophagoscopy and gastroscopy, **l**, 505; renal disease and sufficiency, diagnosis of, **xlvii**, 588, 640.

Axis, aneurism of, traumatic, **xliii**, 932.
Body, chondro-osteoid sarcoma of, **iv**, 212.
Cartilage, carcinoma of, laryngectomy for, **xxi**, 59; fracture of, **xvii**, 715.
Cyst, **xxxiii**, 212.
Extract, fractured bones, use of, in delayed union of, **xxxiv**, 417; hemorrhage, use of, in control of, after operation on hæmophilic knee-joint, **xlv**, 666, 787.
Gland, affections of, **xliii**, 805; blood supply and preservation of parathyroid glandules in operation upon, **xlvi**, 489; cachexia following extirpation of, **viii**, 133; carcinoma of, **xi**, 282, **xliv**, 630; conditions consequent to extirpation of, **iii**, 165; cystic adenoma, anatomy of a case of, **xliii**, 327; enucleation of diseased portions of, in tumors of, **x**, 197; extirpations of, **xliv**, 758; extirpation of, in Basedow's disease, **xxiv**, 81; goitre, report of one thousand operations on, for, **xxiv**, 99; malignant tumors of, metastasis of, **xviii**, 577; removal of, under cocaine anæsthesia, **xxv**, 720; sarcoma of, **xxvi**, 498. **xlvi**, 829; scirrhus of, **xi**, 120; sheep and lambs, disturbances in the growth of young, after extirpation of, **xviii**, 571; tissue, at base of tongue, **xx**, 77; transplantations, technic of, **xlviii**, 777; tumors of, enucleation of, **xxviii**, 737; inflammatory, **xxv**, 651; treatment of, in the clinic of Czerny, **xxxi**, 122; treatment of, in the clinic of Mikulicz, **xxxi**, 660.
Intracapsular extirpation of cysts of, **iv**, 174.
Intraglandular enucleation of, **v**, 535.
Ligation of the, vessels in certain cases of hyperthyroidism, **l**, 1018.
Medication, for fractures with delayed union, **xxxi**, 695, 742.
Papillary cylindro-cellular adenoma of, **iv**, 274.
Paralysis of laryngeal muscles after extirpation, **ii**, 504.
Parathyroid, and, glands, review of Richardson on, **xlii**, 967.

Scirrhus of, x, 200.
Serum, use of, in the treatment of exophthalmic goitre, xlvii, 789.
Tissue, transplantation of, into spleen, xliv, 768.
Tongue, of the base of the accessory, xxvii, 244.
Tumors, intraglandular enucleation of, v, 535; present state of treatment of, i, 351; retrosternal accessory, xli, 661; suppurating treatment by incision and drainage, xxix, 632; symptoms and operative treatment of, xxx, 564.
Review of Book: Thyroid and Parathyroid Glands, by Richardson, xlii, 967.
Thyroid metastasis, physiological function assumed by, xx, 594.
Question, xx, 426.
Tumor, metastasis of, bony, xx, 600.
Thyroidectomy, v, 1; xvii, 207; xxv, 92, 624; acute myxœdema following, v, 68; complete, xlvii, 815; exophthalmic goitre, for, xxii, 792, xlii, 33, xxxviii, 161; tetany following, cured by the subcutaneous injection of parathyroid emulsion, xlviii, 161; thyroid abscess, for, xx, 406; thyroid gland, for fibrosis of, xxi, 565; troubles consecutive to, v, 345.
Thyroidism, its significance and relation to goitre, l, 1317.
Thyroiditis, metapneumonic, xxix, 777.
Thyrolingual duct, persistent, xxxvii, 56, 271.
Thyrotomy, carcinoma of larynx, for, ix, 345; for epithelioma of larynx, vi, 254.
Tibia, compound fracture of, iii, 101, 263.
Compound separation of lower epiphysis of, v, 170.
Compression fractures of upper end of, v, 439.
Congenital dislocation of, treated by arthrotomy, xxxiv, 286.
Defects of, remedied by skin-bone flaps, xxvii, 250.
Epiphyseal beak of the, symmetrical inflammation of, xli, 278.
Excision of the, xlii, 298.
Fibula, and, operation for badly united fracture of, ii, 63; into, transfer of, xli, 249.
Fracture of anterior tuberosity of, viii, 227; fixation by screw and plate, xlii, 774; intrauterine, xxii, 777; longitudinal, of the lower end of, xxv, 763; sarcomatous, followed by bony union, spontaneous, viii, 319; of the tuberosity of, xi, 154; ununited, of, xxxiv, 431.
Head of, fracture of, xlii, 613; posterior dislocation of, xxxvii, 87.
Hypertrophy of, xix, 615.
Necrosis from osteomyelitis, restoration of, after, xxx, 486.
Osteitis of, xxix, 268.
Osteoma of, xxv, 764.
Osteomyelitis of, xxxvi, 441; osteoplasty as a means to prevent shortening of the leg after, xliv, 425.
Osteoplastic substitute for defect of, xxii, 510.
Partial loss of, replaced by transfer of fibula, with maintenance of both malleoli of the ankle, xlvi, 628.
Resection of entire, vi, 43.
Sarcoma, myelogenous, operative treatment of a large, xviii, 584.
Semilunar cartilages, and, compensatory knee-joint between, xli, 283.
Spine of the, avulsion of, xlvi, 169.
Tubercular osteomyelitis of, xxxix, 277.
Tubercle, fracture of, xl, 739.
Tibiotarsal joint, tuberculosis of, xlvii, 810.
Tic doloureux (see also Trifacial Nerve), intracranial neurotomy, interposition of rubber tissue after, xlv, 961; rubber tissue, subdural interposition of, in operations for, xxxvii, 1.
TIFFANY, L. McLANE: Free Division of capsule of the kidney for relief of nephralgia,

x, 104; intracranial operations for the cure of neuralgia, xxiv, 575, 736; cases of neurectomy, xxi, 510; neurectomy and removal of Gasserian ganglion, xix, 47; primary sarcoma of thyroid gland, xxvi, 498; technic of intracranial surgery, xxvi, 307.

TILLMAN, H.: Etiology and histogenesis of carcinoma, xxiii, 234; partial resection of cæcum, for gangrenous typhilitis, xv, 483.

TILTON, BENJAMIN T.: Acute diffuse suppurative peritonitis, xliv, 297; combined transverse and longitudinal incision in laparotomy, xl, 260; considerations regarding wounds of liver, xli, 20, 139, 142; extradural hemorrhage, xlvi, 470; excision of carcinoma of the parotid, xl, 257; excision of carcinoma of and portion of rectum, xlii, 272, 277; gastroenterostomy, xlviii, 136; gonorrhœal peritonitis, xxxvii, 619; interscapulothoracic amputation for sarcoma, xlvii, 785; intussusception of small intestine, xlii, 474; multiple keloids, xxxiv, 706; operative treatment of acute abscess of lung, xlvi, 405, 474; of diseases of pancreas, xxxvi, 59; perforated gastric ulcer, xxxvii, 617; perforating ulcer of the stomach, xlv, 772; perineal prostatectomy, xxxvi, 263; remarks on appendicitis, xl, 764; resection of sigmoid flexure in strangulated hernia, xxxvi, 264; rupture of liver, xli, 956; resection of intestine for strangulation by band, xxxvii, 946; rupture of pancreas, xxxvii, 108; rupture of spleen, xlii, 466; subcutaneous rupture of popliteal artery and vein, xlv, 142; sarcoma of ovary, xli, 946; traumatism of abdomen resulting in necrosis of intestine, xli, 137; treatment of tuberculosis of testicle, xli, 780.

Toe, dislocations of, xxxiii, 643.
  Gangrene of, senile, amputation at lower third of thigh, xvi, 174; osteotomy for hammer, viii, 460.
  Stiffness and tenderness of metacarpophalangeal joint of the great, vi, 218.
  Substituted for amputated finger, xxxiv, 447.

Toe-nail, ingrowing, vi, 48; new operation for, l, 936; treatment of ingrowing, with tannin, v, 75.

Tongue (see Glossitis), acute inflammations of, iii, 76.
  Anæsthesia, general, management of, during, xxviii, 282.
  Angioma of, congenital, xxxiii, 659.
  Artificial, x, 194.
  Carcinoma of, x, 270; xi, 119; xxiv, 682; xxx, 652; xxxv, 270; xliii, 318; extirpation of, for, v, 539, xxiii, 193, xxxi, 242; functional results after extensive removals, xliv, 756; inoperable, of the, treated by excision of the external carotid artery, xxxiv, 567; mouth and, xlviii, 481; operative treatment of, xxii, 445; results after excision of, xxix, 359; operations for, xxviii, 766.
  Chancre of, iv, 86, xxii, 353.
  Congenital fistula in, xliv, 715.
  Cyst of, xxvii, 602.
  Epithelioma of, i, 280, xxxix, 814; xlv, 615.
  Excision of, for epithelioma, xliii, 436; excision of half of the lower jaw and half of the, xlv, 305; non-recurrence after excision, xx, 71; with preliminary ligation of external carotid artery, xlix, 862; after ligature of lingual artery, ii, 359, xxxvi, 15; after-treatment of, xx, 231; under anæsthesia produced by sequestration anæmia, xlvii, 124.
  Foramen cæcum, tumor at, xx, 77.
  Hemorrhage from abscess of, v, 64.
  Method of using the, in supplying a defect of the cheek, xlv, 573.

Mouth, and, angioma of, xxxii, 129.
Mucous cyst of dorsum of, ix, 455.
Neoplasms of, operations for, xlv, 553, 630.
Neuralgia of, relieved by stretching lingual nerve, xxiii, 48.
Neurofibromatosis of, xxxvii, 321.
Origin of ranula from the Bochdalek gland tubes of, v, 144.
Psoriasis of, treatment by decortication, xxix, 577.
Rythmic traction of the, in asphyxia, xix, 719.
Sarcoma of, xxiii, 588, xxxix, 956; excision of, for, xxxvii, 273; late results of removal of, xii, 271; non-recurrence after excision, xx, 72.
Surgery of, xvi, 97.
Total extirpation of, by Kocher's method, iii, 523.
Tuberculosis of, in an old man, resembling carcinoma, xxxvii, 53.
Tumors of, fatty, xxv, 201; of, and lips, malignant, etiology and diagnosis of, x, 249; non-malignant, x, 268.
Ulcer, tuberculous, for, excision of, viii, 368.
Review of Book: Cancer of the Mouth and Tongue, by Yesset, v, 90; Results of Operations for Cancer of the Tongue, by Butlin, xxviii, 766.
Tonsil, or tonsils, carcinoma of, primary, xii, 438.
Enucleation of the, l, 797.
Finger-enucleation of, xlviii, 883.
Galvano-cautery in the surgery of, xxvi, 103.
Hemorrhage after excision of vi, 148.
Hypertrophy of, treated by galvanocautery puncture, xiv, 416.
Ignipuncture in hypertrophy of, i, 280.
Lateral pharyngotomy for removal of tumors of, vi, 502.
Malignant disease of, xv, 476, xxxiii, 280.
Palate, and epithelioma of, xxxvi, 259.
Sarcoma of, x, 388; report of removal of, xxvi, 107.
Surgery of, xxvi, 130.
Tonsillar hemorrhage and its surgical treatment, xlvi, 821.
Tonsillary abscess, iv, 336.
Region, lateral pharyngotomy for extirpation of malignant tumors of, iv, 139.
Tonsillitis, cocaine in, viii, 305.
Tonsillotomy, ix, 456; hemorrhage after, ligation of external carotid artery for, xxxiv, 21.
Torek, Franz: Combined operation for the removal of the appendix and the cure of right inguinal hernia, xliii, 665.
Torrance, Gaston: Arteriovenous anastomosis, xlvi, 333; epiplopexy in cirrhosis of the liver with ascites, xxxv, 303; excision of the whole left lobe of the liver for sarcoma, xlvii, 33; perforating wound of the knee-joint, xlix, 402; splenectomy in Banti's disease, with report of a case, xlvii, 41; suture of brachial artery, xl, 107.
Torrey, P. G.: Intravenous infusion of twelve pints of normal saline solution for hemorrhage, xlix, 155.
Torsion fractures of the leg, xxxiii, 93.
Growth of animals, in, iv, 81.
Omentum, of entire great, xl, 916.
Pedicle, of ovarian tumors, of, xix, 440.
Rectal incontinence, for the cure of, xix, 612.
Torticollis, xxxiii, 793.
Congenital, xlii, 123.
Muscular, xxvi, 383.
Operation for, x, 196.
Spasmodic, vi, 64; operative treatment of, xxi, 356, xxxii, 732, xxxiii, 509; resection of nerves for, xli, 768; treatment of, xxxiv, 428.
Spinal accessory nerve for, resection of, xlviii, 152.
Surgical treatment of, xxi, 439.

Traumatic, **xxxiii**, 627, 756, **xxxiv**, 299.
Treatment of, **xxv**, 373.
Townsend, Wisner R.: Dislocations of the semilunar cartilages of knee-joint, **xxviii**, 528; excision of knee for flexure ankylosis, **xxxix**, 285.
Toxicology and Jurisprudence, Manual of Medical, by Chapmann (review of), **xxv**, 119.
Toxins, mixed, successful in treatment of recurrence of sarcoma after interscapulo-thoracic amputation, **xlvii**, 807.
Erysipelas and *Bacillus prodigiosus,* of, Hodgkin's disease treated with, **xlvii**, 127.
Malignant tumors, in the treatment of, **xxvi**, 275.
Mixed, sarcoma treated by, **xliii**, 610; in treatment of recurrent sarcoma, **xxii**, 263, 264, 265; and X-rays, in treatment of sarcoma, **xli**, 770.
Skull, sarcoma of the, in the treatment of, **xxiii**, 177.
Review of Book: Cellular Toxins, by Vaughan and Novy, **xxxvii**, 638.
Trachea, congenital stenosis of, **v**, 70.
Goitre, stenosis of, **i**, 281.
Granulation stenosis of, after tracheotomy, **xii**, 224.
Gunshot wound of, **ii**, 262.
Papilloma of, **xl**, 1012, 1014.
Stenosis of, **iii**, 499; due to adenoma of an accessory thyroid, **xl**, 590.
Tracheal canula, laryngectomy, use of, after, **xlv**, 962; ulceration of, innominate vein from pressure of, **xlv**, 963.
Tracheobronchoscopy, xlvii, 321.
Tracheocele, iv, 235.
Tracheotomy (see also Intubation), **i**, 152, 580.
After-treatment in, **i**, 581.
Air-passages, as preliminary to operations upon, **xxv**, 600, 742.
Child aged one year, in a, **iv**, 336.
Chloroform in, **xv**, 477.
Cicatricial stenosis, followed by, **xiv**, 413.
Congenital stenosis of trachea, for, **v**, 70.
Diphtheria, for, **iii**, 78, 79, 523, **v**, 144; causes of difficulties in dispensing with the tube in some cases of, **vi**, 492; croup, and, in children, condition following, **viii**, 305.
Diphtheritic croup, for, **xvi**, 391.
Dyspnœa, for, due to jackstone in œsophagus, **xxii**, 109, 111; from mediastinal abscess, **ix**, 299.
Exploratory, **iv**, 175.
Extraordinary cases of, **iv**, 439.
Granulation of trachea, followed by, **xii**, 224.
Gunshot wound of trachea, in, **ii**, 262.
Hemorrhage after, violent, **xv**, 324.
Intubation of larynx and, **iv**, 523; and, for diphtheritic croup, relative merits of, **xvi**, 367, 532.
Laryngeal stenosis of tuberculous origin, in, **i**, 144; typhoid fever, from, **iv**, 336.
Laryngotomy, and intercricothyroidean, compared, **xii**, 227.
Leipsic, in, **i**, 97.
Œdematous laryngitis, **v**, 64.
Preliminary to laryngectomy, **xlix**, 865.
Preventive, with tamponade of the pharynx, **xvi**, 390.
Results of, **xvi**, 391.
Three hundred and twenty-seven cases of, **vi**, 253.
Trachea, complicated with calcification of, **xii**, 226; for stenosis of, from fibrosis of thyroid gland, **xxi**, 565.
Tube in the right bronchus, removal of, **iv**, 72; silver, danger in prolonged use of of a, **viii**, 212; sixty days, worn for, **xviii**, 436.
Review of Books: Manual of Tracheotomy, by Renault, **viii**, 75; Tracheotomy in Laryngeal Diphtheria, by Parker, **ii**, 522.
Trachoma, conjunctivo plastics in chronic, **xii**, 439.

Traction apparatus for treating fractures of the femur and for various orthopædic operations, **xlix**, 107.
Transactions of American Surgical Association (review of), **ii**, 433, **v**, 459.
Transactions, Medico-Chirurgical, 2d series (review of), **xlix**, 188.
Transactions N. Y. State Med. Assoc. (review of), **ii**, 433.
Transactions of the New York Surgical Society (review of), **xxvi**, 117, 225, 240, 357, 361, 507, 707.
Transduodenal route, gall-stones, removal of, by, **xxxvi**, 927.
Transfusion and arterial anastomosis, **xlvii**, 486; further observation on—with a note on hæmolysis, **l**, 348.
Blood, of, technic of direct, **xlvi**, 329, **xlix**, 320; modified tube for direct, **xlix**, 115; preoperative, **xlix**, 140.
Hæmophilia treated by, **xlviii**, 625.
Infusion, and, **iv**, 331.
Reinfusion of blood, and, **iii**, 226, 512.
Review of Book: Transfusion and Reinfusion of Blood, by Heineke, **iii**, 182.
Transmissibility of carcinoma, **xii**, 351.
Transplantation, cornea, of, **ix**, 137.
Eyes, of, **iv**, 172.
Fresh pedunculated skin flaps, of, **vi**, 172.
Large skin-flaps to fresh wounds, of, **ii**, 426.
Mucous membrane, of, **ix**, 73.
Rabbit's eye to human orbit, of, **ii**, 505.
Skin, of, **iii**, 247; according to Thiersch, **ix**, 179, 290, 357.
Skin-flap, of, over exposed tendons, **xxxi**, 366; of large, pedicle, **xviii**, 450.
Transposed viscera, case of, **xxix**, 593.
Transuretero-ureteral anastomosis, **xliv**, 687.
Transverse incision, knee-joint, for drainage of, **xlv**, 409.
Transvesical cauterization as a substitute for the Bottini operation, **xxxv**, 836.
Trauma, operation for non-penetrating intracranial, question of, **xlviii**, 25.
Traumatic asphyxia, **xlix**, 751; simulated by stasis cyanosis of epilepsy, **xlix**, 762, 877.
Epilepsy, excision of diseased cortical tissue for, **xxv**, 91.
Epithelial cysts, **xlvi**, 190.
Origin, tumors of, **xxxii**, 853.
Ulcer, stomach, of, **xliv**, 956.
Traumatism, animals, inflicted by, **xxxi**, 431.
Laparotomy for, **v**, 547.
TRENDELENBURG, DR. F.: Extirpation of prostate, **xlvi**, 945; treatment of ectopia vesicæ, **xliv**, 281.
Trendelenburg posture, dangers of, **xxxviii**, 897; in operations on cavities of mouth, nose, and trachea, **xxvi**, 96; table, **xxi**, 292; value of the, for suprapubic cystotomy, **xxviii**, 249.
Trepanation, cerebral disease, for, **xv**, 467.
Trephine button, bone, of, reimplantation of, **viii**, 155, 266.
Note on construction of, **ii**, 65.
Openings in the skull, closed by gold-foil, **xxv**, 636.
Osteoplastic, a new, **xxxvii**, 772.
Skull, for osteoplastic resection of the, new, **xxxvi**, 76, 152.
Trephining (see also Brain, Cranium, Skull), **ii**, 502, **xl**, 113, 115, 350.
Abscess of brain, for, **xix**, 542.
Aphasia and cerebral abscess, for cure of, **xii**, 216; following injury to skull, for, **xxx**, 325; motor, for, **xxxvi**, 82.
Brain, for abscesses of, **viii**, 241, 261, 283, **xxvi**, 240; tumors, for relief of pressure from, **xix**, 685, **xxxii**, 855; value of, as a palliative measure in tumors of, **xlv**, 543.
Cases of, **x**, 267.
Cerebrum, for fibroma and cysts of, **xxxvii**, 276.
Cervical vertebræ, of, exploratory, **iii**, 490.
Cortical, followed by brain

abscess, xxx, 326; sclerosis, for, xxxvii, 274.
Cranial defects, for. xiii, 454.
Curative effect of, *per se*, xxxv, 618.
Egg-membrane in, use of, xxviii, 455.
Epilepsy, for, xiv, 406, 407, 408, 409, xvii, 91, xix, 544, 616, xxiv, 122, xxvi, 228. 234, xxx, 324, xxxi, 364, 497, xlix, 707; for focal, xxv, 209; from old fractures of the skull, iv, 71; Jacksonian, xvi, 409, xxxviii, 898, xxxix, 607; for, results of, xlii, 937; for traumatic, xviii, 71, xxi, 316, xxv, 91, 737, xxvii, 670, xxviii, 131, xxxviii, 783; hemorrhage from, fatal, xxxviii, 487; after fracture of the base of the skull, for, xviii, 465; for subdural, xix, 540, xxii, 798.
Ilium for draining pelvic abscesses, iv, 351.
Intracerebral cyst, for, xxvii, 770.
Intrameningeal hæmatoma, vi, 251.
Lever and fulcrum for, xxv, 763.
Mastoid process, new method of, ix, 371.
Middle meningeal hemorrhage, for, 232, 512.
Paralysis of uncertain origin, for, xiv, 404.
Resection, temporary, of the cranial wall as a substitute for, xi, 221.
Rubber tissue, with subdural implantation of, xxv, 95.
Skull, in fractures of the base of the, xxix, 354; results of, for fractures of, xxxiii, 323; traumatic lesions of, for, ix, 370.
Transplantation, subdural, of rubber tissue following, xxii, 385.
Traumatic aphasia followed by hemiplegia, for, iv, 169.
Ventricle, for hydatid cyst of, xiv, 402.
Reviews of Books: Antiseptic Practice and Trephining, by Seydel, vi, 287; Lever and Fulcrum for Trephining, by Hopkins, xxv, 763; L'operation du trépan, Ferrier et Péraire, xxiii, 496; Trephining in its Ancient and Modern Aspects, by Horne, xx, 124.
Treves, Frederick: Method of treating compound fracture, xvii, 140; reunion of colon by simple suture, after exsection, xviii, 83; treatment of tuberculous peritonitis, xix, 619.
Trichinous infection of a carcinoma of the lip, xlvii, 332.
Trifacial nerve, foramen ovale, resection of third branch at, xi, 116, 118; neuralgia, exsection of second branch of, for, xxiv, 501; relieved by intracranial neurectomy, xvii, 511; neuralgic affections of, pathology and treatment of, xvii, 711; third branch of, reached at foramen ovale by retrobuccal method, xvii, 613.
Neuralgia, Gasserian ganglion for, excision of, xxxiii, 683; intracranial neurectomy for, xxi, 296, 510, xxxv, 404; and interposition of rubber tissue for relief of, xlv, 961; surgical treatment of, xlv, 649.
Pathology of, xxxiii, 696.
Trigeminal nerve, intracranial resection of, xxiii, 58, 69, 119; operation for exposing third branch in the zygomatic fossa, xv, 317; neurectomy, neuralgia of, for. xv, 386.
Resections, intracranial, results of, xxiv, 92, 575, 736.
Trigeminus, cranial cavity, resection within the, xvi, 384.
Trigger finger, case of, xxxvi, 588; mechanism of, iv, 444.
Trigonal pouch, vesical calculus, in the surgery of, xv, 73.
Trocar, self-retaining, xliii, 913.
Trochanter, epiphyseal separation of great, xliii, 754; isolated, xlvi, 292.
Trough-suspender-forearm sling, xlvii, 274.
Truss, hernia, inguinal, worsted, in, xxxiv, 523.
Tubal pregnancy, vi, 95, ix, 151, xxxv, 430; appendicitis, complicated by, xxxi, 254; causing intestinal obstruction,

xlix, 271; intraligamentous, ix, 472; rupture, hemorrhage, laparotomy, recovery, xvii, 210.

Stenosis and rupture of thoracic duct, ii, 418.
Strictures, intestines, of, xxvi, 393.
Tubercularization of wounds, iii, 156.
Tuberculins, tuberculo-opsonic index, and, xlvi, 597.
Tuberculo-opsonic index, xlvi, 644.
Tuberculosis, xv, 49.
Abdominal muscle, of, xxxii, 734.
Amputation of forearm after inoculation, iv, 424; for joint disease in coexisting lung, v, 101.
Antitubercular action of iodoform in, vi, 445.
Appendix vermiformis, of, xxxiv, 790.
Bacteriology of, iv, 57.
Bladder, of, xi, 290, xlv, 249, 388, 597, xlix, 785; permanent suprapubic drainage for, xxxvi, 426; relative value of operative and hygienic measures in, xxii, 205, 512; of operative and hygienic measures in, xxii, 205, 512; treated by permanent suprapubic drainage, xxxiii, 331; urinary, suprapubic cystotomy for, xv, 397.
Bone, of, xi, 70, 73, xvi, 284, xxxv, 287; closure of sinuses and abscesses complicating, xxviii, 516; experimental production of typical, iv, 79; Billroth's operative treatment, xvi, 582; comparison between conservative and operative treatment of, xii, 455; of, treatment in parenchymatous and intra-articular injections, xv, 1; joints, and, xxii, 412.
Brain of, successful extirpation of, xxiv, 652.
Breast, of, xx, 153, xxv, 86, xxxii, 604; xlii, 118; primary, xxxvii, 510.
Cæcum, of, xlvi, 763; primary, of, xlvii, 635.
Carpus, of, xxxiii, 58.
Castration for, double, xlvii, 292.
Cervical lymph-nodes, of, removal of, xxix, 355; surgical treatment of, xlii, 49.
Cinnamic acid, treated by, xix, 102.
Diagnosis of, xxix, 260.
Elbow, of, xviii, 108; arthroplasty, xlvi, 617; resection for, xxxiv, 431, xxxvi, 787, xlviii, 457.
Epididymis and testicle, surgical treatment of, xlix, 800.
Exsection of knee joint for, vi, 318.
Femoral, of, inguinal, and lymph-nodes secondary to foot wounds, xxxvii, 746, 782. 37
Femur, of, hip-joint amputa-

tion, xxxvii, 456; hip-joint exarticulation for, xxxv, 813.
Foot, of, xxvi, 518; of the bones and joints of, xxxii, 859.
Genitals, of, xxxiv, 601; male, of, xxxvii, 152; tract, of, xxxii, 606.
Genito-urinary tract, of, i, 369; male, xx, 396.
Glands and importance of early operations, of, ii, 71.
Herniæ, of, xvii, 101, xxv, 377.
Herniosa, xxxiv, 787.
Hip-joint, of, xvi, 479; xviii, 110; of the, results of conservative treatment of, xx, 582; knee-joints, and, in children, of, operative treatment of, xv, 146.
Ileocæcal region, of, resection of, xxxix, 1010; value, of, xxxiv, 205.
Ileum, of, resection, xxxv, 806.
Intestine, of, xviii, 579, xxxvii, 106; resection of, xxi, 119.
Intrathoracic, surgery of, xxiv, 541.
Joints of, xi, 153; bursæ, and tendon sheaths, formation of rice bodies in, xxv, 787; resection for, xxiii, 181, 188; treatment of, in the Breslau clinic, xxix, 393; value of resection in, xxviii, 256.
Kidney, of, xxiv, 496, li, 120; bladder, and, of, xxvii, 368; cases of, at the Roosevelt Hospital, xxix, 226; incision for, xxvi, 239; nephrectomy for, viii, 226, xxix, 609, xxxi, 749, xxxiii, 478, xxxv, 638, xxxvii, 605; operative treatment of, xii, 377; results of operations for, xxxvi, 515, xlvii, 1022, 1024, 1054; results of surgical treatment of, xxxii, 461; specimens, xxix, 496; surgical treatment of, xxxvi, 310; ureter, and, nephrectomy for, of, xlviii, 144.
Knee in an adult, of, excision of, xxviii, 646; final results of, xix, 503; results of resection in adults, xiii, 120; treated by resection, xxxix, 131.
Knee-joint, question of operation in, iii, 176; resection, xl, 125.
Lesions of, new method of treating, ix, 353.
Lime treatment of localized, viii, 226.
Liver, of, excision of, xxxix, 98.
Localized, the immediate and remote results of operation for, xi, 239.
Long bones, of the diaphysis of, xxxi, 128.
Lupus vulgaris and, iv, 514.
Lymphatic glands, superficial, of, xxiv, 669.
Lymph-nodes, of the cervical, xxix, 559, 613; retroperitoneal, xxxvi, 273.
Lymph-vessels of the extremities, of, xxvi, 731.
Mammary gland (see Breast), of, iv, 159; gland, of, xxviii, 685.
Meninges and brain, of the, surgical intervention, xliii, 161.
Nephrectomy for, xlvii, 448; under spinal cocainization, xxxiv, 434.
Olecranon bursa, of, xlii, 118.
Paris congress on, x, 67.
Parotid gland, of, primary, xxxvi, 945.
Pelvis, of, xxiv, 374.
Peritoneal, xlvi, 95; surgery of, xlvi, 145.
Peritoneum, of, xi, 125, 131, xxv, 737, xxxiii, 208; cured by laparotomy, of, xvii, 618; incision, by, treatment of, vi, 71; palliative incision for, vi, 504; pathology, and diagnosis of, xxxiv, 765; pleura, and of, cured by operation, xxviii, 255; pseudo-, xliii, 359; treatment of, xix, 619; woman, in, xlii, 755.
Prostate, of, xviii, 587.
Pulmonary, improved by excision of hip, iv, 450.
Renal (see Kidney), a contribution to the diagnosis of, xlvii, 10; nephrectomy for, xxix, 611, 754, xliv, 625; remote results after operations for, xxvii, 14, 84; very early form of, revealed by nephrectomy, l, 879.

Resection of ileocæcal coil for, **xlv**, 783.
Retroperitoneal glands, of, **xxxvii**, 620.
Sacro-iliac joint of, **viii**, 407, **ix**, 35, 115.
Sclerogenic, Lannelongue's method in, results of, **xxvii**, 251.
Scrotum, of, primary, **v**, 430.
Seminal vesicles, extirpation of, **xi**, 383; testis, and, **xxxiv**, 306.
Sequestra, with large clicking, **xxii**, 807.
Skin, of the, caused by vaccination, **xi**, 470; due to direct injection, localized, **viii**, 478.
Spine, of, **xlii**, 514.
Suprapubic cystotomy for cystitis from, **ix**, 314.
Surgical, **iv**, 159, **xiv**, 296; observations in its treatment by congestive hyperæmia, **xx**, 479, 480; procedures designed for the relief of pulmonary, **l**, 441; results of Lannelongue's sclerogenic method in, **xxvii**, 251; standpoint from the, **i**, 273; treated by boiling water, **xviii**, 234; by exhaust dry cupping, **xliv**, 734; by formalin-glycerin injections, **xxx**, 747; by hot water, **xxii**, 521.
Synovial, **iv**, 265, 427.
Tendons, of, **xviii**, 384.
Tendon-sheaths, of, **xxxiv**, 577.
Testicle, of, **x**, 169, **xli**, 745, 778, 780, **xlv**, 918; castration for, **vi**, 54; primary, **ix**, 387; epididymis, and, resection of **xxx**, 649.
Testis, of, **xxxiv**, 574, **xxxvi**, 309, **xlvii**, 290.
Thigh, of, complicating sarcoma, **xlii**, 311.
Thorax-wall, pleura, and lung, of, treated by resection, **xii**, 366.
Thyroid gland, of, **xviii**, 468.
Tibia, of, **xxxix**, 277.
Tibiotarsal joint, of, **xlvii**, 810.
Tongue, excision of, followed by acute miliary, **viii**, 368; in an old man, **xxxvii**, 53.
Treatment of, **xxxiv**, 771, 839.
Typhoid bacillus, intracranial, abscess due to, **xlvii**, 4.
Urinary tract, of the female, **xxxviii**, 524.
Uterus and Fallopian tubes, of, **xxviii**, 468.
Vas deferens and seminal vesical, of, **xxxii**, 567.
Vertebra, of cervical, and by trephining, **xxxii**, 607.
Vertebral laminæ and spines, primary, of, **xix**, 597.
Wounds, treatment of, after operations for localized, **xxxv**, 534.
Wrist, of, **xxvi**, 517; resection for, **vi**, 52; tendon sheaths of, **xxxvi**, 134.
Wrist-joint, of the, Bier's method for, **xxxviii**, 106; iodoform treatment of, **xxix**, 394; relation of the os magnum to, **xxxii**, 278.
Reviews of Books: Abdominal Tuberculosis, by Maylard, **xlix**, 582; Behandlung der tuberkulosen Wirbelsaulen-entzundung, by F. Calot, **xlvi**, 963; Tuberculosis of the Bones and Joints, by Koenig, **i**, 284; Tuberculosis of the Bones and Joints, by M. Senn, **xvii**, 114; Tuberculosis of the Testis, **vii**, 477; Tuberculosis of the Vertebræ, by Calot, **xlvi**, 963.
Tuberculous abscesses, iodoform, treated by, **x**, 146.
Bursitis, hips, of the, bilateral, **xlvi**, 919.
Diseases, bones and joints, of the, complicated by suppuration, management of, **xvii**, 423, 498; excision of bones of tarsus for, **iv**, 293.
Epididymitis, **xvii**, 430.
Glands, of neck, subcutaneous excision of, **xxxviii**, 901.
Hip-joints, Poore's contributions to the statistics of operations upon, **xv**, 454.
Joints, congestion, passive, in the treatment of, **xvii**, 495; -abscesses, iodoform injections, treated by, **xii**, 271, 450; disease, **iv**, 144.
Knee-joint disease, **iv**, 427.
Ostitis of the flat bones of cranium, **iii**, 413.

Peritonitis, intestinal, treatment of, xxx, 253.
Septic conditions and, of the kidney, diagnosis and prognosis of, xlviii, 88.
Strictures, bowels, of the, and their treatment, xvii, 98.
Surgical affections, i, 233, 466, ii, 310.
Synovitis of tendinous sheaths of wrist and hand, iv, 444.
Tendo-vaginitis, i, 564.
Treatment of joint-disease, i, 488.
Vesicovaginal fistula, xii, 316.
Tuberosity of humerus, fracture, nailed into place after, xlv, 938, 968.
Tubingen clinic, three hundred operations for goitre, in the, xxv, 374.
TUFFIER: Cystorrhaphy for cystocele, xv, 497.
Tumor (see also Adenoid, Adenoma, Aneurism, Angioma, Atheroma, Bursa, Cancer, Carcinoma, Chondroma, Cerebral Compression, Cyst, Enchondroma, Exostoses, Epithelioma, Fibroid, Fibroma, Fibrosarcoma, Glands, Goitre, Gumma, Hernia, Hydatid, Hydrocele, Leukoma, Lipoma, Malignant, Myoma, Neuroma, Ovary, Ovarian, Osteoma, Pancreas, Pyosalpinx, Sarcoma, Thyroid, Tracheocele), abdominal, rapid growth of myxosarcomatous, iv, 448, 458, 459; abdominal suppurating, laparotomy for, vi, 41.
Anterior part of neck, of, aërial, iv, 431.
Arsenical treatment of malignant, iv, 271.
Bacteria in, x, 217.
Bladder, urinary, of, iv, 208, viii, 479; partial resection of, for, ii, 426; removal of, ii, 83.
Brain, of, iv, 499; condition of, in, iv, 510; diagnosis and operation for, of, viii, 261, 286; extirpation of extensive, xvi, 378; removal of, iii, 416, iv, 171, 499; trephining for, v, 506, ix, 161.
Branchial cleft, of, viii, 130.
Breast, of, ix, 376, 457.
Carbonate of lime for arresting growth of cancerous, vi, 249.
Carcinoma and, formation, review of Williams on, viii, 238.
Cavernous, iii, 516.
Cerebral, removal of, xi, 113.
Cerebrum, of, fresh points in the operative treatment of, xix, 724.
Cervix uteri, of, fibroid, iii, 361, 443.
Chest, of the, resection of thoracic wall for large, ii, 413.
Classification of, new, vi, 232.
Clinical groups of, iv, 356.
Coccygeal, viii, 479.
Congenital of childhood, xxx, 600.
Contributions to the pathology of, iii, 95.
Cranium, of, communicating with superior longitudinal sinus, blood-, v, 355.
Cured by operative treatment, iii, 438.
Cystic, of jaw, ii, 343; of popliteal space, i, 483.
Early diagnosis of, x, 387.
Endocranial myelogenous, of the skull, xviii, 572.
Erysipelas, curative effect of, upon, x, 146.
Etiology of, xxvii, 401; of malignant, ii, 450.
Exploratory incision in abdominal, ii, 418.
Fauces, of, malignant, iv, 388.
Fibro- or spindle-celled sarcomatous, iv, 547.
Fibroid of the uterus, xvi, 74.
Fibrous, peculiar form of, i, 423.
Groin, of the, congenital, xliii, 718; glandular, v, 11.
Head, of, iv, 68.
Inoperable malignant, treatment of, by bacterial products, xxiii, 111.
Kidney, of, retro- and intraperitoneal incision for, iv, 445.
Knee-joint, of, fatty and sarcomatous, iv, 359.
Lower jaw, removal of cystic, vi, 126.

Malignant, etiology and diagnosis of, **x**, 249.
Median nerve, of the, **xxxii**, 609.
Nasopharyngeal, removal of, **ix**, 374.
Neck, of, **v**, 68; congenital, **xvi**, 271.
Nose, of, bony, **v**, 502.
Pancreas, **v**, 339.
Parotid, of the, **xxxi**, 732.
Pathology of, **ii**, 340, **iv**, 272.
Recent contributions on, **vi**, 409.
Retroperitoneal, **v**, 258.
Rôle of parasites in the development of certain, **iv**, 352.
Scarpa's triangle, of, extirpation of, **iv**, 274.
Stomach, of the, ball-valve, **xlv**, 130.
Syphilitic metatarsophalangeal, **viii**, 65.
Temporal region, of the, aneurismal, **ii**, 251.
Tonsillar region, of the, lateral pharyngotomy for extirpation of malignant, **iv**, 139, **vi**, 502.
Traumatic origin of, **xxii**, 129, **xxxii**, 853.
Typhoid fever, periostitis during and after, **ii**, 345.
Upper jaw, of, malignant, **vi**, 471.
Uterus, of, myofibromatous, **iv**, 305; pelvic abscess simulating soft fibroid, **iv**, 455.
Reviews of Books: Abdominal Tumors, by Spencer Wells, **ii**, 274; Cases of Abdominal Cystic Tumor in the Male, by W. Joseph Hearn, **xxv**, 703, 759; Innocent and Malignant Tumors, by Bland-Sutton, **xx**, 120, **xxxv**, 113, **xlv**, 480; Microscopical Diagnosis of Malignant Tumors, by Hansemann, **xxvi**, 149; Observations on Ovarian Tumors, by A. Doran, **i**, 187; Origin of Tumors, by Ribbert, **xxiii**, 75; Pathology and Surgical Treatment of Tumors, by Senn, **xxiii**, 246; Recent Contributions on the Subject of Tumors, by Koplik, **ix**, 476; Treatise on Tumors, by J. Bland-Sutton, **xxxviii**, 932; Tumeurs malignes primitive de l'intestin grêle, by Le Ceve, **xli**, 155; Uterine Tumors, by Gusserow, **iii**, 185.
Tunica vaginalis (see Hydrocele), chylocele of, **viii**, 321; large accumulation of fat in, **iii**, 365.
Fibromata of, **xxxix**, 396.
Hydrocele, as a remedy for, eversion of the, **xxxiii**, 305.
TUNIS, JOSEPH P.: Rhinoplasty, case of, **xxv**, 187.
Turbinated bones, cystopneumatic degeneration of middle, **xii**, 63; inferior ethmoidal, anatomy of, **xxxviii**, 233.
Body, cysts of the middle, bony, **xxxvi**, 109.
TURCK, FENTON B.: Spasms of intestines, after their exposure by operations, **xxxiii**, 500.
TURCK, RAYMOND C.: Hepatic-duct stones, **xxxvii**, 539; interlocking suture, **xlviii**, 837.
TURNER, THOMAS T.: Fractures of the head and neck of the radius, **xlvi**, 280; ligation of both common carotid arteries, **xl**, 669; Ludwig's angina, **xlvii**, 161, 335, **xlviii**, 788.
TURNER, WILLIAM K.: Ureteral anastomosis, **xxxiv**, 816.
Turnip-plates, gastro-enterostomy by means of, **xvi**, 437.
Twine, gastro- and entero-enterostomy, triangular stitch for, **xli**, 914.
Tympanites, relief of, by posture, **xxiii**, 268.
Typhilitis (see Appendicitis), **ix**, 96.
Non-appendical origin of, **xxvii**, 786.
Operation for relapsing, **viii**, 218.
Perforating, **xlix**, 425.
Primary, without appendicitis, **xlv**, 852, 963.
Relief of relapsing, by operation, **xviii**, 93.
Typhlotomy, temporary, for relief of obstruction of large intestine, **xvii**, 753.

Typhoid fever, appendicitis, complicated by, **xlii**, 611.
Bacillus, intracranial abscess due to, **xlvii**, 4; suppurative, due to, **xxxvi**, 455; tuberculosis, intracranial abscess, due to the, **xlvii**, 4.
Bones, diseases of, in, **xix**, 748, **xxii**, 623; complicated by, **xxi**, 233.
Bowel, perforation of, simulated by acute gangrenous appendicitis in, **xlii**, 738.
Cholecystitis, complicated by, **xxxiii**, 68.
Ectopic pregnancy, ruptured during, **xlvi**, 321.
Hip, dislocation of, consecutive to, **xxiii**, 212.
Ileum, double perforation of, and perforation of gall-bladder, in **xlv**, 34.
Infection, mixed in, **xiv**, 491.
Intestinal perforations in, **xxxvi**, 735, **xxxix**, 8, 118; of small, **xxxvi**, 622; laparotomies, three unsuccessful, for, **xxxviii**, 63, 127; surgical features of, in children, **xxxviii**, 71; surgical intervention for, **xxxiii**, 544.
Intussusception, complicated by, **xxxix**, 604, **xlix**, 111.
Œsophagus, stricture of, sequel to, **xlii**, 144.
Operation during preperforative stage of, **xxxiii**, 645.
Perforations, **xliii**, 446, 935, 941; diagnosis and treatment of, observations on, **xliii**, 652; ileum, of, **xlii**, 927, **xlviii**, 133; operations for, **xli**, 284; multiple, in, recovery after repeated operations, **xlix**, 392.
Stenosis of larynx, after, **iv**, 336; of stomach, complicated by acute dilatation of, **xlviii**, 678.
Ulcer, ileum, of, perforating, laparotomy for, **xxiii**, 596; intestine, of, perforating, recovery after operation, **xxxiv**, 176; operation for perforating, **viii**, 219; perforating, **xxxi**, 764; case of, laparotomy for, **xxvi**, 707; operation for, **xxviii**, 144; for suture of, **xxix**, 503; recovery after laparotomy and suture, **xxi**, 362, **xxiv**, 764; surgical treatment of, **xxv**, 233.
Ulceration, intestinal suture for perforating, **v**, 359; œsophagus, of, causing stricture, **xxxix**, 683.
Wrist, suppuration of, as sequel to, **xxxii**, 135.
Typhoidal appendicitis, perforating, **xliv**, 308.
Perforation, cases of, three, **xxxvii**, 287; fistula following, **xli**, 288; gall-bladder, perforation of, primary, **xxxvii**, 878, 935; intestinal perforation, suture of, **xxxvii**, 380; perforating, **xxxvii**, 283; operative treatment of, **xxxix**, 123; recovery from, after operation, **xxvi**, 210; ribs, of, **xxxvii**, 253; spleen, hemorrhage from, **xxxvii**, 288.
Osteomyelitis, **xxxiv**, 181.

U

Ulcer, crateriform, **iv**, 357, **vi**, 77.
Duodenal, successful excision of, **xix**, 241.
Flaps transplantation for, **iv**, 78.
Foot, of, perforating, **ii**, 154.
Gastric, effects of gastro-enterostomy in, **xl**, 435; perforating, **xlviii**, 132; surgical treatment of, **xliv**, 907, 952, 954.
Intestines, of, perforating, **ix**, 59, 95.
Jejunal and gastrojejunal fol-

lowing gastrojejunostomy, **l**, 367.
Leg, of the, ambulant treatment of, **xliv**, 792; cured by carbolized spray, **v**, 283; treated bv incision, **x**, 145, 216.
Pathology of rodent, **ii**, 336.
Perforating cutaneous, from neuritis, **xi**, 147; duodenal, **xlviii**, 464; spina bifida, and, perforating, **viii**, 56.
Rodent, pathology of, **ii**, 336; treatment of, **viii**, 101.
Subiodide of bismuth for, **iv**, 545.
Surgery of, **vii**, 66, 137, 311.
Transplantation of large strips of skin for cure of, **x**, 144.
Typhoid, treated by laparotomy and suture, **v**, 359, **viii**, 219.
Review of Book: Surgical Treatment of Gastric and Duodenal Ulcers, by Moynihan, **xxxviii**, 466.
Ulceration, chronic, carcinomatous changes in, **xxxvii**, 496.
Ullman's improved method for intestinal anastomosis, **xxv**, 230.
Ulna, bilateral wrist deformity due to osteitis of radius and luxation of the, **l**, 500.
Elbow-joint, excision of, olecranon sutured to lower end of, **v**, 75.
Detachment of carpal epiphysis of, **x**, 150.
Fracture of the coronoid process of, **xxiii**, 448; by indirect force, **ii**, 159; of styloid process of, complicating fracture of lower extremity of the radius, **xxviii**, 651; of upper and with dislocation of head of radius, **xvi**, 465; in upper third, **iv**, 262.
Sarcoma of the, **xlv**, 768.
Tuberculosis of, **xxviii**, 468.
Ulnæ, congenital dislocation of both, at the wrists, **xxxviii**, 119.
Ulnar nerve grafted upon median, **iv**, 161; recurrent dislocation of, operative treatment of, **xxxviii**, 652; secondary suture of, **v**, 256, **xlii**, 315; and median, suture of, **iv**, 161; suture of divided, with functional recovery, **xix**, 91.
Paresis from shot wound of arm, **xxv**, 477.
Umbilical cord, hernia of the, **xlix**, 559.
Large congenital hernia of, treated mechanically, **xxii**, 272.
Hernia, **vi**, 193, **xix**, 737, **xlix**, 565.
New-born infant, in a, laparotomy for congenital, **viii**, 317.
Omphalectomy for strangulated, **viii**, 217.
Operation for, **xxxix**, 132, 1003, **xlvii**, 625; non-strangulated, **v**, 374; radical cure of, **xxxiv**, 276; pregnant woman, in a, strangulated, **iv**, 442; radical cure of, **xxxii**, 663, **xxxviii**, 118, **xliii**, 760; child, in a, with preservation of the navel, **xlvii**, 306; radical operation for, **xliv**, 776; spontaneous external rupture, with, **xii**, 230; strangulated, **xlii**, 461.
Ring, minute changes in the formation of, **xiii**, 153.
Wounds, tetanus from, **ii**, 88.
Umbilicus, dermoid tumor of, **xv**, 394.
Malignant disease of, **xv**, 326.
Vascular tumors of, **vii**, 66.
Ununited fracture of forearm, **xxxiv**, 416.
Neck of femur, union of, by open operation, **xl**, 561, 606.
Tibia, of, **xxxiv**, 431.
Upper extremity, amputation of entire, **xxi**, 715, **xxvi**, 734; failure of development of, **xxxvi**, 787; removal of, with scapula and clavicle, case of, **xxii**, 736.
Urachus, abnormalities of, **v**, 107.
Cysts of, **xiv**, 337, **xliv**, 529; enormous, **xlvi**, 230.
Fistulæ, **xxxii**, 736.
Laparotomy for congenital cyst of, **ix**, 227.
Uraniscoplasty, ureter of a child, blocked by stone, hydronephrosis resulting, **xxvii**, 643.
Uranoplasty, **xxv**, 765, 766; early, functional results of, **xviii**, 467.

Review of Book: Uranoplasty, by Brandt, **viii**, 479.
Uranostaphylorrhaphy, a method for, **xxxvi**, 560.
Ureter or **ureters**, abnormal implantation of, causing hydronephrosis, **xlix**, 256.
Accidental wound of, treated by ureterocystostomy, **xxxix**, 755, 821.
After section, implanted into bladder, **xxi**, 224.
Anastomosis of divided, **xix**, 70; experiments in, **xxv**, 378.
Best method of collecting urine from, **xxxii**, 149.
Boari's method of implantation of, into bladder, **xxxi**, 37
Calculus in, **xxi**, 214, **xli**, 764, **xlii**, 456, **xliii**, 733, **xlv**, 767; diagnosis of obscure cases of, **xlv**, 905; diagnosis of obscure cases by aid of Röntgen rays, **xxxi**, 163, **xxxiii**, 435; double, with pus dilatation of one member, **xxxvi**, 607; extirpation of, **xii**, 441; extraperitoneal extirpation of, followed by nephrolithotomy, **xxiv**, 196; impacted, in, **xxxvi**, 779, **xii**, 74; obstructed by, **xlix**, 841; operative treatment of, in the pelvic portion of, **xlvi**, 793, **xli**, 132; phantom, **xlv**, 317; producing hydronephrosis, **xlii**, 265; removed by inguinal incision, **xxxv**, 519; by suprapubic cystotomy, **xxv**, 518; per urethram, **xxx**, 100.
Case of implantation of, into bladder, **xxiii**, 337.
Catheterism, **xxxvii**, 22, **xviii**, 245; male, **xxii**, 406, **xxvii**, 71, 475.
Contribution to experimental surgery of, **xxi**, 220, **xxvi**, 314.
Cystic dilatation of, **xxix**, 322.
Cystoscope for catheterizing the, **xlix**, 218, 225.
Displacement of, with resection of the bladder, **xxv**, 663.
Disturbance of, due to irritation of inflamed appendix, **xxv**, 187.
Double, **xxxiii**, 39, **xxxiv**, 581.
Excision of kidney for ruptured, **ii**, 85.
Exposure of, **xxxvi**, 464.
Fibrolymphosarcomata of both, metastatic to a primary lymphosarcoma of the anterior mediastinum of thymus origin, **l**, 901.
Implantation of cut, into bladder, **xix**, 696, **xxiv**, 767, **xxx**, 513, **xvi**, 193.
Inguinal hernia, in, **xxxix**, 1017.
Injury of, during hysterectomy, **xlix**, 560.
Kidneys, and, functioning of, as a means of surgical diagnosis, **xxxvi**, 800; single, with two, **xliii**, 955.
Landmarks in the, **xxxvi**, 850.
Lower, stone in the, **xl**, 943.
Male, catherization of, **xix**, 121.
Operations on the lower ends of the, **xli**, 216.
Rectal implantation of, **xxxviii**, 445.
Renal catheter as an aid in the diagnosis of valve-like obstruction of the, **xlvi**, 870.
Repair of wounds of the, **xxvii**, 46.
Resection of, **xvi**, 453; of vesical end of, for tumor of the bladder, **xx**, 78.
Results of occlusion of, **xviii**, 402.
Right-sided, calculus complicating chronic appendicitis, **xlvii**, 809.
Stricture of, leading to hydronephrosis, **xxix**, 320.
Surgery of, **viii**, 223, **xx**, 275; lower, of the, **xxxvii**, 668.
Suture of cut, with recovery, **xix**, 757.
Technic of catheterization of, in the female, **xxii**, 650.
Total ablation of, after nephrectomy, **xviii**, 102.
Total extirpation of, after nephrectomy, **xxvi**, 361.
Transperitoneal examination of, in cases of ureteral calculus, **xliii**, 743.
Transplantation of, **xxxv**, 638; into rectum for exstrophy of the bladder, **xli**, 470; into a vesical pouch, **xx**, 183.
Traumatic rupture of, **xix**, 513, **xli**, 127.

Tubercular infection of the, by catheterization, xxxi, 750.
Tuberculosis of, complicating tuberculosis of kidney and bladder, xxxviii, 525.
Valve formation in the, xxxvi, 463, 528.
Valvular stricture of, causing hydronephrosis, xviii, 658.
Wound of the, during hysterectomy, xli, 126.
Reviews of Books: Diseases of the Ureter and Kidney, by Morris, xxxviii, 155; Inoculation of Ureter with the Intestine, by Chaput, xx, 193; Surgery of the Ureters, by Glantenay, xxii, 538.
Ureteral anastomosis, xliv, 687; case of, xxxiv, 816.
Calyces, pelves, and ureters, paraffin casts of, xxxviii, 375.
Catheterization, xxx, 661.
Fistula, treatment of, xviii, 603; after vaginal hysterectomy, xviii, 600.
Implantation, xxxii, 165; in connection with bladder resection, to be substituted by nephrectomy, xlii, 805.
Obstruction, nephrotomy for, xlix, 713.
Occlusions, indigo-carmin test as an aid in diagnosis of, xliv, 553.
Renal calculi, and, observations on, xlix, 670, 718.
Ureterectomy, xxxiv, 579.
Ureteritis cystica chronica, xlvi, 233.
Ureterocystotomy, xxii, 410.
Ureterolithotomy, case of, following nephrectomy, xxi, 29, 75.
Combined intra- and extra-peritoneal, xliii, 743.
Transperitoneal, xxii, 363, xxxii, 843.
Ureterostomy, xix, 70.
Double lumbar, xlvi, 952.
Left—and right nephrostomy for hydronephrosis due to ureter obstruction due to bladder tumor, xlvii, 287.
Ureterotomy, diagnostic, xxi, 614.
Uretero-ureteral anastomosis, xxv, 51; for traumatism, xxix, 593.
Uretero-uterine fistula, xii, 316.
Urethra (see Gonorrhœa, Stricture, Urinary), bacteria in the, xxix, 684.
Calculus impacted in, ii, 332, xxi, 712, xxii, 655.
Cyst of the prostatic, l, 922.
Deep, contribution to the surgery of, xl, 555.
Electrolysis in stricture of, iv, 156, v, 85, 165, ix, 67.
Endoscopy of, and bladder, xi, 138, 473.
Female, carcinoma of, xix, 461; genesis of malformations of, xix, 741; multiple calculi in, xix, 91; primary cancer of, xl, 76.
Fistula between rectum and, ix, 468.
Foreign body in male, viii, 51, 52.
Histological changes in chronically inflamed, ix, 385.
Injuries of, treatment, x, 308.
Inversion and prolapse of female bladder through, viii, 463.
Length of male, v, 84.
Primary carcinoma of the bulbous, xxxix, 375.
Prolapse of female, xii, 151.
Prostatic, compressed by tumor of ischium, xix, 468.
Repair of, by transplantation of the urethra of animals, xl, 387.
Restoration of perineal portion of, after destruction by fracture of the pelvis, xlix, 86.
Results obtainable in the treatment of dense, tight, deep lying strictures of the, xxxiii, 79.
Rupture of, vi, 32, xxxix, 1014; of spongy, vii, 63.
Saccular dilatation of, iii, 92.
Stricture of, vii, 228; relieved by the string saw, xix, 744; rupture and extravasation of urine, xxxv, 816.
Subcutaneous division of stricture of, iv, 533.
Technic and after-treatment of external section of, viii, 54.
Traumatic rupture of, xxvii, 83.
Treatment of injuries to, xi,

295; results, and, of injuries of, xii, 77; some chronic forms of suppuration from male, iii, 432.
Vesical tumor removed through the, xii, 390.
Wheelhouse's method, treatment of stricture of, by, viii, 167.
Reviews of Books: Diseases of the Male Urethra, by Stewart, xxvi, 410; Surgery of Urethra, Bladder, and Prostate, by Rochet, xxii, 541; Stricture of the Urethra, by Distin-Maddick, vii, 228; Traumatisms of the Male Urethra, by Wasiliew, xxxiv, 327.
Urethral arthritis, v, 173.
Calculi, iii, 435, xxxvi, 779; case of, x, 207; primary, xli, 242.
Fever, iv, 20.
Fistula, operation for, xvi, 462; non-urinary, i, 374.
Instruments, apparatus for sterilization of soft, xxiv, 226.
Stricture, deep, radical cure of, x, 309; treatment of, iii, 91; by electrolysis, iii, 434; treated by perineal drainage, xv, 396.
Urethrectomy, partial or complete, as a method for radical treatment of rupture of the urethra, fistula or organic stricture, xvii, 181.
Urethrofemoral fistula, xi, 293.
Urethroperineal fistula, iv, 461.
Urethroplastic operation, iii, 250.
Urethrotomy, drainage after, xiv, 278.
External, iii, 436, viii, 54, xv, 142, 332; after-treatment of, vii, 302.
Internal, after-treatment of vii, 62; internal and external, vi, 32; hemorrhage after, x, 157.
Urethrotomy, perineal, iii, 435, vi, 8.
Preliminary to plastic operations, perineal, ii, 82.
Urethroplasty, xxxvii, 486.
Urethrovesical suture and exstrophy of bladder, vii, 306.
Urine in children, incontinence of, iv, 188.
Differentiation of the, xxx, 330, 644, 661.
Divisor, Cathelin's, efficiency of, xxxvii, 799.
Elimination of mercury by the, vi, 282.
Freezing point of, xxxv, 535, 692, 693.
Indications to be drawn from, as to the safety of anæsthetics, xviii, 439.
Intravesical separation of the two, Luys's instrument for, xli, 81.
Nephrotomy for relief of sudden total suppression of, occurring some time after nephrectomy, xv, 286.
Recurrent intermittent retention of, as result of Bottini operation for prostatic hypertrophy, xlv, 284.
Secretion of, after abdominal section, xxi, 184.
Suppression of, after removal of calculus from kidney, relieved by saline infusions, xxii, 266, 267, 268.
Review of Book: The Urine and Fæces in Diagnosis, by Weil-Jeliffe-Hensel, xlii, 477.
Urinal for continuous drainage after suprapubic cystotomy, xx, 371.
Urinary abscess, ii, 85; from extravasation, i, 373.
Fistulæ, operative treatment of, vii, 58.
Lithiasis, symptoms and signs in, xlv, 584.
Meatus, obstruction of the internal, by folds of mucosa, xlvii, 249.
Tract, female, tuberculosis of, xxxviii, 524; lithiasis, the Röntgen method in, xlii, 864.
Reviews of Books: Diagnosis of Urinary Diseases, by Posner, xxv, 521; Surgery of the Urinary Passages, by Loumeau, xix, 379, 508; Surgical Disorders of the Urinary Organs, by Harrison, vii, 227; Traité des Maladies des Voies Urinaires, pur Desnos et Minet, xlix, 585; Tu-

mors of the Urinary Bladder, by E. Hurry Fenwick, **xxxv**, 551.
Urogenital diaphragm, destroying the, for the relief of prostatic ischuria, **xlii**, 874.
System, congenital unilateral absence of the, **l**, 907.
Tuberculosis in the male, **xx**, 396.
Uterine artery, method for ligating, after laparotomy, **xxv**, 217.
Uterus (see also Cæsarean section, Extra-uterine, Hysterectomy, Laparo-elytrotomy, Laparotomy), actinomycosis of, **xxiii**, 342.
Advantages of removal by abdominal over vaginal route in carcinoma, **xl**, 135.
Amputation of septic, for cure of puerperal disease, **v**, 453.
Appendages of, **iii**, 102; removal of, **v**, 172, **vi**, 41; ultimate results of operations for, **xv**, 220.
Bicornis, extirpation of pregnant horn of a, **iv**, 371.
Bladder, to, cure of fistula from, **viii**, 465.
Cæsarean section on account of a fibroid tumor of the cervix, **iii**, 443.
Cancer (see also Carcinoma), of, operative treatment of, **xxii**, 462; of body of, **iv**, 85; effect of ligation of both internal iliac arteries during hysterectomy for, **xx**, 248; of fundus, **xxix**, 741, 763; prolapsed, of, **xii**, 152; supravaginal amputation of cervix for, **xvii**, 504, 507; results of operations for, **xxiii**, 339; vaginal hysterectomy for, **xvi**, 83, 429.
Cancerous excision by combined abdominal and vaginal dissection, **xix**, 125; partial, **iv**, 367; statistics of, **iv**, 370.
Causes of the normal and pathological positions of the, **xxiii**, 335.
Cornu of, in sac of inguinolabial hernia, **xxi**, 691.
Dilatation in cancer of, **v**, 449.
Diseases of, **xxvii**, 143.
Displacements of, **xlix**, 843; fibroid of, **xlix**, 843; inflammation of, **xlix**, 844; intra-abdominal treatment of, **xi**, 77; shortening round ligaments for, **iv**, 42, 365.
Electrolysis of fibroma of, **viii**, 283.
Extirpation (see also Hysterectomy), amputation and, in cancer of, **ix**, 150; prolapse for, **xvi**, 586, 587; present status of the operation for, **ii**, 486; sacral way, by the, **xvi**, 416, **xviii**, 464; total, for large fibromata, **xvii**, 628; of, per vaginam together with portions of pelvic connective tissue, **xii**, 154; for retained putrefying placenta, **xii**, 152; through perineum, **xii**, 152; vagina, and, **iii**, 177, 357, 359, 444, 532; vaginal, **vi**, 275, **xii**, 314, **xxvi**, 280.
Fibroma of, **xvi**, 74, **xxii**, 268, **xxxvii**, 470.
Fibromyoma of, means of inducing atrophy of, without removal, **xix**, 756; castration for, **iv**, 37; treatment of, **xviii**, 251, 329, 598, **xxvii**, 350; total extirpation for, technic of, **xviii**, 598.
Fixation of, to periosteum of symphisis pubis, **xvii**, 628.
Foreign body in, **xi**, 75.
Gestation, laparotomy for extra-uterine, **ii**, 172.
Hernia of, through the inguinal canal, **xl**, 98, 154.
Hysterectomy for, **xix**, 758.
Indications for total extirpation of, through vagina, **xv**, 153.
Inflammatory deposits about, **vii**, 471.
Inversion of, gradual amputation by ligature, **iv**, 372.
Irreducible chronic inversion of, method for cure, **xvi**, 586.
Myoma of, **xxxi**, 763, **iv**, 305; carcinomatous degeneration of, **xxxiii**, 60, **xlii**, 147; hysterectomy for, **xxviii**, 142; large, **xxxiv**, 431, **xii**, 155.
Necessity for operation for myoma of, **viii**, 71.

Neoplasms of, questions of origin of malignant from non-malignant, **xxiv**, 257.
New-born child, in a, complete prolapse of, **xii**, 152.
Non-infecting chancre of, **vi**, 355.
Pelvic abscess simulating myoma of, **iv**, 455.
Pregnancy without the, **ix**, 151, 472.
Prolapse of, in aged women, radical treatment of, **xxv**, 789; operation for, **xix**, 240; vaginal stricture for, **xxv**, 218; and vagina, operations for, **iii**, 264.
Relative merits of hysterectomy and supravaginal amputation in the treatment of, **xvi**, 588.
Removal of, per vaginam, by morcellement, **xix**, 758.
Retroflexion of, operative treatment of, **xii**, 312; treated by ventrofixation, **xii**, 311.
Retroversion of anterior fixation for relief of, **x**, 234; hysteropexy, for, **xv**, 498; relative merits of, operations for the relief of, **xxv**, 219; vaginal fixation, **xxi**, 227; ventrosuspension for, **xxvii**, 339.
Rupture of laparotomy for, **viii**, 69; successful supravaginal amputation of, for, **xi**, 154.
Sarcoma of, **xvii**, 111, **xxxiii**, 137.
Supravaginal amputation of **ix**, 472.
Torsion of the, **xxxix**, 817.
Tumors of, total ablation of the, for large fibrous and fibrocystic, **xvi**, 474; fibroid, demanding operation, **l**, 287.
Vessels, ligature of, **x**, 376;
Reviews of Books: Adenomyome des Uterus, von Thomas O. Cullen, **xxxviii**, 934; Diseases of Appendages of Uterus, by Blandl, **iii**, 185; Hysteropexy for Uterine Retroversion, by Chrostowski, **xv**, 498; Neoplasms of the Uterus and Vagina, by Guserow, **iii**, 185; Surgery of the Uterus, by Delagénière, **xxix**, 401; Vaginal Hysterectomy for Cancer of the Uterus, by Boldt, **xvi**, 429.
Uvulotomy, hemorrhage after, **iv**, 521.

Laparotomy for perforation of, **viii**, 23.
Perforation of, and perityphlitis, **x**, 78.
Peritonitis and its treatment, **xii**, 372.
Relations of the gross anatomy to some features of the clinical history of appendicitis, **xvii**, 164.
Strangulation of, in femoral ring, **xxxvi**, 938.
Surgery of, **xiv**, 512.
Surgical treatment of peritonitis starting from, **xiii**, 59.
Venous aneurism, arterio-, **iii**, 517.
Angioma, of hand, **xxii**, 393; of foot, **xxii**, 394.
Sinuses of the brain, wounds of the, **xxxiv**, 81, 187.
Thrombosis and hydrocele of the inguinal canal, **xlviii**, 247.
Ventilation, influence of, on the number of floating organisms in the air, **xi**, 216.
Ventral hernia, operation for, **vi**, 169.
Radical cure of, **xliii**, 760.
Silver filigree, closed with, **xxxviii**, 302.
Women, in, treatment of, **xv**, 327.
Ventricles, hydatid cyst of—trephining, **xiv**, 402.
Lateral, case of drainage of, **xvii**, 703; tapping of the, **xix**, 424.
Ventro-aponeurotic, fixation of the round ligaments, **xliv**, 404.
Ventrofixation for uterine retroflexion, **xii**, 311.
Ventrosuspension of uterus for retroflexion, **xxvii**, 339.
Vertebræ (see Scoliosis, Spine), acute osteomyelitis of, **xxxi**, 382.
Acute primary osteomyelitis of the, **xxiii**, 510.
Anomalous spinous process of seventh cervical, **xxxi**, 469, 506.
Cervical, luxation of, **i**, 75, 77.
Dislocation of, **xliv**, 457; fifth cervical, **ii**, 160; in lower cervical region, **xliv**, 641; seven, *en masse*, **ix**, 301.
Exploratory operation on cervical, **iii**, 490.
Fractures of the, **xxxviii**, 388; cervical, **i**, 155; case of, **xxix**, 340; of fifth cervical, **vi**, 156, **xxix**, 636; laminectomy for, **xix**, 661, 664, **xlii**, 776; second cervical, with recovery, **xli**, 472; spinal, **iii**, 98; spinous process of ninth dorsal, **ii**, 65.
Fracture-dislocation of cervical, with cross lesion of cord, **xxviii**, 639.
Primary tuberculosis of laminæ and spines of, **xix**, 597.
Recoveries after fractures of, **ii**, 506.
Resection of, for pressure paralysis from spondylitis, **xxvi**, 405; temporary, **xvi**, 182.
Sarcoma of, **xxxvii**, 103.
Syphilis of, differentiation of, from Pott's disease, **xxix**, 641.
Treatment of, **x**, 220.
Tuberculosis of cervical, cured by trephining, **xxxii**, 607.
Uppermost, injuries of, **xviii**, 239.
Verruca senilis, **xl**, 604.
Vertebral artery, ligature of, **ii**, 89; for epilepsy, **x**, 190; traumatisms and traumatic aneurisms of, **xviii**, 477.
Caries, forcible correction of the angular deformity resulting from, **xxx**, 537.
Vesicæ, ectopia, **iii**, 168, 169.
Vesical calculus (see Bladder, Lithotomy), **vi**, 33.
Chewing-gum nucleus of, **xliv**, 292; and ham-rind as nuclei of, **xliv**, 479.
Containing an opened safety-pin as a nucleus, **xlvii**, 796.
Due to ligatures and bone spicule in the bladder, **xxxiv**, 715, 716.

Female child of four years, in, **xxxiv**, 819.
Large, **xxxiii**, 347.
Latent, **iii**, 92.
Leather shoe-string as nucleus, with, **xxxiii**, 648.
Mulberry, **xli**, 785.
Multiple, **xxxi**, 743; removed by cystotomy, **xxv**, 192.
Not demonstrated by the X-ray, cystotomy for, **xlv**, 765.
Operations for, **ii**, 175, 176, 333, 334.
Partially encysted, **xxi**, 324.
Recurring, **iii**, 172.
Shot as a nucleus, with, **xxxiii**, 647.
Suprapubic route, by the, removal of an eight ounce, **xii**, 125.
Treatment of, **xviii**, 434.
Tumor removed through the urethra, **xii**, 390.
Twig of tree as nucleus, with, **xxxiii**, 648.
Women, in, **vii**, 470.
Vesical growths, diagnosis and treatment of intra-, **vii**, 60.
Vesical space, inflammation of pre-, **v**, 434.
Vesicorectal fistula in the male, operations for, **ii**, 83.
Fistula, operative relief of, **xxix**, 744.
Vesico-urethro-vaginal fistula, **xxxi**, 97.
Vesicovaginal fistula, **ii**, 84; episiocleisis for, **xii**, 310; of exceptional size, **xxiv**, 374; operations for, **x**, 232, 233, **xi**, 463, **xiii**, 128, 222; from within the bladder for relief of, **xx**, 392; statistics of, **iv**, 372; tuberculous, **xii**, 317.
Necrosis for intravesical manipulations, **xxxix**, 822.
Vesiculitis, seminal, relation of, to gonorrhœal rheumatism, **xli**, 903.
Vesiculotomy, seminal, for the cure of gonorrhœal rheumatism, **xli**, 903.
Verwundungen durch die modernen Kreigsfeurwaffen, by Hildebrant (review of), **xliii**, 481.
Vessels, injuries of, in dislocations of the shoulder, **ii**, 369.
Membranes of brain, and treatment of injuries of, **ii**, 21.
Vicious circle after gastro-enterostomy, **xliii**, 770.
VINKE, H. H.: Excision of the hip-joint, **iv**, 51.
VISCHER, CARL V.: New incision for removal of the appendix vermiformis, **xxvi**, 624.
Viscera (see Intestine, Liver, Pancreas), gunshot wounds of abdominal, **v**, 465.
Wounds of abdominal, **iii**, 88, 89, 243, 422.
Vocal cord, cyst of left, **ix**, 143.
Fibroma of, **v**, 144.
Temporary paralysis of, after excision of cervical lymph-nodes, **xlix**, 290.
VOELCKER, DR.: Extirpation of the prostate, **xlvi**, 941.
Volunteer Military Surgeon, **xlix**, 847, 861.
VOLKMANN: Antiseptic methods, **viii**, 291; arthrectomy of knee, **i**, 486; ischæmic paralysis of, and contracture, nerve involvement in, **xlix**, 330; forearm, **xlvii**, 460.
Volvulus, **xlii**, 590.
Associated with hernia, **xxxi**, 405.
Cæcum, of the, **xli**, 63.
Causing intestinal obstruction, **xlix**, 161.
Combined with hernia through a recent mesenteric slit, **xlii**, 207.
Entire mesentery, of, **xxxix**, 1036.
Ileum, of the, **xxxiv**, 316, **xli**, 148.
Intestine, of the, **xli**, 214.
Jejunum, of the, **xli**, 214.
Observations upon, **xxx**, 47, 100.
Omentum, of the, **xl**, 916, **xlii**, 624.
Operative treatment of, **xvi**, 395.
Parovarian cyst, of the, **xl**, 260.
Recurrent, of sigmoid flexure, **xliii**, 444.
Sigmoid flexure, of, mesosigmoiditis, and its relations to recurrent, **xl**, 523; relieved

by abdominal section, **xviii**, 28.
Small intestine, of the, in typhoid fever, **xliv**, 242.
Surgical treatment of, **xi**, 286.
Vomiting, continued, gastro-enterostomy for, **xlix**, 249.
Operative treatment of intractable, **xlvii**, 730, 817.
Postoperative, treatment of, by gastric lavage, **xl**, 194.
Von Eberts, Edmond M.: The surgical treatment of non-resilient diverticula of the bladder, **l**, 883.
Vose, Robert H.: Forcible correction of the angular deformity resulting from spinal caries, **xxxi**, 537.
Vulpius: Intramuscular formation of bone, after trauma, **xxxvi**, 472.
Vulva, diseases of, **xxvii**, 131.
Enterocele of, **iii**, 179.
Papilloma of, in a child, **xxxvii**, 951.
Rectalis obliteratio, case of, **x**, 232.
Vulvovaginal glands, calculi from cysts of, **ii**, 517.

Wight, J. S.: Case of œsophagotomy for removal of impacted foreign body, **xiii**, 100; case of fragilitis ossium, **xviii**, 662; some points on incarcerated hernia, **viii**, 555; ten cases of ankylosis of the elbow-joint after treatment of fracture of the lower end of the humerus with the forearm extended, **xviii**, 218; value of internal medication in treatment of malignant disease, **xvii**, 383.

Wilcox, D. W. G.: A case of nephrorrhaphy for fixation of a floating kidney, **vii**, 192.

Wilcox, S. F.: Bromide of ethyl as an anæsthetic, **xiv**, 294; skin-grafting infected areas, **xxxix**, 776.

Willard, De F.: Amputation through the knee-joint, **xxi**, 725; aneurism of the anterior tibial artery, **xxii**, 392; of the thoracic artery treated by introduction of wire and electricity, **xxxiv**, 143; anomalous spinous process, **xxxi**, 506; anthrax, **xxxv**, 524; bony union of fractured patella without operation, **xxxi**, 639; bradycardia following head injury, **xliii**, 456; case of ruptured gall-bladder, **xxxviii**, 122; cholecystotomy, **xxxi**, 644; chronic duodenal ulcer, **xli**, 786; congenital deficiencies of bones of foot and hand, **xli**, 461; dislocations of the semilunar cartilages of the knee-joint, **xxviii**, 531; double hip ankylosis, **xxxvi**, 287; excision of astragalus for club-foot, **xxix**, 271; gangrenous periproctitis after carbolic injection of piles, **xxviii**, 396; gastro-enterostomy for pancreatic carcinoma, **xxxix**, 609; gunshot wound of forearm, **xxxvii**, 458; hip-joint amputation for tuberculosis of femur, **xxxvii**, 456; hot air in joint diseases, **xxix**, 279; iliac abscesses simulating appendicitis, **xxxv**, 658; infections of the knee-joint, **xliv**, 136; intestinal anastomosis, **xxxv**, 279; intestinal anthrax, **xxxvi**, 452; obstruction after operation for appendicitis, **xi**, 150; suture, **xxxv**, 822; intraperitoneal wounds of the bladder, **xxviii**, 388; laminectomy for

paraplegia the result of tuberculous disease of the spine, **xliii**, 312; liver abscess, **xxxix**, 615; longitudinal fracture of the lower end of tibia, **xxv**, 763; mattress for operating-table electrically heated, **xxvii**, 682; obstetric fractures of the femur, **xxxiii**, 784; operation for relief of ankylosis at hip, **xxxi**, 641; osteoma of tibia, **xxv**, 764; osteomyelitis, **xlii**, 300; osteoplastic operation for spina bifida, **xxxvi**, 451; osteosarcoma of nose and orbit, **xli**, 152; osteotomy, **xxvii**, 789; pathology of osteitis deformans, **xxxix**, 442; plaster of Paris in fractures in children, **xxxiii**, 800; recovery after fracture of cervical vertebræ, **xli**, 473; refracture after repair of fracture patella, **xxxvi**, 146; results of operations for sarcoma of bone, **xxxiv**, 596; rupture of urethra from impacted calculus, **xxi**, 713; sabre-blade deformity, **xliv**, 127; senile atrophy of cranial bones, **xli**, 787; spina bifida, **xxxvii**, 457; with anterior opening, **xxxix**, 612; supplementary report on case of introduction of wire into sac of aortic aneurism, **xxxv**, 128; suture of arteries, **xlii**, 623; tendon transplantation, **xxxvi**, 289; treatment of anthrax, **xlii**, 295; of exstrophy of the bladder, **xli**, 469; of hemorrhoids, **xxxv**, 827; of intracapsular fracture of the femur, **xxiv**, 651; of tetanus, **xxxv**, 521; of thoracic aneurism, **xxxiv**, 311, 316; tubercular conditions of the spine requiring surgical and mechanical relief, **xlii**, 514; tuberculosis of the superficial lymphatic glands, **xxiv**, 669; uranoplasty, **xxv**, 797; urethral stricture, urinary infiltration and acute sepsis—recovery after perineal section, **xliii**, 454; use of fixation plates in treatment of fractures of the leg, **xxxi**, 508; use of iodoform, **xxvii**, 667; the use of silver wire for the cure of large hernia, **xliii**, 547; wiring fractured bones, **xxvii**, 786; wound of the diaphragm and stomach, **xxxiii**, 651; of the venous sinuses of the brain, **xxxiv**, 191; wry-neck, **xxxii**, 793; X-ray in cancer, **xxxvi**, 294.

WILLIAMS, DANIEL H.: Penetrating wounds of the chest, diaphragm, and abdominal viscera, **xl**, 675.

WILLIAMS, HOWARD Y.: Case of cervical rib, **xxviii**, 509.

WILLIAMS, W. B.: Initial seats of neoplasms, and their relative frequency, **xiv**, 257.

WILLIAMS, W. ROGER: Question of the origin of malignant from non-malignant uterine neoplasms, **xxiv**, 357; stenosis of the pylorus in infancy, **xliv**, 121.

Willis, circle of, anomalies in, **xxxviii**, 878.

WILSON, GEORGE F.: Case of superficial bilateral gangrene with asymmetrical lesions, **xxxi**, 609; multiple gunshot wound of the intestine, **xxii**, 379.

WILSON, H. AUGUSTUS: Anomalous spinous process of seventh cervical vertebra, **xxxi**, 468, 506; dislocations of the semilunar cartilages of the knee-joint, **xxviii**, 532; excision of wrist-joint, **xxxii**, 618; fracture dislocation of the atlas without symptoms of spinal cord injury, **xlv**, 632, 634; fracture of the femur in an infant, **xxxiii**, 775; hot air in the treatment of joint-diseases, **xxix**, 155, 279; misapplied support to weak ankles of children, **xxxv**, 284, 358; modified Müller operation for flat-foot, **xliii**, 765; nailing a recent intracapsular fracture of the femur, **xlvii**, 469; obstetric fractures, **xxxiii**, 784; removal of a large loose fragment of bone from knee-joint, **xxxviii**, 124; treatment of pes valgus, **xxvii**, 375; twist drill bone-needle, **xxxvii**, 455.

WILSON, LEWIS T.: Fracture of base of skull, **xliv**, 823.
WILSON, THOMAS: Intermittent cysts of the ovary and kidney, **xxv**, 529.
WILSON W. REYNOLDS: Injuries to femur during childbirth, **xxxiii**, 782.
WINSLOW, KENELM: Approximation of the aponeuroses of the abdominal wall for the prevention and cure of hernia, **xxxix**, 245; symmetrical inflammation of the epiphyseal beak of the tibia, **xli**, 278.
WINSLOW, R.: Cases of gastrostomy for cicatricial stenosis of œsophagus, **xxi**, 543; complete external dislocation at the elbow, **xxxi**, 595; diseases of the hyoid bone, **xlv**, 575; gangrene of the scrotum after removal of enlarged inguinal glands, **iii**, 40; note on the repair of wounds of the ureter, **xxvii**, 46; report of eight cases of penetrating gunshot wounds of the abdomen, **xxviii**, 487; simultaneous distal ligation of right common carotid and right subclavian arteries for supposed innominate aneurism, **xiii**, 336.
Winslow, foramen of, strangulated internal hernia into, **iv**, 442.
WINTER: German statistics in prognosis and treatment of extra-uterine pregnancy, **xv**, 502; supravaginal amputation of the cervix uteri for carcinoma, **xv**, 501.
WINTSCH, CARL HERMAN: Congenital protrusion of heart, stomach, and spleen—case of celosoma, **xliv**, 290.
Wire for aneurism, introduction of, **iv**, 47, 163; filigree, hernioplasty, suture for, **xli**, 945.
Wiring bones, **ii**, 501.
Witzel's method of gastrostomy, **xix**, 238, **xviii**, 555, 638, **xxi**, 177.
WLADIMIROF-MIKULICZ: Osteoplastic resection of foot, **v**, 161, 533, **viii**, 156, 296. **ix**, 234.
WOLF, CHARLES L.: Delayed chloroform poisoning, **xlix**, 423; functional pathogenesis of deformities, **xxvi**, 136; method of skin transplantation, **x**, 260; use of Wolf grafts and tendon lengthening in treating cicatricial contractures, **xliii**, 278, 304.
WOLF, HERMAN E.: Primary urethral calculus, **xli**, 242.
WÖLFLER: Surgery of the intestine and stomach, **xxv**, 640; surgical treatment of goitre, **xv**, 39, **xvi**, 156, 256.
Women (See Gynæcology, Obstetrics).
Review of Books: Diagnosis of Diseases of Women, by Palmer Findley, **xxxviii**, 933; Diagnosis and Treatment of Diseases of Women, by Harry S. Crossen, **xlviii**, 950; Diseases of Women, by Thomas Mundé, **xv**, 157; Diseases of Women, by Sutton and Giles, **xxvi**, 653; Malformations of the Genital Organs of Women, by Debierre, **xlii**, 964; Manual of Diseases of Women, by Davenport, **xxxvi**, 160; Text-book of the Diseases of Women, by Garrigues, **xx**, 382; Text-book of Diseases of Women, by Penrose, **xxvi**, 653; Text-book of Diseases of Women, by Webster, **xlvi**, 164.
WOOD, ALFRED C.: Transmesenteric hernia of the appendix vermiformis, **xlii**, 262; appendicular femoral hernia, **xliii**, 669; diagnosis and treatment of surgical affections of the kidneys, **xxv**, 1; esophagotomy for impacted coin, **xlvii**, 297; excision of multiple gouty deposits, **xxv**, 633; giant-cell sarcoma of forearm, **xlix**, 101; operative treatment of acute cholecystitis, **xxx**, 350; osteoplastic resection of the skull, with description of a modification of Stelwagon's instrument for performing this operation, **xlvii**, 645, 832; removal of loose cartilage from the knee-

joint, xxiii, 204; of myxofibroma of neck, xxv, 638; results of castration and vasectomy for prostatic hypertrophy, xxxii, 309; sigmoid diverticulitis in a child, xlvii, 304; specimen of gastro-enterostomy for stomach carcinoma, xl, 285.

Wood, Francis: Uretero-ureteral anastomosis, xxix, 593; the mixed tumors of the salivary glands, xxxix, 57, 207.

Wood, George B.: Amputation of the breast by Kocher's method, xxvii, 213.

Wood, Walter C.: The treatment of flat-foot, xvi, 401.

Woodward, S. B.: Cases of nephrectomy, xxi, 568.

Wood-wool dressings for wounds, i, 71.

Woolsey, George: Abscess of liver after appendicitis, xlix, 857; acute perforation of gastric ulcer, xlix, 858; acute diverticulitis of the sigmoid, with intra-abdominal abscesses, xlvi, 150; acute intestinal obstruction from strangulation of Meckel's diverticulum, xlvi, 312; acute pancreatitis, cholelithiasis, xliii, 144; advisability of early operation in intracranial hemorrhage of traumatic origin, xliv, 451; aneurism of the aorta and subclavian, xxxii, 452; anomalies of kidney and uterer, xlv, 125; balsam of Peru as therapeutic agent in the treatment of wounds, xlvi, 924; bullet wound of brain, xlix, 861; cancer of the mammæ in males, xix, 87; carcinoma of the breast at sixteen, xlvi, 144; of the male breast, xxxi, 742; of the pancreas, xxvii, 371; of splenic flexure of the colon, xlvi, 151; of the stomach, xliii, 928; cerebral contusion, xliii, 939; Charcot's disease of the tarsal joints, xliv, 120; cholecystectomy, xxxix, 272; complete extirpation of bladder for carcinoma, xxxviii, 445; considerations on abdominal incision, xxvii, 1; critical review of recent series of operations upon the stomach, xlv, 763; cystic sarcoma of the kidney in an infant, xlvi, 161; cystotomy for large vesical calculus not demonstrated by the X-ray, xlv, 766; diagnosis of abscess of the liver, xxxiv, 185; treatment, and, acute pancreatitis, xxxviii, 603, 726; of typhoid perforation, xliii, 941; dorsal meningocele, xlvi, 140; endothelial tumors of the neck, xl, 270; enterorrhaphy for gunshot wound of intestines, xxiii, 423, 440; excision of the rectum for carcinoma, xlvii, 286; of tubercular cervical lymph-nodes, xxix, 614; fibroma and cyst of brain, xxxvii, 276; fracture of the fifth metatarsal bone, xlvi, 475; gastro-enterostomy for benign stenosis of pylorus, xxxvii, 940; gunshot wound of abdomen, xxxiii, 476; hemorrhage from the spleen, xlii, 471; incision for exposure of gall-bladder, xxix, 759; intestinal obstruction following appendicitis, xxxiv, 708; intussusception, xlvi, 314; kidney tuberculosis, xxxv, 418; large branched calculus in each kidney, xlv, 767; late suppuration after injuries of the skull, xxxviii, 117; Littre's hernia, xxxvii, 937; malpositions of the appendix, xlii, 473; massage in the treatment of recent peri-articular fractures, xxxii, 351, 604; Meckel's diverticulum filled with seeds, xliii, 764; method of drainage of the ankle-joint, xliv, 619; multiple septic infarcts of the right kidney—nephrectomy, xliv, 622; symmetrical lipoma, xlv, 141; nephrectomy for abscess, xxiii, 292; observations on the diagnosis and treatment of typhoid perforation, xliii, 652; observations on renal and ureteral calculi, xlix, 670, 718; operation for epithelioma

of the heel, **xliii**, 610; for harelip and cleft palate, **xxxix**, 283; for hypospadias, **xxxix**, 1008; operations for neoplasms of the tongue, **xlv**, 630; for typhoid perforation, **xxxvii**, 287; operative treatment for acute abscess of the lung, **xlvi**, 474; treatment of cleft palate, **xliii**, 136; pancreatitis, **xlv**, 961; perineal prostatectomy, **xliv**, 618; perforating typhoid ulcer, **xxxi**, 764; in the stomach, **xlv**, 773; pin in the abdominal cavity, **xxxvii**, 949; pneumococcus peritonitis, **l**, 636; postoperative comfort, **xliv**, 116; postpuerperal psoitis, **xxix**, 143; preliminary colostomy in operations for carcinoma of the rectum, **xlii**, 278; primary typhlitis without appendicitis, **xlv**, 965; prostatectomy, 739, **xxxv**, 409; recovery from pistolshot wounds of intestine and stomach, **xxx**, 217; recurrent endothelioma of the parotid gland, **xxxviii**, 111; remarks on surgery of the kidney, **xxix**, 261; removal of cervical lymphomata, **xxix**, 355; renal calculi, **xliv**, 117; resection of intestine followed by end-to-end anastomosis, **xliii**, 149; rubber catheter in peritoneal cavity, **xxxviii**, 446; rupture of anterior tibial artery in simple fracture of tibia and fibula, **xxv**, 629; rupture of brachial plexus, **xxxix**, 1013; sarcoma about humerus, **xxxix**, 997; treated by means of mixed toxins, **xliii**, 612; sclerosis of the brain cortex, **xxxvii**, 274; secondary abscess following appendectomy for gangrenous appendicitis, **xliii**, 924; simple fracture of the carpal scaphoid, **xlvii**, 131; status of a case four months after right nephrostomy, **xlv**, 460; stenosis of the pylorus in infancy, **xliv**, 121; sterilization of knives, **xxxiii**, 640; stone in the ureter, **xlv**, 768; stricture of the œsophagus treated by the string-saw method, **xxxi**, 243; suppurative nephritis; resection of both poles of the kidney, **xliii**, 919; the surgery of peritoneal tuberculosis, **xlvi**, 147; surgical affection of the kidneys, **xlvii**, 1059; procedure in cases of neurofibroma of the acoustic nerve, **xl**, 303; technic of operations for the radical cure of hernia, **xxv**, 627; thiosinamin in the treatment of keloids, **xxxiv**, 708; thrombosis of mesenteric artery, **xxxviii**, 111; thyroglossal cyst, **l**, 481; traumatic epilepsy, **xlvii**, 618; treatment of cicatricial stricture of the œsophagus by retrograde dilatation, **xxi**, 253, 306; of injuries of the spinal cord, **xxx**, 334; of false ankylosis by galvanic current, **xxix**, 627; of fracture of the patella, **xxviii**, 262; of fractured patella, **xxxiii**, 196; of fractures of the spine, **xxv**, 103; of paralytic talipes calcaneus by astragalectomy and backward displacement of the foot, **xlvii**, 291; of renal tuberculosis, **xxvii**, 85; of rupture of spine and cord injury, **xxi**, 484; of stricture of the œsophagus, **xxxviii**, 105; trephine openings in the skull closed by gold-foil, **xxv**, 630; tumors of the parotid, **xxxi**, 732; typhoid, with double perforation of the ileum and perforation of the gall-bladder, **xlv**, 141; typhoid perforation of the ileum, **xliii**, 446; tuberculosis of testicle, **xli**, 782; two cases of interscapulothoracic amputation, **xxxix**, 997; ulceration of innominate vein from pressure of tracheal canula, **xlv**, 963; undescended testis, **xxxiv**, 296; use of celluloid plate after trephining, **xxviii**, 133; use of gloves in operative surgery, **xxviii**, 136; ventral hernia, **xxxix**, 1005; after operations for appendicitis, **xxix**, 626; wounds of the liver,

xli, 141; wrist injuries, results of X-ray examinations in cases of, xl, 284.
Wounds (see Digital, Drain, Gunshot, Stab).
Abdomen of, i, 184, iv, 240, 344, 468, 475, 528; gunshot, ii, 420, 422; spine and, healed gunshot, iv, 447 (see Abdomen, wounds of).
Abdominal, ideal dressing for, xv, 496; organs, parenchymatous, of, vi, 432.
Abundant secretions, with, treated by sterilized sponge, xiii, 130.
Accidental healing under moist blood-clot, xvii, 276.
